The M. A. C. RECORD

Established 1896
Published for the alumni and former students of the Michigan Agricultural College by the M. A. C. Association.
Published weekly during the college year and monthly during July, August and September; thirty-five issues annually.
Membership in the M. A. C. association, including subscription to The Record, $2.50 per year.
Unless members request a discontinuance before the expiration of their memberships it will be assumed a renewal is desired.
Checks, drafts and money orders should be made payable to the M. A. C. Association.
Entered as second class matter at the post office at East Lansing, Mich.

UNION BUILDING SHOWS PROGRESS

Brick and Stone Work Almost Complete—Ready to Fourth Floor.

In the past two months there has been a greater change in the appearance of the Union Memorial building than there will be again. From the small portion which had been completed prior to Alumni Day on June 14, the entire structure has grown to full height and workmen are busy putting the roof into place. While awaiting the steel trusses for roof supports a large portion of the crew of laborers was dropped and all the efforts of the contractor were applied toward work on the interior. This included, heating, ventilating, plumbing, electrical wiring, interior partitions and tile furring. With the steel in place work could be continued on the erection of the brick work, but a small portion of which remains to be completed together with some cut stone which must be put into place near the top of the building. By August 1 the forms were ready for the fourth floor concrete and this will be poured in the near future.

Those who visit the Campus now may obtain a clear view of the first floor. All supports for the second floor have been removed and partitions are partly in place. This indicates to some extent the proportions of the concourse and lobby and cafeteria. The basement is also clear of obstructions and the third floor is in condition so that wrecking the supports under it will require but a short time.

Throughout the summer a large group of students has been employed on the building by the Christman company and the work they have been engaged in will be largely completed by the time College opens in September.

It is still impossible to predict just when the building will be ready for use. It is planned that the cafeteria and assembly room will be put into commission about February 1, but that date is purely tentative and subject to revision according to the progress of building operations which in turn are subject to delays of many kinds. To this end, however, orders will soon be placed for kitchen and cafeteria equipment and contracts are now being considered for the necessary interior finish for these spaces.

It is not probable that the present financial program of the Union will permit the opening of the guest rooms in the building at a very early date although that too is a matter which must wait some time for a definite decision as it depends upon the success attained by the committee in handling the construction and equipment of the other parts at the lowest cost for maximum efficiency.

It is probable that the building will be formally opened on Alumni Day next June and that most of the parts which can be finished on the present program will be ready for use at that time. The work of completing the interior of the building is much more involved and requires a much longer time than does that of constructing the outer walls and putting the roof into place. It has become definitely established, however, that the Union Memorial building will soon be available for student and alumni use, at least those parts which will most appeal to general needs.

Payments on pledges have not been received as regularly this summer as they were during the winter but records of the fund show that the vacation period is the poorest one of the year from this standpoint and the receipts of July and August have been better than those months of previous years. Under the new financing program which anticipates the prompt payment of pledges it will be more necessary than ever that these are made when due in order that the business of the building may not suffer through lack of proper resources.
FARMERS' DAY DRAWS THOUSANDS TO CAMPUS

Farmers' Day, August 1, drew the largest crowd to the Campus in the history of this affair. Former Secretary A. M. Brown and J. T. Ebor of the economics department were the main speakers from within the state. The usual inspection of plant breeding and test plots, a livestock parade and concert by the Reo Motor Car company's band, a basket picnic and other events proved strong attractions for the farmers of the state. I. H. Butterfield, former member of the State Board and secretary of the College, and father of President-elect K. I. Butterfield, was one of the judges at the scythe mowing contest which brought out extensive competition.

Microphone with loud speakers enabled the great crowd to hear the speakers in the Forest of Arden and bleachers had been erected for their further convenience. Estimates placed the number in attendance at 7,000, most of whom came in automobiles presenting a problem to the committee in charge of the day's arrangements when traffic jams occurred on various parts of the College grounds.

SWEENEY, '19, HANDLES WATER INSPECTION

Travelers in most states are subjected to the perils of drinking water along the route of their travels which they must accept "as is" and suffer the consequences of their indiscretions but Ohio is guarding against this menace to public health and through the state department of health it is certifying certain wells and condemning others which may be used by the public on their trips through the state. Ralph C. Sweeney, '19, assistant sanitary engineer for the state, son of W. N. Sweeney, purchasing agent for the College, is in charge of this branch of work. With the cooperation of the state highway department metal signs are being erected at wells on main traveled highways and at points where tourists and summer cottagers gather indicating whether or not the water is suitable for drinking purposes. The highway department is also erecting signs indicating to motorists where they may find certified water.

In this manner a neighboring state is guaranteeing, insofar as it is possible that the visitor within its borders shall not suffer by drinking water from polluted sources. It has been found necessary by the state officials to condemn several sources of supply in sections where many gather in the summer and the owners of the property have been ordered to comply with certain requirements before the wells receive the official approval which will allow them to be used. In this work Sweeney has had the opportunity presented to a pioneer in any field. The development of such a system must necessarily be carried out by those who try it first and Ohio is the first state known to take such action. Sweeney is the second sanitary engineer to be graduated from M. A. C. to gain marked recognition for his work. A. H. Jewell, '15, sanitary engineer for Kansas was the first alumnus who had specialized in the problems affecting civic and community sanitation.

Accompanied by Governor Donahue of Ohio, Sweeney can be seen near the sign in the photograph. He is the only member of the party to boast a youthful mustache.
F. A. SPRAGG, FAMOUS PLANT BREEDER KILLED

Frank A. Spragg, for eighteen years in charge of plant breeding work at M. A. C. was killed together with his wife, Volo Mills Spragg, w'12, and their youngest child, Monday, August 11, at the Okemos crossing of the Pere Marquette railway near the college.

Spragg completed his course in agriculture at the Montana Agricultural college in 1902. In 1906 he completed the work for a master’s degree at M. A. C. and in December of that year entered upon his duties as research assistant in plant breeding, carrying on work which he had started while preparing for his degree.

Some of the most famous varieties of farm crops which he developed and which resulted in increased profits for the farmers of this and adjoining states were: Rosen rye, Red Rock and Berkeley Rock wheats, Wolverine and Worthy oats, Michigan two-row and black and white barbless barleys, Robust beans and Hardigan alfalfa.

Acting President Shaw said of him:

"Professor Spragg's success was based on his thorough preparation and training. Few men were more broadly or thoroughly trained in science. He was a veritable specialist in genetics, botany, physics, physiology, geology, and mathematics. Professor Spragg possessed in high degree the essential qualities of a masterful research worker, being energetic, unselfish, persistent, patient, and ever willing to give all his time and energy to his work.

"Professor Spragg found time to aid in community education and religious work, lived a plain, substantial, and elementary life in every way. He was a member of more than a dozen technical and scientific organizations.

"Upon the results of Professor Spragg's work projected by the extension division workers of the crops department now rests the strength of the agricultural division, in fact the whole college, and it has been the agencies thus developed that the institution has found a real barrier of defense in times of attack.

"By the untimely death of Professor Spragg, American agriculture has been deprived of one of its most constructive workers. Though hardly in his prime he already ranked as the greatest plant breeder in America. It is the plan of the Institution to build a monument to Professor Spragg's memory by a vigorous continuation of the work so successfully begun by him."

Spragg was born in 1874 and lived through early boyhood on a ranch in the Musselshell valley of Montana. After completing his course at the agricultural college of that state he spent two years conducting a ranch before entering M. A. C. to continue his college work. Mr. and Mrs. Spragg are survived by two sons. The funeral was held from the College armory on Sunday, August 17.

TENNIS CAPTAIN GIVEN MAJOR SPORTS INSIGNIA

In recognition of his feat of going through the 1924 season without defeat, John T. Croll, '24, Lansing, captain of the tennis team was awarded a major sports monogram. Harold J. Lautner, '25, East Lansing and Dean R. Lawrence, '26, Lansing, were given minor sports insignia for their part in the competition. Paul J. Newman, '25, Holly, was awarded the manager's monogram. C. D. Ball, a member of the staff of the chemistry department continued as coach of the team.

Track monograms were awarded the following members of the 1924 team: Captain Keith Baguley, '24, Tawas City; H. Archbold, '24, Massillon, Ohio; P. J. Hartsuch, '24, Kendallville, Ind.; Mark Herdell, '24, Sandusky, Mich.; R. J. Preston, '24, Lansing; L. Kurtz, '26, Kalamazoo; D. VanNoppen, '26, Niles; W. D. Willard, '25, Oak Park, Ill.; C. E. Ripper, '26, Wellsville, Ohio; J. Killoran, '25, Lansing. D. McBride, '25, was awarded the manager's monogram.
Within a few short weeks the College will open its doors for another year. It is entering upon the 1924-25 session with its third new president in as many years but has effectively demonstrated that its organization is such that, unhampered, it can move forward in spite of the obstacles created by changes in administration. A marked expansion in the curriculum without a similar expansion in instructing forces has been accomplished and will just begin to feel its strength with the new term. Applied science has become popular and has reached the stage where its value is known, liberal arts will have its first chance to demonstrate its worth. Other courses are thriving and growing in comparison with similar ones at other institutions. That there will be a decided increase in the total enrollment is not to be expected but that there will be indicated a healthy growth is certain.

While the internal affairs of the College are of great interest there is also the question of providing for it the necessary funds and this is a place where the influence of alumni can be turned to the advantage of their alma mater. There will be an election of legislators this fall and following that the biennial session of that body which will bring to the fore the needs of the institution. Quite generally the legislature appreciates the value of M. A. C. but the education of the individual members as to the value of the institution is a matter for the alumni to handle. He can do it by seeing that the representative and senator from his district knows the facts concerning the College and the work it does. Throughout its existence it has demonstrated its value to the people of the state, sometimes with more effect than others but it must be constantly brought to the attention of the law-makers that M. A. C. is an institution founded for service to the people of Michigan and that it is discharging that obligation, limited only in the work it can do by the funds available for its use.

The new year dawns with prospects of wider service for M. A. C. and better equipment with which to perform that service.

Alumni Opinion

Editor of The Record:

May I be permitted to express my great satisfaction in the recent election of President Kenyon L. Butterfield to the presidency of the Michigan Agricultural College. This is the most important action taken by the Michigan Board of Agriculture in a generation. It is a recognition on their part of the fact that Land Grant College Institutions have developed to a point where men of the highest training, successful experience and exceptional ability are required if these institutions are to maintain their acknowledged leadership in the type of education which they foster.

It is my opinion that the Alumni of the Michigan College of Agriculture will unanimously approve the selection of President Butterfield. This is an achievement in itself much worth while. The Alumni of the Institution have not been actively aggressive in their approval of educational policies of the Michigan Agricultural College. The appointment of Butterfield is evidence that hereafter the Institution will be developed along lines which will again place the Institution in the first rank of Land Grant Colleges in the United States.

Kenyon L. Butterfield is thoroughly familiar with Michigan conditions. He is a recognized leader among institutions of America. He has an international reputation for educational leadership. The future of the Michigan Agricultural College is bright and with proper support it should become one of the greatest in America.

F. B. MUMFORD, '91, Dean, College of Agriculture, University of Missouri.
Alterations are being made in the residence occupied by President Snyder at No. 1 Faculty Row to fit it into a hospital. The college architect claims it can be made to serve its new purpose admirably at a comparatively low cost.

Jay W. Slaughter, Charlotte, '27, and Dee M. Brockway, Lansing, '25, both students in the agricultural division and members of the Delphic society were drowned August 8 while bathing in the lake near Bridgman, Michigan. Neither could swim. Slaughter went out beyond his depth and Brockway went to his assistance. Both were prominent in College activities. Slaughter was a member of the 1923 freshman football team and was looked upon as valuable material for the varsity. They had been working for the state department of agriculture.

More than one hundred teachers of agriculture under the Smith-Hughes law attended a special conference at the College which held them over the last two weeks in July.

It will be necessary for the College to prepare to handle at least 3,500 automobiles on October 11, the day of the Michigan game, according to estimates. This is nearly twice as many as it has ever had to accommodate in the past.

Contracts have not been awarded by the State Board for the construction of the new horticultural building but work is progressing on the greenhouses and the heating tunnel which will connect it with the Campus system.

Applications for football tickets have been mailed to all names listed in the alumni office and at the addresses on file here. The advantage of having these correct is apparent to those who desire to see the big game of the fall.

Joseph A. Rosen, '08, foreign representative of the U. S. department of agriculture visited the Campus recently while on a short visit to this country. He is stationed in Moscow, Russia. According to his view the present government of Russia has reached the stage where it is definitely advancing and will become a generally recognized power within the next generation. He reports marked progress along agricultural and commercial lines.

Blanks are being prepared to be sent out to all alumni and former students requesting biographical information for use in the alumni files and in the preparation of an alumni catalog which will be issued some time in the future. These may be filled out and returned with blue slips or separately but should be attended to at once in order that the expense of the project may be kept at a minimum. A photograph is requested in each case. The catalog will not be illustrated but photographs are needed to make the alumni files complete.
A. Everett Smith, '8l

A. Everett Smith, '81, M. D. (Rush Medical college), '85, died at his home in Olean, N. Y., Tuesday, July 15, after an illness which had extended over several months. For years he had specialized in diseases of the eye, ear, nose and throat and abdominal surgery and was a leader in the chosen branch of his profession. Throughout his career he had made a practice of keeping abreast of the advances in medicine and surgery and to this end had studied at the New York College of Surgery, Bellevue hospital, Johns Hopkins hospital and the Mayo Brothers hospital at Rochester, Minn.

He was prominent in local fraternal and civic affairs, a member of the Olean Kiwanis club, Bartlett Country club, B. P. O. E. and American Medical society. He was the first school physician appointed in Olean. He served as city health officer, 1900-10. He was for years an expert examiner for the U. S. pension service.

Dr. Smith was born at New Troy, Mich., August 23, 1857, obtained his early schooling at that place and entered M. A. C. in 1878, completing the four year course in agriculture with the class of 1881. That year he entered Rush Medical college and was given the degree of M. D. in 1885. For two years he practiced medicine in Belmont, N. Y., removing to Olean in 1887 where he has since been located, occupying the same office throughout that time.

The Olean Evening Times in its comment on his death says: "Dr. Smith was a man of keen intellect, liberal education and with a thorough knowledge of his profession was a leader in the practice of medicine."

He is survived by his widow, who was Miss Altie Emerson, of Belmont, N. Y.; a daughter, Mrs. G. F. Sibley, of Olean; three brothers, J. Willet Smith, Hornell, N. Y.; J. Haskins Smith, '83, Chicago; W. R. C. Smith, '96, Atlanta, Ga.; and one sister, Mrs. Amy Thursby, Berkeley, Calif.

Sanford H. Fulton, '97

Sanford H. Fulton, '97, died June 18 at Cherry Run, West Virginia, from tuberculosis, after an illness of several years, most of which he had spent in the west in an attempt to regain his health. He was born near Detroit, Sept. 7, 1874, was educated in the schools of that neighborhood and specialized in horticulture at M. A. C. After completing his college course he spent two years in nursery work at Geneva, N. Y. and Rochester. For the three years following he was in charge of the South Haven experiment station and took part in farmers' institute work throughout the state during the winter months. In 1901 he married Lucy Chatfield and shortly afterward was called to Georgia as state horticulturist. He entered government work as assistant pomologist after spending some time in the south and during the course of his investigations for the department of agriculture he became interested in West Virginia as a desirable location for the fruit growing industry and organized the Sleepy Creek Orchard company which he sold when his health failed.

In the course of the time he spent in West Virginia he was noted for his knowledge of horticulture and served as president of the state horticultural society as well as taking a prominent part in civic affairs. He also organized the Potomac Fruit Exchange and served as its president.

While in the west Fulton made a study of the cooperative organizations in existence there and contributed extensively to the press describing methods and practices he noted on his travels. The Morgan Messenger, published in Berkeley Springs, W. Va., describes him as "one of the best informed fruit growers in America."

He is survived by his widow, two brothers, Merritt W., '97, and Adna and his parents. Funeral services were held in Berkeley Springs on June 20.

The M. A. C. Union will this year publish the handbook for freshmen which in the past has been put out by the Y. M. C. A. The latter organization has found it impossible to continue this work.
NEW TICKET SALES PLAN IN EFFECT

Applications for Michigan Game Must Be Made After September First.

Preparing for the largest crowd in the history of athletics at M. A. C. Director Young and his assistants have adopted a plan for the distribution of tickets for the Michigan game on October 11 which will undoubtedly prove unsatisfactory to some but which has proved the most workable of many schemes which have been tried in an effort to produce a system for equitable results. Applications have been mailed to all people on the alumni lists, at the addresses on file at the alumni office and these will be accepted at the office after September 1 and will be filled in the order of receipt. The University authorities have requested reservation of one of the concrete stands for their students and alumni. This leaves for distribution from the M. A. C. office only about 12,000 seats. Of this number about 3,500 must be reserved for students each of whom is entitled to purchase one seat in addition to the one he is entitled to on his athletic ticket. In order to accommodate a maximum number temporary bleachers have been purchased which will fill in both ends of the field connecting with the concrete stands, boxes will be built in front of the stands.

A certain number of season tickets were available in August which admitted the purchaser to all six games on the home schedule for $7, this included a coupon redeemable for a reserved seat at the Michigan game. These orders were the only ones filled before September 1.

In looking ahead to the football season there appears to be one of the best balanced schedules boasted in years and, as well, one of the most promising squads. From the freshman squad of last year will come considerable line material, an element lacking on the varsity last fall, while the backfield of 1923 will be strengthened by the addition of several players of proved ability ready for their first year of regular competition.

Of the 1923 squad which defeated the University of Detroit and held the Univer-
REGISTRATIONS

The following concludes the list of those who registered on Alumni Day:

CLASS NOTES

'70

A. H. Phinney has returned from St. Petersburg, Florida, and is located in Detroit at 655 Collingwood avenue. He says he wants to be near so he can shake hands with President But-terfield.

'84

Clarence Smith may no longer be reached at 420 Sheridan road, Waukegon, Illinois.
P. G. Holden may be reached at Whitehall, Michigan.

G. L. Flower has moved to Washington, D. C., to 3124 38th street N. W.

John O'Bannon is no longer in Quitman, Miss.

Arthur D. Baker writes that his son, Standard Luther, was married July 26, 1924 to Gladys L. Kinney of East Lansing. Mr. Baker, sr. lives on Cambridge road, Lansing.

V. S. Hillyer announces his new address as 3209 N. New Jersey street, Indianapolis, Ind.

H. B. Winegar has been rural mail carrier near Birmingham, Michigan, for seven years. He lives at 322 Purdy street, Birmingham.

H. Arnold White is "still serving as state agent for Illinois for the Pittsburgh Underwriters of Pittsburgh, Pennsylvania" in Springfield, Illinois, where he is addressed at P. O. Box 200.

C. C. Pashby of Memphis, Tennessee, made a visit to the campus recently.

Coral Havens is still located at the Hutchins Intermediate school at Detroit.

D. B. Jewell has changed his address to 1150 Prince street, S. E., Grand Rapids, Michigan.

Burr Wheeler reports from the Chile Exploration company, Chuquicamata, Chile "Nothing new. Have been here nearly ten years; encounter few old grads but always enjoy reading The Record."

The name of the street on which Arthur Adelman lives has been changed so that his address now reads 3700 Military road, Washington, D. C.

C. I. Auten has moved from Youngstown, Ohio, to North Lima, Ohio, where Box 15 reaches him.

August F. Frey of Hayden, Arizona, called at the alumni office recently.

Mary E. Palmer is still reached at R. 1, Attica, Michigan.

A. D. Peters has moved from Lima, Ohio, to 7233 Cole avenue, Chicago.

L. M. Spencer gives his new address at 687 Atkinson avenue, Detroit.

J. E. Poole claims Oaklyn, New Jersey, as his postoffice.

C. W. Dunlap has moved from Waukesha, Wisconsin, to 307 Bona Allen building, Atlanta, Georgia.

Briggs L. Clark has left 1879 Echo Park avenue, Los Angeles, but has forwarded no later address.

Major William D. Frazer was on the Olympic pistol team of four representing the United States. Tryouts were held at Quantico, Virginia. There were 21 contestants including three former and the present national pistol champions and the Olympic champion of 1920. The course was rapid fire at silhouettes at 25 meters. Frazer placed third on the team. The other three members were marines who have made good records in past national matches. He also made alternate place on the international team. Three of the men who made the Olympic four also made the international. Major Frazer sailed for France on May 28 on the U. S. S. Pres. Harding. He has just completed the field officers course at Fort Monroe, Virginia, and will attend the command and general staff school at Fort Leavenworth, Kansas, the coming year.

F. Royal Kenney is now located in Englewood, California, at 1232 Marlborough avenue.

Roy F. Irvin has moved in Grand Rapids, Michigan, to 1416 Milton street.

W. L. Mason is in Youngstown, Ohio, and receives his mail at Box 1111.

George E. Smith has moved in Albion, New York, to 100 S. Clinton street.

"A proud dad announces a young M. A. C. freshman for class of 1945." Mr. and Mrs. R. N. Kehrer announce the birth of Don Robert on July 14, 1924.

Hazel Ramsey sends in her address as 211 E. Knight street, Eaton Rapids, Michigan.

C. E. Pinney announces: "A slight change of address and occupation. 135 North Saginaw street, Lapier. In November 1923 I resigned from the Niagara Sprayer company and accepted a position with the Bean Spray Pump company of Lansing. The latter concern had just recently placed on the market a fine line of power dusting machines for dusting orchards and field crops. These machines are the only self-mixing machines on the market. Am now in charge of sales extension in the territory east of the Rocky Mountains. I was very sorry indeed to miss our class reunion. On that great day I was in Wyoming, Delaware, enjoying an extremely pleasant visit with Dick and Dorothy Voss Richardson. Dick was a '15 and Dorothy was with '17 until Dick coaxed her away from it to help him become one of the leading fruit growers in Kent county, Delaware. And that is exactly what Dick has become. He has about 90 acres of as fine bearing orchards and vineyard as I have seen in Delaware, and there are a lot of good ones in that state. In this, the worst year for apple scab Delaware has ever known, he has practically 100 per cent clean fruit, and he has an excellent set of each variety he produces. Dick and Dorothy have a beauti-
ful home, modern and well equipped in every way except for a radio, and Dick says he’s going to have one soon as he can get time to listen in. They have a fine seven year old son who is built on his dad’s lines, and those who remember Dick will recollect that he is built for wading in deep water and picking peaches from a high tree.”

Frances Spencer is principal of home economics department at the Haskell Institute for Indian girls at Lawrence, Kansas.

S. G. Colby’s address is Court House, Marquette, Mich.

Jessie Iliens Geib has moved in Los Angeles to 228 West 47th st.

To contributed the following to the lost list:

Mildred Mead, 1170 Hancock avenue, Detroit.

George W. Trubev, U. S. Bur. of A. I., Oakland, Calif.

Claudie Kober Engles, 1312 Merrill street, Kalamazoo.

Forest McFarland lives at 2001 Hogarth avenue, Detroit.

R. R. Nellist is leaving Dowagiac, for Richland, Michigan, where he will be supervisor of training teachers, working in connection with the Western State Normal school.

Wayne Cramp ton is superintendent of the Buckley Consolidated Agricultural school at Buckley, Michigan.

L. W. and Beatrice Hosmer Ross announce the birth of Lawrence W. Jr. on July 4, 1924.

A little blue slip brings the following from Eva K. Schurr: “Still H. D. A. in Harford county, Maryland. Plenty of work and enjoy every bit of it. Glad to welcome any M. A. C. folks coming to this vicinity—office in the Court House, Bell Air.”

Herbert Freeman observes: “Am pleased to note that agitation to change the name of the college seems about to bear fruit. Embarrassing experience has taught me that outside of Michigan people find it hard to understand how an engineer happens to hail from an agricultural college. I am moving from place to place and have no permanent address. Am with the Underground department of the Detroit Edison company at present.

T. S. Blair lives in Wyandotte at 51 1-2 Van-Alstyne blvd. He remarks “Still J. B. Ford company, advertising department. Same job, same address, same wife, but am ten pounds heavier than when I last wrote.”

Henry R. Adams is engaged in soil survey work for the Purdue experiment station, and is addressed at Box 318, Greencastle, Indiana.

Wright Wilson says he is office boy at the W. B. Welch company in Jackson. He lives at the Y. M. C. A.

Chester J. Williams is in Grand Rapids at 166 N. Lafayette.

Paul H. Allen is a special field assistant for the Cornell extension service, stationed at Batavia, New York. He has charge of the spray information service in Genesee and Wyoming counties. His permanent address is Keit, New York.

Keith Baguley is working for the state highway department and lives in East Lansing at the Trimora house.

Harold G. Bauerle works for the city of East Lansing and lives at 715 Princeton avenue, Lansing.

V. O. Bombial claims 1245 Wilson avenue, Chicago, Illinois, for his mailing address.

Delbert Bideleman receives his mail at Sparta, Michigan.

Ross Boyle is with the central office equipment engineering division of the Western Electric company at Chicago, and lives in Forest Park at 7211 Jackson boulevard.

V. O. Braun is organizing for the North Ridge Brush company at Quincy, Michigan.

B. R. Crane is with the Halsey Stuart & company bond house in Chicago. He lives at 6019 Dorchester avenue.

Vera Crook is at 316 Perry court, Flint.

During the summer months Emma DuBord is director of boys and girls clubs for the recreation department of the City of Detroit. In September she will take up her new duties as manager and dietitian of the girls dormitory at the Central State Normal college at Mt. Pleasant.

S. N. Galbraith is with the Michigan Bell Telephone company in Lansing, and lives at 1917 Jerome street.

Donald Godfrey is concrete testing engineer for the Consumers Power company on the construction of the county line dam near Mesick, Michigan.

J. O. Gover is at Eureka, Michigan.

V. R. Harney is assistant to a veterinarian at Bridgeton, New Jersey.

Harold Harr says: “I started to work July 1 at the Industrial School for Boys. At present I am installing and equipping the new machine shop. After September 1, I shall have charge of the instruction work in the machine shop.” Harr lives at B-1, Penfil apartments, Lansing.

Everett Hartsell is in the bridge department of the Michigan State Highway department with
headquarters at Kalamazoo. He lives at 534 S. Westnedge avenue.
Helen Harvey will teach clothing and design in the high school at Three Rivers.
Laverne J. Hendryx is with the Wolverine Engineering company at Mason, and lives in East Lansing at 847 Grand River avenue.
Frances Holden will teach foods at the Monroe, Michigan, high school.
Dorothy Hubbard will teach foods in Marine City.
Harold Kerr is in Durand, Michigan, 201 Scougale street.
Lillian Lewton is working in the playground department of the District of Columbia during the summer months. She will teach English in the high school at Clinton, Michigan.
Harold J. Lutz is junior forester on the Tongass National forest near Ketchikan, Alaska.
Howard Markle is in the engineering department of the Reo, and lives in Lansing at 720 W. Lenawee street.
Helen Perry is a technician in the Toledo hospital. She lives at 1605 Collingwood avenue.
Ronald Preston is a forester with the Consumers Power company at Grand Rapids. He lives at 187 W. Michigan.
Fern Schneerer will teach foods and nutrition in the Three Rivers high school.
Clare Slaughter is working for the State Highway department in the capacity of assistant resident bridge engineer at Gaylord.
Milward Marx is an inspector with the Michigan Inspection Bureau in the Board of Commerce building, Saginaw. He lives at 1216 Tuscola street.
Glen Wakefield is superintendent and agricultural instructor of the Montague, Michigan, township school.
Merritt Johnson is assistant to the village manager of Ferndale, who is Carl H. Peterson, '15. Johnson lives at 280 Rockwell avenue East.
K. R. Lanning is the only address on file for Leah Smith, and mail has been returned from there. Will someone kindly inform us of a more recent address?

MEETING OF THE STATE BOARD OF AGRICULTURE
PRESIDENT'S OFFICE
9 o'clock

July 16th, 1924

Present: Acting President Shaw, Mrs. Stockman, President-elect Butterfield, Messrs. Brody, McPherson, Gowdy, and Secretary Halladay.

The minutes of the previous meeting having been in the hands of the members, were approved without reading.

Motion was made by Mr. Brody that Mr. J. E. Kotila, Research Assistant in Plant Pathology, be allowed an eight months leave of absence from October 1 to June 30, to work on a certain phase of the Black Leaf disease of potato, at the University of Michigan; the first five months to be allowed him at full pay and the remaining three months at half pay. Carried.

Motion as made by Mr. Gowdy that Professor L. S. Foltz, now Associate Professor of Electrical Engineering, be appointed Acting Professor of Electrical Engineering to take the place of Professor Sawyer, effective September 1. Carried.

Motion made by Mrs. Stockman that an additional clothing specialist in extension work be employed because of the increased demand for extension work of this kind. Carried.

Motion by Mr. Brody that Mr. O. J. Weisner be appointed extension poultry specialist, effective July 1. Carried.

Motion by Mr. Brody that Mr. C. W. Andrews, Branch county extension agent, he placed on the pay roll for a six month's period beginning July 1, an appropriation having been made by the Branch County Board of Supervisors to take care of the extension work after that time. Carried.

Motion by Mr. Brody that the amounts contributed to the salaries of the county agents in Charlevoix, Newago, and Livingston counties be increased, effective June 1, to January 1, to prevent the work being discontinued in these counties during that period. Carried.

Motion by Mr. Gowdy that Mr. Shaw be requested to present at the September meeting, a report of all emergency cases in extension work. Carried.

Motion by Mr. McPherson that Mr. C. C. Watthens be appointed county club agent for Marquette from June 1 to November 30; Mr. J. E. Dease for Isabella county from June 1 to September 30. Carried.

Motion by Mr. McPherson that Mr. B. C. Mellencamp be appointed county agricultural agent in Charlevoix county beginning June 1. Carried.

Motion by Mrs. Stockman that the salary of Mr. R. A. Turner, State Club leader, be increased, effective July 1. Carried.

On motion of Mr. Gowdy the following increases in salary were approved:
Salary of J. A. Hannah, Extension Poultry Specialist, effective July 1.
Salary of H. A. Cardinell, Extension Specialist in Horticulture, effective July 1.
Salary of Nevels Pearson, Assistant Club Leader, effective July 1.

Motion was made by Mr. Godwy that Mr. George Girrbach be appointed extension specialist in dairy husbandry, from July 1 to January 1. Carried.

Motion by Mr. Brody that Mr. Roscoe Larson, a graduate of Iowa State College, be appointed to a half-time fellowship in the department of dairy husbandry at the beginning of the school year.

Motion by Mr. Brody that Miss Helen Ellis be appointed quarter-time assistant in the de-
department of bacteriology for the school year of 1924-25. Carried.

Motion by Mr. Gowdy that Lloyd B. Seboll of Ithaca, N. Y., be appointed to the position made vacant by the resignation of Dr. Runnells in the department of animal pathology, effective September 1, with the title of instructor in animal pathology and assistant animal pathologist; one-half of his time being devoted to investigational work. Carried.

Motion by Mr. Brody that Miss Delia Bemis be allowed to devote full time to the department of music for the coming year, as recommended by Professor Taylor.

On motion by Mr. Brody, Mr. A. J. Clark was appointed half-time graduate assistant in farm crops to replace Mr. B. B. Robinson, from September 25 to June 24. Mr. A. B. Marston to replace Mr. P. K. Miller.

On motion by Mr. Brody that a contract be offered Mr. L. G. Lill as research assistant in Farm crops beginning July 1, the other half of his salary being paid by the U. S. Bureau of Plant Industry. Carried.

On motion of Mr. Gowdy, Miss Leola Roberts was appointed stenographer in the soils department to replace Miss Nora Williams, effective July 24. Carried.

Motion by Mr. Brody that Mr. J. W. Stack be allowed to visit the Field Museum at Chicago with expenses paid. Carried.

On motion of Mr. Brody, Mr. Hasselman’s request to attend the meeting of the American Association of Agricultural College Editors at Brookings, South Dakota, with expenses paid, was granted.

Motion by Mr. Brody that Dr. Giltner be allowed to attend the annual meeting of the American Veterinary Medical Association to be held at Des Moines, Iowa, August 18, with expenses paid, and Dr. Hallman be allowed to attend the American Veterinary Medical Association at Des Moines, Iowa, the week of August 18. Carried.

On motion of Mr. McPherson the resignation of LeRoy Stegeman as library assistant, effective August 31, was accepted.

Motion by Mrs. Stockman that $500 be allowed from college funds for Y. W. C. A. work during the coming year. Carried.

A letter was received from Mr. R. J. McCarthy, Secretary of the Alumni Association, which contained the following resolutions:

"RESOLVED, That the M. A. C. Association congratulate the College on the success of the military department under the leadership of Lt. Col. T. L. Sherburne in gaining a distinguished rating from the inspectors of the War Department, and that the Association urges that proper facilities be provided for the housing of the department especially the new drill hall which has been requested and approved by the State Board of Agriculture.

"RESOLVED, That our congratulations be extended to the State Board of Agriculture for its successful defense of college freedom in financial affairs, and that we urge the support of every alumnus to maintain this freedom.

"RESOLVED, That we support the resolution of the Executive Committee in urging the adoption of the new name which is proposed for the College; 'Michigan State College of Agriculture, Engineering, Arts, and Sciences.'"

Motion by Mr. Brody that a conduit be extended from the Home Economics building to the Union Memorial building to connect the heating pipes of the Union building with the college heating system; the expense of the mechanical work to be borne by the Alumni Association. Carried.

Motion by Mrs. Stockman that the Committee of Deans be authorized to grant appropriate degrees at the close of the summer school to all candidates who complete requirements for graduation at that time. Carried.

Motion by Mr. McPherson that Mr. Craven be offered an increase in salary with the rank of associate professor, effective September 1. Carried.

Motion by Mr. Brody that Mr. J. W. Scott be offered a contract with the rank of associate professor, Economics Department, effective September 1. Carried.

Motion by Mrs. Stockman that Mr. Horn be authorized to study Marketing conditions in the State this summer. Carried.

Motion by Mrs. Stockman that Mr. J. B. Hasselman’s salary be advanced, effective July 1. Carried.

Motion by Mrs. Stockman that Mrs. Landon be authorized to hire four additional library assistants, subject to the approval of Dr. Butterfield. Carried.

Motion by Mrs. Stockman that the Board express their appreciation of the work of Acting President Shaw for the splendid way he has carried on the work of the college with the cooperation of the entire staff and student body; and for the fine financial management that has secured the $125,000 reduction of the deficit and put the college on a good financial basis. Carried.

Motion by Mrs. Stockman that an additional $1,000 be appropriated to the M. A. C. Alumni Association to issue a catalog in the not far distant future. Carried.

Motion by Mrs. Stockman that matters relative to buildings be left to the building committee of Messrs. Watkins, McColl, Brody, and Secretary Halladay. Carried.

MEETING OF THE STATE BOARD OF AGRICULTURE

President’s Office

June 17, 1924 11 o’clock

Present: Acting President Shaw, Mrs. Stockman, Messrs. McColl, Brody, McPherson, Gowly,
Watkins, President-elect Butterfield, and Secretary Halladay.

The minutes of the previous meeting having been in the hands of the members, were approved without reading.

Motion by Mrs. Stockman that a leave of absence with pay be granted Prof. W. E. J. Edwards for three months, beginning June 7, to take graduate work at the Iowa State College of Agriculture. Carried.

Motion by Mrs. Stockman that Miss Minnie L. Irons of Columbia University be appointed to the position of itinerant teacher trainer and assistant professor of Home Economics Education. Carried.

Motion by Mr. McColl that Miss Irma Gross, inspector in the division of Home Economics, be given leave of absence for the fall term of 1924; that her salary for the winter and spring terms of 1925 be estimated on the basis of two-thirds of the total for the year. Carried.

Motion by Mr. McColl that the request of Prof. A. R. Sawyer for leave of absence of one year, beginning September 1, 1924, be granted. Carried.

Motion by Mr. McColl that the matter of budgets be left to President Shaw and President-elect Butterfield, with power to act. Carried.

Motion by Mrs. Stockman that a department of Education be created. Carried.

Motion by Mr. McColl that Mr. John Phelan of Amherst, Mass., be appointed head of the department of Education and assistant to the president. Carried.

Motion by Mr. Brody that Prof. E. H. Ryder be appointed in charge of the department of Liberal Arts, and that the appointment of a permanent head for that department be left to the president with power to act. Carried.

Motion by Mr. Brody that $10,000 be appropriated for the investigation of market problems as rapidly as the money is available. Carried.

Motion by Mr. McColl that the request of the Union Literary Society for the improvement of the interior of their house located on the campus, be left with the president and secretary with power to act. Carried.

Motion by Mr. McColl that the secretary be authorized and empowered to make an offer to the U. S. Department of Agriculture for the Weather Bureau property, and that the secretary be allowed to go to Washington if necessary to confer with the department regarding the matter. Carried.

Motion by Mr. McColl that the plans for a hospital and president’s house be started at once. Carried.

Motion by Mrs. Stockman that Dean Jean Krueger be allowed to attend the annual meeting of the American Home Economics Association in Buffalo, June 30 to July 4. Carried.

The committee consisting of Mrs. Stockman, and Mr. Shaw appointed to confer with Dean Krueger and Mrs. Campbell, reported the appointment of Miss Martha Mae Hunter as extension specialist in nutrition, also the transfer of Miss Bernice Woodworth from Wayne County, to the Upper Peninsula.

On motion the meeting was adjourned at five o’clock.
