promoter
good example of what happens to a BMOC (Big Man On Campus) when he leaves it is Clarence Van Lopik, manager of Detroit's gigantic Masonic temple. largest building in the world devoted entirely to Masonic work.

though it has been said of Van Lopik, Hotel Administration graduate of 1933, that he "left college with more money than he brought," Van managed to become States News editor, authored the Water Carnival, and was an Excalibur member.

"Always had something to sell," say people who went to school in those years. Starting out as assistant steward in the food department of the Statler hotel in Detroit, Van soon landed in the Statler's sales and promotion department. In 1937 he became executive secretary of the Downtown club in Detroit, later known as the Intercollegiate Alumni club and in '39 reached his present post.

An ardent music-lover, Van has abundant opportunities to exercise his hobby. The Detroit Symphony series, the Ford Sunday Evening hour, and a Masonic-sponsored concert series all center in the Masonic temple. Van is an enthusiastic traveler, chiefly by plane.

rancher
It's a far cry from Home Economics at Michigan State college to the House of Representatives of New Mexico, but that is the step accomplished by Mrs. Calla Krentel Eylar, '07. Also operating a sheep ranch in the irrigated Rio Grande valley 30 miles north of El Paso, Texas, Mrs. Eylar raises cotton and alfalfa—lives in a large adobe ranch-house.

after serving as principal of Chatham and Grand Ledge high schools in Michigan, she became assistant professor of Home Economics at Kansas State Teachers' college, Pittsburg, in 1909. One day a few years later, when she was supervisor of Home Economics for a Gary, Indiana, school, a Kansas City judge came to the school as member of a lecturing group, met her, married her, and carried her off to New Mexico. By 1925 Mrs. Eylar had become superintendent of Home Economics at El Paso Junior college, Texas, rising to superintendent of county schools at Las Cruces, New Mexico, in 1932.

When her husband died in 1938, Mrs. Eylar kept alive her political interests by running in 1940 for state representative and was successful in her first venture. An executive member of the State Land Use council, Mrs. Eylar is interested in all activities affecting agriculture and takes an active part in State and County Farm bureaus.

When on vacation, she loves to travel—has seen most of the United States.

country gentleman
After 41 successful years of teaching and editing, Phillip S. Rose, '99 E., retired last year to devote his time to trout fishing and writing. "Oh, I'll still be busy," he says, "even though I'm not behind a desk."

Rose's career climaxed in July, 1940, when his alma mater conferred the honorary degree of Doctor of Agriculture upon him, began in the engineering department of the North Dakota Agricultural college immediately after his graduation from M.A.C. In 1969 he resigned this position to edit the Gas Engine Review, and later assumed a similar position with the American Thresherman.

When the chance came to become associate editor of the Country Gentleman, oldest of the magazines devoted to agriculture, he snapped it, later becoming both publisher and editor of that magazine and one of the most respected men in agricultural writing. Instrumental in securing funds for agricultural research, Rose also made contributions to the dairy industry, forage crops, hybrid corn and soybeans.

Now back in backwoods Michigan, at Leelanau, the scenes of his youth, Rose is testing his thesis that any bait except artificial lure is unethical.

(\textit{Turn to Page 15})
The Cover

THREE freshmen! And they haven't lost any time getting acquainted with Michigan State. The alma mater of many of their kinfolk. It's a new experience to stroll along the banks of the Red Cedar, but these experiences differ very little from those of yesteryear. Said Miss Margaret LaDu, right, in a letter to her father, R. W. LaDu, w'09:

"Never have I worked so hard and enjoyed myself at the same time as I have these last four weeks. Michigan State college is certainly as wonderful a place as you. Robert, (42), and James, (40), have described it. I know Mother has never had a chance to enjoy it as we have because she never lived in a dormitory and attended school here...

"The campus and buildings here are exquisite. And can you imagine—your old Wells hall is still standing and is as good as it was when you went through your freshman week activities..."

Miss LaDu, interested in institutional administration, comes from Cleveland Heights, Ohio, and is the third member of her family to attend M.S.C. Her father, R. W. LaDu, w'09, was for several years president of the alumni association in Cleveland. Margaret's brother, James, who specialized in Hotel Administration, was graduated with the Class of 1948 and is now with Hotel Carter in Cleveland.

Another brother, Robert, is a senior in the Agricultural division. Miss LaDu also has two cousins on the campus, Georgia and Bert LaDu, who hail from Lansing, Michigan.

Miss Anne Bonningenhausen, center, comes from Detroit, Michigan, and plans to specialize in dietetics in the Home Economics division. Her story, well, you read it:

"By the banks of the Red Cedar is a college known to all. How true that is. I have met young people from many states, and of course from all parts of Michigan. Daddy wanted me to attend his alma mater to enjoy good times like he, my uncle, and my aunt enjoyed at Michigan State. Among the numerous other reasons for coming here, one stands out—the Home Economics course, which is quite famous.

"When I saw the campus for the first time I was struck by its immensity and beauty. We had very close contact with the campus during freshman week and we grew more aware of its size as the week wore on. Just ask any freshman what troubled him most during the first week at college and invariably he will answer, 'My feet'."

Miss Bonningenhausen was graduated from Northwestern High school in Detroit. "Years ago," said Anne, "my dad, A. J. Bonningenhausen, w'17, uncle, Richard Bonningenhausen, '21, and aunt, Eleanor Bonningenhausen, w'27, were M.S.C. students."

And the lucky gentleman in the picture is Weston Raven from Bad Axe, Michigan. Mr. Raven is the son of E. L. Raven, agricultural agent in Huron county. His father was graduated from M.S.C. in 1914 and his brother, Erwin, '45, is studying dairy manufacturing on the campus. "In fact," said Weston, "as far back as I can remember the whole family, way back to my grandfather, attended M.S.C. And," he continued, "the first two weeks of college are exciting." Weston is interested in the Agricultural Engineering course.

The Record, Vol. XLVII, No. 1. Published quarterly October, January, April and July, by Michigan State College, East Lansing. Address all communications concerning the magazine to the Editorial Office, Publication and Journalism Department, 10 Agricultural Hall, Michigan State College, East Lansing, Michigan. Changes of address should be sent to the office of the Alumni Recorder, Union Building, Campus. Entered as second-class matter at the Post Office, East Lansing, Michigan. Member of the American Alumni Council.

OCTOBER, 1941...1
Patriarchs

Ernest P. Clarke, '82, veteran superintendent in the Michigan public school system, died at his home in St. Joseph, Michigan, on June 25. Beginning his administrative career in the village schools of Berrien county, Mr. Clarke became superintendent of schools in St. Joseph in 1899. He served in that capacity for 36 years, retiring from active work in 1925. Mrs. Clarke survives him.

Fred H. Hillman, '88, has retired as botanist for the Bureau of Plant Industry, but continues to make his home in Washington, D. C., at 2931 Sedgwick street N. W.

Frank E. Semon, '89, is making his home with his son, Dr. Waldo L. Semon, of Cuyahoga Falls, Ohio.

Word has been received of the death of Jefferson H. Irish, '92, which occurred in Newport, Oregon, on August 25.

1892

The love and esteem which his former students in chemistry at Michigan State Normal college held for Professor Bert W. Pett, was evidenced last June at a banquet held in his honor on the occasion of his retirement from active teaching. Contingent as a complete surprise to him was the announcement of the B. W. Pett scholarship in chemistry, made possible through the contributions of former and present students and friends. At his retirement this year, Professor Pett rounded out nearly a half century of teaching—42 years of which have been spent at Michigan State Normal college. He will continue to make his home in Ypsilanti at 128 Normal street.

1893

James S. Holden, president of a Detroit real estate company bearing his name, was the recipient of felicitations in the "We Congratulate:" column in the Detroit Free Press of June 12. Under this daily column appears the picture and short biographical sketch of the prominent citizen, honored on his birthday.

1894

Mark Thompson writes that he is now retired and living at Topanga, California, at 3723 Skyline trail.

1895

Merritt W. Fulton gives his new address as Berkeley Springs, West Virginia, where he is associated with his son, one of the leading orchardists in that section.

Lewis Hunt VanWormer, for many years professor of chemistry at Maryland State college, died at his home in Riverdale, Maryland, on May 23. He is survived by his wife and daughter.

1897

A. L. Pond writes from Pasadena, California, that he is now retired and making his home in that city at 1194 Yucum street.

1901

Colonel and Mrs. Mark L. Ireland (nee Irma Thompson, '90) of Boston, Massachusetts announce the marriage of their daughter, Mary Ellen, to Capt. Glenn F. Rogers, Cavalry Headquarters company of the 1st Armored division. The ceremony took place May 17 in the chapel at Fort Knox, Kentucky, and was followed by a post party in accordance with usual army customs. It is interesting to note that the Ireland family service flag now carries six stars, five for military and naval service of the father, three sons, and son-in-law, and one white star for civilian defense shipbuilding service of the other son. Colonel Ireland was appointed a second lieutenant in the army from civil life in 1904, and is now Quartermaster of the First Corps Area. Mark Jr. graduated in marine engineering from the University of Michigan in 1929, and since then has been building ships at the Newport News Shipbuilding and Drydock company in Virginia. Although he holds a reserve commission in the Coast Artillery corps, the essential character of his civil employment will preclude his military service. Their second son, Maurice, was graduated from Annapolis in 1934, completed a post graduate course in aeronautical engineering, and is now an air pilot and a captain in the U. S. Marine corps. Their youngest son, Tom, entered Michigan State in 1936, and during his freshman year received an appointment to Annapolis where he is enrolled with the class of 1940. In 1931, Colonel and Mrs. Ireland adopted one of Maurice's high school chums, Harry Bert, who was graduated from West Point in 1935 and is now stationed at Camp Hood, Texas, with the Coast Artillery corps.

1902

Hersy L. Brauer is engaged in sales engineering work for the LaCrosse Trailer and Equipment, Funk building, LaCrosse, Wisconsin.

1903

H. Ray Kingdley gives his address as CQM, Erie Proving ground, LaCarme, Ohio, where he is senior superintending engineer on the erection of two and a half million dollars of buildings for the War Department. He had just completed similar work in connection with the Army General depot in Columbus, Ohio.

1906

Last June 7, a large Alumni Day crowd witnessed the dedication of the physical education building at Massachusetts State college to Curry S. Hicks, who has been head of the physical education department there since 1911. A plaque which was unveiled at this ceremony reads as follows: "Curry S. Hicks Physical Education Building. Named in honor of Curry Starr Hicks who through years of unselfish services made this building possible. Dedicated by the Board of Trustees and the Associate Alumni, A. D. 1917." This tablet is the gift of the class of 1916.

Joseph H. Taylor is vice president and manager of the Peru Mining company of Deming, New Mexico.

Frank E. Liverance, father of Frank Jr., Wallace R., '07, and Fern Liverance Woodin, '11, died at his home in Okemos, Michigan, on July 23.

1907

Word has been received of the death of Laura Godfrey Riggerink, wife of Dr. John W. Riggerink, '97, which occurred in Grand Rapids, Michigan, on June 7.

Maurice and Hazel (Kellogg v'18) Johnson are living in Jonesboro, Arkansas, where he is professor of engineering at Arkansas State college.

1908

1909

Bertha C. Cameron, for many years employed at Parke Davis & Company in Detroit, is now retired and living on Route 1, Eagle, Michigan.

1910

Glen A. Barrcroft is located at Anchorage, Alaska, with the U. S. Army Engineering corps.

Jane Riggerink lives at 1925 Hanchee street, Saginaw, Michigan, where she is employed at the Massachusetts Mutual Life Insurance company.

1911

The sympathy of the class is extended to the family of Walter Rae Walker, who died in St. Augustine, Florida, on June 8. Until a few months before his death, Mr. Walker was general superintendent of the J. A. Uiley Construction company, builder of many of the new structures on the campus. He is survived by his wife, the former Faye Smith, '14, two sons, and a brother.

1912

W. E. McGraw has been associated with the various activities of the Chrysler corporation's engineering division for the past twenty years, the last ten of which he has been chief engineer of the Chrysler Corporation of Canada. He is an active member of the Society of Automotive Engineers, serving as chairman of the Canadian section in 1938 and as a member of the U. S. National Council in 1939 and 1940. He makes his home in Detroit at 3042 Iroquois avenue.

Winston W. Macon is associate entomologist for the United States Department of Agriculture, and lives in Washington, D. C., at 1917 17th street, N. W. His brother, Arthur C., '11, who has been located in Hawaii for a number of years, marking his retirement as chairman of the animal industry division of the University of Kentucky.
College Events

Homecoming ... Department Heads ... Defense Activities ... Advisory Program ... Lecture and Music Series

Homecoming, November 1

Saturday, November 1, is Homecoming, and present indications point to one of the largest attendance in history. The opportunity to see the new campus ... those fine new buildings of the last several years ... now fully completed and well landscaped, is expected to prove a powerful influence in bringing the "old grads," and younger ones, too, back for this annual occasion.

The Alumni office will again establish registration headquarters in the main lobby of the Union. Register there when you arrive. Of course, the gridiron opponent is Missouri, and other teams this season have found Missouri one of the tough assignments of the fall.

Friday night the Central Michigan Alumni club sponsors the annual stag smoker at the Hotel Olds in Lansing. The cover charge of $1.00 a person permits a good program, and many of the old Varsity Club boys will be found there as usual. Blake Miller, '16, who is in charge, has announced that the main ballroom of the Olds will be used this year instead of the Sparton room in the basement. The party will start at 9 p.m. and last until the singing stops at some late hour. Former coach and director, Chester L. Brewer, now on the physical education staff at Missouri, will be an honored guest.

The Missouri alumni of Michigan will hold a pre-game luncheon in the ballroom of the Union Saturday noon. Dean E. L. Anthony, of the Agricultural division, is general chairman. Bob Hill, director of Alumni relations, and Mr. Brewer will speak.

The annual Varsity Club luncheon and business meeting will be held at the Forestry Log cabin at 12 o'clock, Saturday noon. The Varsity Club members will march in a body from the cabin to the Varsity Memorial at the entrance of Macklin field, where, during a brief pause, a wreath will be placed at the base of the stone by President Blake Miller, '16, in memory of deceased varsity men.

The traditional reunions of class groups will take place on the edge of the football field near the west stand immediately following the game. Watch for your class banner.

Only one Homecoming dance is scheduled. This is the one sponsored by Alpha Phi Omega, national honorary service group. Junior Charles Hubbard, of Fairport, New York, and a member of the Phi Kappa Tau fraternity, is general chairman. The dance will be held in the auditorium from 9 to 12 o'clock Saturday evening. Admission will be $1.00 a couple and the music will be furnished by the popular Bud Bell and his band, successors to the Art Howland orchestra.

Chairman Hubbard has announced that 75 percent of all receipts from the dance will be donated to the Student Loan fund.

Department Heads

Five new department heads have been announced by the State Board of Agriculture.

Dr. David Worcester, who replaced Professor W. W. Johnston, retired, as head of the English department, has been a member of the Harvard university faculty since 1934, from which school he received his Ph.D. degree. Dr. Worcester's appointment becomes effective December 1 when he relieves Dr. C. M. Newlin who has been acting head of the department since the retirement of Professor Johnston.

Worcester comes to Michigan State highly recommended by Harvard university officials. He is a member of Phi Beta Kappa honorary scholastic society, and in 1933 was granted a travelling fellowship by Harvard university to study abroad. He recently published a book on satire and has another book in progress.

Heading the department of foods and nutrition is Dr. Thelma Porter who came to Michigan State in 1938 from Battle Creek college. She holds her Ph.D. degree from the University of Chicago. Dr. Porter succeeds Dr. Marie Dye, now dean of Home Economics, as head of foods and nutrition.

Emery Foster, '33, is the new director of the Union. Since his graduation from the hotel administration course he joined the Palmer hotel staff in Chicago. Later he became assistant manager of the Lansing hotel in Wichita, Kansas, following which he returned to the Palmer house as assistant catering manager, a position he held until this fall when he came to State.

Professor Merle Ford, head of textiles, clothing and related arts, came to Michigan State from the University of Iowa where she spent six years as a member of the Home Economics faculty. She is a graduate of the Eastern Missouri State Teachers college and has her master's degree from Columbia university. She also did graduate work at the University of Chicago, Iowa State college, Johns Hopkins university and the University of Iowa. At present Professor Ford is chairman of a committee on historical collection of the American Home Economics Association.

A graduate of the University of Michigan, Professor C. L. Brattin has been named head of drawing and design to replace Professor R. K. Steward, retired. A member of the faculty since 1920, Professor Brattin formerly was associated with the engineering departments of several industrial organizations.

Serious Business

Said President Hannah to the Class of 1945 as it met for the first time as a group in the college auditorium during the Freshman Week program:

"There are more than 2,000 of us here this afternoon, gathered from every county in Michigan and from most of the 48 states with a few of us from outside the United States.

"A wide variety of motives have brought you here. Most of you are here..."
with a serious and sincere desire to get from your college experience information and training and skills that will serve you.

"There may be a few interested in college only for the anticipated pleasures of social affairs, parties, dances, attendance at athletic contests, etc. Social affairs have a proper place in college, but let us understand from the beginning that they are not the only important part of college training."

Other excerpts from President Hannah's first official address to the freshmen and transfer students follow:

"As we visit here this afternoon we should be most sincerely grateful that we are privileged to live in a nation—one of the few remaining in the world—where as young people we are permitted to follow our personal inclinations in charting our individual futures. . . .

"What do you think of when you think of an educated man or woman?

"What do you want your college training to do for you?

"Each of us should try to answer these questions seriously and alone—and it is not too early to start thinking about them today. . . .

"I think of an educated person as one with:

1. Social poise, or social grace to a reasonable degree—who knows how to act and feel comfortable in all ordinary social situations. Social poise or grace requires a little knowledge of the rules of proper behavior and a little training or experience. There will be opportunities for each of you to acquire this quality while in college if you will avail yourself of it.

2. A good control of the English language, able to speak, to read, and to write with reasonable fluency. Lack of this ability is a great and life-long handicap.

3. A reasonable understanding of and appreciation for those niceties of life that can contribute so much to one's pleasure and satisfaction regardless of one's station. An ability to read with pleasure and satisfaction the literature that holds all of the accumulated knowledge and philosophies of the world to date. A reasonable appreciation of the man-created things about us that are beautiful. Art, including paintings, sculpture, and architecture. An ability to enjoy good music. An appreciation of beautiful flowers and parks and lawns and trees.

4. A reasonable understanding of the laws of nature including things and their forces, and of natural history. To lack such knowledge makes each walk through a park, each trip beside the sea, each look into the galaxy of stars in the heavens at night like a walk through a gallery with wonderful works of art and nine-tenths of them with their faces turned to the wall so that they cannot be appreciated and enjoyed. . . .

5. A reasonable understanding of men and their ways so that one's will may be fashioned to move in harmony with the laws of human behavior. This includes a reasonable knowledge of the social sciences—sociology, psychology, physiology, and philosophy.

6. An adequate understanding of the theory and operation of our government—and of the obligation of the individual to make it function properly. Government is the fabric and protecting mechanism we build and maintain to assure for ourselves the dignities and freedom we cherish. This obligation may include military service if necessary; and it does include an obligation to be reasonably informed of the problems of the nation from within and without its borders, and includes a tolerance for the views of others.

7. An appreciation of the spiritual values without which no life is complete and adequate. Active participation in some form of religious worship gives a stability to and provides for a sound and reasonable philosophy of life.

8. Knowledge and skills that will help one to make a living. Practical knowledge designed to fit one for a useful part in the scheme of life and return a reward making life possible.

"Your problem is to determine which of these or other components of an educated man or woman you now possess, which you will acquire through reading and individual undirected study, and which you can get most advantageously in college. . . .

Advisory System

Co-ordination of the Freshman Week program and the advisory system into one administrative unit under direction of Professor S. E. Crowe was announced recently.

Professor Crowe will continue as director of the summer session, but will discontinue teaching in the mathematics department, devoting full time to administrative duties.

"Centralization of the Freshman Week and advisory programs under one administrative head, with offices located in the administration building close to the registrar's office and other administrative offices, offers many advantages to both faculty and students," President Hannah said in making the announcement.

P. L. Dressel, assistant professor of mathematics, will continue as assistant in the Freshman Week office, located in a room next to the Summer School office in the administration building.

The Freshman Week program has been under the general supervision of Dr. F. T. Mitchell, dean of men, with offices located in the Union building, and the advisory program has been under the general supervision of Professor J. W. Stack of the zoology department, with offices in Morrill hall.

Professor Stack, in addition to teaching, President Hannah said, will serve as chairman of the College Museum committee, and will have supervision of the administration of the new museum which recently has been set up in the basement of the auditorium.

Wanted

Recently there came from Director Young a letter requesting information on the first teams in any sport at M.S.C. We're depending on you for the facts.

The letter follows:

"I am enclosing a sheet concerning the first athletic teams which we had at Michigan State in the various sports. It is probable that this information is not correct in several instances as far as our Athletic association records go, due to the fact that all of the athletic records were burned up at the time the engineering building burned in 1915.

"If any of the alumni can furnish further information concerning the first team in any sport, I shall be more than glad to have this information.

"You may also tell the alumni that I shall be very happy to receive pictures of any of the teams which they possess. Copies will be made and the original returned to the owner."

Signed: Ralph Young.

Club Activities

By Glen O. Stewart

From now to June many local and district alumni groups will be holding meetings to promote alumni service for the college. This represents the most important phase of alumni activities.

Your director of alumni relations enjoys a busy schedule. Your alumni dinners, smokers, dances, lectures, musicals, auto caravans, bridge parties, style shows are already on his 1941-42 calendar of events. The alumni office staff is busily engaged now in revising lists for many alumni groups and compiling information along various lines useful to local officers and committees.

President John A. Hannah, in discussing alumni service with Al Bibbins, '15, the Association president, and other officers, has definitely stated that “the function of the college in the present emergency is to be an arsenal of free information, making available facts and truths free from propaganda and bias; to train men and women for industry, agriculture and public life and to aid in creating in its students and alumni a fundamental appreciation of the civil liberties that make America—America.” This general theme will be used throughout the year at every meeting.

During recent years an interesting feature of many alumni meetings has been the presence of parents of under-graduates and prospective students. This has been an acceptable innovation, and it is hoped that clubs will continue the plan this year.

Detroit Kicks Off

Two stag affairs in September gave the Detroit men an unusual kick-off for the current year. The traditional outdoor Dutch picnic was held at the summer cottage of Dr. L. T. “Stu” Clark, ’04, at Pardee Lake, west of Brighton, on Wednesday night, September 17. In addition to the large Detroit group about 20 staff members attended. Mr. Stewart introduced the several deans and administrative officers while Athletic Director Young presented 12 members of the athletic staff.

The two talks were given by President John Hannah, who stressed his interest not only in athletics but more especially in a well rounded and balanced curricula with constant improvement in the quality of the staff — and Coach Charles Bachman, who termed this year’s squad one of the hardest working aggregations he had ever coached.

On Friday noon, September 26, at the Book-Cadillac hotel more than 800 U. of M.-Michigan State men attended the annual pre-game luncheon which featured Coaches Fritz Crisler and Charles Bachman. Director Young assisted in the pre-game doce. Harry Kipke, university regent, and former coach at both institutions, was toastmaster. Charlie Burns, ’12, president of the Detroit MSC club, had as his assistants Walt Ewald, ’24, David Cleary, ’36, Jean Coolidge, ’36, C. W. Van Lopik, ’33, and Roy Thurman, ’34.

The annual Detroit Club Feather party for both men and women is scheduled for November 26 at the Fort Shelby hotel, with Walt Ewald as chairman.

Southern California

Perhaps the band was not playing when the team arrived in Los Angeles, California, Sunday morning, October 19, but the graduates were at the Southern Pacific depot with a “Hail! Hail! The Gang’s All Here!” Thus writes Paul Armstrong, ’15, general manager of the California Fruit Growers exchange, who planned a busy day of sight-seeing for the M.S.C. party.

Arrangements were made in advance for a group of alumni to drive the football squad and staff to Hollywood, to one of the beaches for a dip in the ocean, to the big M.S.C. alumni rally and Spanish barbecue at Harry Schuyler’s (’15) Leffingwell Rancho, at Whittier, with time enough to attend one of the big Sunday evening broadcasts from Hollywood.

A large number of Southern California alumni met the party at the Leffingwell Rancho, and Russell Simmons, ’18, as president of the Los Angeles group, had helping him a committee composed of Norton Mogge, ’14, Andy Schoolmaster, ’26, and Schuyler.
Indiana Alumni

The Purdue Union building will be headquarters for the Michigan State club of Indiana when the Spartans invade Lafayette on November 8. President Rogers W. Carlisle, '21, of Indianapolis, '34, President, M.S.C. Alumnae League of Grand Rapids.

Northern California

Under the leadership of Irving J. Woodin, '11, of Sacramento, the Northern California folks held their pre-game dinner Friday evening at the Empire hotel in San Francisco, when State met Santa Clara. Harry Eustace, '01, acted as toastsmaster. President John Hannah, Director Ralph Young and Coach Charles Bachman spoke, and Glen O. Stewart, director of alumni relations, showed colored movies of the campus and shots of the U. of M.-M.S.C. football game.

District 27

What better way is there to see the breath-taking autumn color than to stage a late autumn picnic in one of our fine state parks? And that is just what the alumni of Grand Traverse area did on Thursday night, September 11, when about 60 of them with their baskets of food gathered around the fire at Interlochen State park.

After the picnic dinner and coffee made by Julius Sleder, '35, the crowd moved inside the shelter house to hear Glen O. Stewart tell about the changes on the campus, new staff members and the outlook for a new year. Miss Margaret Harris, assistant home demonstration agent leader, told of the expansion of the home economics division and the progress of extension work for women. Mr. Stewart concluded the program with colored movies of the campus and recordings by the M.S.C. band.—Margaret Gough, '39, Secretary.

Rochester Club Picnic

More than 60 alumni around Rochester, New York, met for their annual alumni picnic at North Cabin, Ellison park, on Sunday, September 14. The usual family picnic dinner with abundance of good eats was guaranteed when Eldred Walker, '18, was named general chairman a few weeks earlier. Games and sports of all kinds were enjoyed by the old graduates, parents and students who attended.

A radio party at the home of Dr. and Mrs. E. G. Baxter was planned for Saturday afternoon, September 27, for the Michigan-M.S.C. game. The winter party of the Rochester club will be held on December 29, when the M.S.C. basketball team plays the University of Rochester.

Reservation cards will be mailed to alumni within a 150-mile radius of Morgantown a few weeks before the game. On the other hand any graduate or friend is welcome to join the party. Send reservations to C. A. Weckler, '22, Spelter, West Virginia.

Defense Program at M.S.C.

About 30 students are enrolled in the one-year college course for flying cadets, according to Dean Emmons of Liberal Arts, the division sponsoring the work. This training is accepted by flying cadet officials in lieu of the mental examination required for admission. Previous to this fall the Liberal Arts conducted a 12-week refresher course for high school graduates expecting to take the mental examination for admission to the flying cadet corps.

In engineering defense training courses have been in full swing since early last spring. Professor L. G. Miller is the institutional representative directing the college courses for the U. S. Office of Education. Courses in drawing, mathematics, production supervision and material inspection and testing have been offered five nights a week from 6 p.m. to 12 midnight.

During the last summer the machine shop was used for the State Vocational training program and this fall it is being used again from 6 p.m. to 6 a.m. About 80 men will be trained every 10 weeks until demands have been satisfied.

Dean Dirks is the regional supervisor of the engineering defense training program and has charge of the lower peninsula. During the year 1940-41 this program in six Michigan colleges and universities involved an expenditure of 9 million dollars in the U. S. For 1941-42 it was increased to 17 million.

Dean Dye of the Home Economics division is chairman of the Michigan Nutrition defense committee, and Dean Emmons is on the State Advisory committee for National Citizenship education sponsored by the Naturalization and Immigration Service of the U. S. Department of Justice.
Student Life
Along The Winding Cedar

By Carolyn Tunstall

Drop Around

Alumni in the Lansing neighborhood will want to hear the Sunday afternoon recitals to be presented throughout the college year on the bells of Beaumont Tower by Wendell Westcott, '35, new carillonneur. The Sunday concerts will begin at 3 p.m. A fifteen-minute program will also be broadcast over WKAR Tuesdays and Fridays at 12:45 p.m.

Mr. Westcott, piano instructor at the college, has studied under Percival Price, outstanding Canadian musician.

In Defense

Today's world situation is cropping out on the campus in a variety of places. Heading the list is a rumored suggestion which made several of the local newspapers, that patriotic M.S.C. coeds wear red, white, and blue cotton stockings.

There are other evidences, too. A Red Cross unit is being developed by the Home Economics club. There is a sudden increase in the number of students studying elementary Spanish and Latin American history. New Delta Zeta and Kappa Delta sorority houses have been postponed because of national defense measures. And miniature villages have been constructed for advanced B.O.T.C. field artillery machine gun practice.

Coming Attractions

A feather for the Spartan cap. Michigan State's Jenison field house has been officially chosen as the site of the 15th annual National Collegiate wrestling tournament, to be held in March. The choice brings the event within the walls of East Lansing for the first time.

Michigan State college will be one of the schools where Latin American students may study hotel administration, according to a program of scholarship recently approved by the American Hotel Association.

So Long, Fellow

Early this month Michigan State college mourned the death of Casimir J. (Casey) Klewicki, former varsity third baseman, who was killed in a Lansing automobile crash. The memory of his carefree, unselfish spirit will linger for a long time on the ball fields near the winding Cedar.

Enrollment

From the registrar's office comes the enrollment figure of 6,335 for the fall term. Of this number 4,084 are men and 2,251 are women. This represents a 5 1/4 decrease in enrollment compared with the figures of last year. Most of this decrease comes from men students who found employment or were drafted.

W. P. Thomas, '16, Convention Speaker

Stressing the importance of cooperation and mutual understanding between law enforcement bodies and dealers, W. P. Thomas, '16, was one of the principal speakers at a recent dealer convention of the National Butane Gas Co. in Memphis, Tennessee.

Address

From the office of Glen O. Stewart, director of alumni relations, comes news and a suggestion. James Grant Hays, '08, one of State's well-remembered graduates who has been ill for the past two years, recently flew to California in pursuit of a cure. The suggestion: That some of the lads break down and drop him a line, in care of Dr. Herbert J. Andrews, 1441 Westwood Blvd., West Los Angeles, California.

New Faces

Strike up the band this year under a new leader. Dale Harris, formerly supervisor of instrumental music in Pontiac public schools, who has played under the baton of March King Sousa. He replaces Professor Leonard Falcone, 14 years director of State's famed 110-piece marching and concert band. Director Falcone has been granted a year's leave of absence.

About Face

Last spring, Bob Phillips was one of Coach John Kcbs reserve catchers. Dissatisfied with his performance, Phillips traded his catcher's glove for a stand in the pitcher's box, from which he connected with a no-hit game while playing independent ball this summer.

W. P. Thomas

W. P. Thomas who hails from the same town as L. L. Frimodig, '17, Calumet, Michigan, was a varsity baseball player in 1915-16. He also saw service overseas in the last war. Mr. Thomas is now the superintendent of the gas division, in the department of public service in Louisiana.
With The Army

By Bill Baird

On the last Saturday in September the Louisiana army maneuvers—largest ever held in the United States—were in full swing, but I found soldiers by the dozen taking time out from their mock battle to listen to a broadcast of the Michigan State-Michigan football game.

Warfare as practiced by the American army during maneuvers does not prohibit the use of radios, and around the portable sets scattered along the Louisiana battelfront were clustered several groups of faithful ex-Spartans who had left their Fort Custer garrison with other soldiers of the Fifth division for six weeks of field training in the southern states. (There were clusters of Wolverine fans hovering about the radios, too, but that's another matter.)

As I drove that day through the sector occupied by the Fifth division it occurred to me that if Glen Stewart should visit Fort Custer—the huge army training post near Battle Creek, Michigan, and home base for the Fighting Fifth—he would find enough Michigan State men there to organize an alumni club. Called into army service within the last year are scores of State graduates, many of whom took the Reserve Officers' training and received commissions. A few days ago I jotted down a list of nearly 25 M.S.C. alumni I had seen in uniform at Fort Custer; undoubtedly there are many more.

Three staff officers of the Fifth division, the principal training unit stationed at Custer, proclaim their loyalty to the East Lansing campus. Heading this group is Lieutenant Colonel L. Hoyt Rockafellow, division adjutant, who was an infantry instructor at State in 1928-22. Colonel Rockafellow's tentmate in the recent southern maneuvers was one of his former ROTC students at State, Major Clare Passink, '30, now serving as division morale officer. Sharing the chigger bites, sleeplessness, malaria threat and other unpleasant aspects of the maneuvers was Captain Herbert A. Hall, who took his first two years of college training at M.S.C. in 1929-25 and who now serves as public relations officer for the division.

The roster of Fifth division officers also includes Captain Russell B. Patch, who left State in 1932 and who now commands company M of the eleventh infantry regiment; Lieutenant H. E. Price, '35, with the fifth signal company; Lieutenant Ferris A. Church, '35, serving with the tenth infantry regiment; Lieutenant Jack Gerrie, of the eleventh infantry, who did a bit of footballing at State, Major Clare Passink, '30, with the second infantry regiment; Lieutenant G. K. Baker, '41, with the second infantry; Lieutenant Virgil Catlin, '40, with the forty-sixth field artillery battalion; Lieutenant James Kelly, '40, with the fifty-sixth field artillery battalion; and Lieutenant Don Robinson, W'39, on the staff of the fifth reconnaissance troop.

Representing the class of '39, I've seen Lieutenant Bob Ritter, one of WKAR's favorite sons, now on duty with the nineteenth field artillery battalion, Lieutenant Emil Eschenburg, State's 1938-39 cadet colonel, who was on the second infantry regimental staff before he left Custer for foreign service under sealed orders a couple of months ago, and Lieutenant Joseph L. Amel, Jr., also with the nineteenth field artillery. Lieutenant Bob Small, one of Mason hall's ex-counsellors and the only 1940 graduate I've met at the fort, is also serving with the second infantry.

Commissioned graduates of the 1941 class on duty at Fort Custer include Lieutenant Arthur Howland, of the nineteenth field artillery, who was last year's ROTC cadet colonel; Lieutenant Russell Hatch, who picked up some espionage experience during the Louisiana maneuvers as assistant military intelligence officer of the second infantry; and Lieutenants Louis Giroux and Alfred Timreck, also on duty with the second infantry.

Recently we asked William Baird, '40, to tell you the story about M.S.C. alumni at Fort Custer, Battle Creek, Michigan. Came the reply: "You see there are more former Michigan State men in the Fifth division and at Fort Custer than you might suppose. I had run into such fellows as Bob Small, Art Howland, Bob Ritter, and two or three others before, but in my travels today I began inquiring for State men and picked up a dozen or more names and the search is not yet complete. ... But," concluded Bill, "I hope I can submit a yarn you will be able to use."

A few notes about the author. Mason Hall counsellor, 1939-40; WKAR news­caster; journalism major; now on staff of The Associated Press assigned to Fort Custer; accredited by the War department to travel with the Fifth division as a civilian correspondent during the September army maneuvers in Louisiana.
September 16, 1941

By Joseph G. Duncan

Besides the Fifth division, Fort Custer also houses a rapidly expanding reception center where each month thousands of selective service recruits are initiated into the army, given a uniform and a flock of lectures on the do's and don'ts of military life and sent on their way to other training posts.

Michigan State graduates on duty at the reception center include Captain L. E. Peterson, '30, and Lieutenant B. B. Claghorn, '31. Lieutenant Otto Pongrace, '35, was also on the reception center staff before his transfer to Washington two months ago. Another former Spartan, Lieutenant A. W. Winter, '38, is post veterinarian at Custer. His assistant, Lieutenant Dale Stephenson, '39, is now studying at Carlisle Barracks, Pa., but will return to Fort Custer within a few weeks.

At the reception center, where they were whipped through the routine which changes them from civilians to soldiers, I've run into Stan McRae, '40, a former stalwart on Charley Bachman's grid squad; Eldon Rosegart, '41, who drum majored at State three years prior to his graduation last June; Steve Sebo, '37, another of State's former gridiron stars; Harvey Harrington, '38, remembered for his journalistic prowess; Ralph Vigliotti, w'39; Curtis Patton, '38, and Ron Garlock, '37. These and a flock of other Spartan alumni who have passed through Custer's reception center into Uncle Sam's $21-a-month draft army are now widely scattered in army posts throughout the country.

There are probably scores of former Michigan State students among the thousands of selectees at Fort Custer, but so far I've only heard of Ben Good, w'41, Spartan baseball player before he went into the army; James Morse, w'40, who spends his time classifying new recruits at the reception center; Sibree Bassford, w'30, another classification worker; Frank Burrows, '40, who is now attending an officers' training school; Raymond Langley, '40, whose performance with the second infantry band has won him the grade of private first class; Paul Steensma, who left State in 1936 and who is now in the fifth quartermaster battalion; Stanley Fallyea, a member of the Seventh Engineer battalion which won wide acclaim in the Louisiana maneuvers; Gordon Parr, at the post hospital; Walter Rathburn, special student, in the post's military police force; and George Devine, '39, who is aiming toward a commission in the army air corps.

Concert Series

(Continued from Page 6)

Among the musical numbers on the concert series at Michigan State college this year will be the Stradivarius String Quartet, in the auditorium November 11. The group has been greeted with tremendous enthusiasm everywhere it appeared in Europe and the United States. Other programs include Zino Francescatti, December 9; Robert Weede, February 17; American Ballad Singers, March 10; Cincinnati Symphony Orchestra, April 8, and Hilda Burke, May 5. Alumni wishing tickets to the concert series should write to the accounting office for reservations. All evening concerts begin at 8 p.m.

Lecture Course

A brilliant lecture course program presenting outstanding personalities in the fields of international correspondence, literature, science, art, sports, and drama, and including a performance by the Ballet Russe de Monte Carlo, has been booked for the 1941-42 season. The lecture course will include Edward Weeks, editor of Atlantic Monthly, November 6; Alfred Noyes, English poet and novelist, December 5; Charles F. Kettering, General Motors vice president in charge of research, January 8; Fulton Oursler, editor-in-chief of “Liberty” magazine, January 21; Vincent Sheean, well known writer and European correspondent, January 29; Thomas Hart Benton, America's best known contemporary painter, February 10; Alice Marble, world's champion tennis player and now an important figure in civilian defense, March 12; and Dorothy Crawford, popular monologist and impersonator, April 14.

Days of Yore

By Joseph G. Duncan
A n epidemic of injuries that hit the fullback position of Coach Charlie Bachman’s team this fall just about put a crimp in the early season plans of the coaching staff. Starting with Ed Ripmaster, the 200-pound junior from Grand Rapids who was rated first choice after 10 days of practice, the scourge spread to Roman (Joe) Kaman, and then to Charles Carey. Coach Bachman found it necessary to reach down into the fourth string for a fullback who played 30 minutes of the game with Michigan.

The loss of Ripmaster was a severe one to the early season plans. He was rated one of the most promising players on the squad on the basis of late season performance last fall and in spring practice. And when Kaman suffered an almost identical knee injury, which shelved both the players for several weeks and possibly an entire season, it was necessary to make radical readjustments.

Michigan Game

The game with Michigan, played on the Saturday before college classes started, was another one of those thrillers which have been transpiring at Ann Arbor on opening day for several years. Jack Fenton, junior right halfback, electrified the crowd before all the spectators had found their seats by dashing 75 yards for a touchdown. Bob Sherman added the extra point to give State a 7-0 lead.

Michigan came back to score in the second period, taking advantage of a blocked punt to get the ball deep in State territory. Then in the third period, when the coaching staff was trying to rest some of the first string for a possible late game thrust, the Wolverines swarmed down the field in half a dozen plays to score again and take the lead. Another Michigan touchdown came later. All of Michigan’s touchdowns were scored from inside State’s five-yard line. Late in the game the Spartans moved the ball almost the length of the field to reach Michigan’s five-yard line before being stopped.

The team this year does not appear to have any outstanding stars. While there were 24 letter men available, their record of games won has been mediocre over the past two seasons and while they rise to greater heights, the very difficult schedule works against such an event. In Bob Friedlund, left end, and Bill Ruppa, right guard, State has an excellent pair of linemen.

Marquette Game

Scoring a touchdown a piece, Dick Kieppe and Bob Sherman, both Lansing high school boys, led the Spartans to a 13-7 victory over Marquette on Macklin field on October 11. Sherman carried the ball over the two-yard line that ended the drive, half the length of the field. Kieppe scored the winning touchdown in the fourth quarter on a 53-yard runback of a Marquette punt. Before leaving for Santa Clara Bachman said, “We played some fine football in the Marquette game. I was particularly pleased with the showing of Kieppe and Sherman and the two sophomore ends, Roy Fraleigh and Glenn Diebert.

Klewicki

Death of Casmer J. (Casey) Klewicki, member of the varsity baseball squad at State, shocked the campus early in October. Klewicki died in a Lansing traffic accident. While he had played with both the football and basketball squads, Klewicki’s campus athletic fame was won as a baseball player. He was still in college pursuing studies in order to graduate when he met his death. His brothers, Edward and Herman, had preceded him on State’s athletic teams. A fourth brother, Walter, is in college.

Cross-Country

The cross-country squad is pounding the trails over the hills and through the woods these autumn afternoons as Coach Lauren P. Brown seeks to mould another strong harrier combination. From the state intercollegiate championship team of a year ago, Coach Brown has major letter men in Ralph Monroe and Bill Scott and minor letter men in Walter Beardsee, Cleon Smith and Jerry Page. A fairly strong group of reserves and sophomores will help the team. Coach Brown looks for a fair to strong team, depending on the developments. Last year State finished fourth in the National Collegiate championships here and third in the National A.A.U. run. The fourth annual NCAA run and the 16th annual Central Collegiate run will be held over State’s course on November 24.

Kawal

Albert P. (Al) Kawal, varsity football line coach, is to assume the job of coaching State’s boxing team this year. Kawal was a championship college boxer at Northwestern university in his undergraduate days. Coach L. D. Burbans will tutor the squad until the football season is concluded and then will turn the varsity over to Kawal and concentrate on the freshman mitt wielders.

Basketball

The football season is scarcely under way, but a reminder of what is to follow was provided the other day when Athletic Director Ralph H. Young announced a very attractive basketball schedule. Besides the usual array of games, State will play intersectional games with Harvard and the University of Washington.

The schedule follows:

Dec. 8 Central Michigan, home
Dec. 13 Michigan, at Ann Arbor
Dec. 20 South Carolina, home
Dec. 21 Harvard, home
Dec. 27 Syracuse, at Syracuse
Dec. 29 Rochester U., at Rochester, N.Y.
Jan. 2 Univ. of Washington, home
Jan. 10 Western Reserve, home
Jan. 16 Marquette, home
Jan. 22 Cincinnati, home
Jan. 24 Notre Dame, at Notre Dame, Ind.
Jan. 26 Butler, home
Jan. 31 Detroit, at Detroit
Feb. 6 Cincinnati, at Cincinnati
Feb. 7 Butler, at Indianapolis
Feb. 10 Michigan, home
Feb. 16 Detroit, home
Feb. 21 Marquette, at Milwaukee
Feb. 28 Notre Dame, home
Coach Charley Bachman will pass the two century mark this season. The game with Purdue at Lafayette, Indiana, on November 8, will be the 200th that Bachman's teams have played. This year is Bachman's 23rd as coach of a major college team. He started at Northwestern university in 1919 and has been at it ever since. His coaching career has taken him to Kansas State college, University of Florida, and since 1933 he has been at Michigan State. His teams here have played 62 games and have a winning percentage of .730.

The man who coached more Michigan State football teams than any other and who is frequently referred to as the daddy of the sport at the Spartan school has been invited to attend the Alumni Homecoming game with Missouri university scheduled for November 1. He is Professor Chester L. Brewer of the Missouri athletic department. Brewer coached his first team at East Lansing in 1903. He remained here for eight years, returned for a season in 1917 and reappeared the third time to develop the 1919 team. Over the 10-year period his teams won 59 games against 23 defeats for a winning percentage of .709, one of the highest on the Spartan record books. In the 43 years that State's teams have played the game, there have been only two undefeated seasons. Coach Brewer's 1908 team escaped defeat, an accomplishment duplicated only by the team coached by John Farrell Macklin in 1913.

Michigan State will be host to the 15th annual National Collegiate wrestling tournament next March 27-28. The championships will be staged in the Spartans' new million-dollar Jenison fieldhouse. This will mark the third NCAA championship meet to be held here in the last three years. The Cross-Country titular meet is held here annually and last spring the swimming meet was staged in the Spartans' pool.

Last winter Michigan State finished second to Oklahoma A. & M. in the meet. Two Spartans, the famous Jenning twins, Merle and Burt, won national championships. Captain Leland Merrill and William Maxwell won second place. All four of these wrestlers will return to college this fall. The Spartan team is coached by Fendley Collins.

Football players at M.S.C. are largely home state products. Of the 33 men playing for Bachman this fall, all but seven are graduates of Michigan high schools. The starting lineup has two "foreigners," one of whom moved to East Lansing with his family when entering college. Bill Rupp, guard, is from Louisville, Kentucky, and Bob Friedlund, now a local resident, attended Schuykill Military academy in New York. The members of the starting team traveled an average of 138 miles from their homes to East Lansing. Frank Karas, tackle from Escanaba, traveled further to attend college than did Rupp who lives in Kentucky.

Charlie Bachman is keenly interested in two teams this fall. He has his own Spartans, of course, and then there's the East Lansing high school football team where Charles, Jr., is playing first string left end. The younger Bachman hasn't filled out yet, but he doesn't lack for height. He stands three inches over six feet. He is one of three sons of the State coach. Carey and John are still in the grammar grades.

Five letter men are available for the cross-country running team. Coach Lauren Brown has returning Ralph Monroe of Indianapolis and Bill Scott of Buffalo, New York, as major letter men. Winners of the minor awards were Walter Beardslee of East Lansing; Jerry Page of Rockland, Michigan; and Cleon Smith of Hastings.

Included in the squad are four freshman team numeral winners. These are Maurice Horski, Owosso; Robert Thompson, Cranbrok school, Bloomfield Hills; Harry Barnes, South Bend, Indiana; and George Byelich, Lansing.

Prospects for a winning team are rated as "good" by Coach Brown. Last year the Spartans won two of three dual meets, won the state intercollegiate and Michigan A.A.U. titles, placed fourth in the National Collegiate and third in the National A.A.U. run.

Gallery of the swimming pool in the million-dollar Jenison gymnasium are to remain open to men visitors, it has been ordained by Coach Charles McCaffree, new mentor of the swimming team. The doors had previously been closed except when meets or exhibitions were held.

"Just another way to arouse interest in swimming," McCaffree says. "I want the students to get acquainted with the swimmers and the boys themselves like to know that somebody is sufficiently interested in their progress to watch them practice."

Called To Service

1923
Capt. W. J. Ullernbruch, A.F.S.D., Co. 15, Fort Knox, Kentucky.

1924
Capt. James A. Moulton, 31st Armored Regt., Fort Knox, Kentucky.

1925

1926
Major Jonathan D. Hawkins, Headquarters, Fourth Corps Area, Atlanta, Georgia.
Capt. James B. Memnour, Army Air Base, Baer Field, Fort Wayne, Indiana.
Capt. Ralph L. Telman, Kingsbury Ordnance Plant, LaPorte, Indiana.

1927
Capt. Charles P. Austin, Pigeon Center, Fort Monmouth, New Jersey.

1928
Capt. Russell Lord, Battery F, 123rd Field Artillery, Camp Forrest, Tennessee.

1930
Major Lawrence Strobel, AA Replacement Center, Camp Wallace, Texas.

OCTOBER, 1941 ... 13
1932

1933
Lt. Richard W. Cook, Constructing Quartermaster, Richmond General Depot, Richmond, Virginia.

1934
Capt. Frank J. Emerick, Camp Davis, North Carolina.
Lt. Arthur L. Griffin, 5th Armored Division, Fort Benning, Georgia.
Lt. (jg) Lloyd W. VanAntwerp, U. S. Navy Air Station, Miami, Florida.
Lt. Lyle W. Patterson, 3rd Armored Div., Co. B, 75th M.S., Camp Polk, Louisiana.

1935

1936
Lt. Arthur L. Sargent, 5th Armored Division, Fort Benning, Georgia.
Lt. Lyle W. Patterson, 3rd Armored Div., Co. B, 75th M.S., Camp Polk, Louisiana.

1937
Lt. Howard H. Angell, Medical Reserve Officer, Nichols Field, Rialto, California.
Lt. Harry J. Balls, 21st Reconnaissance Sqd., A.P.O. No. 191, Newfoundland.
Pt. Brian V. DuMont, 22nd Div., Hq. G-3 Section, Camp Livingston, Louisiana.
Lt. Sam H. Ketchum, Athletic Assistant & Recreation Officer, Selfridge Field, Michigan.
Lt. George L. Linder, Headquarters V Army, Signal Section, Camp Beauregard, La.

1938
Lt. Frank Gainey, Quartermaster General's Office, Washington, D. C.
Lt. McKeown Gould, 14th Cavalry, Camp Funston, Fort Riley, Kansas.
Lt. George W. Green, Detachment Medical Dept., Chanute Field, Illinois.
Lt. George W. Green, Detachment Medical Dept., Chicago, Illinois.
Capt. Edward F. Osborne, Naval Air Base, Pensacola, Florida.
Lt. George Paukewich, Bachelor Officers' Quarters, Channel Field, Illinois.
Pt. F. W. Walker, Quartermaster Detachment, Fort Eustis, Virginia.

1939
Flying Cadet George D. Buckingham, Air Corps Training Detachment, Stanford, Texas.
Aviation Cadet Paul Huxham, Class 41E, Brooks Field, Texas.
Lt. Donald F. Mankel, 57th C.A. (Residence address is Des Moines, Virginia).
Lt. Alexander Skorina, Provost Marshal, First Armored Div., Fort Knox, Kentucky.
Lt. Thomas L. Tucker, Army Air Base, Selfridge Field, Michigan.

1940
Lt. Ralph E. Bennett, 57th Infantry, Fort William McKinley, Philippine Islands.
Lt. George M. Gough, 575th Tank Bn., Fort Ord, California.
Lt. Frederick Mahle, Co. K, 11th Inf., Fort Custer, Michigan.

1941
Lt. Truman B. Bishop, Kingsbury Ordnance Plant, Laporte, Indiana.
Lt. William E. Davies, Engineers Reproduction Plant, Army War College, Washington, D. C.
Flying Cadet Clarence A. Eckert, A.A.T.D., Santa Maria, California.
Paul Griffiths, U. S. Naval Reserve, Abbott Hall, Northwestern University, Chicago, Illinois.
Lt. Hugh Gundef, 3rd School Sqdn., Randolph Field, Texas.
Lt. George D. Harris, Air Corps Basic Flying School, Brooks Field, California.
Lt. R. C. Hatch, Hq. & M.S. Co., Fort Custer, Michigan.

1942
Lt. Herbert Hentzschel, B.O.C. 16, Fort Sill, Oklahoma.
Pt. Loeb A. Warm, 328th School Sqdn., Gardner Field, California.
Lt. Frederick C. Jackson, 40th C.A. Brigade (AA), Fort Sheridan, Illinois.
Lt. Donald B. Ladd, U.S. Air Corps, Cohoon Field, Georgia.
Lt. Gilbert L. Lee, Army Air Corps, Goodfield Field, Texas.
Lt. Harold G. Lee, Gardner Field, California.
Lt. Lawrence Lukn, 4th Cavalry, Fort Meade, South Dakota.
Aviation Cadet John K. Maclean, Bldg. 2444, Room 104, Corpus Christi, Texas.
Lt. Louis N. Smith, Troop B, 1st Tr. Sqn., C.K.T.C., Fort Riley, Kansas.
Lt. Louis W. Pingol, Air Corps, Lowry Field, Colorado.
Lt. William L. Putman, Gp. XXIV, Coast Artillery School, Fort Monroe, Virginia.
Aviation Cadet Ben F. Riggs, Allan Hancock College of Aeronautics, Santa Maria, California.
Aviation Cadet Raymond Runzel, Co. C, Randolph Field, Texas.
Aviation Cadet John G. Sheild, Class 41F. Chanute Field, Illinois.
Aviation Cadet Ben J. Stone, Hancock College, Santa Maria, California.
Aviation Cadet Charles W. Wilson, U.S. Naval Air Station, Bldg. 2444, Room 230, Corpus Christi, Texas.

NEWS
About These Alumni

(Continued from Page 4)

is now in Moorestown, New Jersey, with the United States Bureau of Entomology.

1913

Percy I. Allen, president of the Rochester (New York) Landscape Company Inc., died in that city on June 15. He is survived by his wife, the former Florence Gamble, '15, a daughter, and one brother.

Dr. Robert M. Goss became dean of the graduate school at the University of Nebraska on September 1. Dr. Goss joined the university staff in 1920 and a year ago was named chairman of the department of plant pathology in the agricultural experiment station.

Lee L. Kennedy lives at 1526 18th street N. W., Columbus, Ohio, and is district sales manager for the U. S. Machine corporation of Lebanon, Indiana, handlers of Winkler stokers.

1915

E. L. Browe is power engineer for United Engineers & Constructors Inc., of 1401 Arch street, Philadelphia, Pennsylvania.

Frank C. Sharow is a structural designer for Giffels & Vallet Inc., and lives in Detroit at 3620 Haverhill.

Albert Jewell is executive secretary of the Health Council in Kansas City, Missouri, where he lives at 108 E. 67th street.

1916

The sympathy of the class is extended to the family of Charles G. Noble, who died at his home in South Dayton, New York, on July 25. His wife, the former Louise Rau, and two sons survive.

Glen Barlow, electrical engineer for the Hudson Motor Car company, makes his home in Detroit at 720 Lenox avenue.

Bruce E. Bean is vice president and operation manager for Chicago and Southern Airlines, Municipal Airport, Memphis, Tennessee.

Ivan H. Driggs is principal engineer for the Navy department's Bureau of Aeronautics, and lives at 815 Fred Aven road, Baltimore, Maryland.

Walter Thomas lives at 2285 Myrtle avenue, Baton Rouge, Louisiana, where he is superintendent of the natural and liquefied petroleum gas division of the natural and liquefied petroleum gas association.

Fuller award for distinguished service in the water supply field. The awards are given annually in memory of George Warren Fuller who set the first standards of laboratory control of water supplies in 1885 and was internationally known in his field. Professor Mailman has been working with the group for more than 20 years and has been especially active in the study of water purification.

R. S. Simmons, assistant advertising manager for California Fruit Growers exchange, gives his new address at 2556 Highland avenue, Altadena, California, and adds: 'Have a half acre and my landscape training is finally put to work. Yachting is a poor second.'

1920

Word has been received of the death of Edwin Russell Clark which occurred in Jackson, Michigan, on July 31. His wife and two sons survive.

Lawrence Ross is a salesman for the Essex Wire corporation, 411 S. Pooles street, Chicago. He and Mrs. Ross (Beatrice Hesmer) make their home in Glen Ellyn.

Noel V. Fullem is time study engineer for the Dow Chemical company in Bay City where he lives at 514 S. Weona street.

Theodore C. Willoughby is time study chief for the Delta Manufacturing company in Milwaukee. His local address is 3555 Neil street.

Norman C. Branch is located in Bristol, Connecticut.

1923

Folks
From Everywhere

(Continued from Page 2)

Traveler

One of the most versatile men on the M.S.C. faculty, Norwegian-born Henrik Joakim Staatsfeth, is known mainly as one of the most outstanding poultry pathologists in America. Starting out to be a preacher, Staatsfeth was side-track ed by the veterinary urge, still studies religion from a philosophical and practical viewpoint.

Characteristic of him is an incident that occurred in World War I. Told at Camp Custer he did not have to serve because he was a Norwegian citizen. Staatsfeth took out citizenship papers on the spot, was induced by the Vet Corps, came out a first lieutenant two years later. "Staf" speaks French, German, Spanish and Scandinavian besides English, plays a mean game of golf, likes to hike and fish.

Possessor of B.S., B.V.M., M.S. and Ph.D. degrees, Staatsfeth was district veterinarian in Norway, a position which no other American has held for a year and a half. He once worked in Mexico for an ex-president of that country, was an exchange professor in Budapest, Hungary, for the school year 1923-26, spent the rest of 1926 studying in Europe, is at present an executive of the Order of the Eastern Star.

1924

Marjorie B. Kenyon is medical technologist at the Prentice Clinical Laboratory in Kalamazoo, Michigan.

1925

Harold Lautner in chief site planner for the Federal Works agency in the division of defense housing. He and Mrs. Lautner (Natalie Vassal), '25 make their home in Colonial Village 2110 N. 16th street, Arlington, Virginia.

A NOTHER book has come from the pen of Ray Stannard Baker, '89, one of Michigan State's most distinguished alumni.

Native American, The Book of My Youth, published by Charles Scribner's Sons, is an autobiography in the form of a biographical volume portraying Baker's life built upon pioneer virtues.

Said Mr. Baker in writing about his parents' prayers, "Those prayers made a powerful impres­sion upon me, though I doubted whether Father was dust even when he told God so. I thought how really tremendous and wonderful God must be when my father was willing to bow down before Him. When I thought how much Father admired God, I had a high opinion of Him."

In telling his story, Mr. Baker relates how, when only 22, he entered the office of the Chicago News Record in 1893 and stayed there until he had written a story which caught the attention of the city editor.

Mr. Baker was winner of the 1939 Pulitzer prize for the biography of Woodrow Wilson: Life and Letters.
hotel, Twin Pines, at Lake George, New York; John Williamson is clerk at the Penn-Lincoln hotel in Wilkinsburg, Pennsylvania; and Jack Griegsy is the manager of the S. S. Oosterhuis at Youngstown, Ohio. Lillian Himes is a hostess in the Cottage restaurant in Ashtabula, Ohio; while Betty Dewey is assistant manager of the Country club at Millard, Michigan.
