Publishers • East Lansing
Vol. XXVIII • June 11, 1923, • No. 33

Remember to get a certificate from the ticket agent when you buy your ticket to Lansing. There is no distance too short to save you money on the return trip.
Register when you arrive on the campus at the alumni office, 3 Faculty Row.
The M. A. C. RECORD

Established 1896

Published for the alumni and former students of the Michigan Agricultural College by the M. A. C. Association.

Published weekly during the college year and monthly during July, August and September; thirty-five issues annually.

Membership in the M. A. C. association, including subscription to The Record, $2.50 per year.

Unless members request a discontinuance before the expiration of their memberships it will be assumed a renewal is desired.

Checks, drafts and money orders should be made payable to the M. A. C. Association.

Entered as second class matter at the post office at East Lansing, Mich.

ROBERT J. McCARTHY, '14, editor

Have You Paid
Your Debt to
M. A. C.?

You know your education cost the state twice as much as it cost you.

As a business or professional man or ordinary citizen this must make it clear in your mind that you are under a moral obligation to make a return on this investment.

HERE IS ONE WAY

Do your share to help build the UNION MEMORIAL building.
It will be an imposing structure of great utility.
It will be an attraction to desirable students.
It will serve students, faculty and visitors and, to consider it from a selfish viewpoint, it will provide you with a campus home, a place to meet your friends, a clubhouse where you will be always welcome and where you can enjoy true M. A. C. hospitality.
R. S. Shaw, dean of agriculture and director of the experiment station, who has been selected by the State Board to handle the affairs of M. A. C. until a new president is chosen. He acted in the same capacity during the interim between David Friday's appointment and arrival.
CLASS OF '17 PRINTS
BIGGEST NEWSLETTER

The 1917 Newsletter for 1923 has been put into the mails and all members of the class will receive a copy when the post office decides they should be delivered. The Newsletter this year is the most pretentious any class has attempted. It fills sixteen pages with a cartoon by Pinckney as a frontispiece. Two-thirds of the class is represented in the personal notes which occupy a large part of the booklet. Part of the diary of Josephine Carver Hedges describing her trip to China and back is one of the features of the letter.

Lou Butler and G. O. Stewart were instrumental in preparing the material for the '17 Newsletter and they were assisted by a number from the ranks of the class who make their homes in or near East Lansing. A perfected list of '17 addresses was gathered from alumni office files and the information given on return cards so that the class now has the most extensive biographical material relative to its members. It is the most complete of any obtainable in regard to the more recent classes.

In publishing this newsletter the class of '17 has gone far ahead of any other classes of the past twenty years in organizing its alumni. It is a creditable piece of work from any viewpoint and merits copying.

ALUMNI IN SEATTLE
MEET WITH FRAIZERS

The Seattle, Wash., M. A. C. association met at the home of Major and Mrs. W. D. Frazier, '09, on May 2. Besides Major and Mrs. Frazier the following attended: Dr. and Mrs. R. J. McCurdy, '16, Mr. and Mrs. John Dunford, Lucille Fleming, '03, Emma Barrett, '03, Mary A. Smith, '03, F. D. Pinkletter, '00. The next meeting will be held at the home of Dr. and Mrs. R. J. McCurdy and will be in the nature of a farewell party for Major and Mrs. Frazier before they depart for the east.

Mary A. Smith, Sec'y.

The Holcad is entering the class of regular newspapers. In the fall delivery will be made to subscriber by carrier instead of through the post office.

DETROIT CLUB TROPHY TAKEN BY PLAINWELL

Coldwater high school athletes took first place in the class "B" meet on College Field June 1 and 2 and Plainwell took the honors in the class "C" events. Good time was recorded in several of the dashes. One of the features of the meet was that on several occasions the smaller schools chalked up better records than the larger ones. Allegan made a strong bid for first place in class "C" but lost through inability to win in the field competition. Plainwell maintained a lead throughout the class "C" program, placing in all but one event.

The Detroit Club cup went to Coldwater and the new trophy offered by the graduates resident in the metropolis was carried off by Plainwell in its first bid for permanent possession of the class "C" trophy.

A large number of high school boys were entered and the crowded condition of the course indicated the wisdom of Coach Barron in putting off the class "A" meet until June 8 and 9.

POWELLS TO RETURN TO WORK IN CHINA

Ralph W. Powell, '11, who has just completed his year's leave from teaching work in China and is about to return for another six years, announces that he and Maud Nason Powell, '13, will be present for the Alumni Day activities.

During the past winter Powell has been doing engineering work for the city planning commission in New Haven, Conn., and Mrs. Powell has been studying physiological chemistry at Yale. Both attended Yale before taking up their foreign work and will return to their posts in China this summer.

The Soph Prom held in the gymnasium on June 1 was a brilliant affair, rivalling the J-Hop in expensive decorations, programs and orchestra. The success of such an occasion is usually measured by the amount of money it cost but the class of 1925 lowered the overhead by supplying all of the labor for decorating the gym and those who attended report a most enjoyable time.
In planning the president's reception as part of the commencement week activities the committee had failed to take cognizance of the change to a week-end commencement this year and had thus not planned the reception until recently when it was decided that this event would be held in connection with the alumni dance on the evening of Alumni Day, June 16. The gymnasium will be taken over for the affair and the alumni dance will be a part of the informal reception to Acting President and Mrs. Shaw. Through this arrangement the committee hopes to give every former student an opportunity to visit with the head of the college.

This will be the crowning event of a day full of activities for the returning alumni. Lest there be some confusion regarding the extent of the program which has been prepared a brief resume is appended below for those who receive THE RECORD early enough to provide them with this information.

Any time you arrive: go first to the alumni office at 3 Faculty Row, opposite the gymnasium, register and receive a badge of the day. Here you will also deposit the certificate you have obtained from the railroad office where you purchased your ticket so that it may be indorsed and validate the lower rate authorized for the occasion on your way home.

10:30 Saturday morning: sod will be broken for the Union Memorial building. The Swartz Creek band will furnish music and entertainment throughout the day.

12 noon Saturday: Alumni luncheon in the gymnasium. Election of officers, proposals to change the constitution of the association in regard to the election of officers.

3:30 Saturday afternoon: Baseball game at College Field. Alumni vs. Varsity. All of the stars of recent days will get into action against Coach Walker's team.

8:00 Saturday evening: President's reception and dance, informal, in the gymnasium.

Then there are the regular commencement programs which follow during the succeeding two days. Baccalaureate on Sunday, June 17, W. Roscoe Kedzie, '09, speaker. Commencement Monday, June 18, Dr. J. W. Laird, speaker. Mary Allen, '09, will be the soloist on the program.

Now this is not all that is offered to returning graduates for the week. All of the societies are preparing to entertain their alumni at various social functions. There will be a most unusual water festival on the Red Cedar on the evening of June 15. Cap Night is scheduled for June 13 and the senior play, "Hamlet" will hold forth in the Forest of Arden on the evening of June 14. There are other attractions without number which will come to your attention but which do not affect the general groups of alumni. Come and see the new buildings, the start on the stadium and Union building and the alumni office, which deserves your inspection, if it is only to see the painting of College Hall which has been hung in the reception room.

RECOMMEND STEEL STADIUM FOR M. A. C.

Floyd A. Nagler, '14, who is a member of the faculty of the engineering department at the University of Iowa, recommends a steel stadium for M. A. C. The structure which has been erected at Iowa was designed by B. J. Lambert, also a member of the engineering faculty. Nagler writes:

"Would recommend steel construction for that new M. A. C. stadium. Iowa is just completing such a stadium and it looks just as good, as concrete, if not better and will prove just as serviceable, I think. The stadium here is costing only $6.00 per seat, and one can hardly begin to construct of concrete for twice that figure."

G. E. ("Carp") Julian, '15, also advises the use of steel so that the field may be moved if necessary. He also remarks on the comparative economy worked through the use of fabricated stands. He proposes the use of College Field until enough funds are available to erect the proposed stadium, replacing the old wooden stands with steel and erecting temporary steel stands on the east side of the field, moving them back during the baseball season.

Fessenden, Herdell and Weamer were sent to the conference track meet at Ann Arbor June 1 and 2 but failed to place.
HORSE SHOW DRAWS CROWD TO COLLEGE

The first college horse show, which was conducted by the military department on May 30, was so signally successful that it is considered a fixture on the program for next year. Several thousand people filled the temporary bleachers on the cavalry drill field east of College Field and ranged along side the show ring in automobiles and chairs when the first event was started. The attendance was great enough to insure a net return of more than $1,200 which will be used to finance the affairs of the M. A. C. Polo association and aid in purchasing college uniforms for the band.

Prizes with an aggregate value of $500 were offered the contestants entered in the 14 events and there was keen competition in several classes. Adding to the general success of the day the weather was fair and warm enough to supply the atmosphere for such an occasion.

In the open jump Cadet L. W. Hornkohl, '24, Filer City, took first place over Col. Sherburne, Captain Chase and Captain Wyant. There was a large number of entries and it was necessary for the judges to send the first four over the hurdles the second time before they made their final decision. M. A. Tyrrell, '24, Detroit, placed first in the cadet officers' jump. Col. Sherburne's thoroughbred charger, ridden by Captain Wyant, took first in the charger class.

In the gentleman's riding class first place was awarded to the entry of Charles N. Halsted of Lansing. Dean Kedzie's "Chimes" placed third in this event. Mrs. F. S. Kedzie, riding "Duchess Peaving," was awarded first in the ladies' riding class.

Roman riding by a member of the R. O. T. C. cavalry unit, an exhibition drill by the M. A. C. troop, a feature race between Shetland ponies, a parade of prize winning stock from the college farm and numbers by the band during intermissions between events kept the crowd entertained.

The show was generously patronized by horsemen from Lansing and surrounding cities and all prizes were donated by various organizations and individuals interested in the welfare of the show and the college.

John Owen, Detroit; W. R. Harris, resident manager of the Grosse Pointe Hunt Club; and Major W. S. Sturgill, Chicago, were the judges. Mr. Harris announced after the show that he would present a cup for the competition in the open jump class in the 1924 show.

APPLIED SCIENCE HAS FIRST CLASS OF GRADS

In its first contribution to the ranks of M. A. C. alumni the applied science division will be represented by three graduates when diplomas are presented on June 18. A total of 259 will receive the degree of bachelor of science. In the agricultural division 88 will be graduated; forestry has 17; engineering, 84; veterinary science, six; home economics, 61; applied science, three. Under the direction of Dean Kedzie the new division has taken on a relatively large number of students who wished to specialize in a subject authorized as a major in the division or those who wished a general education in science.

Engineering keeps close to the figures for general agriculture and the co-eds are well represented in the aggregate sum of graduates. The agricultural division shows a healthy tendency in the face of returns from other colleges which indicate a decline in interest in the scientific end of food production.

NINE TRACK MEN GIVEN SWEATERS

Varsity track monograms have been awarded to Captain H. S. Atkins, '24, Clarkston; C. W. Fessenden, '23, Newaygo; P. J. Hartsuch, '24, Kendallville, Ind.; L. C. Surato, '25, Lansing; L. S. Klaase, '25, Grand Rapids; K. L. Baguley, '24, Tawas City; Mark Herdell, '25, Argyle; R. E. Warner, '24, Detroit; P. E. Weaver, '23, Akron, Ohio.

Atkins is a high jumper and hurdler, Herdell is a sprinter and hurdler, Warner pole vaults, Fessenden throws the discus and the shot. Surato heaves the shot and Weaver throws the javelin. Hartsuch and Klaase are half-milers, and Baguley is a miler and a two-miler. A. B. Cook, '23, Owosso, receives a manager monogram.

Those awarded reserve monograms are: Brady, Willard, Preston, Van Arman, Rapson, Hollerbach, Clark, Shannon, Lovejoy, Burris, Park, Killoran, and Pollock.

The annual meeting of the Sororian alumnae will be held Saturday afternoon immediately after the M. A. C. association luncheon at the home of Mrs. Merritt Reeves, Park Lane, East Lansing. There will be election of officers, and a tea will be held for both active and alumnae members of the society.
In putting out a printed news letter the class of 1917 is continuing to carry out its policy of keeping its members joined together in an unusually strong group. M. A. C. needs more such groups among its younger classes.

A horse show is peculiarly appropriate at a college where major attention is given to problems of the live stock industry and the general farm. It is educational and attractive and savors of much of the essence of true sportsmanship. The first of these at M. A. C. was distinctly a success. It is a commendable undertaking.

A baseball team which performed as well as the 1923 nine deserves a place in the hall of fame of M. A. C. athletics. The defeat of Notre Dame, Valparaiso, St. Victor’s and Chicago stamp Coach Walker’s nine as the best the Green and White has boasted in many years. Generally poor fielding was counteracted by heavy hitting and close application to the art of base-running coupled with some excellent pitching. Winning close games in the last inning was a well-worked specialty. Captain Kuhn’s 1923 machine was a credit to the college; it had those most desirable qualities, high morale and a never-failing determination to win.

As the college year draws to a close it is well to take stock so that our resources are known and the trend of business may be checked up in preparation for another year. In discussing the resources of The Record the outstanding feature, which is also its best marketable asset, is the friends it has. There are two ways in which to increase the circulation and prominence of a periodical. One is to build up a wide circle of friends and the other is to line up the largest number of enemies possible. Both will contribute to the financial success of the venture for one will purchase the publication because he enjoys it and the other will do so because he is looking for the flaws.

The policy first designated is the principal upon which The Record is and always has been conducted. That is its mission. Through making friends with all alumni and former students of M. A. C. it can draw them into a closer relationship, in fact its only raison d’etre is to serve these people for they are its owners. There is no room for calumny within its columns; its pages are kept clean from aspersions and tradenements. At least that is its ideal to serve fairly and justly all of the M. A. C. family to help the college and bring about the ends sought by the graduate body. So far as its has done these things it has been a success.

The cure for the weakness of The Record lies with its readers. They can make its policies strong and constructive or faltering and destructive as they express their wishes. Criticism is the stimulant which urges it to greater heights, praise helps but it lacks the impetus which carries home the shots of the kicker.

In worldly goods The Record can never prosper under its present system of publication but in forming friendships or increasing the strength of binding ties it can attain to greater goods of accomplishment than those measured in money. Apparently it stands well today but not as well as it should to perform the tasks for which it was created. Our ledger shows too small a balance in this respect. How can we remedy it?
A class of co-eds is preparing a special series of dances for the water festival on June 15. These will be given on a raft to be built on the Red Cedar near Farm Lane bridge.

The coast artillery unit proved its superiority over all other branches of the cadet corps when it won the annual field day events June 4. By this feat the gunners retain possession of the guidon for another year.

Miss Edith Butler of the art department has completed a bust of William H. Taylor, '23, which Dean Bissell cast in plaster and which has been painted to represent bronze. It is on exhibition in the art department.

Students from Flint have formed an association to foster interest in M. A. C. among the high school pupils of their home city. One of the first acts of this organization was to entertain prospective M. A. C. freshmen at a picnic at the college.

Initiates of Pi Kappa Delta, honorary forensic fraternity, contributed their ideas on the subject “Resolved, that co-eds are justified in smoking on the campus” as an indication of their capabilities. F. M. Johnson, '23, E. R. Bristol, '24, and V. O. Braun, '24, took part in the discussion.

The Sororian alumnae of Detroit enjoyed a dinner at the Cadillac hotel on Friday, May 25, with 15 Sororians present. The next meeting was scheduled for June 9 at Plymouth, where the members were to be the guests of Lucille Hawkins Barrows.

Eunice Lamb, Sec'y.

The sassafras tree near the post office which has been the object of pilgrimages of elementary forestry classes ever since the course was inaugurated has almost reached the end of its existence. Concrete sidewalks and a hard roadway have worked hardships on this landmark, preventing it from getting its full supply of water.

Judge C. B. Collingwood, '85, and Tom Gunson will take part in the Cap Night program in Sleepy Hollow on the evening of June 13. The time-honored custom of burning brown caps will be indulged in by the class of '26 and seniors will add their books to the flames. Fireworks have been a feature of this celebration during the past few years.

The commencement issue of The Record will be ready July 15. It is planned that this will be the biggest issue of the year. Special illustrations showing some of the main events of Alumni Day and the commencement activities will be a feature of this number and a full report of all events will be printed. A few extra copies will be available at 15 cents each and at least 5000 will be printed for general distribution in accordance with the policy of The Record to visit each graduate and former student of M. A. C. at least twice each year.

Benjamin Halstead, '24, Petoskey, was awarded the Lawson prize for his essay on “The Offer of the College.” This award carries a cash compensation of $25. Halstead, with F. W. Henshaw, '23, was awarded first place in the Bregger-Friday economics essay contest which gave him a cash prize of $75. Halstead's essay in the Lawson contest will be published in the commencement number of The Record in accordance with the practice in connection with this event.

NEW VETERINARY DEAN

Ward Giltner, D. V. M.
OVERTIME GAME TAKEN FROM YPSI.

Wenner Allows Teachers to Take Lead but Kuhn’s Pitching and Heavy of Green and White Capture Honors for Walker’s Men.

Coach Walker’s fighting baseball team with Captain Kuhn in the lead took the measure of the Ypsilanti Normal nine on the home grounds of the latter team on Memorial Day, 12 to 8, after the lead had changed hands several times and the teams had battled through fourteen innings. Wenner began the pitching for M. A. C. but made his exit at the end of the fourth inning after the Teachers had tallied enough runs to have the count 6 to 5 in their favor. Kuhn replaced him in the box, striking out ten men in the eight innings he worked and allowing five hits. “Bub” was a bit wild in throwing to the bases but held the home team safe after the seventh while his helpers amassed a total of five runs off the delivery of two Ypsi pitchers.

Brady, McMillan, Johnson, Kuhn and Beckley collected 11 of the 13 safe hits registered by M. A. C. Sepanek added a fielding feature to the contest in the eleventh, going back of second base for a hard hit liner which he grabbed with his right hand and doubled a runner at second.

M. A. C. started the scoring in the first, sending three runs across the plate before the dust settled. Ypsi came back with two in its half and then Coach Walker’s men raised the ante two in the second. Ypsi was content to let matters rest in the second but a succession of hits and errors gave the normalites four tallies in the third. Wenner weathered the fourth and then retired in favor of Kuhn.

The Green and White boosted its total to seven in the fifth and Ypsi tied it in the same inning, taking a one-run margin in the seventh. Johnson singled to start the ninth and Stephens was hit by a pitched ball. Ypsi changed pitchers. The new hurler hit Beckley and Sepanek drove in the tying run with a single.

Both teams threatened through the eleventh and in the first half of the twelfth M. A. C. counted four times before the Ypsi pitcher braced enough to stop Walker’s mailers. That was enough to win the game with a generous margin to spare for the home team was retired easily in its half of the final session.

Justus Rising, who has been for some time an instructor in the department of drawing and design, leaves at the end of this year to become head of the department of drawing and design at Purdue university where he will have the title of assistant professor of practical mechanics.
Turner Compiles News of 1881

Letter Prepares Way for Reunion in 1925—Thirteen Missing from List of Graduates—Many Reply to Inquiries From Class Secretary

A. B. Turner, secretary of the class of '81, is beginning to get his classmates interested in the next reunion, which is scheduled for 1925. He asserts that '81 will have the largest proportion of its graduates in attendance at that time. His letter follows:

News of the Class of 1881.

May 22, 1923.

We graduated thirty-three members. THE RECORD list shows addresses of twenty still living and three whose welfare is unknown. These are Bicknell, Holmes, and Cal White. Ten have passed to their rewards and have left records of noble lives and faithful service for their fellow men. We are thankful for their worthy deeds but we miss them sadly. This is especially true of W. I. Lillie as Walt’s hearty greeting and friendly voice was one we loved at our reunions.

We will not name those who have not replied to our letter as they will be conspicuous by the absence of their names.

Herbert Bamber, Highland, Michigan, is an old bachelor-farmer, very much interested in watching the world wag. We think he has missed a great deal by not marrying and raising a family of his own, but others inform us that Herbert has not overlooked other people's children.

C. R. Dart, Wilmette, Ill., is a consulting engineer very much interested in radio sets. He has no children and says “Widower 1-8-23.” He has our sincere sympathy. We well remember Mrs. Dart as she accompanied Carl to our reunions and were convinced that the man who could win such a wife is a success in the best things in life.

D. S. Lincoln, Big Rapids, Mich., is a gardener and raises flowers in the greenhouse and out of doors; also fruits. He is married, has two children and two grandchildren. Dan still gives all the credit to others but we know that wherever he is interested there is good work being done.

E. C. McKee, R. R. 11, Box 27A, Glendale, California, had been confined to his bed for
five weeks on May 14th. Mrs. McKee replied for him. Mrs. McKee was Miss Jessie Lay­line and lived near Okemos. They were blessed with three children but two were taken away. One daughter entered M. A. C. in 1903; she now lives in Los Angeles and has four children. Mrs. Mack says “Some grandchildren, we think.” Mack was growing oranges and lemons when he suffered a nervous breakdown and has been in poor health since. He sends his kindest regards to the members of the class of ’81. We very much appreciate Mrs. McKee’s kindness in writing and hope each member of the class will send Mack a word of cheer.

Big Mack (Chas. McKenny) is president of Michigan State Normal College, Ypsilanti, Mich. He is married and has two sons and one daughter. The older son is the father of a “bouncing Chas. Third,” and the second son has two fine boys. The daughter is a senior in high school. Mack says “I am still in proper condition in both mind and body. Life is worth living and I am living it. Tell the old boys I am glad I belonged to ’81.” We are proud of Mack, not because he is president of the State Normal College but because he has made himself fit for the position and is now faithfully and efficiently doing his best for the coming generation.

Byron Palmer, 74 Jackson St., Palmyra, New York, has not replied to this last letter, but he has been so ready to respond in the past and has extended such warm greetings at our reunions that we feel sure that he has a good reason for not replying. We know that his health has not been good and hope that he is better now.

W. W. Palmer, Vinton, Iowa, was married in 1886 and they have one son, Gerald, who attended Iowa State College and served in the World war. Willis reports one grandson. His son operates the farm while W. W. and his wife live in Vinton. With them lives Great Grandpa Palmer who is ninety-one years old. We are glad that the class of ’81 respected and honored their parents and we are optimistic that the generation following will or does respect us for the good we have tried to do.

A. E. Smith, Olean, N. Y., is “just an M. D.” doing general and abdominal surgery and making a hobby of it. A year ago he was obliged to take an operation prescribed by some other doctor. He was operated on for ulcer of the stomach and three-fourths of his stomach was removed. After a fight for his life he now boasts that he can “get away with his share at the alumni and class banquets.” He is married and has one daughter and “one of the nicest three-year-old granddaughters you can find.” He is on the main line of the Erie railroad from Buffalo to Washington and invites all to stop and see him. We are glad that Ambrose is with us.

A. H. Voigt, Los Angeles, California, is president of the California Furniture company and, as always, is optimistic for the future. His hobby is business, his favorite sport is work and we believe it, for he is always at it. We know he is successful in his business and at the same time active and deeply interested in the welfare of his fellow man. Voigt says “Married thirty-seven years ago and still married. Have two children, old enough to know better, but they are not married and consequently I can boast of no grandchildren. If I want to visit with babies I am compelled to visit some of my friends.”

Jason Woodman, Paw Paw, Mich., is a farmer and our member of the State Board of Agriculture. He is married and has four grandchildren. He lives with his youngest son, John (class of ’14) on the family homestead. We appreciate how faithfully and well Woodman has served us on the State Board.

A. B. Turner, Memphis, Tenn., lumber and timber roundabout, married thirty-seven years ago and there are no rags stuffed in the window panes and enough unbroken crockery to meet requirements. We have on daughter, Ruth, at present in Detroit (class ’14), and one son, Arthur L. (class ’17), married to Susan E. Black (with ’19), and living in Memphis.

We wish we had material for several pages more telling of others of ’81 in whom we are still deeply interested. It has been a very great pleasure to hear of your welfare and to have the privilege of passing it around. We hope every one will make plans and desperate efforts to be present at our next regular class ’81 reunion.

Warning! You will each be called upon in September, 1923, to send in kodak pictures of yourselves, wives, children and grandchil-
dren, your homes and places of business. Keep this in mind and gather these pictures during the coming summer months. These pictures will be put in an album and passed around to all contributors.

As a very personal item I will add that I was sixty-three years old yesterday and these notes have been made on the "Memphis Special" between Chattanooga and Bristol, to show my regard and appreciation for the Michigan Agricultural College and the class of 1881.

Very truly yours,

A. B. Turner,
Class Secretary.

A. C. Conger, who was made acting professor of zoology upon the death of Professor Barrows, has accepted the position of assistant professor of zoology at Ohio Wesleyan university. Conger is a graduate of that institution.

The forestry summer camp will open this year on June 20. It will be held on the lands of the Johannesburg Manufacturing company near Johannesburg. The company has fixed up a set of lumber camps for the school and has offered every facility for the work. The camp itself is right on the edge of a large body of mature hardwood timber. A side camp will also be operated about two miles from the main camp, a number of tents being used for this purpose. The latter camp will be in a stand of white pine, of which there are only a comparatively few blocks left. The junior forestry class will include thirty students this summer. Professor Chittenden, Professor DeCamp and Mr. Herbert will give instruction in forest mensuration and lumbering. The course lasts one month.

---

SATURDAY, JUNE 16

A Great Day for Alumni

Look at this line-up:

Breaking Ground for the Union Memorial Building.
Inspection of new buildings.
Alumni-Varsity Baseball Game.
Alumni Luncheon and Meeting.
Alumni Parade.

Something Doing Every Minute

Special railroad rates available for ten days for most alumni.

Let us know how many you will bring. Write a letter or tear out the handy coupon below, fill it in and send it to the alumni office.

I shall return for Alumni Day, Saturday, June 16. There will be others with me. I am not merely interested, I am a BOOSTER, count me in.

CLASS NOTES

Since the first request was sent out for photographs or snapshots for the columns of Class Notes there have been portrayed representatives of a wide range of classes. There is room in The Record for one of these pictures each week. They add greatly to the value of the publication according to its readers. If you have not conferred this favor upon your friends in the ranks of the M. A. C. association do so at your first opportunity.

"Hap" Musselman, class secretary for '08, sends out the last call for the reunion of the class of '08.

Here it is: Come on busy '08! Tear June 16th (Saturday) clean off your head and butter yielding calendar and add a couple of decades to your sojourn on this mortal sphere by coming to the reunion. Come the night before and watch the water festival, and stay clear through commencement if you can, but make Saturday (Alumni Day) the big day. So pack your duds, bring your family and let the "kids" get acquainted. Make your headquarters at the People's church across from the weather bureau. '08 will be there to greet you.

H. H. Musselman.

To the Members of the Class of 1905:

Local representatives of the classes of 1905 and 1908 are making arrangements for a joint luncheon the evening of June 16. It is hoped that there will be a large number present. All of the class of '05 who are planning to return for commencement festivities are requested to notify V. R. Gardner, East Lansing, so that arrangements may be made for the luncheon and other features of the reunion.

V. R. Gardner.

'98

Clement J. Strang has been elected county commissioner of schools and will reside in Benzie County, Michigan.

'05

Harry A. French is with the Fairbanks, Morse company at Indianapolis and lives at 4107 N. Capitol avenue.

'06

Dora Skeels Post announces her change in address to Box 1038, Stanford University, California. She is visiting her sister, Mrs. R. V. Tanner, in East Lansing before she returns to California.

'12

P. W. Mason writes: "Still with the U. S. Bureau of Entomology, working on aphids." He may be addressed at 10 Sycamore avenue, Takoma Park, D. C.

'14

Floyd A. Nagler has offices in the engineering building at the University of Iowa at Iowa City.

'15

The Racine postoffice has notified us of a change in address for Edgar U. Rice to Elmhurst, Illinois.

"Please send my Record to Presidio of Monterey, California," writes George Caldwell. "Having returned from three years' service in Hawaii I am here for permanent station. Saw W. S. Fields, '13, in Frisco where he is the representative of the U. S. department of agriculture in plant pathology. When debarking from the transport his representative inspected our baggage for contraband fruits."

W. S. Dilts writes from 41 East 42 street, New York City, where he is with the Texas Gulf Sulphur company: "I am now on a three months' trip through the southeastern farming section starting new investigations at the state colleges and experiment stations on our product, inoculated sulphur. I am also starting demonstrations of its known uses throughout this section. There is some wonderful farming country down this way that has been overlooked."

'16

Roy Weinberg is county agricultural agent at Hillsdale and lives at 12 N. Norwood.

'17

G. M. Glidden reports: "In about four months we expect to have completed sixty miles of 132,000 volt transmission line connecting Lorain (Ohio) and Mansfield. The name of my alma mater has to be explained here in Ohio the same as in other states. If M. A. C. engineers could say 'Michigan State' how much better it would sound when we try to interest young fellows in the good courses offered in engineering at East Lansing." Glidden is located in Wellington, Ohio, at 125 Magyar street.

'18

Mail addressed to R. L. Doyle at Carleton, Michigan, has been returned unclaimed.

"I caught spring fever this year and changed jobs again," writes S. T. Wellman, 365 W. Carr street, Jackson. "I am now supervisor of construction progress for the Consumers Power company. Have another M. A. C. pros-
pect by the name of Charles Alfred for the class of 1940. I am making plans on seeing some of the old crowd soon."

Clifford McCormick is traveling Wisconsin for the Hoosier Manufacturing company of New Castle, Indiana. His mailing address is 518 Morris avenue, S. E., Grand Rapids, Michigan.

Marguerite Back may no longer be addressed at 527 Woodworth avenue, Alma, Michigan. She has neglected to inform us of her later address.

Ralph R. Clark requests us to change his address to 1402 Fourth street, Jackson, Michigan. He was formerly in San Pedro, Calif.

Paul L. Ginter is forest assistant on the Medicine Bow National forest and is located at Lake Creek Camp, Fossil, Wyoming.

Ferris LaCore is receiving his mail in care of the Delphic House, East Lansing.

Robert Bevier is a salesman for the Armour Fertilizer works at Baltimore, Maryland.

Victor Nagler expects to be moving about quite a bit in the near future and gives his permanent address at South Haven, Mich.

Olivia Harmon is to be reached at 614 N. Water street, Owosso, Mich.

Floyd A. Prentice is raising apples and other fruit on a farm near Saugatuck, Michigan.

R. H. Westveld may now be addressed in care of the Forest Service at Questa, New Mexico. This is his third transfer of headquarters during the past year and means a new assignment of work. He is now doing administrative work exclusively on the Carson National Forest, while before he was engaged in timber sale and research work.

Dorothy Wetherbee Chase writes: "It has been an especial pleasure to be at home right close to the campus. I shall be here at commencement time too, with hopes of seeing many '21-ers return."

FOR RENT—During summer school, furnished 7-room semi-bungalow, with garage and garden, on Sunset Lane, East Lansing. Write R. A. Runnells, '16, at Surgery and Clinic Bldg., East Lansing, Mich.

All Together, Now!!!

Are you ready when the song leader gives the signal? When the bunch sings the old songs don’t just hum the tune. All of M. A. C.’s best songs, with the music, are included in an attractive booklet of convenient size. You boosters of the Green and White need it on your pianos. It is indispensable for branch association and club meetings. Your copy will be mailed prepaid upon receipt of 50 cents at the alumni office. Attractive prices for group orders. The proceeds will be applied to the Memorial Union Building Fund.
ASTRONOMERS AND CHEMISTS

are not needed to pick a logical advertising medium. Your own good sense probably suggests that your advertising be run in this magazine alongside personal news notes—to be read by a picked list of substantial men.

Forty-four alumni publications have a combined circulation of 160,000 college trained men. Advertising space may be bought individually or collectively—in any way desired. Two pagesizes—only two plates necessary—group advertising rates.

The management of your alumni magazine suggests an inquiry to
