The enrollment in four year Courses for the fall term of each of the past five years was as follows: 1895, 220; '96, 252; '97, 382; '98, 441; '99, 550. Attendance has almost trebled in four years.

Winter term begins Tuesday, January 2.

Special winter Courses in Dairying, Stock Husbandry, Fruit Culture, Winter Vegetable Growing, begin January 2.
Fine herds of cattle, sheep, and swine; orchards, gardens, museums, shops, etc., furnish ample illustrative material.

Special Course in Cheesemaking begins February 9, and will continue four weeks.

There are ten separate laboratories, 54 college buildings, and a corps of 47 professors and assistants.

The College offers three four-year Courses: The Agricultural, The Mechanical. The Women's all include general culture studies; all require manual training; all are practical; all lead to the B. S. degree.

The principle of education at this College is: "To learn to see by seeing; to learn to do by doing."
Winter term ends March 23.
Machine shops, wood shops, foundry, blacksmith shop. Thorough training in mathematics, drafting and mechanical engineering. The mechanical course is practically equivalent to that given in the large universities and technical schools of the country.
The annual income of the College from the U. S. Government is about $95,000. The last Legislature granted the College $95,000 for a women's building, $25,000 for a dairy building, and $4,000 for a farm barn.
**Spring term begins April 2.**

Fine collection in Zoology and Entomology of over 100,000 specimens. Botanical Garden with 1,900 different species of plants. Botanical building with a collection of 70,000 specimens. Splendidly equipped Chemical and Physical Laboratories.
Special sugar beet Course given during this month.

671 acres in the entire farm: of this about 60 acres are beautifully laid out, and show the best skill of the landscape gardener, forming a veritable park—undoubtedly the finest college campus in the West.
Intercollegiate Field Day, first week in June.
Military drill is required of all male students; all women students have drill in calisthenics.
Send for Catalog.

"We have schools to teach the art of manslaying and to make masters of 'deep-throated engines of war'; and shall we not have schools to teach men the way to feed, clothe and enlighten the great brotherhood of man?"
—Justin S. Morrill.
The moral influences surrounding students are wholesome and adequate. Chapel exercises every morning and preaching every Sunday. The Y. M. C. A. and Y. W. C. A. are active and earnest. Lassing churches are easily accessible. No student can remain who is not a gentleman or a lady in the highest sense of these terms.
Excursions to the College during the week beginning Monday, August 13. Trains will land you on the campus without change of cars. Plan to visit the College at this time.

6,000 people visited the College during excursion week last year.

An electric car line runs from Lansing to the center of the grounds. Cars every half hour.

New railroad from D. G. R. & W. and Grand Trunk to campus.

The College has its own Water System and Electric Lighting Plant.
Fall term begins September 10.

"It will not be doubted that with reference to either individual or national welfare, agriculture is of primary importance. Institutions for promoting it grow up supported by the public purse, and to what object can it be dedicated with greater propriety?"

—George Washington.
The Women's Course gives, in addition to other studies, a thorough training in English, mathematics, history, literature, French, German, botany, chemistry, bacteriology, natural philosophy, civics, domestic economy, cooking, sewing, floriculture, art, music. Free instruction on the piano to young women taking the regular course.

"The general object in teaching domestic economy is always understood to be the betterment of homes." —Mrs. Nellie Kedzie.

"Let those things that have to be done be learned by doing them." —Comenius.
The library of 21,000 volumes, and the reading room, containing the leading magazines of the country and nearly all the newspapers of the State, are accessible to students from 8:00 a.m. until 9:00 p.m.

The oldest Agricultural College in the United States. Opened 1857. Now has equipment worth over Half a Million Dollars.
Fall term closes December 14 for holiday vacation. Many students find opportunity for remunerative work. The necessary expenses are very low. There is no tuition. Room rent and board can be secured on very moderate terms. Experiment Station bulletins sent free on request to any address in the State.
