The M. A. C. RECORD

Established 1896

Published for the alumni and former students of the Michigan Agricultural College by the M. A. C. Association.
Published weekly during the college year and monthly during July, August and September; thirty-five issues annually.
Membership in the M. A. C. association, including subscription to The Record, $2.50 per year.
Unless members request a discontinuance before expiration of their memberships it will be assumed a renewal is desired.
Checks, drafts and money orders should be made payable to the M. A. C. Association.
Entered as second class matter at the post office at East Lansing, Mich.
ROBERT J. McCARTHY, ’14, Editor.

THE M. A. C. ASSOCIATION
3 Faculty Row, East Lansing, Mich.

OFFICERS—1924-25
Frank F. Rogers, ’83, Lansing, President
Arthur C. MacKinnon, ’95, Bay City, Vice-President
Luther H. Baker, ’93, East Lansing, Treasurer
Robert J. McCarthy, ’14, Secretary

EXECUTIVE COMMITTEE
Members elected at large
Henry T. Ross, ’04, Milford, Mich., Term expires 1925
Clifford W. McKibbin, ’11, East Lansing, Term expires 1926
G. V. Branch, ’12, Detroit, Term expires 1927
W. K. Prudden, ’78, Coronado, Calif., ex-officio
Harris E. Thomas, ’85, Lansing, ex-officio
E. W. Ramney, ’00, Greenville, ex-officio

BUTTERFIELD OUTLINES COLLEGE POLICY

In Farmers' Week Addresses President Tells of Plans for Development; Speech Before Labor Federation Stresses Importance of Institution in Life of Entire State.

Note—President Butterfield delivered several addresses during Farmers' week which are too voluminous to print in THE RECORD but their trend seemed to indicate the policies which he intends shall influence his administration of the affairs of the College. An alumnus who visited the Campus during Farmer's week and attended other meetings addressed by the president has written the following article describing his conception of the import of Dr. Butterfield’s statements.

In a series of Farmers' Week addresses, delivered before audiences of widely varying interests, President Butterfield enunciated the tenets of the policy which he has formulated for the college and for the interests he believes the college should serve.

Perhaps most significant, from the alumni point of view, was the position he took before the Michigan Federation of Labor, meeting in Lansing—that the institution is as much theirs as it is that of any other group of citizens in the state.

"It is true that the college started as a college for the farming interests and those alone," he said. "It is still true to those interests, but it has a wider range. The Morrill Act of 1862, which gave Federal support to the college, said that the purpose of these land grant colleges, among other things, was to educate the industrial classes in the several pursuits and professions of life. I like to think that this college belongs partly to the industrial classes of Michigan."

"In the second place, the college has been for 40 years, maintaining engineering work and is now broadening that work so as to meet a wider range of industrial problems. We are hoping next year to have a supervisor of engineering extension for we are already doing some work in the development of courses for wage earners in service."

But Dr. Butterfield is by no means neglecting agriculture. He is blazing a new trail in extension work, one that promises to leave a profound and lasting effect upon the rural life of Michigan. He proposes to revive the old farmer institute idea, which he himself helped to inaugurate in this state 30 years ago, and to combine it with the newer county agent idea. The institute of the future, however, is to be based upon the community as a unit. It will serve both as a connecting link between the college and the farmers and as a forum at which they may discuss all their problems, whether of production, marketing or home and community phases of country life.

His ideas on community institutes were disclosed in discussions with the county agents, in an address given before the Michigan Country Life Association and in another address at the general Farmers' Week session in the gymnasium.

The phrase “continuing education” occurred a number of times in Dr. Butterfield's talks, with respect to both the farm and the industrial classes, and it is evident that he hopes the college will be able to be of substantial service to adults no longer in school. In speaking before the State Association of Supervisors of Michigan, he asked that the counties increase if possible the amounts they are contributing to the “continuing education” for farmers.
To sum up, the president's program for M. A. C. and for Michigan is broad, though it does not attempt to cover the entire education field. But he seems to be setting out to attack the agricultural problem as a whole, considering production, marketing and community development as equally important; to extend the engineering work of the college to the research and extension fields; and meanwhile to build up the established divisions of the college on symmetrical lines.

**BAND AND GLEE CLUB MAKE TOUR PLANS**

Plans for the spring vacation tour of the College band and glee club anticipates a trip for the combined organizations to cities in the eastern part of the state. It is probable that the number of men carried will be reduced to sixty so that the money needed to finance the venture may be raised in some of the smaller places. In the past where the musical organizations have made trips to larger cities they have more than paid their way but the smaller towns have been unable to meet the expense incurred by the larger contingent.

Both the band and glee club have had ample opportunity for concert practice through the demand for their services at the College radio station and have been so well trained under the direction of Professor A. J. Clark and Professor J. S. Taylor, respectively, that they are ready to present programs of an attractive type. On January 29 they appeared in a concert at Howell sponsored by alumni.

The new pavement south of the double row of elms along the north border of the Campus has become an established avenue of traffic from the Arboretum to the eastern limits of the Campus.

O. W. Schleussner, '12, left Los Angeles long enough to visit the Campus on February 3. He and Sid Smith of the same class located the alumni office during their stay.

**COX AUTHOR OF BOOK ON CROPS AND SOILS**

"Crop Production and Soil Management," the work of Joseph F. Cox, professor of farm crops, has just been published by John Wiley and Sons, as a volume in the farm series being prepared by that firm. The book is neatly bound in blue cloth, contains 516 pages with index and has 222 illustrations from photographs and drawings.

Designed as a textbook for high schools and colleges the subject is covered in a manner more comprehensive than is offered in existing books of that nature. Each typical crop is exhaustively described and directions are given for the proper preparation of seedbed, selection of seed, fertilization and cultivation. Added to these topics are the protection of the crop against insect enemies and diseases and the standards by which the product is judged. In other words the farmer's secrets are all laid bare.

Divided into two main parts the first section of the book deals with the general operations of crop production together with general information in respect to this work, the second part is devoted to the handling of specific crops. The appendix is given over to a system of studying the crops and a list of reference books. The author has taken pains to include under each important topic the statements of authorities on that topic. Insect pests are described and their control specified by Professor Pettit, diseases and their control are taken up by specialists in particular types.

The work of a large number of M. A. C. men and members of the faculty is noted. Professor Spragg's plant breeding experiments and the results of his efforts are referred to in many places. While the volume will be of much more general use to residents of the lake states it is broad enough and of sufficient value to warrant the belief that its circulation will not be restricted to that territory.
NECROLOGY

JAY SESSIONS, '74

Jay Sessions, '74, died at his home, 903 E. State street, St. Johns, Mich., January 22, after a short illness. He was born in Lebanon township, Clinton county, August 5, 1854. A St. Johns newspaper says:

"Jay Sessions was a man of singularly strong character and was always a consistent worker in the interest of social uplift and enlightenment."

"In his younger days he was a teacher and, after following this vocation for some time, he studied law and was admitted to the bar. He practiced this profession with success, but always heard the call of the field and farm and so abandoned the legal profession and returned to agricultural pursuits for which he was well fitted, being a graduate of Michigan Agricultural College in the honor class of 1874."

"August 26, 1876 he was united in marriage to Ella Stoughton of Ionia county. To them were born two children, Mrs. Irma Yickerman, of Ellensburg, Wash., and Mrs. Irma Davis, now deceased. Mrs. Sessions died October 27, 1890."

"November 17, 1891, Mr. Sessions married Charlotte M. Gallagher of Riley, Clinton county, who survives him. To them was born one child, Mrs. Roy Anderson of Essex township, and in 1914 they adopted their orphaned grandson, Elmo Davis Sessions."

"He also leaves to mourn him, two sisters, Mrs. Mary Warne, of Fenwick, Mich., and Mrs. Alice Evans of Crestview, Tenn., a brother, Ray Sessions (M. A. C., '79), of Grand Rapids, Mich., and six grandchildren."

Burial was in East Plains cemetery at Lebanon, Mich.

FERRIS H. LA CORE, '21

Ferris Hunt LaCore, '21, died at his home at Elk Rapids, Mich., in October, 1924. For a time after completing his course in engineering chemistry he was assistant superintendent of the plant of the Lansing Fuel & Gas company but was afflicted by tuberculosis and in the winter of 1923, went to the Ingham county sanitarium where he stayed until the summer of 1924. He returned to his home at Elk Rapids a few months before his death.

While in College LaCore was a member of the Delphic society and the Chemical Engineering society.

EMERSON W. JONES, '22

Word has been received of the death of Emerson W. Jones, w'22. He entered College from 1021 Grand avenue, Toledo, Ohio.

HELEN M. HAYES WOOD, '15

Notification has been sent the alumni office of the death of Helen M. Hayes Wood (Mrs. Edmund), w'15. She had lived in Walnut Hills, Cincinnati, Ohio. While in College she was a member of the Themian society.

SWIMMERS LOSE

AT BLOOMINGTON

Indiana's swimming team defeated the M. A. C. squad 49 to 19, at Bloomington on January 31. The Green and White webfeet carried away but one first place but kept close to the winners throughout the contest. Porter plunged 64 feet six inches to take the honors in that event.

The summary:

Relay—Won by Indiana (Thomson, Doles, Zaiser and Moore). Time 1:54 3-5.

Fancy diving—Thomson (I.) first; Richmond (M.) second; Bordeaux (M.) third.

50-yard free style—Zaiser (I.) first; Moore (I.) second; Collet (M.) third. Time :27 1-5.

100-yard breast stroke—Fieber (I.) first; Burkhalter (I.) second; Lane (M.) third. Time 1:23.

220-yard free style—Zaiser (I.) first; Whitlock (M.) second; Russo (M.) third. Time 3:55 2-5.

Plunge for distance—Porter (M.) first, 64 1-2 feet; Health (I.) second; Shelby (I.) third.

100-yard back stroke—Blue (I.) first; Richmond (M.) second; Dole (I.) third. Time 1:27 3-5.

100-yard free style—Zaiser (I.) first; Thomson (I.) second; Collett (M.) third. Time 62 flat.
Most desert spaces are considered useless because they produce nothing. All sorts of efforts are made to find some means through which they can become assets instead of liabilities to civilization. Likewise an individual or an organization of individuals is placed in one class or the other according to its ability to produce services or materials which are in demand. The M. A. C. Association has accomplished some things, it has aided the College in its program, it has, to some extent furthered the aims of science but the task it set for itself of supplying a needed building for the College is incomplete. Whether it is to be classed among the fertile or arid lands depends upon what it can produce and whether or not its first great effort will be brought to fruition on time.

Alumni with bills to pay or grievances to air found their way to the alumni office during Farmers' week but the great majority of former students attending the program found it difficult to locate the present headquarters of the M. A. C. Association, a situation which will be remedied another year if the alumni join in a strenuous effort to bring about the early completion of the Union Memorial Building.

Readers of The Record are urged to send in immediately the blanks with biographical information for the files of the Association and the proposed directory of former students and officers of the College. A work of this sort requires a long time to complete and its completeness then depend entirely upon the response from the individual so that the material may be available for assembling. Less than half of the blanks sent out have been returned to the alumni office, some are coming in every day but there must be more active response if the book is ready for publication by the summer of 1926. In compiling this directory a demand will be met which is growing more insistent each year. The last previous catalog was published in 1916, another should be completed by the end of the ten year interval. Fill in the answers and mail yours immediately.

Of the thousands who attended the Farmers' week and Farmers' day programs each year there can be but few who will leave East Lansing without having received a lasting impression of the size and importance of the College as an educational plant. All of them must take a trip about the Campus and all of them must come into contact with many departments of M. A. C. during their stay for exhibitions are available which the visitor is usually anxious to see. Directly and indirectly the bringing to the Campus of large groups of individuals aids in spreading the knowledge that M. A. C. is an educational institution which their children and their neighbor's children should attend if they are to continue their school work. It is also an invaluable aid to the extension division to have those they must reach come into contact with the staff of the College and see its facilities.

Gatherings of farmers and those interested in agriculture have a value to the institution and the individual. They have become established events which increase in interest, that they may continue along their present general trend and strictly avoid all practices which would tend to commercialize the College and exploit the visitor is to be fervently hoped and expected. These meetings are important assets to M. A. C. but they must be carefully guarded so that they will remain so.

The Women's Pan-Hellenic league had charge of People's church services on February 1.
Student committees have been appointed to work on the details of the R. O. T. C. horse show to be held in May.

Fair and unusually cool weather favored the Farmers' week program and brought a widely representative crowd to the Campus.

Continuing to place a high percentage of their shots in the center of the target, the co-ed sharpshooters took the honors from Purdue, 491 to 483, January 31.

Ralph I. Coryell, '14, let the nursery and real estate business of Birmingham stagnate while he and his father, R. J., '84, took part in the sessions of the Michigan Association of Nurseryman.

A decorating scheme which the members of the junior class claim will bring to mind the Arabian Nights stories will be used in transforming the gymnasium into a fairyland for the J-Hop to be staged February 13.

A letter from Ireland indicates that the running story of the St. Mary's-M. A. C. basketball game was heard there. It was broadcast from WREO. The writer believed "a hockey game was in progress" for he could hear the referee's whistle.

L. B. Hitchcock, '07, became city manager of Phoenix, Arizona, on January 1. He had been connected with various enterprises in the southwest and had served in the city engineer's office of that city. To accept his new post he left a contracting firm of which he was a member.

Some work is being done on the new Horticultural building by the H. G. Christman company, contractors. Although the weather has not been warm enough to allow general activity, materials are being put onto the job and some of the preparations to start construction have been carried out since the first of the year.

Fred Granger, '14, W. F. Johnston, '91, and Stanley Johnston, '20, were also among those present for Farmers' week.

F. E. Foster, '03, with the Detroit Creamery company, was one of the Farmers' week visitors who admitted it was his first trip to East Lansing in seven years.

The Holcad, at the instance of Director Young, is carrying on a campaign in the interest of good sportsmanship. College officials are expressing their interpretations of the term.

F. L. Barrows, '12, of Plymouth, hid his interest in agriculture when he spent one day on the Campus last week by announcing that as an engineer he had friends among the agriculturists whom he wished to see and expected to meet.

A new ruling by the faculty allows the entrance as freshmen of high school graduates who complete their work at the close of the fall semester. Double classes are carried by these students until they have made up the work they missed through not entering at the beginning of the term.

Priscilla Proseus who entered M. A. C. with the class of 1923 and completed her work for a degree at Syracuse university is the author of a two-stanza poem entitled "Lessons" which has been printed in "Poets of the Future" a book of verse selected from college publications. Miss Proseus won honors in literary competition during her stay at the College. While at Syracuse she was a consistent contributor to university publications. For the past two years she has been teaching in the schools of Rochester, N. Y. She lives at Brightside Farm, R. 2, Rochester. She is a niece of J. D. Towar, '85.

An account of some of the important features of the Farmers' week program will be published in the February 16 issue of The Record.
Alumni Opinion

Editor of The Record:

Down here (Morgantown, W. Va.) with the extension division (W. Va. University) in forestry. It is new work in this state so it takes quite a bit of propaganda of an educational sort. So far I cannot complain for the people have been cooperating very well. The way the private corporations take hold is the most encouraging feature of all.

Please send me The Record here instead of at Charleston.

The head of the horticultural department here is M. J. Dorsey, '06, his chief assistant is Knowlton, '12. In the math section is Boomslett, '05. C. W. Mason, '15, is county agricultural agent at Wheeling. Wildern, '20, and Koleman, '21, of the Landscape Service company, are also there.

A couple of former Aggies who have been working for Fenner in Lansing motored down and are now at work for the Landscape Service company in Pittsburgh. I do not recall their names. Fenkell, '23, was working for the waterworks in Wheeling but has been sent to Louisiana somewhere on a new job. Old Secretary Brown's son is on a fruit farm near Martinsburg. Vern Harris is in Charleston in the landscape game. Pond is in or near Huntington in this work also. Heward Elmer was in the city health office as bacteriologist in Bluefield while Leonard Benjam was with the Hatfield Memorial hospital in Huntington and just recently married.

Thomas W. Skece, '24.

Editor of The Record:

I am enclosing a check for my Union Building Subscription.

Now, of course, this much is true. There aren't very many M. A. C. people in "this neck of the wood." Perhaps I should say in "this part of the ocean." But the Chamber of commerce surely did their part in giving me publicity when I came to Florida. You would think I were a Rembrandt or an Olmstead or some other oldtime celebrity. And they haven't quit. Every time my name is mentioned in the paper (and that is often) Presto change! North goes the copies of that paper to everyone on my mailing list. It is a great scheme but my friends must think I hate myself. I declare. Well! The last notorious thing I did in Lakeland was to organize an M. A. C. club. Mr. Ramsdell, of '98, or thereabouts, is the officers and I am the membership. His wife is a Michigan alumnus and so, of course, she can't belong but she adds interest to the club by reminding us of the Michigan-M. A. C. games which seem to, on the whole, have been rather satisfactory to most Michigan alumni.

Now it seems to me that the Union Building Committee ought to take a new lease on life when they find I have paid my subscription which they thought was no good and when they hear that in the Florida wilds there is an M. A. C. club that is still fighting the battle with the Big Green team.

E. Genevieve Gillette, '20.

For some time there was quite a possibility that the Union Memorial building would be in operation for Farmers' week. In that case the Union could have cooperated with the College in entertaining the visitors but this week the building stands deserted, the doors are boarded up and no paths are worn to the entrances. The factor which determined this was one which alumni might have controlled. Commencement is but a short time away, unless alumni want reunion time to be marked by another attempt to do without the facilities the building will afford there must be concerted action extending over the next few months. There is still time to effect the putting into operation of the building by June, but there is not too much time.
FOOTBALL SEASON SHOWS PROFIT

Schedule Played Before 50,000 People; Net Proceeds $20,000; Increase Will Bring Sufficient Funds to Finance Minor Sports and Intra-Mural Program.

In the final recapitulation of expenses and receipts during the 1924 football season the report of L. L. Frimodig, assistant director of athletics, reveals that $20,076.83 was cleared on the first big schedule in the new stadium. The main factor in piling up this sum was the Michigan game which brought $13,978.51 into the treasury but the smaller games exhibited a tendency to draw enough people to more than cover expenses. The South Dakota State contest on November 15 was the single exception on the list. One of the best games of the season and the one in which the M. A. C. eleven played to such good advantage, it caused a net loss of $1,035.50. The greatest attendance of the year and in M. A. C. history on the East Lansing field was achieved at the Michigan game when 19,877 were counted through the entrances. It is interesting that of some 20,000 tickets printed for the game but 83 were not sold and 64 of this total were left in the Ann Arbor allotment.

From all sources, gate receipts and guarantees the receipts were $47,101.00. The total expense for the season was $27,114.16. At the six home games the team played before 35,002 people and in its two appearances out of town 14,868 saw it perform. Records fail to reveal a more successful season financially, than the one just passed. The new stadium has placed M. A. C. in a position to bring good teams to East Lansing and provide the College with an income adequate to pay the expenses of minor sports which always show a deficit. Quite generally basketball and baseball show a shortage at the end of the year while track, wrestling, swimming and tennis are always losers.

In addition to the regular expenses of the department, there is this year the sum of $20,000 in interest and the installment on the stadium loan to be paid into the state treasury. Student fees will be sufficient to cover some of the general expense of the department but the growth of intra-mural competition of all sorts has placed all members of the staff under the necessity of carrying full schedules through the week. Assistant Director Frimodig conducts much of the intra-mural program and, due to the constant use of the gymnasium finds it necessary to schedule contests late at night so that all may have a chance to compete. All of these factors in the general program are affected by the football program for from that comes much of the funds necessary to carry on the work. The accumulation of a profit the past year indicates that efforts toward having all students participate in sports may soon be repaid by success.

If the proposed field-house and armory is approved by the legislature there should be an opportunity to make basketball a paying sport as well and increase the chances of enlarging the minor sports program. A hall with sufficient seating capacity means that the patronage now turned away from the gymnasium, where facilities are entirely inadequate to handle spectators, could be accommodated and the receipts increased.

HAIGH, ’74, DELIVERS DEDICATION ADDRESS

Henry A. Haigh, ’74, delivered the chief address at the dedication of the Dearborn (Mich.) Public Library on November 25. His subject was “The Library-Greatest of Blessings.” Pertinent paragraphs from his speech follows:

“Speaking generally, the public library is one of the greatest of blessings and most potent of agencies of public welfare in our American life. Next to the school, and in an important sense the church, it is, if
fully utilized, the surest means of securing and continuing that broad, intelligent, tolerant, and cultured American citizenship which is the sheet anchor of our country.

“It is possibly not too much to venture that the library, with its correlated and ramifying forces may be the only means of securing the tolerant culture necessary for the preservation of our increasingly complicated civilization.

“We know that civilizations—perhaps finer than ours—have gone completely down and left no vestige of even tradition concerning them. We must infer from this that civilization is not a fixed or permanent development of nature but is an artificial institution depending for its progress and protection on the character, culture and conduct of the people enjoying its blessings.

“People during the recent years have been so engrossed, so sort of inebriated by the exuberant marvels of purely mechanical achievement that they have in a measure, closed their minds to the moral, ethical and economic problems confronting the world. It is from the library—the storehouse of human experience—that the highest help in reaching righteous decision will come. It is in the heart of humanity that its destiny is determined, and it is in the library and its uplifting atmosphere that the heart and its righteons will-power grows.”

TRACK SQUAD PLACES IN DETROIT EVENTS

B. Grim, ’27, was the best point winner of the group of track men sent to the Michigan A. A. U. meet at Detroit on January 31. He took second in the 300-yard run and was forced into second place in the standing high jump after tying for first. F. C. Alderman, ’27, ran third in the 300-yard feature falling behind his team mate when he had been predicted to win. L. Kurtz, ’26, captain of the Green and White squad took third in the high jump. C. E. Ripper, ’26, was third in the 100-yard run with J. L. Killoran, ’25, fourth in that event. Paul Smith, ’28, Saginaw took first in the twelve-pound shot put with a distance of 43 feet, three inches. Woods, also a freshman, finished second in the 600-yard run. The meet was characterized by keen competition and a high standard of marks was set by the entries.

INDIANA TOO STRONG FOR M. A. C. WRESTLERS

Aspirations of the M. A. C. wrestling team for Conference honors received a severe set back at the hands of Indiana on January 31, the visitors made a complete sweep of all events taking five falls and two decisions and demonstrating the form which gave them a hold on the title in 1924. Most of the bouts were well-contested, however, and the crowd which packed the gymnasium was kept constantly alert through the good showing of Coach Burhans' men. Captain Hansen, a consistent winner in the 135-pound class was out of the meet because of an injury received in training, his understudy, Premo, failed to measure up to the standard of the leader of the team.

Richard Barker, coach of the Michigan wrestlers referred the meet and explained the teclinic of the sport for the benefit of the spectators.

The summary:

115-pound class: Eberhart (Indiana) threw Gibbs. Time: 11:00.
125-pound class: Held (Indiana) decision over Williamson. Time advantage 2:29.
115-pound class: Reed (Indiana) decision over Houghton. Time advantage 1:53.
Unlimited class: Childs (Indiana) threw Opfer. Time: 7:00.
Nominating Committees

President Rogers, as directed by the constitution of the M. A. C. Association has appointed the following committees, each to prepare a complete list of candidates for office and report their choices so that they may be printed in The Record by March 20. Members are urged to send to the committees their suggestions for candidates. The committees are:

Fred L. Woodworth, '98
Chairman
2244 Edison Avenue, Detroit, Mich.

Willard M. Coulter, '18
1265 Randolph S. W.
Grand Rapids, Mich.

Cora Feldcamp, '05
1211 Delafield Place N. W.
Washington, D. C.

W. R. Rummler, '86
Chairman
1212 Tribune Bldg., Chicago, Ill.

O. W. Schleussner, '12
Box 1052 R. D. 5, Los Angeles, Cal.

Mrs. E. W. Ranney, '99
Greenville, Mich.

At the annual meeting on June 20 the following offices are to be filled: President, Vice-President, Treasurer, one member of the executive committee for a term of three years, two members of the board of directors of the M. A. C. Union. All officers must be members of the M. A. C. Association in good standing. Executive officials should be close to Lansing so that the pressing affairs of the organization may be handled expeditiously especially during the financing and construction of the Union Memorial building.

Committees must make their selection and report the result to the alumni office by March 10 so that the two tickets may be published in The Record for March 15.

Ballots will be sent to all members of the Association in good standing as of May 1. After the committees make their reports there is an opportunity for nominations at large by any twenty members of the Association in good standing. These nominations must be signed by all twenty members and will be placed on the ballots with the names presented by the two committees, and must be forwarded to the alumni office at least forty days before the date of the annual meeting, or by May 10.

The advantage of this method of nomination is that each member has an equal voice with every other member in choosing the officers of the Association and only members in good standing are allowed to vote.
VARSITY LOSES TO HOPE AND FRANKLIN
Basketball Team Defeats Earlham on Out of State Trip; Lack of Tight Defense and Failure to Locate Basket Disastrous in Farmers’ Week Contest.

Franklin college of Indiana, and Hope college both registered victories over the M. A. C. basketball team and Earlham college of Indiana was defeated, in a week of competition. Earlham was beaten on its home floor, 24 to 23, in an overtime period, Franklin, champion of the middle west, won its game in Indiana by 34 to 14. Hope scored its first win in some years over the Green and White on the East Lansing court, 26 to 22, on February 3, on the athletic feature of the Farmers’ week program.

In their two games in Indiana the Green and White players demonstrated a generally improved offensive. None of their tactics could match those displayed by the Franklin combination, however, and in that contest the M. A. C. team was without the services of Captain Nuttila whose showing the past week or so has improved. McMillan is on the way to better form than he has displayed thus far.

The Hope game was lost through the inability of the team to make its shots count. There were many opportunities to pile up a commanding lead but they were wasted when the ball failed to go through the hoop at the end of an advance down the floor. The last few minutes brought a desperate drive by the home forces and they came within a second of winning the game for the timekeeper’s watch had failed to work properly and the referee’s whistle stopping the game barely preceded a basket made by Hultman. Play was again resumed after what had been supposed to be the final whistle but neither team scored during the last five minutes. Hope led at the end of the half and kept the lead through much of the game.

Coach Taylor’s freshmen basketball team defeated Highland Park Junior college at Highland Park, 26 to 22, on February 3, in the first appearance of the 1928 combination. R. Jagnow, center, and G. Jagnow, forward made eight field goals between them, the former making five. The first year men were represented by Christianson and G. Jagnow, forwards; R. Jagnow, center, and Russo and Drew, guards.

Scoring power and exceptional team play characterized the game.

The summaries:

M. A. C. (24) Earlham (23)

Nuttila F (C) Wallace
McMillan F (C) King
Mason C Huntsman
Richards G Spaulding
Frederick G Greene

Field goals: M. A. C.—Nuttile (6), McMillan, Mason, King (3), Huntsman, Kessler, Kennedy (3).

Substitutions: M. A. C.—Hackett for McMillan; Hultman for Frederick.

Earlham—King for Wallace, Huntsman for Wallace; King for Hackett.

Franklin (34) M. A. C. (14)

Gant F Hackett
Peterman F McMillan
Friddle C Mason
Ballard G Richards
King G Frederick

Foul goals—Franklin: Gant 1, Peterman 1, Friddle 1. M. A. C.: McMillan 1, Mason 1.

M. A. C. (19) Hope (20)

Nuttila F Irving, Kleis
McMillan, Hackett F Ottipoby
Mason, Bilkey C. Yonkman
Richards G Riemersma
Frederick, Hultman G VanLente

Score at end of half: Hope 11, M. A. C. 10.

CLASS NOTES

'S1
A. B. Turner, '81 class secretary, writes: "E. C. McKee suffered a hemorrhage of the brain early in December. He is improving but is still very nervous. He lives in Glendale, California, Route 2, Box 176. C. D. Phelps of Manton, Michigan, has been laid up for some time with lung trouble. Both of these men would appreciate a word of greeting from their M. A. C. classmates."

'S2
Mrs. Alice W. Coulter of Grand Rapids is spending the winter months at the Estes House at St. Augustine, Florida, and reports that she is "greatly enjoying the sunshine in that historic city."

'S1
George C. Monroe of South Haven reports that F. W. Ashton, '91, of Los Angeles, California, is the attorney for the James Investment company.

'S6
Mary Tingley's blue slip reads: "Am staying at my old home at Manitou Beach, Michigan. Was glad to note in late issue of THE RECORD the new name given the wild flower garden—a spot so dear to the heart of Dr. Beal. Just received a letter from Bernice Maynard Allen, '07, special, who is living at Rainier, Oregon. She has three little girls. Her husband's name is Eugene A. Allen."

'S9
The buttermaker for the Northern Creamery company at Traverse City is R. M. Reynolds.

'S11
F. C. Wilson will be working out of Madison this winter, and requests that mail be addressed to him Room 520, City Y. M. C. A., Madison, Wisconsin.

'S12
Donald M. Bennett is in the manufacturing engineering department of the Olds Motor Works at Lansing, and lives at 516 S. Pine street.

'S13
E. W. Brandes lives in Washington, D. C. at 3250 R. street, N. W.

'S14
George T. Smith severed his connections with the Westinghouse Electric and Manufacturing company last August, and entered the employ of Fairbanks, Morse and company of Indianapolis. He is still in the same kind of work, the designing of medium and large size induction motors. He may be reached at 1132 West 36 street, Indianapolis.

Carbon Monoxide Gas

We know that CARBON MONOXIDE GAS is a frequent cause of motor fatalities. We are especially reminded of it at this time of the year.

This gas is a product of combustion from either stationary or automotive gasoline engines. It is invisible, odorless, tasteless, and non-irritating. To inhale a seemingly negligible quantity means almost immediate loss of life.

Knowing this, it is clearly our duty to warn the owners of cars not to run their engines when garage doors or windows are closed.

Join us in this work of safeguarding life. The only sure protection against CARBON MONOXIDE GAS is fresh air and ample ventilation.
Harry E. Rosselit is cashier of the Commercial State bank of Shepherd, Michigan.

'15
A postmaster says that F. M. Keyes has moved to R. 1, West Riverside, California.

'17

All Together, Now!!!

Are you ready when the song leader gives the signal?
When the bunch sings the old songs don't just hum the tune.
All of M. A. C.'s best songs, with the music, are included in an attractive booklet of convenient size.
You boosters of the Green and White need it on your pianos.
It is indispensable for branch association and club meetings.
Your copy will be mailed prepaid upon receipt of 50 cents at the alumni office. Attractive prices for group orders.
The proceeds will be applied to the Memorial Union Building Fund.
Newspapers in Magazine Form

Unlike anything published today! Alumni weeklies, monthlies and quarterlies are carrying live news items of the colleges and personal friends to those men who are doing the majority of the big jobs.

Honestly, isn’t this a good time and place to register your name or your product?

We are sure you feel friendly toward the advertisers in this, your own publication.

We believe that your company will benefit from advertising in this and other alumni magazines.

Forty-four alumni publications have a combined circulation of 160,000 college trained men. Advertising space may be bought individually or collectively—in any way desired. Two page sizes—only two plates necessary—group advertising rates.

The management of your alumni magazine suggests an inquiry to
