The M. A. C. RECORD

Established 1896

Published for the alumni and former students of the Michigan State College by the M. A. C. Association.

Published weekly during the college year and monthly during July, August and September; thirty-five issues annually.

Membership in the M. A. C. Association, including subscription to The Record, $2.50 per year.

Unless members request a discontinuance before expiration of their memberships it will be assumed a renewal is desired.

Checks, drafts and money orders should be made payable to the M. A. C. Association. Entered as second class matter at the post office at East Lansing, Mich.

ROBERT J. McCARTHY, '14, Editor.

THE M. A. C. ASSOCIATION

3 Faculty Row, East Lansing, Mich.

OFFICERS—1924-25

Frank F. Rogers, '83, Lansing, President

Arthur C. MacKinnon, '05, Bay City, Vice-President

Luther H. Baker, '93, East Lansing, Treasurer

Robert J. McCarthy, '14, Secretary

EXECUTIVE COMMITTEE

Members elected at large

Henry T. Ross, '04, Milford, Mich., Term expires 1925

WESTERN PENNSYLVANIA
ACTION ASSURED FOR LUNCHEON JUNE 20

Committee Secures Competent Director to Handle Program; General Outline of Events of Day Includes Registration, Visit to New Buildings, Baseball Game, Class Pictures, President's Reception.

So that the enthusiasm of the day may be kept at high tide and the program at the alumni luncheon stand out as one of the liveliest on record, Howard C. Rather, has been chosen by the executive committee to preside over the speakers on June 20, and he has been endowed with absolute power in the case of all who exceed or fail to live up to the limits of their agreements. He is much at a loss just now as the main speaker of the day has not yet signified his acceptance of the honor and the committee is anxiously awaiting the final decision so that proper plans may be made.

In considering the features planned for the day it must be remembered that the feeling that alumni are interested in the College as well as the Union Memorial building, has been taken into account. The first thing to do on June 20, is to register at the Union Memorial building, giving cheerfully such information as may be requested in respect to your name, address and occupation. There will be an opportunity at that time to sign up for class dinners and other such affairs and in preparing for this event remember that there is a tax of twenty-five cents imposed upon all alumni for the general expenses of the day. That is very important since the treasurer has decreed that such extra costs as always accrue for labor, the entertainment of guests and similar duties of the organization must be met out of special funds and not from the treasury, which latter is hardly in a position to stand much of a drain.

With the registering duty accomplished and the fee paid the returners can then proceed to an inspection of the Campus. There will be student guides, members of the Green Key, new official welcoming organization, on hand to see that all are guided around to the various buildings and shown through the Union Memorial building. This will take more or less time as will the informal reunions in the lobby of the Union and by 11:30 all should be in good condition to start the alumni luncheon which will be served on the second floor of the Union promptly at that hour. Arrangements will be made to have members of the various classes sit together, provided they gather in groups before entering the dining room. There will be standards bearing the different class numerals around which the members can gather.

The luncheon will be followed by the annual meeting of the Association. One of the main points to be considered at this meeting is the change in name of the organization to conform to that of the College. It will be necessary to amend the by-laws of the Association to effect this change. There will be announcement of the results of the election of officers and reports. The secretary's report will again be printed and distributed at the registration desk.

Following the luncheon class pictures will be taken in front of the Union building and the way will be clear to the baseball game which will occupy the attention of the crowd from 3 until 5:30. The regulation period for class dinners will follow the baseball game and the president's reception and alumni dance will be held in the Union building, beginning at 8 o'clock.

In the past, too few of the classes have had group pictures taken at reunion time and the chance is this year offered to all who attend to have their's recorded with the Union as a setting for the efforts of the photographer's art.
If anything has been left off of this program which you particularly desire to have included, your immediate advice to the alumni office might result in this being accomplished. There is still some little time available for completing the plans for the day but this is fast vanishing. There is only one thing needed to make the day a complete success and that is a general attendance. The College is composed of people rather than buildings and grounds, reunion time does not amount to much unless it is well attended by representative groups from the various classes. The opportunity this year will be unusual in many respects, sufficiently so to make the day one long to be remembered. Be here Saturday, June 20, all day.

1917 PLANS TO ISSUE ANOTHER NEWSLETTER

Continuing its policy of having reunions regularly the class of 1917 is preparing this year for a crowd. In getting the members to return a committee of Lansing and East Lansing members has printed a newsletter to be sent to all subscribers detailing the occupations and whereabouts of all who could be located. G. O. Stewart, however, has listed the following as missing from recent addresses and seeks information as to their locations: J. B. Cheynoweth, W. T. VanBusskirk, C. R. Stough, Nell Hagerman, Max M. Somers, Herbert Bartlett, Avery P. Treadwell, Frank W. Marx, E. F. Kunze, L. Nason, N. O. Weil.

Grand Rapids South high school band was awarded first place in the annual tournament held on the Campus on May 23. Thirteen organizations were entered and were divided into two classes. The Grand Rapids band was chosen best in class A and Paw Paw band best in the class B, the former was later selected as the best band entered. Flint won the cup for having the best uniformed band in the contest.

SUFFICIENT PROOF

Dr. Kenyon L. Butterfield,
East Lansing, Mich.

Dear Doctor:

My subscription to the Union Memorial fund was conditional upon the necessary funds to complete the project, being raised. As I understand that enough money is now provided, I enclose my check for $100.00, and shall appreciate it if you will kindly forward it to the treasurer as I am not sure of his address.

I am delighted to hear of your success in changing the name of the College. The new name should be most helpful in the future, and of great benefit to the alumni.

Very sincerely,

FLOYD W. OWEN, '02

University Club,
Detroit, Mich.

COLLEGE PUBLISHES NEW FARM BULLETINS

E. K. Down, '15, is the author of a recent experiment station bulletin entitled, "Tests With Sugar Beets". He analyzes the various varieties of beets commonly planted as to production and sugar content. C. P. Halligan, professor of landscape design, has recently published a bulletin in the experiment station series entitled, "Tourists Camps". He gives desirable layouts for such camps and describes the proper arrangement and landscaping of plots. F. E. Fogle, '18, and Marian Rogers Smith are co-authors of a bulletin on "Farm Kitchens" which details the arrangement of equipment and the designs for kitchens which can be placed in old farmhouses or included in plans for new ones.

Members of the women's life saving corps presented a Venetian water pageant in the pool enclosure of the gymnasium on May 28 and 29.
NECROLOGY

Helen Kellogg Drew, '19

Mrs. Charlton Drew, (Helen E. Kellogg, '19), died at Sparrow hospital, Lansing, on May 13, following a brief illness. She was born at Tacoma, Washington, and her parents moved to Lansing while she was an infant. She attended the Lansing schools and was graduated from high school in that city in 1914. After teaching for a year she entered M. A. C. in the home economics course in the fall of 1915. She specialized in bacteriology and in the fall of 1919 went to Greenville, S. C. where she was stationed at a C. S. Public Health service hospital as a technician. She later occupied the same kind of a position at the Toledo hospital. On April 17, 1922, she was married to Charlton F. Drew. Until June 1924 she made her home in Cleveland. At that time she returned to Lansing where she resided at the time of her death.

She was author of several papers on technical subjects and had written several essays as well. While in College she was a member of Omicron Nu, the Girls' glee club and the Dramatics club. She is survived by her husband, her parents, Mr. and Mrs. W. S. Kellogg, a sister and a brother. The funeral was held May 16 from the First Presbyterian church, Lansing.

Frank W. Shumway, '78

Dr. Frank W. Shumway, w78, died at his home in Lansing on May 25, after a short illness. Dr. Shumway was born in Lowell, Michigan, December 25, 1858. He entered the College in 1874 and remained for one year after which he went to Wooster university where he received his degree in medicine in 1881. For many years he practiced his profession in Williamston. In 1900 he was appointed a member of the advisory pardon board and served for five years, after which he served for seven years as secretary of the state board of health and then became again a member of the pardon board on which he served until it was abolished in 1917. He was president of the Crossman and Williams bank of Williamston and a director of the Capital National bank of Lansing. He was prominent in the affairs of several fraternal orders.

He is survived by his widow who was Miss Ione Crossman of Williamston and one daughter, Mrs. Allan R. Black of Lansing.

Mrs. Lester Flanders, '18

Mrs. Frances Smith Flanders, '18, wife of Lester E. Flanders, '17, died at her home, 31 Canton street, Baldwinsville, N. Y., on May 17. She entered College from Baldwinsville and was married to Lester Flanders on June 12, 1918, just after completing the course in home economics.

She is survived by her husband, parents, two sisters and a daughter, Dorothy Lou, born in 1921. Funeral services were held at the First Baptist church, Baldwinsville, on May 20.

George P. Krentel

George P. Krentel for many years the College carpenter died at his home in Lansing on May 19. He was born in Germany June 3, 1844, and came to the United States in 1876. He is survived by four sons, Christian M., Adorf B., Alex C., all of the class of '99, George, Jr., w01, and a brother, Andrew, who has been connected with the engineering division of the College since 1902.

Although only one-third of the total number taking the examinations attained the grades necessary to be taken into the U. S. forest service the College contingent fared better than most, for of the eight senior foresters who competed, six were certified as acceptable for the service. Those who passed are: F. Hyland, Portland; E. E. Bachman, Niles; W. S. Stover, Grand Rapids; W. Martin, East Lansing; W. C. Buckner, Benton Harbor; D. H. Peeple.
There is more than mere justice in the appropriation of $600,000 for a chemistry building by the recent legislature. Chemistry was included in the curriculum of the College in 1857, a full year before it was accepted as desirable in any other institution in the country except those teaching medicine or any of its branches.

Under the leadership of Dr. R. C. Kedzie, Dean Frank S. Kedzie, and for the past ten years, A. J. Clark, the chemistry department has grown from the stage where it merely served the other departments to the point where it is in its own field and is filling its purpose admirably. Among its staff there are men who have gained national prominence through research work and whose students have likewise advanced to places where they hold the admiration and respect of the scientific world. The chemistry department is one of several departments of the College which has seen some of the possibilities in its work and which has had the good fortune to have among its members men who were willing to add the burdens of research to their tasks as teachers. In physiological chemistry, textiles, alloys, and a multitude of other branches the department has set an enviable mark and its attitude is such that its future progress is assured.

A chemistry building will mean more than additional class rooms and laboratories; it will mean that recognition has come to the College for its efforts along general scientific lines. Compared with the present equipment and building, the new plant promises to bring such emphasis upon this subject that its former achievements will be but a starting point for what is to come.

It would seem unnecessary to emphasize such a thing but the invitation for Alumni Day is not extended only to those whose classes are specially listed under the reunion schedule. Saturday, June 20, is for all alumni and former students. Certain classes are listed so that those who can return but once in several years can have a time set at which they are certain to find the largest proportion of their classes in attendance. It also allows for special plans being made by reunion classes sufficiently in advance to allow them to get in touch with most of their members. There need be no reluctance upon the part of anyone to return to the Campus on dates not specified particularly for his class, except that on those dates the largest proportion of his classmates will be present.

With the Union Memorial building in use this year, the thousands who have aided in financing its construction will have an unusual appeal to return for Alumni Day. For the first time in the history of the College there will be adequate accommodations to handle any crowd which returns and the indications are that the crowd will be by far the largest in the history of this annual event. People are coming from greater distances than ever before and more of them are coming according to advance information. June 20 will be a day worth spending on the Campus. It will be full to the brim with the type of enjoyment the alumni craves on his return, it will offer features never before offered to the former student on a brief visit, it is a red letter day in the history of alumni activities. To miss this day will be productive of nothing but lasting regret on the part of those who still retain affection or its kindred emotions for their alma mater. The latch-string will not only be out, it will be marked “Please Pull”.

N. S. Mayo, ’88, described some of the work of the Abbott Laboratories at the bi-weekly luncheon meeting of the Chicago M. A. C. Association on May 15. It was the largest meeting of the year.
June 11 has been set as the date of the canoe carnival and water pageant to be staged by the senior class on the Red Cedar.

The College band will accompany the Lansing commandery, Knights Templar, to state conclave in Grand Rapids early in June.

G. C. Dillman, '13, deputy state highway commissioner, announces that the new entrance to the Campus will be paved in time for use on Alumni Day.

For those who attend the summer session the Union Memorial building will come into its first regular use. It will provide a center for their activities and will cater to their convenience.

Scoring eight runs in the eighth inning, Flint high school's baseball team topped the State freshman, 11 to 4, in their contest on College field, May 22. Tolles and Fouts constituted the battery for the first year men.

Out of three meets, one at Oberlin and two at Detroit, the varsity tennis squad took the honors in but one, that with the Detroit City college. Oberlin had the strongest squad and took its meet 6 to 1. University of Detroit defeated the Green and White, 5 to 2, and Detroit City college was set back by 4 to 2. In the Detroit University meet all but one match went into the third game for a decision.

With the time fast approaching when it must take its lines off the Campus the Michigan Electric Railway is again talking of establishing a freight and passenger station on M. A. C. avenue. There have been several conferences between the College, city and railway officials but thus far no definite conclusion has been reached. One plan advanced by East Lansing interests was to establish a freight station near the present loop on College property. This met with instant disfavor.

Co-eds have formed an athletic association of their own and will make awards to members according to the number of points earned during the year. Margaret Foote, '26, Lansing, is the first president of the new organization.

Lansing people had an opportunity to hear the College band and glee club in recital at Prudden auditorium on May 23. The band also has been scheduled for a concert at St. Johns on June 5, and with the glee club, will appear at Charlotte on June 14.

G. W. Bradt, '25, applied science, has been chosen one of a group of fifteen men to be sent to South America, by the New York Zoological society to study tropical life. Bradt will leave June 5 for Kartabo, British Guiana, where he will study for some time at the jungle laboratories.

President Butterfield was the chief speaker at the concluding convocation for the year on May 27. On May 29 there was a memorial service at the cenotaph at the west end of the Campus under the auspices of the American Legion, Major J. Bradford Pengelly, of Flint, was the speaker.

Malcolmson and Higginbotham, specialists in the designing of similar buildings, have been selected as the architects for the new chemistry building for which $600,000 was appropriated by the legislature. Dean Kedzie and Professor A. J. Clark have been in conference with the architects concerning the plans for the structure.

Martha Griswold, '26, applied science, has been awarded the Sayre prize for having the best scholastic record of any student taking advanced bacteriology. Harvey J. Fiege, '25, Bayfield, Wisconsin, is announced the winner of the prize offered by the Michigan State Veterinary association to the student in the senior class having the best scholastic standing in veterinary medicine.
MICHIGAN AND NOTRE DAME WIN

Varsity Starts Well Against Both of Its Ancient Foes But Single Inning in Each Game Brings Defeat; Lack of Pitchers Main Defect in Green and White Organization; Team Hitting Well.

A bad eighth inning in which Notre Dame scored seven runs spelled defeat for the State nine at South Bend on May 23, 11 to 7. After coming from behind and gaining a lead of three by a spurt in the seventh inning, Coach Kobs men took the opportunity in the next session to present the home team with enough counters to keep the victory at home. Kuhn started that inning badly, the first man up singled and the second walloped the ball at Zimmerman in right field. The latter let it slip through him and all hands crossed the plate safely. Coach Kobs then retired Kuhn in the hope of saving the game and sent Wakefield to the front. With a severe beating at the hands of the Michigan team to distort his mental picture of the contest, Wakefield allowed the Notre Dame undue freedom with their bats and they sent five more runners completely around before the advance was checked.

Neither team played brilliant ball. The State squad accepted six of the eleven errors of the day as its due. Fleser in centerfield had a bad day with two against him. Haskins took over the left field territory for the day in place of Fisher who had played listless ball against Michigan. The football captain-elect accounted for one hit and made three put outs in his first regular appearance as a baseball player.

MICHIGAN State 101 000 07x—04 13 5
Notre Dame 002 200 07x—10 13 5

Although the Michigan State baseball team collected a two run lead over Michigan in the first inning of the annual classic on College field, May 20, this margin was not great enough and the crowd basked in a false sense of security until the fourth inning when Wolverine bats coupled with Green and White misplays sent six runs across the plate. The final score was 13 to 6 with the Ann Arbor contingent carrying off all the honors.

If Michigan had been held to an equal number of effective pitchers to accord with the stock at the College the final might have been different. In fact Mr. Hovey who started to throw them over for the Maize and Blue might still be trying to effect a put out had it not been that he was retired after three runs had been scored and two were on the bases before an out was made. Walters succeeded him and performed effectively but his work was not
good enough to prevent a generous apportionment of hits. In the meantime, Harry Wakefield was the only pitcher ready for duty for Captain Richards and his team and when the going became rough for him he had to stand the gaff without relief. Had it not been for five misplays he might have weathered the storm with greater success. Richards, playing shortstop, was charged with three errors by the scorers. Fremont's triple drove in three runs in the first and Kiebler's sacrifice fly accounted for the other. Zimmerman's home run hit went into the river back of the center field bleachers, he could have provided transportation for three others but none had reached the bases ahead of him in that inning.

The varsity failed to distinguish itself for snappy baseball.

**ALDERMAN SETS NEW MARKS IN STATE MEET**

State trackmen gathered enough points to place their team fourth with 22.5 points in the annual intercollegiate meet on College field, May 23. Alderman was the individual star of the competition. He took first in the 100 and 220-yard dashes and the broad jump. He ran the hurdles in 20.7 for a new record but this was not allowed because a slight wind favored the speeders. He ran the 220 in 21.2 lopping a half second from the mark he had previously set. He established a mark of 23 feet, three-eighths inches in the broad jump.

Martindale of Western Normal threw the discuss 131 feet, 3 1/4 inches, bettering Fessenden's former record by less than two inches. Doherty, of Detroit college, went a quarter inch over six feet in the high jump and Seitz, from the same college, set the pole vault mark at 12 feet, seven-eighths inches. Paul Smith, State freshman, captured first in the shot-put, third in the pole vault and fourth in the javelin for a total of eight points.

A lack of distance and middle distance men again hampered Coach Young's team in its fight for points. With Alderman and Grim in condition the sprints are well taken care of and the jumps will usually grant several points to the State squad but quarter-milers are too scarce to bring out a worthy mile relay team and the distance events are a total loss except where Willard breaks into the scoring.

Co-ed track and field championships and the final games for the baseball title are scheduled for College field on June 13.

Professor E. Sylvester King, director of dramatics, is preparing a cast to present "The Tempest" as the senior play this year. It will follow precedent and be given in the Forest of Arden, the natural amphitheater just west of the Woman's building.

All units of the College cadet corps were given a thorough inspection by army inspecting officers on May 21 and 22. Equipment, classwork, drill, and knowledge of tactics were some of the points of investigation. Last year the College corps was given the distinguished rating.

Senior chemical engineers accompanied by Professor H. S. Reed, '06, visited industrial plants at Midland, Bay City, and Saginaw on May 25 and 26.

Dean G. W. Bissell, of the engineering division, will be in Schenectady, N. Y., on June 18, to attend a meeting of the Society for the Promotion of Engineering Education and would like to meet alumni and former students living in the vicinity of that place.

CLASS NOTES

Alumni Day is for all alumni and former students. A special effort is made to have representatives large from groups of classes but this does not mean that the rest are not invited. A yearly reunion is possible though the numbers attending be small and it will help you to plan for the big events on the calendar.

'69
James Satterlee will be back for Alumni Day.

'70
Charles W. Garfield has promised to return to the Campus for June 20, and has also made certain that those in College with him have had an extra invitation to return for Alumni Day.

'81
A. B. Turner is making arrangements for the reunion of his class. He is preparing for an outstanding class dinner as a celebration of the reunion.

A. H. Voigt has been president of the California Furniture company of Los Angeles since 1905. Twice a year he is in the east visiting furniture markets of Chicago, Grand Rapids, and New York. Mr. Voigt lives in Los Angeles at 976 S. Westlake avenue. He has two children, a son and a daughter.

'85
J. D. Towar reports that there is a general response from the members of his class that they will be back on the Campus for Alumni Day.

'90
Several members of this class have signified their intentions of returning for Alumni Day.
Have You Seen Page 509 in This Issue?

There is a photograph on page five hundred nine which will interest you, there is also a message but the photograph is the more important just now. It shows the Union Memorial building, from the Campus side, practically complete as far as external appearances go. Would it interest you to learn something of its interior, to see part of it functioning as it was designed to function? Would you like to return to the Campus just once and have a place where you know you will meet your friends and classmates, a place where you will have the conveniences you have long desired on the Campus?

The Union Memorial Building Will Be Open on June 20

The rest of the program is in the making. It promises to be one of the best in the history of Alumni Day (of course you know that is Saturday, June 20.) It will give you an unparalleled opportunity to see the Campus at its best, the trees, the flowers, the shrubs, the lawns are never better than in June, it will give you a chance to see something of the physical growth of the College over the past few years.

A change in the name of the College has not affected its physical attributes nor has it affected the love of alumni for their alma mater. It will make Michigan State College an instrument of better service to the state and of greater benefit to its alumni.

Come Back to the Campus on June 20

SEE THE COLLEGE

its new president, its new buildings, the old familiar walks, trees, and the never changing Red Cedar. It will renew your spirit of youth, it will be more than worth your while. The time you lose from your daily task will be more than compensated for by increased efficiency on your return from East Lansing. This will be one of the biggest days in the history of our organization. For your own sake and that of your classmates, be there.

Frank F. Rogers
President, M. A. C. Association.
William F. Wight was a farmer for two years after his graduation. He then entered Stanford University as a student. From 1890 to 1900 he was an assistant in the department of botany at Stanford. From 1900 to date he has been with the U. S. Department of Agriculture, located in Palo Alto, California. He is engaged in research, systematic botany, systematic pomology, fruit breeding, and agricultural exploration in western South America. From September to December in 1912 he was with the department of agriculture in the Argentine republic.

Only thirty years out and prepared to show the rest that they have not yet forgotten their years at the College.

Bertha Malone is rounding up the class for its twenty-fifth anniversary. She reports that George Odium is missing and that the last time she heard from him he was in Australia or some other spot on the other side of the globe. She seeks his address to send him the official invitation.

Official preparations for this reunion have not been announced but the class has had a reputation in the past for drawing a good share of its original group.

H. E. Marsh is returning to his work at the University of Redlands after a year of graduate work and teaching at the University of California. He was granted his master's degree very recently. Marsh lives in Berkeley at 2618 Durant avenue.

Not yet in with its program or announcement of its plans, 1920 has but a short time to get action.

Enough fifteeners are in Lansing and East Lansing or have promised to be here to make the party a lively one. Bihbins, Bishop, Barron, Hill, Julian, Kinney and numerous others will be on hand to keep things moving.

George J. Henshaw is with the Consumers Power company at Colome, Michigan.

Raymond McElrath has left the Consumers Power company of Jackson and is now assistant scout executive of the Jackson council of boy scouts. He will spend his summer at Camp Te-Kon-Kah at Wolf Lake in charge of water sports and athletics.

Don Clark is up on the Medicine Bow range with a survey party of his own, with men from Ames, Colorado Agricultural college, University of Colorado, and Colorado college. They are encountering a few snow storms. Mail addressed to Don in care of the U. S. F. S. Timber Survey party, Laramie, Wyoming, will reach him eventually.

All Together, Now!!!

Are you ready when the song leader gives the signal?
When the bunch sings the old songs don’t just hum the tune.
All of M. A. C.’s best songs, with the music, are included in an attractive booklet of convenient size.

You boosters of the Green and White need it on your pianos.
It is indispensable for branch association and club meetings.
Your copy will be mailed prepaid upon receipt of 50 cents at the alumni office. Attractive prices for group orders.

The proceeds will be applied to the Memorial Union Building Fund.
Newspapers in Magazine Form

Unlike anything published today! Alumni weeklies, monthlies and quarterlies are carrying live news items of the colleges and personal friends to those men who are doing the majority of the big jobs.

Honestly, isn’t this a good time and place to register your name or your product?

We are sure you feel friendly toward the advertisers in this, your own publication.

We believe that your company will benefit from advertising in this and other alumni magazines.

Forty-four alumni publications have a combined circulation of 160,000 college trained men. Advertising space may be bought individually or collectively—in any way desired. Two page sizes—only two plates necessary—group advertising rates.

The management of your alumni magazine suggests an inquiry to

Stage directions for this scene from William Vaughn Moody's play, "The Great Divide," call for a woman's muffled scream, a pistol shot, and the crash of breaking furniture. The microphone on the right tells them all to your home.

An Exciting Evening

Here are four of the WGY Players (the world's first radio dramatic company) at a thrilling climax that almost turns sound into sight.

Tune in, some evening, on one of their productions. You will be surprised to find how readily your imagination will supply stage and setting.
