The M.S.C. Record

Published by and for the Alumni and former Students of the Michigan State College, East Lansing.

Homecoming Number

ENTERED AT THE EAST LANSING POSTOFFICE AS SECOND CLASS MATTER.

VOLUME XXXI October 12, 1925 NUMBER 4
Loyalty is the Moving Force that Gets Things Done

TAKE away Loyalty from college life and there could be no winning teams, no band, no M. S. C. Record, no big homecoming at the Colgate game—none of the many things that make campus life so rich and full, and leave such fond memories of bygone days for those who can now only "look back."

Likewise, the success of a city depends upon the spirit of loyalty shown its institutions and their products. Olds Motor Works has been a Lansing industry since 1897. It has a proud record of 28 years behind it and enters its 29th year with the best product in its history.

FULL PROGRAM FOR HOMECOMING

Luncheon at Noon at Union; Dance at Night; Building Will Serve Crowd for First Time; Meeting Devoid of Tedious Detail; Tickets for Centre Game Selling Fast.

Just what to do on Homecoming Day is no longer a serious problem. There will be headquarters for the returning crowds at the Union Memorial building, the luncheon will be held there and in the evening the Union will provide entertainment at a nominal charge for those who wish to dance. Of course the game will be the banner attraction. The rate at which tickets are being sold indicates that a large number will return to see the State eleven try its skill against Center college, for some years a big factor in intercollegiate football.

Last fall Homecoming Day was merged with the Michigan game, making the event of the afternoon out rival any other feature provided and filling the Campus with such a crowd that alumni had difficulty finding each other. This year the events are more in focus. The game is a sufficient attraction to fill the stands but it is not an overwhelming affair like the contest with Michigan. Last fall there were no facilities for entertaining the crowd, this year there will be enough to accommodate all who come.

It is suggested that the pilgrimage be started early enough so the alumni may reach the Campus in time for the luncheon at 12 o’clock on the second floor of the Union Memorial building. This will be a plate luncheon but the charge will be lower than has been necessary in the past and better service than in previous years is assured. Surplus garments, robes and other equipment too valuable to leave in a car may be checked in the building. It will offer all other facilities necessary for the traveler except that there are no guest rooms in use. Tickets for the luncheon must be purchased at the main desk in the lobby before going to the dining room.

There will be special guests at the luncheon and a short program is being prepared which will not extend the time of the affair beyond comfortable limits. There is no business to be transacted and none of the routine affairs of June luncheons will intrude themselves upon the enjoyment of the occasion. The luncheon will be served in the dining room on the second floor unless the crowd exceeds that of previous homecomings, in which event the tables will be placed in the ballroom as they were at Commencement time.

For those who wish merely to attend the game the building will be of service in several ways, for those who make a full day of it the Union will give entertainment as well as convenience. The Hallowe’en party in the evening will be marked by a special effort on the part of the Union to complete the day’s round of pleasure for the visitors.

Homecoming Day, with the good weather such events have found in the past few years should be an outstanding attraction of the year. If you miss it there is no substitute, each one is totally different in the familiar faces you see, in its own characteristics, from all of its predecessors. Plan to be on the Campus October 31.

L. J. Smith, ’26, Muskegon, has been appointed colonel of the cadet units by a military board chosen to make the selection from a group of eleven candidates. Smith is a member of Phi Kappa Tau, Tau Beta Pi, Scabbard and Blade, and has been on the varsity basketball squad. Murray O’Neill, East Lansing, and R. E. Rumble, Cleveland, were given the rank of lieutenant colonel by the same board. Both are seniors.
ENGINEERING STAFF
CHANGES ANNOUNCED

Fifteen universities, colleges and normals are represented in the list of schools from which men have left to enter the division of engineering at the College. Of this number with advanced credits, nine are juniors, 18 sophomores and 15 freshmen.

The schools involved in these transfers include Michigan, Detroit, Coe college, Iowa State, Lawrence, College of the City of Detroit, Valparaiso, Alfred university and the normals and M. I. A. A. colleges of the state.

Three changes and additions have been made to the staff of the division of engineering and the engineering experiment station. Professor A. Nater, M. S., who received his degree at Cornell, will become associate professor in electrical engineering. Nater comes here from Pratt Institute, Brooklyn.

L. J. Rothgery, '21, who was part time assistant in the engineering experiment station, is being retained as full time assistant. O. D. Dausman, '25, will be half time assistant in the experiment station, working for an M. S. degree.

According to Dean Bissell, the executive staff of the station will meet in the near future to outline plans for the school year.

Alumni Opinion

Editor of The Record:

Am enclosing check for Association membership, and a vote favoring a change in the publication schedule of The Record. Not because I do not enjoy its weekly visits, I do! But because I see the problem of costs very clearly, and realize the imperative retrenchments they force upon you.

We note with keenest satisfaction the establishment of a People’s Church at M. S. C. Good work! Nothing could better typify the advanced-thinking and forward-looking character of Michigan men and women.

And the College surely does grow. Three hundred twenty-one degrees conferred this year is certainly a fine record. (We had 56 in 1896 I believe). Almost 500 per cent increase in thirty years. Not bad at all.

Cannot tell you how much I would like to see the campus with all its improvements, but sickness has kept us at home this summer. All well now. Tell MacKinnon, ’95, hello for me. He was a “Horrible” (?) sophomore when I was a freshman.

Very cordially yours,

C. A. Jewell, ’96

St. John, Wash.

William F. Durand who was professor of mechanics and French and director of the shops 1887-91, is serving as chairman of the board appointed to investigate the wreck of the Shenandoah. He has served as principal of the graduate school in marine construction at Cornell university.

Necrology

Mrs. Clara Smith Gillette
(Contributed)

Mrs. Clara Smith Gillette was the daughter of Dr. and Mrs. Chester Smith. She was born in Portland, Michigan, on December 18, 1859. She was called from this life while about her daily work in the home, and without a moment’s warning, on the 28th of August, 1925. She is survived by her husband, Clarence P. Gillette, ’84, two daughters, Florence M. (Mrs. DeWitt Malcouronne), and Nola Esther, and two brothers, Glen and Dale.

Mrs. Gillette received her education in the Portland schools, in Kalamazoo College and in the Michigan Agricultural College. The family has lived in Fort Collins, Colorado, since January 1891, where Mr. Gillette is head of the department of zoology and entomology and director of the experiment station in the Colorado Agricultural College.
OLD COURSES RETAIN STANDING IN NUMBERS

Although final figures are as yet incomplete on registration due to the difficulty encountered in the liberal arts division in placing advanced students from other schools, the count to date shows that the College has the highest enrollment on record, surpassing all previous years by a healthy margin.

As it now stands, the total enrollment is 2280, which includes 92 graduate students. Last year there were 1880 students in the fall term; in 1923 there were 1609. This represents an increase of 17.54% over last year and 20.43% over 1923. The highest enrollment previous to 1924 was 1765 in the fall of 1916.

A tabulation of the enrollment by divisions compared with the last two years shows that some of the departments of the College are merely holding their own. It is in the newer divisions that the great increase is apparent. Applied Science and Liberal Arts are the greatest attractions on the roster of courses offered by the College. It is significant however, that agriculture and engineering are not losing to the new courses.

A comparison of the enrollment during the last three years is given below:

<table>

Of the enrollment this year there are 1016 new students, of which there are 900 freshmen. The remainder represent students transferred from other colleges and universities with advanced credits, 42 of whom are engineers.

ALUMNI TO GATHER AT TEACHER MEETS

In conjunction with the meetings of the Michigan State Teachers' associations in the seven districts of the state, M. S. C. banquets and reunions will be held. Under the leadership of Robert Linton, '16, general chairman, a member of the College education department, the plans for these events are rapidly formulating.

A chairman for each district has been named. To discount the popular belief that these banquets are solely for teachers, Linton has been successful in obtaining the chairmen from the alumni roster at large.

Alumni banquets and reunions were regular events in conjunction with these meetings when the late Walter H. French was head of the education department. Since his death they have not taken place.

District No. 1 will meet in Detroit, banquet at the Statler at 6 p.m., Thursday, October 29. C. E. Johnson, '24, is chairman of this meeting.

District No. 2 at Saginaw, banquet 6 p.m., Monday October 26, in the Elks club rooms. A. B. Love, '17, in charge.

District No. 3 at Jackson, noon Friday, October 23. Roy Decker, '15, in charge.

District No. 4 at Grand Rapids, 6 p.m. Thursday October 29. Hugh Lynch, '10, in charge.

District No. 5 at Big Rapids, 6 p.m. Thursday, October 22. Benjamin Bosink, w'17, in charge. Banquet at Congregational church.

District No. 6 at Cheboygan, 6 p.m. Monday, October 26. L. B. Karr, '24, in charge. Banquet at Ottawa Hotel.

District No. 7, 6 p.m. Thursday, October 8 at Houghton. Hugo Swanson, '23, in charge.

President Butterfield will address the state Sunday school convention at Detroit on November 4. His topic will be "The Challenge of the Countryside."
In the solicitation of funds for alumni projects, in the work of adding to the membership of the Association, in the program for obtaining advertising for The Record, the question is often raised as to why an alumnus should be expected to take an interest in the College, at least a financial interest. There have been extremely odd arguments advanced against such participation, evidently more of an attempt at evading a recognized debt rather than a sincere justification.

It is true that the College is supported by taxation and has thus far not been the recipient of extensive endowments from private individuals, unless the Union Memorial building be considered in that light. It is true that the student pays fees which are designed to cover certain fixed costs of running the institution but the fact remains that for the things which make for the best college spirit the factors which go toward aiding the students to a better opportunity than that presented those who went before in fact fitting them to meet the competition offered by graduates from institutions which have already taken this into account, the aid of the alumnus is necessary. The Union Memorial building is an addition to the curriculum of the College. It offers social contacts in an atmosphere of friendship and equality.

So far as The Record is concerned it is designed to serve a purpose, to fill a need. It is designed to link together the acquaintances of undergraduate years and keep the alumnus and former student in close touch with the College. There is no apology to make for asking an alumnus to subscribe. It is an investment on which huge dividends can be collected. But they must be collected, The Record must be read, the subscriber must tell his news to the Association so that others will do likewise. A subscription cannot pay the proportionate share of Association expenses, it cannot provide for field work in the organization of alumni clubs nor does it provide for the office work incidental to the general affairs of the Association. The Record might appeal for readers on the basis of sentiment but there is no reason for such an appeal, it asks payment for service. The Union Memorial building might ask subscriptions on the basis of sentiment but there is an actual debt involved for which there need be no apology. The Record might ask advertising as a matter of support but advertisers who have used it consistently report that it is a medium which serves them well. All of these matters are based on a firmer foundation than emotion, their support can be asked and is asked as the payment of a just debt, or a fair return for services rendered.

Homecoming Day is just around the corner, October 31 is just two weeks away. It should be a notable event in the history of alumni affairs at the College. The football game is an attraction of the highest order, the alumni luncheon in the Union Memorial building will offer an unusual feature to returning alumni and former students. The building itself will offer a service unparalleled on previous occasions of this sort. The Campus has an extremely attractive dress at this season. The opportunity is not one to be put aside in search of a better.

Because of the constant fluctuation from year to year in the editorial and financial fortunes of the Wolverine it has been made an all-college publication. Norval Tyrrell, ’27, Detroit, heads the staff which will produce the 1926 edition. In the past years the Wolverine has been issued by the junior class. Tyrrell is a junior and many members of his staff are likewise in their third year but several have been selected from other classes.
"Close Beside The Winding Cedar"

O. E. Grimes, '28, Des Moines, Iowa, has been elected president of the sophomore class.

J. H. Waring, M. S., '25, has been appointed professor of horticulture at the University of Maine.

Special photographs of the Campus produced by a noted scenic artist are to feature the 1926 Wolverine, according to a recent announcement.

Although complete figures are not yet available at the registrar's office, it is certain that the entering class in agriculture will exceed in numbers that of 1924.

Short courses are due to start October 26. It is believed by the College authorities that the increase in regular enrollment will be reflected in the special course attendance.

In its manoeuvers at Ferry Field the band again carried away the honors. In forming the letters M. S. C. it carried out its task with precision and drew the applause of the crowd on both sides of the field.

In the October issue of The Country Gentleman, E. Davenport, '78, tells how he became interested in the agricultural college. His narrative continues in a style of presentation to hold the interest of the reader.

The cover design as it appears on this issue was prepared by Gideon Swanson, '25, who is now business manager of The Record and attends to various other duties in connection with the Alumni and Union offices.

In its trek to Ann Arbor the student body was provided with a special train, special buses and a long line of dilapidated thivers of the variety customary around college towns. It was estimated that three-fourths of the student and faculty population of East Lansing made the pilgrimage to Ferry Field.

Permanent boxes will be set aside at the stadium for the use of the governor of the state, the chairman of the State Board of Agriculture and the president of the College by a recent action of the board in control of athletics.

Divisional convocations were given their first tryout of the year on October 7. Dwight Randall, w'07, now head of the firm of D. Randall and company, consulting engineers of Detroit, addressed the engineers in the gymnasium.

Physical examination statistics on the members of the freshman class reveal that four of the men top six feet two inches in height and there are some twenty who can qualify in the six foot class. The examining physicians find health and physical condition above the average.

Students are now allowed a period of seven minutes to reach a class after being excused from the previous one. For a time there was confusion because of the long distances some of the students must walk from class to class and this action was taken to make the arrivals uniform.

Rearrangement of the ticket booths at the entrance to the stadium has been provided for and other improvements will be made to the field in the light of the experience of the past two years. Concrete aisles will be provided at the gates, more exit gates from the field and the stadium enclosure will be installed and heat will be placed in the team rooms under the stands.

R. S. Linton, '16, now a member of the department of education at the College, has general charge of the alumni meetings which will be held in connection with the district meetings of the Michigan State Teachers' association. A chairman has been chosen in each center and he will make local arrangements for the meetings, which will probably include dinners where they can be arranged.
LAKE FOREST DEFEATS VARSITY, 6 TO 0

Folgate Runs Half Length of Field for Winning Touchdown; Teams Gain One First Down Each In Course of Contest; Captain Haskins Shows for First Time in Backfield.

Lake Forest proved strong enough to carry home a 6 to 0 victory from its skir-mish with the varsity in the stadium on Saturday, October 10. The visitors gave an exhibition of what team play, centered about one star can do on the football field while the home team provided contrast to set off the work of the crimson clad athletes in an excellent way. In interference, blocking, tackling and general all around play the Illinois eleven proved itself superior and Folgate, in the backfield, would be a star of great magnitude on almost any team. The fifty-yard run he made for a touchdown was a brilliant piece of work and the assistance he was given by his teammates was no less remarkable.

Captain Haskins played through the game at fullback and demonstrated a certain amount of power in carrying the ball and backing up the line on defense. His weakness was fumbling which is to be expected from a lineman made hurriedly into a back. Neither team was able to gain consistently by passing, cold weather interfered somewhat with this form of advance, and both did more fumbling and bad passing than is at all necessary in a well conducted football game. When the State backs tried to pass they were surrounded by their adversaries before they could get the ball away and Lake Forest made but few attempts. There seemed to be any number and variety of opportunities for the opposition to sift through to the secondary defense of the big Green eleven, at least they managed to find the opportunities when the occasion demanded such action.

With Haskins in the backfield the line lacked strength although it displayed in several instances an ability not generally noted through most of the game.

In general the Green ends were weak and without the help of the tackles on breaking up interference they allowed the visitors to gain consistently. Coach Young tried several combinations without marked success. Edmunds, Lyman, Anderson, Van Buren, Drew, Hackett, and Grim patrolled the sides of the field in the course of the afternoon, but no two seemed to have the stuff to make them dangerous as contenders for regular assignments to the positions. In the backfield there was also somewhat of a parade. Lyman started at quarter but the position was later filled by Fouts, Wolfinger and Fremont. Haskins played through the game at full but stages of the game saw several changes in his assistants. He started with McCosh and Kiebler but Boebringer saw much service and tried many passes which were uniformly unsuccessful in reaching the arms of the intended receiver. George also did some duty behind the line.

Victory for Lake Forest may be ascribed to two characteristics exhibited by the team: Well-coordinated team play and wide awake football. In the third quarter Folgate, who furnished most of the fireworks for the Illinois team, failed to grab a bad pass from center and the ball rolled to his twenty-yard line. When he recovered the ball he was faced by four tacklers in green jerseys who had sifted through, he was entirely unprotected but managed to elude all four tacklers and return the ball more than twenty yards before he was dropped. The visitors had a well-trained, excellently drilled eleven, most of whom were veterans.

Lyman received the kickoff and returned it to his 30-yard line. Haskins made four yards at left end, the home team was off-side and lost five yards, and McCosh made three yards at left end and then punted to Folgate who was dropped on his 33-yard line. Folgate returned the punt and a re-
turn by McCosh went out of bounds on the Lake Forest 35-yard line. Both teams again failed to gain and Lake Forest had the ball on its 45-yard line after another exchange. In two more exchanges Lake Forest advanced ten more yards. McCosh stopped this proceeding by snatching a Lake Forest pass and returning to the center of the field.

Drew was sent in for Edmunds and Van Buren for Anderson. The latter kicked and the former recovered the fumble on his 45-yard line. Both teams again failed to gain and State had the ball on its opponent's 42-yard line. Haskins, Kiebler and McCosh managed to make the first first down of the game at this point and carried the ball to the 21-yard line. Lake Forest was unsuccessful in rushing the plays attempted and took the ball on its 14-yard line. The game was transferred to the varsity's side of the field by a penalty and a first down marked up by Lake Forest but the line held and took possession of the ball on its 16-yard line. Plugging the line and passing failed to do much in the interest of a touchdown and Lake Forest would have again been in position to score had not the half ended concluding its activities.

Folgate celebrated the start of the third period by returning the kickoff 63 yards to the State 33-yard line. A ten yard pass took Lake Forest within fair drop-kicking distance and it elected to try but the attempt fizzled. McCosh punted out and the ball was returned to midfield. Two line plays totalled five yards and on the next play the ball rolled to the Lake Forest 20-yard line where Folgate recovered and returned it 24 yards. Here the progress of the team was stopped and there were several exchanges of punts sending the ball to midfield after Haskins had caught an attempted drop kick on his own 30-yard line. Lake Forest tried the line and failed and Folgate took the ball on a punt formation and circled his right end in a fifty yard run for a touchdown. The try for goal failed as time was called.

Fouts returned the kickoff to his 34-yard line. He failed to gain at center and Boehringer's pass was intercepted by Alberts who was downed on State's 40-yard line. The remainder of the quarter was spent in fruitless attempts by both sides to advance the ball with some degree of consistency. Neither earned a first down. In fact the two teams were tied at one first down each except for Folgate's long dash for a touchdown.

While Lake Forest was gaining the verdict at the stadium Michigan was defeating Indiana, 63 to 0, on Ferry Field and Centre college was losing to Oglethorpe (Georgia), 20 to 0 while Penn State lost to Georgia Tech, 13 to 0. Centre is due to appear in the stadium on October 17 while the varsity goes to Penn State on October 24, and returns to East Lansing to meet Colgate on October 31.

Cornell university found that rushing rules only complicated so that this fall the students have selected their new fraternity members without restrictions and have accomplished their ends without the endless red tape of other years. College rules are obstacles which may be avoided in various ways, the task is to find the easiest way to avoid them.
RADIO STATION BEGINS SECOND YEAR'S WORK

Operating on 1060 watts with a wave length of 285.5 meters, WKAR inaugur­ated its 1925-26 program on Friday, Octo­ber 9, with a mixed program of speeches and music. The feature of the program was the talk by President Butterfield.

Although the winter’s program is still tentative, the station will broadcast several different series through the season, consisting of music, lectures, extension talks, the farm school, football and basketball games. According to J. B. Hasselman, director of WKAR, the season will start out as follows: On Wednesday evenings, from 8 to 9, musical programs will be put on the air, furnished mainly from student talent. The Centre, Colgate and possibly the Toledo football games will be broad­cast. Home basketball games will also go on the air.

On Friday evenings, from 8 to 9, mem­bers of the various state departments will speak about their respective departments. A feature of the radio season will be the late dance programs. Because the Union ballroom will be in use for dances every week-end night, the College will broadcast this music from eleven until the closing time of the party in progress.

Starting on November 2 and continuing until April 1, the farm school will be a daily event on the schedule. This school will go on the air from 7:15 to 8:00 daily, with the exception of Saturday and Sunday.

James Gamble, w'24, will be official announcer this season. Gamble recently joined the publications department, after spending two years in newspaper work.

Hasselman states that all programs are scheduled on eastern standard time.

A. C. Carton, w'86, is secretary of the Great Lakes-Tidewater commission and has recently issued a report on the progress of the work of that commission during the past year. Its object is to make possible the plan to deepen the St. Lawrence river so that ocean ships may come to Great Lakes ports.

Victor Butterfield, son of President But­terfield, played fullback on the Cornell university football team during much of its first game of the season and drew favorable comment for his performance. He was a member of the wrestling squad last year as well as serving as a substitute on the gridiron.

For those who return to the Campus the evening before Homecoming Day October 31, there will be the annual barbecue con­ducted by the members of the sophomore class. This year’s event should be even larger than was last year’s for the class of 1928 has the numbers to make possible a record affair, at least in size.

WELCOME HOME, OLD GRADS

How Does the Old Town Look?

Why not buy a lot in East Lansing? A purchase at price not above the market in a rapidly growing city is always a good investment, and some day you will want to come back to East Lansing to make your home. We specialize in East Lansing property, and can give you the best of service

PART TIME COACHES
APPOINTED BY BOARD

The following appointments have been
made by the State Board of Agriculture to
the staff of the department of physical edu­
cation: Morton F. Mason, cross-country
and assistant track coach, a noted runner
for the Oregon Agricultural college; Ralph
C. Huston, professor in the chemistry de­
partment, assistant football coach; Hugh
Robinson, football and basketball player
for three years, assistant football coach; C.
D. Ball, assistant professor of chemistry,
tennis coach; Blake Miller, '16, assistant
freshman football coach; G. E. (Carp)
Julian, '15, assistant freshman football
coach; provision was made for a swimming
coach but no name was announced.

This is the first time in some years that
funds have been made available for hiring
a competent staff of coaches to handle the
increasing squads in the various sports.
Ball has coached the tennis team for some
years without official recognition or extra
compensation. Huston has also helped with
the football squad over a period of fifteen
years. Both Miller and Julian have pre­
viously served on the staff. Mason who
will handle distance men and part of the
track squad is the only newcomer in the
list of appointments. Robinson concluded
his varsity experience last year.

MARRIAGES

Lunden-Archambault

Lester Lunden, '21, and Gertrude Arch­
ambault of Bay City were married on
August 8. Lunden is engaged in the lumber business around Lewiston.
From the Farm to the Table

MICHIGAN STATE COLLEGE

trains agriculturists, engineers, bacteriologists, dietitians, economists. All of these take part in the process of making food products into the palatable dishes served in the up-to-date restaurant. And, in order to design and construct the proper types of equipment for the preparation and serving of food, a consideration of the arts and sciences underlying all of these great vocations must be taken into account.

We seek the best counsel in preparing our plans, call to our assistance experts in the specific branches of science in which a problem arises. Because of the methods underlying our efforts, as well as the results, we are proud to ask your consideration of our work in the best type of hotels and clubs in the country, an instance of which is the equipment in the Union Memorial Building. In the final stage of the journey From the Farm to the Table our experts will guide you correctly.
