The M. A. C. RECORD

Established 1896

Published for the alumni and former students of the Michigan Agricultural College by the M. A. C. Association.

Published weekly during the college year and monthly during July, August and September; thirty-five issues annually.

Membership in the M. A. C. association, including subscription to The Record, $2.50 per year.

Unless members request a discontinuance before expiration of their memberships it will be assumed a renewal is desired.

Checks, drafts and money orders should be made payable to the M. A. C. Association.

Entered as second class matter at the post office at East Lansing, Mich.

ROBERT J. McCARTHY, '14, Editor.

THE M. A. C. ASSOCIATION
3 Faculty Row, East Lansing, Mich.

OFFICERS—1924-25
Frank F. Rogers, '83, Lansing, President
Arthur C. MacKinnon, '85, Bay City, Vice-President
Luther H. Baker, '93, East Lansing, Treasurer
Robert J. McCarthy, '14, Secretary

EXECUTIVE COMMITTEE
Members elected at large
Henry T. Ross, '04, Milford, Mich., Term expires 1925
Clifford W. McKibbin, '11, East Lansing, Term expires 1926
G. V. Branch, '12, Detroit, Term expires 1927
W. K. PruTudden, '78, Coronado, Calif., ex-officio
Harris E. Thomas, '85, Lansing, ex-officio
E. W. Ranney, '00, Greenville, ex-officio

WHAT DO YOU WANT FOR JUNE 30?

While considering commencement and its attendant reunions there is an extra goal for the alumni to reach this year and that is the completion of the Union Memorial building so that it may be ready for use during the day of June 20. The success of this project depends upon the rate at which payments are made to the Union Memorial building fund, as they determine exactly the extent to which commitments can be anticipated. If the funds are received as due this proposition is a possibility.

In case the building has reached that stage of completion where it can be used on June 20, it will only be possible to use the basement and first and second floors. This space, however, will insure a place for the alumni luncheon and proper facilities for the president’s reception and alumni dance in the evening.

This portion of the building will include the cafeteria and kitchen on the first floor and the dining room and assembly room on the second floor. In addition to these there will be the barber shop and beauty parlor in the basement and the billiard room on the first floor with the check room and rest rooms, also in operation. Most of these will prove of interest and of use to returning alumni. Were it possible to complete the guest rooms further accommodations could be offered those coming back to the Campus, but that will not be possible.

In any case the Union Memorial building will prove a valuable convenience to the alumni day crowd should it be in commission by June 20. If the building is open you can register at the desk in the main concourse instead of at a table under a tree or at the present alumni office, you can be assured of a luncheon, the cost of serving which will not be much greater than that in the ordinary restaurant, you can look for the first time on some of the important features of the only project of its type the alumni of M. A. C. have ever attempted, you will have a meeting place where your friends can find you, a headquarters for the day, you will have the added pleasure of knowing that you have helped in the addition of this building to the facilities now offered on the Campus.

There is not much more to offer because the preparation of the program for the day is being delayed until it is known whether or not alumni sentiment is strong enough to insure that the building will be ready. In case it is ready a special celebration will be staged in honor of the event which will overshadow all previous alumni meeting programs.

One question which has been raised is the advisability of renewing the alumni-varsity baseball game as a feature of alumni day. It has been difficult in the past to keep the varsity team at East Lansing for that day and it has also been difficult for the alumni to gather a representative team so that the game might be worth watching. Efforts have been made to have a high class opponent for the varsity come to East Lansing on that day so that the event might take on more of the aspect of a competitive event but it has been almost impossible to get the type of opposition most desired for such a game.

Dr. Bessey, professor of botany, has contributed three addresses missing from the files of the alumni office taking three names off of the list printed last week. If you know of anyone listed please send the information to the alumni office.
ALUMNI ARE ACTIVE
AT FLORIDA RESORTS

An alumnus reports the following news of alumni in Florida and other places:

Prof. James Satterlee, of the class of '69, is spending a couple of months in Florida. He was several days with the Garfields in DeLand, a week at Daytona beach calling upon numerous Lansing friends and then goes to Orlando, Miami, to see Prof. Bailey, rounding the peninsula and calling upon numerous friends on the west coast, hoping to return by water from Jacksonville to Baltimore spending a few days in Washington.

Dr. A. H. Phinney, of the class of '70, who spends his winters at St. Petersburg, Florida, has become greatly interested in the early history of the state sifting the evidence concerning the first Spanish settlements and contributes a very convincing article to the Florida Historical Quarterly for January insisting that he has unquestionable evidence that not St. Augustine but St. Petersburg is the oldest town in the United States.

Charles W. Garfield, of the class of '70, is spending a quiet winter at DeLand, Florida, contributing occasional articles to the Michigan Tradesman. The one in a current number urges that the great service of the family physician is gradually losing out in these days of specialists in medicine and illustrates graphically the great influence of the general practitioner upon family and neighborhood life in the striking examples of Ian MacLaren's "Dr. McClure", Oliver Wendell Holmes' "Dr. Kittridge", and Margaret DeLand's "Dr. Lavender."

A recent letter from Prof. E. M. Shelton, '71, of Seattle, says he is enjoying retired life, given somewhat to gardening, but whose chief enjoyment is in maintaining a harbor for the periodic return of his children and grandchildren. He speaks of a recent visit with Prof. C. C. Georgeson, '78, who occasionally sallies forth from a busy life in charge of the Alaska agricultural experiment stations.

John F. Nellist, '99, and his wife, Clara Waterman Nellist, '02, returned in January from a very enjoyable automobile trip from their home in Grand Rapids, Michigan, to Dallas, Texas. Mr. Nellist is engrossed in map-making, largely for the Michigan State Highway department, but finds time to build houses and can turn his hand and head to almost any service, and is a most useful man in his community.

WKAR OFFERS LIST
OF STUDY COURSES

An extension school over the radio which will give courses in various subjects and award certificates to successful students is the latest venture of WKAR. Beginning this week there will be a series of lectures which will conclude May 8 and by the time the session of this school is finished several subjects will have been covered. The first on the list is agricultural engineering, this will be followed in succession by discussions of farm crops and soils, livestock, gardening, and home making.

Ralph Tenney, '19, director of short courses, is in charge of registrations for the courses and individuals may enroll by mail. Each person registering will be sent copies of the lectures applying to the course he or she selects, and an examination at the conclusion of the school will determine the successful applicants for certificates.

This is the first attempt to use the radio station for specific educational purposes. It is the first time in this section that a radio station has been used for such a purpose in connection with agriculture. Its appeal should be wide enough to attract students from all sections of the state. While these courses are being given the station will operate each evening, except Friday, Saturday and Sunday, from 7:15 to 8:00, eastern standard time. Other programs which have been established as part of WKAR's schedule will be sent out as usual. WKAR operates on a wave-length of 285.5 meters and its minimum power limit is 500 watts.
New Type of Alumni Meeting Would Bring Together Small Groups of Former Students to Hear Program from WKAR on May 13—Plan Regular After Dinner Session.

Something entirely new in the way of alumni meetings is being prepared for May 13 when it is expected more alumni and former students will get together than on any former occasion. It is proposed to mark May 13, the anniversary of the opening of the College, with a program sent out by WKAR and devoted to alumni and their activities in behalf of the College but it is proposed to make this program something a little more than that, if the plans now under consideration can be carried out the program will take the form of an after dinner affair with a toastmaster and music as well as the type of talks which will be of interest to all who have ever been in contact with the College in any way.

Last May 13 a short program was sent out but apparently its reception by any number of alumni was not possible because of atmospheric conditions or the imperfect working of the station. This time the new equipment of WKAR will insure the success of the project for this equipment has a sending record of some nine thousand miles and it has been gaining marked recognition from points all over the United States since it started on duty for the College the first of this year.

There need be no general gatherings to make this alumni meeting a success. None of the participants need travel any great distance because of the number of receiving sets in almost every section where there are alumni. An effort will be made to have definite arrangements carried out so that alumni owning receiving sets will make up parties for the evening from among those whose sets are not quite so satisfactory. This will make possible the reaching of the largest number of alumni and the program will be well worth while. If you feel that your set is adequate to handle a heavy program, make up your own party for May 13. Remember that WKAR has reached the Pacific coast on most of its late programs and that its wave-length is 285.5 meters.

Liberty Hyde Bailey, ’82, former dean of the college of agriculture of Cornell university was one of the chief speakers at the Farmers’ week meeting at Cornell starting February 9. Eugene Davenport, ’78, former dean of the college of agriculture of the University of Illinois occupied a prominent place on the M. A. C. Farmers’ week program. Thus two alumni who passed their period of greatest activity in the development of agricultural education are called upon to further the work.

W. C. Johnson, ’24, football and baseball player, will go to training camp with the Detroit American league baseball team for a trial as a member of the pitching staff. Johnson captained the 1922 football team and played first base and pitched on the varsity nine.

The Holcad appeared on red stock in its February 24 issue. Its excuse was to draw attention to the campaign for the change in the name of the College. Preparations were made to have a copy of the publication delivered to each member of the legislature.

A. B. Cook, Jr., ’23, had charge of a farmers’ day program at Ionia, where he teaches agriculture in the high school, which had an unusually strong list of speakers. Included among those who addressed the crowd were President Butterfield, A. B. Cook, ’93, Aaron Sapiro, nationally known expert on co-operative organizations, and Dean Vivian of Ohio State. The affair was put on February 18 at the Ionia armory under the auspices of local organizations and a bank.
In this issue there is introduced a proposal for a new type of alumni meeting. It is not one which requires expense on the part of the individual or the organization. You can have it in your own home or that of a neighbor. It is made possible through the acquisition by the College of a high class radio broadcasting station and will include a program attractive to the oldest and youngest graduate or former student.

Were it not for the inspiration and enjoyment of seeing the old Campus and the attraction of meeting College friends, alumni reunions would soon become a thing of the past and would be replaced by meetings of this sort. However, the inventors of radio appliances have yet to demonstrate that they can provide apparatus by which individuals can seek out and talk with other individuals and improvements that will bring old scenes to the individual without causing him the inconvenience of leaving his home.

The type of meeting planned for May 13 is proposed to take the form of a banquet, at least the after-dinner aspects of such a gathering but it will be merely an appetizer with the actual banquet coming on June 20, the date of Alumni Day this year. Hearing speakers from the Campus and music from the same source should conjure up visions of undergraduate life of sufficient appeal to induce the hearers to make all preparations immediately to gather with their classmates at East Lansing. Strong as it is there is little enough of appreciation for the institution and the memories its old campus treasures for those who return to see it. It is this spirit which brings to the individual and the College the richest heritage they can have and one which will increase in value as it is passed down through student and alumni generations. Affection for and devotion to the elements of value in the life of the nation are investments which bring rich returns, the greater the investment the richer the return.

The executive committee of the M. A. C. Association has taken important steps to insure the completion of the Union Memorial building all of which are based on the belief that the alumni of the College will live up to their promises to pay their pledges to the fund. Work in connection with a project of this sort always falls to the lot of a comparative few. It is undoubtedly best that it should be done by a small number acting on the instructions from the general membership but all that they do must depend for its success upon the willingness of those who elected them to give their full support. This means now the payment of pledges, it means paying them promptly, and where possible, their payments ahead of the dates on which they are due. Upon the individual who has signified his desire to participate in the financing of the Union Memorial building falls the responsibility for having it ready by Commencement time, the members of the committee can carry out the wishes of the association so long as they are provided with the proper instruments for their task, the instrument necessary in this case is cash. Your share will help.

It is expected that the Union Memorial building will provide quarters for the alumni office which will be heated uniformly and which will be usable during the coldest and the warmest weather of the year. The present accommodations for the office are not of that nature. It is necessary that the work of the alumni office be continuous in order that it may be efficient. It can be neither unless the space provided for the workers is heated and ventilated with some degree of consideration for the comfort of the occupants.

High school swimming teams have been invited to compete in a state championship meet at the College on March 20 and 21.
"Close Beside The Winding Cedar"

Ernest Schelling, noted American pianist, appeared in a number on the Liberal Arts course at the Gymnasium, February 17.

The burning of a motor in the elevator installed in the new hospital resulted in a call for the East Lansing fire department on February 23. The damage was confined to the machinery.

C. B. Collingwood, '85, was the chief speaker on two radio programs and at several meetings held in and near Lansing during Boy Scout week. He is scout commissioner for the Lansing district.

The physics department has taken over the quarters in the forestry building basement, formerly occupied as a photographic laboratory by Ralph Harford, '14, college photographer, and will use the space for an electrical laboratory. Harford has moved his equipment to the basement of the old library.

Last week's heavy rains made sections of the Campus miniature lakes. At the point where the old post office stood there is no evidence of sidewalks and the new entrance to the Campus is full of pitfalls for the unwary driver. It is expected that many of these faults will be corrected when workman can again commence operations on the grounds.

Nearly 3,500 miles of improved roads, of which 1,195 miles is concrete and 238 miles macadam, have been added to the state trunk line system since 1920, according to a statement recently issued by Frank F. Rogers, '83, highway commissioner for Michigan. Rogers has been the chief executive of the state highway department for the past twelve years and for seven years previous to that was deputy commissioner. The present deputy commissioner is G. C. Dillman, '13, who succeeded Leslie Belknap, '09, in that position.

Members of the Association whose dues are paid up as of May 1, 1925 will receive ballots to vote on the officers of the organization for 1925-26.

John T. Fredericks, editor of "Midland" and noted as the author of several novels, addressed an audience at the People's church, February 18, on "Contemporary American Poetry."

A surprising amount of energy has been developed by the Red Cedar under the impetus of melting ice and rains. The calm guardian of the Campus is rushing along with banks flooded and threatening some of the trailer bridges which cross it.

If commencement time is to find the Union Memorial building in operation payments on pledges must be sent in immediately. Financing the construction depends solely upon the prompt payment of pledges, there is no other way in which it can be constructed and remain the gift of the alumni and friends of M. A. C.

It is probable that the College will next year offer a course of classification of soils, for graduate students. This is designed to train men for the work which has been undertaken by many states. In Michigan it is being carried out under the direction of L. Whitney Watkins, '03, commissioner of agriculture and chairman of the State Board of Agriculture.

Women swimmers from Ypsilanti Normal took first place in the intercollegiate meet held in the College pool on February 21. Dorothy McWood, '26, national champion in the plunge for distance took that event, with Myrtle Lewton, '25, second. M. A. C. took second in the 120-yard relay, Sylvia Schimmel, '26, scored fourth in the diving competition, first in the 50-yard free style, and second in the 50-yard breast stroke. Sylvia King, '25, was third in the 50-yard back stroke.
TRACK MEN SET NEW MARKS

Relay Team and High Jump Records for Gym Bettered During Defeat of Kalamazoo—Franklin College Adds Victory to String at Expense of Basketball Squad.

With a team whose members had played together since before entering college, Franklin (Indiana) found the Green and White five a comparatively easy victim when it invaded the East Lansing court on February 20. The final score was 28 to 16 in favor of the visitors and might have been considerably larger on both sides had not the Franklin team resorted to energy conserving tactics in the second period.

Franklin had already registered two defeats over Notre Dame when it faced Coach Kobs' men and had a record unscathed except for the two victories scored over Wabash. In 1924 the Franklin five was undefeated so the class of play was top-notch when the team was in motion. On the other hand the M. A. C. squad also exhibited a pleasing form guarding well and counting on long shots in a manner which it has not previously demonstrated this season. Mason, Nuttila, Robinson, and Frederick did all of the scoring from the floor. Early in the first half the home team was within three points of the visitors but at the close of the period Franklin led, 21 to 11.

Score at end of half: Franklin 21; M. A. C.: 11.

Missed fouls: Nuttila (1), Frederick (1), Gant (1), Ballard (1).

Except for a weakness in the half-mile run, the M. A. C. track team this season possesses one of the best balanced squads in several years.

Rupp, Zimmerman, Alderman and Grim made the victory over Western State Normal certain when they smashed the relay record for the gymnasium and took the honors in this event from the Kalamazoo team, the final score showing, M. A. C. 48, Western Normal 38. Two local records were lowered and one equalled by the M. A. C. men. The relay team set a mark of 1:41.8 for the half-mile event reducing the old mark of 1:43.5 set in 1920. Captain Loyd Kurtz reduced the record of five feet eight and five-eights inches to a flat five feet eight inches and Bohn Grim equalled the mark of 250 established by DeGay Ernst in the 440.

The summary:

Pole vault—Sage (W. S. X.) first; Miner (M. A. C.) second; Cooper (W. S. X.) third. Height—11 ft. 6 in.

40-yard dash—Alderman (M. A. C.) first; Grim (M. A. C.) second; Attenberg (W. S. X.) third. Time—4 sec. 6-10 sec.

Mile run—Klasse (W. S. X.) first; Ripper (M. A. C.) second; Collisi (W. S. N.) third. Time—4:47.4.

440-yard dash—Grim (M. A. C.) first; Weaver (W. S. X.) second; Checkering (W. S. X.) third. Time—56 sec.

High jump—Kurtz (M. A. C.) first; Landquist and Richards (W. S. X.) tied for second. Height—5 ft. 8 5/8 in.

40-yard low hurdles—Alderman (M. A. C.) first; Zimmerman (M. A. C.) second; Stammann (W. S. N.) third. Time—5.3 sec.

Shot put—Grosvenor (W. S. N.) first; Surato (M. A. C.) second; Johnson (W. S. X.) third. Distance—35 ft. 10 in.

40-yard high hurdles—Van Noppen (M. A. C.) first; Kurtz (M. A. C.) second; McDowell (W. S. X.) third. Time—5.7 sec.

880-yard run—McDougal (W. S. X.) first; Klasse (W. S. X.) second; McDowell (W. S. X.) third. Time—2 min. 59.9 sec.

880-yard relay—Won by M. A. C. (Zimmerman, Rupp, Grim and Alderman). Time—2 min. 41.8 sec.
HOME COMING DAY ON OCTOBER 31

Colgate Game to Be Attraction for Alumni Event; Boy Scouts of State to Be Entertained September 26; Parents' Coming to Campus November 7; Centre and Colgate Seats Reserved.

Homecoming day for the fall of 1925 has been set for Saturday, October 31, when Colgate university football team plays at East Lansing. With the Michigan game scheduled for Homecoming last fall the day lost much of its significance as an alumni occasion but this year's prospects point to an event which can be made important for alumni, provided the Union Memorial building is in operation at that time.

Other plans for the football season include Boy Scout day at the opening game. Last fall 2,600 scouts availed themselves of the opportunity to visit the Campus and attend the game, plans are under way which should increase this number by several hundred and develop the attraction of the occasion. It is anticipated that scout authorities may be induced to make the date a field day when championships may be awarded for proficiency in the arts of scouting and that the youths will come to East Lansing the night preceding the game and use the College picnic grounds as a camping place. Boy Scout day has been set for September 26, the opening game of the football season when Adrian plays at the stadium.

On October 10, the date of the Lake Forest game, the boys of Lansing and East Lansing will be guests of the athletic department. The special program will be concluded with the final home game of the season, that with Toledo university on November 7, when Parents' day will be observed. The latter event drew 600 parents and near relatives of students in 1924 and a much larger response is anticipated for next fall.

For the five home games the athletic department will sell books of tickets for $7.00 each. These will insure the holder seats at the Centre and Colgate contests, which will be $2.50 each, and admission to the three minor games on the list. Applications will be mailed to all whose names are now on the list and to others who request them. It is probable that the time limit on these applications will be advanced a month or more beyond the time set last fall for the Michigan game because the games included come later on the schedule.

OLD TIMERS AGAIN

CHALLENGE REGULARS

"Brownie" Springer, secretary of the alumni varsity club, erstwhile baseball and football player and coach of Lansing high school's athletic teams in addition to his duties with the monogram wearers' organization, trots under the basket with the declaration that the alumni basketball forces will be marshalled for combat with Coach Kobs' varsity squad on March 14.

In order to insure the success of the project, Larry Kurtz has been appointed general manager of the alumni team with instructions to spare no effort to have the best possible combination on the floor.

Now Kurtz saw his organization go down to defeat before the Green and White regulars last spring and is thirsting for revenge. This opportunity will give him a chance to prove his mettle and decide for all time whether or not he is fitted to undertake the numerous duties thrust upon him in 1924 for the game this year will place the crown of victory on either the varsity or alumni team for two out of three games. Thus it is that Springer's orders to Kurtz are of the "shoot to kill" variety, though of course the shooting is to be done at the basket and the score of the varsity is the object of the death threat.

Perhaps Kurtz, managing director of the alumni forces, will find his way smoother than it was last year. He is banking that
“Red” Eva, staunch guard in two year’s competition for the Green and White and “Muggs” Ralston, a forward of like ability on two recent teams will be in shape to take part. The former is still in College and the latter is chasing carloads of fruit for one of the freight systems specializing in that class of commodity. In addition to these, Larry, himself, may sharpen his shooting eye for the occasion and Frimodig is keeping in good form at the gymnasium ready for the whistle.

In addition to those listed, Sherman Coryell, John Bos, George Gauthier, C. F. Ramsay, N. M. Spencer, O. R. Miller, Ralph Dodge, Al Brown, and a considerable number of other former lights have been invited to take part in the program. It is also probable that Byron Murray will be asked to saunter forth from his winter retreat at Mason, where he builds roads for the county, to join in the festivities.

Springer announces that he and Dell Vandervoort, president of the club, are working on a program which will be put on following the game. It will undoubtedly include several talks and other fixtures of such an event.

Detroiter's Doings

A very urgent demand for another one like it is the best way to describe the dancing party held by the Detroit club on February 5 at the Federation of Women’s clubs. More than 95 couples spent a pleasant evening tripping to the strains of Betty Schmultt’s orchestra. A number of vocal solos by Mrs. Elizabeth Cunningham added much to the enjoyment of the evening. The attendance of a large number of the younger alumni was most gratifying. Another of the same kind was the request of all present, but it was decided to wait till after Easter before staging another dance.

Among the events of the evening was the election of three new members on the board of directors. After all the smoke had cleared away and the ballots were counted, it was found that E. C. Krehl, '08, E. C. Pokorny, '23, and C. E. Johnson, '23, were the new faces on the board. Later on officers for the following year were selected as follows: W. G. Knickerbocker, '16, president; A. W. Barron, '16, vice-president, and C. E. Johnson, '23, secretary-treasurer.

Plans are on foot to have President Butterfield address the Detroit alumni sometime in the near future. Watch The Record for further announcement of this meeting.

Class spirit was shown to be alive yet in the February meeting of the men of the class of 1923. Ten of them gathered for dinner and a show on Saturday evening, February 7. Out-of-town visitors included G. E. Starr, '06, and P. H. Harmer of the college extension staff; H. K. Menhenick, '23, now with the department of landscape gardening; George Irvine, Ann Arbor; W. A. L. Willard, Milan, and W. C. Johnson, Birmingham.

H. H. Bradley, '13, who for some time has been selling black diamonds in a coal yard at Romeo, Mich., is now located in Detroit selling real estate for the Judson Bradway company.

All M. A. C. alumni who get hungry on Thursday are hereby notified that they can get a man-sized lunch mixed with a lot of M. A. C. cheer at the Oriental Cafe on Michigan avenue across from the new Book-Cadillac hotel. The gang usually gets together about 12:15 and has a big hand for all alumni, young or old.

CLASS NOTES

'08

C. G. Burroughs is the proprietor of a baby chick hatchery at Madison, Wisconsin. He is also engaged in building and selling homes and general real estate. He lives at 2609 Monroe street.

Edbert C. Russ is director of athletics and physical education at the Creston high school at Grand Rapids, Mich. He has held similar positions at various schools and colleges, among them, Adrian high school, Detroit central high school, Adrian college, and DePauw university.

'10

Mary F. Baldwin is teaching domestic science in the Central high school at Grand Rapids, and is also directing the lunch room of that school. She lives at 638 Fulton street east.

A. H. Perrine says that he is milking cows, all registered Holsteins, at Rives Junction, Michigan. One is a 36-lb. cow.

'11

Aaron C. Button is a physician and surgeon in Saginaw, Mich.

Lyla Smith Babbs is living in Grand Rapids at 851 Calvin avenue S. E. She received her degree in music from Coe College, Cedar Rapids, Iowa, and later graduated from the American Conservatory of Music at Chicago. She has been in choir and concert singing work.

Robert C. Brodie is farming at Lind, Washington.

John A. Aberle, a Detroit realtor, is a candidate at the University of Detroit for the degree M. S. in land economics. He intends to enter Harvard next year as a candidate for doctorate in business administration.

Since 1010, Eugene H. Brown has been a mis-

Charles Thulergen is "selling real estate but not by the gallon" at Fort Myers, Florida. He is reached at 205 Pythian building.

12

Arline Baudou is at Harvard completing his course for the degree of Master of Landscape Architecture, and may be reached at Cambridge, 1923 Cambridge street.

Charles T. Bradley is in the retail coal and building supply business at Romeo, Michigan.

Orley G. Barrett became county agent for Mason county Michigan July 23, 1924. His home is in Scottville.

Sam Beck is a Lansing clothier, with his store at 112 North Washington avenue.

R. B. Delvin says that his new address is 2022 G street, Eureka, California.

Hermon Groothuis can't get over his school days, he is attending night school at the University of Pennsylvania, taking a course in public utility management. Groothuis is with Day & Zimmerman, Inc., consulting engineers, of Philadelphia, Pennsylvania. He says that they have just started the addition of a 25000 K. W. turbo generator to the plant which they built two years ago.

John A. Holden of Mitchell, Indiana, expresses it briefly: "Growing apples, cherries, and peaches. One wife, one child, a girl age 5." The Holdens are located on the Dixie highway, and the door swings wide for any M. S. Cites passing through.

R. S. Launzer reads his Record at 17235 Swift avenue, Detroit.

14

Herbert T. Bledzki is head of the department of agriculture and of biology at Taylor University, Upland, Indiana. He writes: "Have written a 'thin' book of verse, not published yet; also a book on the sand dunes of Lake Michigan, not yet published. Have invented and used for a number of years a very superior dissecting microscope, a hand microtome, especially valuable for its use of mullein pith, as a substitute for ordinary imbedding, and its simple construction as well as the excellent character of the work which can be done by it or with it. I have a system of laboratory lighting for work with the compound microscope that has been given notice in Turton News. I have a named collection of seeds of our wild plants about 500 specimens, also a superior method of mounting seeds for study and comparison. I have made large collections of grasses and also of legumes, all mounted."

15

Ruth Beebe teaches English at the Detroit Northwestern high school. She lives at 4004 Edmonton avenue.

Mae Lammstein Byerly lives in Owosso, Michigan, Michigan, at 627 N. Ball street.

Laura Trebleck Anderson performs her housewife duties at 540 Avon street, Lansing.

16

Helen Storrer Beebe resides in Detroit at 5223 Alkendale ave.

Wallace Beden is a life insurance counselor at Lansing, living at 601 S. Walnut street.

Howard Beatty is the coach at the Saginaw, Michigan high school. He lives at 925 Tuscola street.

Rose Coleman may be reached at 513 E. Locust, Davenport, lowa.

700 Hoyt avenue, Saginaw, Michigan, will reach Mr. and Mrs. C. N. Winston.

Harold J. Horan is resident bridge engineer for the Michigan State Highway department, and is located in Lansing. His residence is at 206 Clifford street. He writes: "Still working for the Mrs. daughter, and son. The two latter should be ready for 1942 and 1945 classes, but they are listening in on WKAR at present."

17

William Anderson is specializing in the growing of peaches, melons, and grapes on his farm near Benton Harbor.

Hugh Blacklock is deputy sheriff of Kent county, and plays professional football on the side. He lives at 26 Fuller avenue S. E., Grand Rapids.

Eileen Wilson Bogan is instructing young Robert Thomas and Kathleen Marie the proper — well, whatever is proper for children. She lives at Roselush, Michigan.

Victor R. Coolidge is a resident bridge engineer located at Clare, Michigan. William Craig was born January 10, 1925.

18

Mr. and Mrs. M. H. Pancost, 1101 Climax street, Lansing, announce the birth of Richard Ogden on February 12.

19

Arthur W. Atkin may be reached at 7 Elmhurst street, Highland Park, Michigan.

64 S. Broad street, Battle Creek, Michigan, reached Charles O. Butler.

"Still" has a distinct meaning for R. C. Sweeney. According to his blue slip he is "still" with the Ohio State Department of Health as assistant sanitary engineer, and is "still" single.

20

Raymond Buell is tariff clerk for the Erie railroad. He lives in Garrettsville, Ohio.

F. G. Daha is in Chicago, Illinois, at 1007 E. 60th street.

Herbert J. Andrews is a deputy collector of internal revenue with the sixth district of Cali-
The M. A. C. Record

California, located in the Federal building at Los Angeles, Calif.

"21

Future Records will be sent to H. D. Allen at 451 Norwood avenue S. E., Grand Rapids.

R. B. Coulter says that mail addressed to Box 381, Hammond, Indiana, will reach him. Coulter along with John Hamms, Ivan Sours, and Arthur Strange are connected with SafeSeed, Inc. of Chicago. This organization is in conjunction with the Federated Seed Service, which was organized last fall.

Post office notices read that Larry Ross is in Niles, Michigan.

Roy Maitland is with the Commonwealth Power corporation at Jackson, Michigan. He says: "It would be writing an M. A. C. directory to give the names of all the men from M. A. C. working for this company. I can count ten and I have been here only a week. No doubt there are several more whom I haven't seen." Maitland lives at 406 Fourth street.

"22

Wayne Gingrich is not connected with the Christman Construction company at Ann Arbor. No later address is on file for him.

Donald Durfee may be addressed at 793 W. Grand boulevard, Detroit.

Frederick H. Knox writes: "Am still general manager over our system of three farms here at Portland, Michigan. We practice extreme diversification, including dairying, crop seed, swine, sheep, beef, fruiting, and fruit production."

Fred Adolph is agricultural teacher and principal of the high school at St. Clair, Michigan. His local address is 200 N. Fourth street.

"23

Ralph Koppana has moved from Milwaukee, Wisconsin, according to a report from the postmaster there. He is in Detroit at 155 Stimson avenue.

L. C. Terwilliger is in Ypsilanti at the Hawkins Hotel. So says the Lansing postmaster anyhow.

Fred Adolph is agricultural teacher and principal of the high school at St. Clair, Michigan. His local address is 209 W. Fourth street.

"24

Elbert Southworth is teaching at Dundee, Michigan.

Harold Zorman is farming near Jonesville, Michigan.

Lyle Smith is a foreman with the Interstate Iron and Steel company, and may be addressed 1401 E. 53rd street, Chicago.

Wilbur Sutcliffe is teaching in the high school at East Tawas, Michigan.

Will Your Children and Theirs go to College?

DO YOU KNOW

— that Brown goes back to his twentieth reunion this spring, and that he has just taken out educational insurance? To this day he doesn't know which parent or aunt or uncle paid most of his school and college bills. But he does know that he can never repay those obligations created, except by insuring ample money for the education of his own two children.

So he has recently arranged endowment policies for both, to mature at the beginning of each school and college year. He believes that his children will more genuinely appreciate their education by paying for it out of their own funds.

And Brown also believes that they will better capitalize their own increased capabilities, on or before graduation, by taking out insurance for the education of the next hoped-for generation, as well as to create an immediate estate and financial guarantee of family unity.

The John Hancock is particularly interested in insuring college men and women and in obtaining college graduates for the personnel of the field staff.

Over Sixty Years in Business Now Insuring Over Two Billion Dollars on 3,500,000 Lives
Anita Wellman is teaching at the School for the Blind at Lansing, and is living at 312 W. Grand River, East Lansing.

John Lauffer is at Kent City, Michigan.

Walter Lensen is an inspector for the State Department of Agriculture, and lives at 114 W. 15th street, Traverse City.

Unlike anything published today! Alumni weeklies, monthlies and quarterlies are carrying live news items of the colleges and personal friends to those men who are doing the majority of the big jobs.

Honestly, isn't this a good time and place to register your name or your product?

We are sure you feel friendly toward the advertisers in this, your own publication.

We believe that your company will benefit from advertising in this and other alumni magazines.

Forty-four alumni publications have a combined circulation of 160,000 college trained men. Advertising space may be bought individually or collectively—in any way desired. Two page sizes—only two plates necessary—group advertising rates.

The management of your alumni magazine suggests an inquiry to
