Robert Charles Richards, 1939

Robert C. Richards, corporal in the Army, was killed in an automobile accident near Julian, California, December 4, 1941. Cpl. Richards entered MSC from Lansing and was graduated from the Applied Science Division, June 12, 1939.

Raymond Frederick Dakin, 1939

Raymond F. Dakin, first lieutenant in the Coast Artillery Corps, was killed December 18, 1942, when the bomber in which he was riding crashed on an isolated island off the coast of Australia. Lt. Dakin entered from Detroit and was graduated from the Engineering Division, July 28, 1939. He is survived by his wife and parents.

Benjamin Franklin Riggs, 1941

Capt. Benjamin F. Riggs, of the Army Air Corps, was killed in action in the African area since January 19, 1943, has been declared dead by the War department. Capt. Riggs was awarded the Distinguished Flying Cross, the Purple Heart medal, and the Air Medal, and was graduated from the Engineering Division during 1939-42. He is survived by his parents.

Robert Paul Whitson, 1944

Ens. Robert P. Whitson, of the Naval Air Corps, was killed in an airplane crash near Pleasanton, Kansas, November 21, 1943. Ens. Whitson was enrolled in Hotel Administration during 1939-42, entering from Westfield, Illinois. He is survived by his wife, son, and parents.

Edward John Pearce, 1940

Edward J. Pearce, first lieutenant in the Army Air Corps, was killed December 22, 1943, in a bomber crash in French Morocco. Lt. Pearce was graduated, July 28, 1940, from the Applied Science Division, entering from Flint. His wife, son, and parents survive.
Revising Educational Program

A TWO-YEAR general college for all students enrolling next September at Michigan State College has been proposed by the faculty. The proposal calls for a complete curricular revision by a committee charged with the responsibility of preparing the educational program for faculty adoption.

Unlike the present general college which includes only special students, the new basic two-year plan involving all students, said President Hannah, provides opportunity for personal, educational, and vocational guidance to assist students in making a more satisfactory adjustment to college and to provide training for a more useful and satisfactory life after leaving college. The plan also prepares students for immediate entrance into the professional fields of study, such as engineering, veterinary medicine, agriculture, home economics, and others.

President Hannah stated that the new two-year basic educational plan calls for four comprehensive courses each year. These courses probably will be in English, social science, literature and fine arts, psychology and philosophy, natural science, and mathematics. Students will have opportunity to choose electives among other courses offered in the various divisions on the campus.

Provisions will be made for a two-year terminal course for those students having no desire, or being unable, to complete degree requirements. These students will be permitted to take selected courses of a technical type in their field of interest along with more general courses. At the end of two years, some kind of recognition will be given them for satisfactory completion of work.

Students will be permitted to take comprehensive examinations any time during the first two years when they feel qualified to pass the tests. A special board of examiners will administer all comprehensive course examinations. Through these special examinations it is possible for students to complete degree requirements in less than the traditional four years.

The committee in charge of the revised program consists of: Howard C. Rather, professor and head of farm crops, chairman; Karl Dressel, associate professor and acting head of forestry; Dr. Cecil V. Millard, professor and acting chairman, department of education; Dr. Harry H. Kimber, associate professor and head of history and political science; Joseph W. Stack, professor of zoology and director of museum; Lorin G. Miller, professor and head, department of mechanical engineering; Dr. Irma H. Gross, professor and head, department of home management and child development; and Dr. Ward Giltner, dean of the veterinary science division.

In announcing the committee, President Hannah stated: "We are trying to foresee as best we can what the problems of the future are likely to be and to reformulate a common over-all objective for the institution.

"We are conducting this self-examination upon the assumption that there is nothing in our organizational structure, nothing in our procedures, nothing in our educational program that should not be re-examined, re-evaluated, and revised, if by doing so we can increase the probable effectiveness of our program.

"If the present planning by the committee becomes a reality next September," said President Hannah, "I am sure our graduates in the future, will be no less effective engineers or agriculturists or home economists or veterinarians, or teachers. They will have a better understanding of their social relationships with one another, their responsibilities as individual citizens in a great democracy, and of the individual possibilities of the human race to lift itself above and beyond the narrow-minded selfish attitudes that sometimes result in great world wars."

The Cover

The Record is reaching Michigan State fighting men all over the globe. The cover picture shows Capt. Walter J. Jones, '40 Vet, at the headquarters base of the Second Air Task Force, "Somewhere in New Guinea," showing an issue of the alumni magazine to a native. "From the expression on the face of my native batboy you can see that he also appreciated the pictures of the campus," Capt. Jones wrote. The picture was furnished by his mother, Mrs. Walter Jones, Scottdale, Pennsylvania. Captain Jones has been in the Pacific war theater 17 months.

APRIL, 1944 . . . . 3
New Board Members Begin Active Duties

Two new members of the State Board of Agriculture, governing body of Michigan State College, assumed active duties at the annual organization meeting held recently. They are Dr. Sarah Van Hoosen Jones, operator of a large dairy and poultry farm near Rochester, and Winfred G. Armstrong, Niles farmer and master of the State Grange. Both were elected to six-year terms last fall.

At the same session, William E. Berkey, Cassopolis newspaper publisher, was re-elected to his third term as board chairman. Mr. Berkey has been a member of the board since 1930 and its head since 1940. Retiring members of the board are Mrs. Lavina Masselin, Big Rapids, and James J. Jakway, Benton Harbor.

During that and other meetings the board accepted gifts to the college totaling approximately $23,500. Largest was one of $15,000 from Swift and Company, Chicago, for a research project of turkeys and diseases and parasitic infestations. Wallace and Tiernan Company, Inc., Newark, N. J., made a grant of $4,000 for a study of the conditioning and sterilization of swimming pool waters.

226 Seniors Complete Degree Requirements

Two hundred and twenty-six Michigan State College students and former students completed their requirements for degrees at the close of the fall quarter in December and the winter quarter in March.

In the group are 53 men serving in the armed forces. Degrees were conferred on the service men as they had finished satisfactory work before military induction and diplomas were sent directly to them or to their homes. Among the fall quarter class were 49 who received degrees in veterinary medicine.

While no general college commencement exercises will be held until June, the mid-year graduates may return for the formal ceremonies. Under the accelerated wartime program of Michigan State, students may begin or complete courses in any of the four quarters of the year.

C. B. Smith, '94, Speaks

C. B. Smith, former director and now collaborator of the U. S. department of agriculture extension service, was a speaker at graduation exercises for 200 short course students in March. It was a "golden anniversary" homecoming for Mr. Smith as he was a member of the first MSC short course class in 1894, when 23 were graduated.

Rural young men and women comprise the most significant group in America today "because their thinking will help determine future efficiency in agriculture and homemaking," he told the class. He observed that half of rural-born people gravitate to cities and urban centers and declared, "they constitute a substantial leaven in the urban 56 per cent of our population by keeping it young and invigorated."

Dr. Chamberlain, Miss Smith Retire

Retirements of three of the oldest members of Michigan State College staff in point of service, Dr. Frank W. Chamberlain, professor of anatomy, Miss Edna V. Smith, state home demonstration leader, and Miss Jessie Clark, associate professor of art, were among a number of faculty changes approved by the State Board of Agriculture at recent sessions.

Miss Smith, who leaves the college June 30, has been with the college extension service 26 years, originally joining the staff as extension specialist in 1916. As home demonstration leader, Miss Smith has been responsible for the organization and supervision of home economics extension activity in 83 Michigan counties.

Professor Chamberlain also will retire at the end of June. He has served the college 23 years, first having been appointed in 1911 as assistant professor of veterinary science. For the period, 1919-1929, he was acting dean of the veterinary division. He is the author of several scientific volumes, among them the "Atlas of Avian Anatomy," which will be published soon. Miss Clark joined the staff in 1924.

Two faculty members on leave were reinstated. Byron Good, assistant professor of animal husbandry, returned to that position, after a medical discharge from the army. Professor Good entered military service June 1, 1942, and was wounded in action at Rendova Island in the South Pacific. Also returning on June 20 is L. J. Laker, assistant professor of education, who was granted a leave September 1, 1942, to serve as an instructor in the Army Air Force technical school at Chanute Field, Ill.

Among new faculty appointments by the board is that of Walter Abel, who comes to MSC, September 1, as associate professor of art. He has been with the National Gallery of Art, Ottawa, Ontario, and is managing editor of the Canadian Art Magazine.

Women Engineers

Six Michigan State College women have been given engineering scholarships worth $100 each by Pratt and Whitney Aircraft corporation, East Hartford, Conn. The awards provide nine months of special engineering training to fit the students for positions in the concern's engine building plant. Seventeen women received similar scholarships in the past year, although they were worth $1,200 each and were for a year's training. They completed the course March 27 and reported for work in East Hartford on April 13.

The new fellowship winners began their studies at the opening of the spring quarter, March 27, and will complete the work at the close of the fall quarter in December, 1943. Subjects assigned them for study include mathematics, engineering drawing, physics, mechanical and materials laboratory, metallurgy, and industrial management.

Textile Institute, June 26

Practical adaptations of available clothing materials to meet emergency problems created by wartime apparel shortages will be the principal theme of a three-week national institute on textiles at Michigan State College, June 26 to July 14.

The course is sponsored by the department of textiles, clothing and related arts of the Home Economics Division. Students will be on a graduate level for professional teachers of home economics in colleges and high schools and for extension service workers. Enrollment will be limited to 50. Five days of classroom work each week will be supplemented by field trips one day a week to Michigan industrial plants engaged in the processing or use of textiles.
At the close of the summer session, there will be several workshops conducted by the department of education. The ROTC is composed of civilian students, elementary and high school teachers, administrators and graduate students, there will be several workshops and conferences featured for special students, according to the director. These conferences include: June 19-July 7, child growth and development workshop, and vocational course for teachers of agriculture and farm shop: June 26-July 14, textile institute for home economics: July 17-19, three-day youth guidance conference; July 24-28, clinic on professional problems in teaching field; and August 7-18, rural education workshop for former teachers returning to the profession during the emergency.

At the close of the summer session, there will be a three-week counsellor training workshop conducted by the department of education.

2,000 Soldiers in Training on Campus

With the transfer of about 800 men in Michigan State College Army Specialized Training unit to duty with combat troops on April 1, there are approximately 2,000 soldiers still in training on the campus. Several officers and "non-coms" of the 3655th Service unit, ASTP, also were soldiers still in training on the campus.

The summer quarter will run from June 29 to September 1, the six-week session from June 29 to July 28. The availability of regular courses during the summer provides high school students who graduate in June an opportunity to begin their college course immediately.

In addition to extensive course offerings in both sessions for civilian students, elementary and high school teachers, administrators and graduate students, there will be several workshops and conferences featured for special students, according to the director.

With the transfer of about 800 men in Michigan State College Army Specialized Training unit to duty with combat troops on April 1, there are approximately 2,000 soldiers still in training on the campus.

Several officers and "non-coms" of the 3655th Service unit, ASTP, also were solders still in training on the campus. The ROTC is composed of civilian students, elementary and high school teachers, administrators and graduate students, there will be several workshops and conferences featured for special students, according to the director.

These conferences include: June 19-July 7, child growth and development workshop, and vocational course for teachers of agriculture and farm shop: June 26-July 14, textile institute for home economics: July 17-19, three-day youth guidance conference; July 24-28, clinic on professional problems in teaching field; and August 7-18, rural education workshop for former teachers returning to the profession during the emergency.

At the close of the summer session, there will be a three-week counsellor training workshop conducted by the department of education.

2,000 Soldiers in Training on Campus

With the transfer of about 800 men in Michigan State College Army Specialized Training unit to duty with combat troops on April 1, there are approximately 2,000 soldiers still in training on the campus. Several officers and "non-coms" of the 3655th Service unit, ASTP, also were ordered to line duty at that time. The group remaining includes 1,500 Aircrew trainees in the 310th College Training Detachment and 500 in AST advanced engineering and veterinary medicine courses, AST reserve and basic ROTC. The ROTC is composed of civilian students under 18 years of age and the AST reserve is a pre-induction branch of 17-year-olds.

AST men transferred included those in basic engineering and area and language courses. When the college ASTP was activated July 12, 1943, there were 1,800 men in the unit. Shifting the soldiers in and out for training or duty with ground troops reduced the total before the present transfers. The latest movement of trainees is in accordance with recent War department decisions to discontinue a large part of the AST program in colleges throughout the country. Col. Grover B. Egger is commanding officer of the 3655th Service unit.

The aircrew detachment, commanded by Lt. Col. Paul A. Johnson, reached its first birthday on the campus March 1. There was no pause for celebration, however, the anniversary simply marking a continuance of turning out potential pilots, navigators and bombardiers to help lick the Axis. Since its activation last year, the MSC Aircrew unit has "graduated" over 3,000 men for advanced training as aviation cadets.

‘Ice Cube’ Eggs Perfected at MSC

Shell-less frozen eggs that housewives will be able to keep fresh indefinitely in their home refrigerators and break off singly like ice cubes have been perfected by two research men at Michigan State College experiment station. The eggs will be frozen in squares about one-third of an inch thick to allow for quick thawing at room temperatures.

Frozen eggs are not new, but they have never been packed in containers suitable for home use before the MSC men proved the idea practical. Present restrictions on the manufacture of new domestic products undoubtedly will delay the introduction of “ice cube” eggs until after the war, but machine tool men who are interested in the process are now designing apparatus to freeze them on a mass production basis. They envision equipment which will crack the eggs at the front of a machine and bring them out on the other wrapped in transparent paper ready for the frosted food chests at neighborhood markets.

Alumni Scholarships

Sixty-four undergraduate scholarships having a value of $7,680 are being offered to graduates of accredited Michigan high schools by Michigan State College alumni.

A minimum of one award will be made in each of the state's 32 senatorial districts. The individual scholarship amounts to $120 — or $40 a quarter — and represents a waiver of tuition by the college, exclusive of matriculation fee. If scholastic standards are maintained, the grant may be continued through the student's entire college course of 12 quarters.

Faculty Writings

Over 650 writings published by Michigan State College staff members for the fiscal year ending June 30, 1943, are catalogued in a newly issued bulletin compiled by Joseph G. Duncan, assistant bulletin editor of the department of publications.

The 56-page booklet refers to a variety of material ranging from pamphlets on victory gardens to large books on scientific findings. Included are authors and titles of 19 books, 491 abstracts, book reviews, bulletins, contributions to learned societies and articles for periodicals and scientific journals, 107 mimeographed publications, and 37 printed reports.

Pick 15 for Junior Executive Tryouts

Fifteen Michigan State College Home Economics Division seniors majoring in retailing will receive six weeks of practical experience working as junior executives in a large Detroit department store. This is the first time that executive responsibilities have been offered undergraduate students. The women, selected by a faculty committee, will work during the last half of the 1944 fall quarter, which includes the holiday rush period.

Announce Dates for 31st Summer Session

Continuing its wartime policy of facilitating the training of skilled personnel, Michigan State College will extend its 31st annual summer school this year to a full quarter as well as to offer the usual six-week summer courses.

The summer quarter will run from June 29 to September 1, the six-week session from June 29 to July 28. The availability of regular courses during the summer provides high school students who graduate in June an opportunity to begin their college course immediately.

In addition to extensive course offerings in both sessions for civilian students, elementary and high school teachers, administrators and graduate students, there will be several workshops and conferences featured for special students, according to the director.

These conferences include: June 19-July 7, child growth and development workshop, and vocational course for teachers of agriculture and farm shop: June 26-July 14, textile institute for home economics: July 17-19, three-day youth guidance conference; July 24-28, clinic on professional problems in teaching field; and August 7-18, rural education workshop for former teachers returning to the profession during the emergency.

At the close of the summer session, there will be a three-week counsellor training workshop conducted by the department of education.
ABOUT THESE ALUMNI
By Gladys M. Franks

Patriarchs

Arthur B. Peebles, '77, retired Congregational minister, died in National City, California, on January 26. After receiving his bachelor of divinity degree from Oberlin College in 1852, Mr. Peebles organized a church at Mackinaw City, Michigan, in 1853, and later went to Salt Lake, Utah, and from there to Fargo, North Dakota. In 1857 he returned to the campus to teach chemistry, and in 1859 he took a similar position at Connecticut Agricultural College at Storrs, remaining until 1901 when he returned to the ministry. He served pastorates in Rutland and Berlin, Connecticut, and his brother organized the Frost Gear and Transmission Company. Mr. Frost served as president of the city's planning and zoning commission for a number of years. Mr. Frost was one of the founders of the Y.M.C.A. in Jackson, was one of the oldest members of the Rotary club, a member of Jackson Lodge No. 17, F. & A. M., and a trustee of the Congregational church. He is survived by his wife, a daughter, Mrs. Helen Johnson, and two sons, Lt. Barry L., '24, and Robert.

William Petrie, '90, is an examiner in the patent office in Richmond, Virginia, where he lives at 1804A Grace street.

Glen C. Lawrence, '85, of Mason, Michigan, died in a convalescent home in Jackson on November 21, 1943. Mr. Lawrence alternated teaching and farming for several years and then located in Richland, Washington, where he developed a fruit, dairy and poultry farm from the sugarbeet. Eighteen years later he purchased a wheat ranch in Alberta, Canada, and after living there several years moved to South Cushing, Maine, where he engaged in dairy and poultry farming. He retired a few years ago and returned to Michigan to live in Mason. He is survived by his wife and a son and daughter.

George Morrice, '85, retired farmer and remembered as captain of the first football team at the college, died in Alma, Michigan, on December 28, 1882. After farming in the St. Johns area for many years, Mr. Morrice retired in 1880 and moved to Alma where he and his family operated a tourist home on West Superior Street. Mr. Morrice, three daughters, and four sons survive.

Charles M. Hempfill, '89, is living in Clearwater, Florida, at 524 Pierce street.

George L. McPherson, '89, has offices at 427 Board of Trade building, in Portland, Oregon.

Edward J. Frost, '90, M.E. '29, retired industrialist and civic leader, died at his home in Jackson, Michigan, on January 26. Mr. Frost left college before the completion of his junior year and was employed as draftsman for concerns in Jackson, Hamilton, Ohio, and New Delhi, Utah, and from there to Fargo, North Dakota. In 1857 he returned to the campus to teach chemistry, and in 1859 he took a similar position at Connecticut Agricultural College at Storrs, remaining until 1901 when he returned to the ministry. He served pastorates in Rutland and Berlin, Connecticut, and his brother organized the Frost Gear and Transmission Company. Mr. Frost served as president of the city's planning and zoning commission for a number of years. Mr. Frost was one of the founders of the Y.M.C.A. in Jackson, was one of the oldest members of the Rotary club, a member of Jackson Lodge No. 17, F. & A. M., and a trustee of the Congregational church. He is survived by his wife, a daughter, Mrs. Helen Johnson, and two sons, Lt. Barry L., '24, and Robert.

William Petrie, '90, is an examiner in the patent office in Richmond, Virginia, where he lives at 1804A Grace street.

An oil painting of Frederick B. Mumford, '91, dean emeritus of the faculty of agriculture at the University of Missouri, was presented to the College of Agriculture on November 3 at a meeting of faculty and staff members and their wives in Mumford Hall. In his remarks of appreciation, Dean Mumford said that colleges of agriculture have pioneered in the field of research and in the development of an adult education program, and that the present day college considers what the farmer wants to know and then attempts to build its program around supplying the answer. Mr. and Mrs. Mumford have spent the winter in Sarasota, Florida.

Albert H. Gillett, '92, writes that at the age of 77 he is still teaching. This year it is mathematics, typing, and music at the University of Oregon, but he will return to his home in Albany, Oregon, for the summer months.

1894

John C. Butler, well-known DuBois township farmer, died at his home near Portland, Michigan, on January 9, after an illness of several weeks. Mr. Butler was at one time president of the state organization of Poland China breeders, and had also served as president of the Ionia County farm bureau. He is survived by his wife, a daughter, and a son.

1895

Major Henry R. Allen, retired, in employment and personnel manager for the Pfaudler company in Rochester, New York, where he lives at 4 Highland Heights.

The sympathy of his classmates and many friends is extended to Maurice Kains in the death of his wife on February 17. At present Mr. Kains is located in New York city at 9 W. 63rd street, Box 1154.

1896

Word has been received of the death of Clifton H. Briggs, which occurred in Riverside, Ontario, on September 28, 1943. Mr. Briggs, brother of Lyman J. Briggs, '93, was formerly a chemist at the Chicago Medical school and may be reached in Boston.

1899

Frederick R. Gorton, for many years head of the physics department at Michigan State Normal college in Ypsilanti, died in that city on November 10, 1943.

1900

Lucelia Baker Hedrick, wife of Dr. Wilber O. Hedrick, '71, died at the family home in East Lansing on February 24. Mrs. Hedrick was the daughter of Lt. L. B. Baker, famed for his part in the capture of the assassin of Abraham Lincoln. In addition to her work at the college Mrs. Hedrick studied at Chicago Art Institute. She was active in the Plymouth Congregational church, a member of the board of directors of the Lansing Woman's club, second president of the Faculty Folk club at Michigan State College, and a member since 1924 of the U.P.I. club. She is survived by her husband, retired professor of economics at the college, and four daughters, Mrs. Helen Castled, '25, Mrs. Sheldon Weisman, '26, Mrs. Donald Carver, '29, and Mrs. Donald Berles, '33.

Her classmates will be glad to learn that Bertha Malone has received, through the American Red Cross, the following message from Antranig Bedourian of Thessalonie, Greece: "Thanks for your kind message. I am still alive, residing at Odes Amalias 5. It will be my happiest day if I could meet you again. Greetings to all."

Col. John R. Thompson writes that having reached the statutory age limit for officers in the Army, he was relieved from active duty on November 16, but is continuing as a civilian employee in the same position. He is chief, rail design branch, in the office of the assistant chief of transportation for supply, and has offices in the Pennsylvania building in Detroit. He is interested to know if anyone remains in the armed services from an earlier class than 1906.

1902

Zaidee Vosper, editor of the American Library Association book list since 1927, died in a Chicago hospital on November 16, 1943. Before transferring to Chicago, Miss Vosper had worked in the Detroit Public library and the New York State library. She is survived by a sister, Mrs. J. B. Cheshook of Ypsilanti, Michigan, two nieces and two nephews.

1903

Dr. Myrtle More Canavan continues as curator of the Warren Anthropological Museum of Harvard Medical school and may be reached in Boston at 25 Shattuck street.

J. R. McCallum is laboratory director for Airdry temp division of the Chrysler corporation in Dayton, Ohio, where he lives at 1604 Fairview.

1906

A. Crosby Anderson, professor of dairy husbandry and dairy husbandman in the experiment station from 1915 to 1926, died in Brownsville, Texas, on January 18. Mr. Anderson joined the college staff in 1906 as instructor in animal husbandry. In 1908 he became assistant professor of dairу husbandry and assistant dairу husbandman in the experiment station, and two years later succeeded to the positions which he held for a decade. He left the college staff to become dairy specialist for the Michigan Milk Producers association. He is survived by two sons, Edgar S., '18, and Richard J.. '22.

The January 9 edition of the Quincy (Ill.) Herald-Whig contained an interesting article and pictures of the launching of three LCT boats by the Quincy Barge Builders of that city. The launching was completed in two hours and was accompanied by neither fanfare nor ceremony as the workmen and officials are interested only in getting a barge out of the way so another can be started. The Quincy Barge Builders is operated by the Bates and Rogers Corporation company of Chicago and A. S. Armstrong is general superintendent of the Quincy plant.

On November 18, Senator Ernest R. Graham, farmer and dairymen and dairyman, announced his candidacy for governor of Florida.

(Turn to Page 15)
Can you tell us the year this picture of parading seniors was taken? In the background are Howard Terrace, torn down in 1923 to make way for the Home Economics Building, and a Faculty Row residence which now houses the Nursery School.

**Days of Yore**

*By Joseph G. Duncan*

Spring's revival of the almost countless plants in the Beal Botanic Garden makes timely a tribute to the memory of the Garden's creator, Dr. William James Beal (1833-1924).

During his official connection with the college, 1870-1910, Dr. Beal exerted a tremendous influence on the landscaping of the campus. His high standards of teaching and living made a profound impression on the scores of alumni who sat in his classes and whom he contacted elsewhere.

An indefatigable worker throughout most of his 90 years, Dr. Beal wrote not far from 1,300 articles, bulletins, notices, and scientific papers. Included in this total were 135 papers which appeared in leading botanical and scientific journals. In addition, he wrote five books, including his well known "History of Michigan Agricultural College."

Besides the Botanic Garden, another living memorial to Dr. Beal is the Pinetum, established by him in 1896.

(Right) Members of the Class of 1904 will recall the glowing records established by athletic teams of that year. In all sports—football, baseball, basketball, and track—State's teams triumphed. Pictured here are members of the baseball team. This photograph was loaned to us by George S. McMullen, '04, of East Lansing.

Only a horse-and-buggy or a “horseless carriage” is needed to complete this campus scene, typical of the period, 1900 to 1918. On the left is the Old Chemistry Building (now Physics); center background is Williams Hall which stood on the site of the present Library, and, barely discernible in the left background, are the steps of Old College Hall.

The Chemistry Building was erected in 1871 and is the only one of the trio still standing. Williams Hall, a dormitory, was constructed in 1869 and was destroyed by fire in 1919. Old College Hall, built in 1856, collapsed in 1918. Its site is marked by Beaumont Tower.
The Job

W. K. Flynn, '99

Three years ago, before wartime loads added to business, the New York Central Railroad System expended $82,454,568 for maintenance of equipment. For 16 years Walter H. Flynn, '99, has headed up its mechanical department of maintenance equipment with unusual success, having under his direction approximately 24,450 employees, who maintain and repair the 3,440 locomotives, 127,656 freight cars and 4,557 passenger cars.

That Mr. Flynn is also highly regarded by the mechanical department officers of the railroads of North America is evident from the fact that he is chairman of the Mechanical Division of the Association of American Railroads.

In a recent issue of the Railway Mechanical Engineer, the editors tell an interesting story of Flynn's life, in part they say: "Walter H. Flynn was born in Buffalo, N.Y., June 24, 1877. He spent most of his early life in St. Thomas, Ontario, where his father was stationed as a master mechanic of the Michigan Central. That is where he received the ambition to become a railroad mechanical engineer. He finished high school and then came to Michigan State where he graduated in 1899 in mechanical engineering. He liked military training and in his senior year became captain of one of the four companies. He managed the football team in 1898 and, so far as scholarship is concerned, a college mate (Ellis Ranney) reports that he was the same in college as he is now—very active and industrious."

"After graduation from college he started as a mechanical draftsman in the offices of the Cleveland, Lorain & Wheeling. A year later, September 1, 1900, he entered the service of the Michigan Central at Detroit, as a draftsman in the mechanical engineering office. From here he was made assistant general foreman at the Jackson, Michigan, shops on March 1, 1902. An associate of Mr. Flynn's at that time says that he 'was always the first man on the job in the morning and the last man to leave at night,' a trait that has followed him right up to the present day."

"After becoming general foreman at the Jackson shop, February 1, 1906, he rounded out the third phase—mechanical operation by becoming master mechanic at St. Thomas, Ontario, on September 1, 1907. On June 1, 1912, he returned to Michigan as superintendent of motive power with headquarters in Detroit from which position he was called to New York City in September of 1926 to become general superintendent of motive power of the New York Central System. In January of 1927 he was advanced to the position which he now holds."

E. S. Keithley, '13

December 29, 1943, was a red letter day in the life of E. S. Keithley, supervisor of the Pike National Forest, who lives in Colorado Springs, Colorado. At a dinner at the Alta Vista hotel he was surprised by a group of Michigan State alumni and their wives from the Pike National Forest, when Huber Hilton, '11, presented to him a diploma from Michigan State College giving him a degree of Bachelor of Science and dated as of June 24, 1913.

Hilton explained to those present that Keithley had transferred from the University of Missouri to Michigan State when he was a junior, and because of different regulations at the two schools did not receive the necessary credit for graduation in 1913 although he had completed the full forestry course.

In presenting the diploma to Keithley, Hilton said it had been presented in recognition of 32 years of outstanding accomplishment in the field of forestry and in tribute to his position in the forestry profession.

Keithley expressed his appreciation by writing a letter to President John A. Hannah in which he stated, "prior to this occasion I had felt that I was neither an alumnus of the University of Missouri nor Michigan State—a sort of hybrid. Now that I am a full-fledged alumnus of Michigan State College, as evidenced by the appropriately designed certificate of Bachelor of Science in Forestry, that feeling has disappeared and I am proud, more so than ever before, that I belong to that great group of men and women—the alumni of Michigan State College!"

J. W. Nicolson, '15

In the town of Shenandoah, Iowa, is located the Henry Field Seed and Nursery Company, managed by a seedsmen, named John W. Nicolson, known to the catalogue trade as "Alfalfa John".

This is the same "Nick" that graduated at M.S.C. with the class of 1915. As an undergraduate he was a member of Alpha Zeta, Scabbard & Blade, Sem. bot., Farmers' Club, played class baseball in 1913 and '14, was a member of the J-Hop Committee, and served as assistant advertising manager of the 1914 Wolverine.

From 1916 his career has been built around farm crops and the selling of seeds. Last year as general manager and vice president of the Henry Field Seed and Nursery company, Nicolson supervised a $2,300,000 business.

But his connection with the above company is only one of a long list which included: vice president and treasurer of KPWP Inc., Henry Field's Friendly Farmer Radio Station, oldest commercial radio station in Iowa with continuous operations since 1924; president and treasurer of Iowa Seed company, Des Moines, Iowa, oldest seed company in Iowa; president and treasurer of Nebraska Seed Company of Omaha, Nebraska, wholesale field seeds and garden seeds; vice president and treasurer of Gurney Seed and Nursery company, of Yankton, S. D., 70 year-old seed and nursery mail order house; and vice president and treasurer of Henry Field Hybrid Corn company, growers of corn belt type hybrid seed corn.

While handling most of his business in the central prairies by telephone, "Nick" does considerable traveling in what he calls the "bread basket" of the country. He finds time to act as a consultant on the Field Seed Industry Advisory Committee to the Food Distribution Administration, Field Seed Advisory Committee to the OPA, and the Vegetable Seed Advisory Committee of the OPA.

His son, "Jack" graduated at MSC in 1941, and is now located with the Montana Soft Water Service at Billings. Betty Ann, his 21-year old daughter, lives in Omaha, and another ten-year-old boy, Dan, is considering MSC.
Lt. Comdr. Dan Henry, '15

Handling the biggest job in the seven states of the 4th induction and recruiting area, is Lt. Commander Dan Henry, '15, who quit farming at Grand Rapids in 1916 to form a local unit of the Naval Reserve and soon became head of the organization. Because of a back injury, Henry missed foreign service in World War I, but became executive officer of the Navy Training Station at Key West, Florida, until 1919. He returned to Grand Rapids but stayed with the organized reserve, and in 1940 was called to recruiting duty in Baltimore.

During this war Henry has been working seven days a week at recruiting in addition to being a special disbursing officer for the Navy. In three more years he will be eligible for a second star, indicating 30 years of reliable service. He is located at the Navy Main Station, Columbia, S. C.

Lt. Dean M. Radtke, '42

(Reported Missing in Action March 6)

Lt. Dean M. Radtke, '42, of Morrice, Michigan, was proclaimed the "Spartan of the Week" when news of his heroism reached the campus, January 20, 1944.

Lt. Radtke brought his Flying Fortress 300 miles back to England from a raid on Germany practically one-handed. Beside him in the cockpit was the dead body of his co-pilot. When Lt. Radtke landed his plane, he collapsed.

Other members of the crew pried his fingers loose from the controls. One hand had been sliced by fragments of the same shell which killed the co-pilot. He also suffered slight fragment wounds on his neck and arms.

The Fortress had been in battle with 10 Nazi fighters, and its broken controls were blood spattered. One engine had been shot out of the fuselage and the wings were shredded to ribbons. The fighters met the Forts before the target was reached, but, determined, Radtke brushed the blood from the shattered instrument panel and refused to turn back without dropping his bombs. Lt. Radtke is the son of Mr. and Mrs. William L. Radtke, of Morrice. After completing his college course he married Miss Arlene Gruber, of Morrice. They have a son, Ronald Dean, born in December, 1943.

In college Dean was a member of Farmhouse, on the track squad, and a member of the State News and Wolverine staffs.

The co-pilot killed in the mission mentioned above was Lt. Robert Digby, a nephew of Leo Digby, '12, of Detroit. Robert Digby's sister, Florence, graduated at Michigan State in 1938.

Brig. Gen. George F. Schulgen, '22

To George F. Schulgen, '22, goes the honor of being Michigan State's youngest Brigadier General.

Coming to East Lansing from Traverse City Schulgen served as a private in the S.A.T.C. in World War I from October to December 1918, then returned to graduate in mechanical engineering with the class of 1922. On March 11, 1924, he decided to make the Army his career and became a flying cadet, being commissioned as a second lieutenant, Air Service, on June 15, 1924.

For 17 years he served many posts and in 1939 graduated from the Command and General Staff school, Fort Leavenworth, Kansas. After some time at Wright Field he was ordered to Washington for duty in the Operations and Training Division, War Department General Staff. In February, 1942, he became Assistant Secretary of the General Staff. He was named Wing Commander, First Aid Force, Philadelphia Air Defense Wing in July 1943, and the following October became Chief of Staff, at Mitchell Field, New York, where he is now serving.

Capt. Robert S. De Gurse, '33

During the past summer Mrs. Robert De Gurse, of Ovid, Michigan, was notified that her husband, Capt. Robert De Gurse, '33, was missing in action. No further word has been received.

On October 30, however, Mrs. De Gurse attended a ceremony at Camp River Rouge Park near Detroit and received in behalf of her husband the Silver Star Award. The citation in part read: "In March, 1943, Capt. Robert De Gurse commanded his company in an attack on the northern slope of Djebel-Tunisia. The attack was made initially against a series of artillery gun emplacements. Captain De Gurse, leading his company, saw a machine gun start firing as they neared the position. With complete disregard of his personal safety, he rushed forward in an attempt to silence the gun. Captain De Gurse was reported missing at the reassembly of his company. Captain De Gurse's brave and heroic act was performed in a gallant manner exemplary of the most notable in Army tradition."

Major Wallace E. Grubbs, '41

The promotion of Wallace E. Grubbs, '41, to the rank of Major was announced February 5, 1944, at Lawton Field, Fort Benning, Georgia, which is a base of the U. S. Army Air Force's Troop Carrier Command. He is commanding officer of the Air Base squadron.

Major Grubbs came to Michigan State from Pittsburgh, Pa., and completed his B. A. degree in 1941. Before entering service he was with General Motors.

The First Troop Carrier Command is the branch of the Air Forces charged with transporting men, supplies, and equipment in battle areas throughout the world. Flying twin engine G-47 cargo planes, they carry paratroopers, tow gliders, and deliver vital materials to America's fighting men. Equipped with stretchers and medical supplies, carrying flight nurses, they also fly wounded men from the front back to base hospitals.

Major Fred C. Belen, '37

While in college, managing the Wolverine seemed like big business for Fred C. Belen, of Lansing. During those days he was also active on the men's debating team and the International Relations Club.

After graduation in 1937 Belen was appointed secretary to Congressman Andrew Transue, of the Sixth Michigan District, and attended afternoon classes at George Washington University Law School. He later became connected with the U. S. Army Air Force's Troop Carrier Command. He is commanding officer of the Air Base squadron.

North Africa

One of the most unusual Christmas presents to the Alumni Office was the organization of a new alumni club in North Africa early in December. It all happened when Ensign Don G. Brando, '42, of the U. S. Navy Air Force, was named president and Ensign John Blititzke, w'43, was named secretary. They would have elected a vice president but these two comprise the whole club. President Don writes that "we are loyal State supporters, but bitterly disappointed that the good old Spartan name was missing from the sports pages last fall. Whether a football team wins or loses is not so important as long as they try. We all hope M. S. C will be in the sports columns again soon." Officers of the North Africa M. S. C. Alumni Club may be addressed VB 112, c/o Fleet Post Office, New York, N. Y.

Jackson-Hillsdale District

More than 90 Michigan State men and women assembled in the First Methodist Church dining room in Jackson, on January 19, for the annual dinner meeting of the Jackson-Hillsdale district. President Phil A. Bell, '33, and his committee secured Prof. Chao Chang Lee, of the Institute of Foreign Studies as the principal speaker. He was introduced by George Dobben, '24, past president of the club. Professor Lee, a Chinese scholar of note, first told of his impressions of Michigan State and complimented the old graduates on their continued interest in such a fine institution. His address dwelt upon the historical background of the Chinese and "The Future of Chinese-American Relations". Glen Stewart, director of alumni relations, showed the new colored Air Corps movie. Officers elected included: Allen Diebold, '39, president; Miss Margaret E. Culver, '42, first vice president; Ralph Folks, '25, second vice president, and Miss Mary Alfreda Hanson, '42, secretary-treasurer. — Mary Hanson, secretary.

Chicago

Chicago alumni gathered on Wednesday noon, March 1, for their monthly meeting at the Engineers Club, 314 S. Federal street. According to C. Earl Webb, '12, the last meeting was most successful with Mrs. Josephine Carver Hedges, '17, as the guest speaker. Mrs. Hedges spoke on "Life in China", having spent some time there after leaving college.

Southern California

With Earle E. Hachin, '12, of East Lansing, past national alumni president as guest speaker, more than 90 members of the Southern California Club met at the University Club in Los Angeles, California, February 11. Hachin did a splendid job of covering college activities in wartime.

The following people were named officers for the coming year: Hartley E. Truax, '12, president; J. Deloss Tower, '14, vice president, and Roy F. Irvin, '14, secretary-treasurer. Messages were read from Col. Harold Furlong, Dr. Harry Eustace, and Glen Stewart. — Norton W. Mogge, '14, past president.

New York City

Glen O. Stewart, director of alumni relations, spoke to 90 members of the New York City Alumni Club on December 13, at the Biltmore hotel, when he was attending a meeting of the Board of Directors of the American Alumni Council, of which he is national secretary. Presiding at the meeting was Ed Young, '15, of the Young Foundation Corporation, who presented Norm Weil, '17, secretary of the club. Weil called on several alumni to discuss their present work in relation to the college. Among those responding were Don Francisco, '14, Eduard C. Lindeman, '11, M. G. Kains, '95, Captain Art Buss, '35, Gerald (Turn to Page 15)
Col. J. P. Finley, '73

Col. John P. Finley, only surviving member of the class of 1873, died November 24, 1943, at the age of 89, in the Percy Jones hospital in Battle Creek. He was a retired officer of the U. S. Army Signal Corps and for the past ten years had made his home in Ann Arbor.

He was born in Ann Arbor, April 11, 1854, and attended the Michigan Law School, later graduating here in 1873. He was granted an L.L.B. at the university in 1876 and in 1882 he received his M.S. degree at Michigan State. In 1883 Johns Hopkins University made him a Fellow by Courtesy.

Colonel Finley had a long army career starting in 1877 when he enlisted in the Signal Corps until his retirement in 1929. For seven years he served as governor of the District of Zamoanga in the Philippine Islands. During World War I he served at Brownsville, Texas, and Governor's Island, N. Y., and later was commands at Plattsburg, N. Y., and director of the ROTC at Columbia University. His outstanding work in science was in the field of meteorology and statistics for insurance firms.

Colon C. Lillie, '84

The death of Colon C. Lillie on November 30, 1943, at the age of 83 took from Michigan a man who for nearly three decades was one of the state's outstanding agricultural leaders. He was especially active in the field of dairying, helping to organize the Michigan Dairyman's association. He wrote extensively for the Michigan Farmer, under the heading of "Lillie Farmstead Notes" and for years conducted a farm near Coopersville, in Ottawa county, where he had an excellent herd of Jersey cattle. He served as Dairy and Food Commission under Governor Fred Warner.

In June of 1890 he married Julia A. Lairton and their two daughters, Dorothy, '17 (Mrs. C. R. Crozier) of East Lansing and Barbara, '20 (Mrs. G. A. Garratt) of Madison, Wisconsin, survive. Both sons-in-law graduated from the college.

Louise I. Clemens, '13

Miss Louise I. Clemens, '13, died October 15, 1943, at home of her sister, Mrs. John Henry Soltman, 1109 South 13th street, Tacoma, Washington. Forced to retire in 1937 because of ill health, she had spent most of the time with her sister, a native of Kitchener, Ontario, Canada, where she received her early education, Miss Clemens graduated from MSC in 1913. After teaching one year at Lorentz, Iowa, she returned to the college as a member of the economics staff. She did graduate work at Northwestern University and Columbia.

Book London Orchestra

Booking of the London Philharmonic orchestra for a performance at Michigan State College on October 25 will be a highlight of the coming season's concert series. The internationally famous orchestra will have approximately 100 musicians and will be conducted by Sir Thomas Beecham.

Six other major programs have been engaged thus far. They include: the Charles L. Wagner Opera company in "La Traviata" on October 7; the Philadelphia Opera company in the "Merry Widow" on October 18; Metropolitan opera stars, Richard Crooks, tenor, and Bidu Sayao, coloratura soprano, in a joint recital on November 15; the Russian Ballet on December 5; the Don Cossack chorus on January 13, and an all-star Metropolitan ensemble on March 10.

Ensign Smith

Ensign Nanette Smith, '40, of the WAVES, has reported to her first assignment at the Aviation Supply Office in Philadelphia. Before her enlistment last October Miss Smith had spent three years with the William Wrigley Jr. company in Chicago as a statistician. She attended the Naval Reserve Midshipman School at Northampton, Massachusetts, for indoctrination training, graduating in the class of December 14, 1943.

Lt. Beardsley, w'41

Lt. Bernice Beardsley, w'41, of Beaverton, Michigan, is a sister of William W. Beardsley, '46, now in O.C.S., Camp Lee, Virginia. Lt. Beardsley was commissioned in the Army Nurse Corps January 1, 1944, and is now serving overseas.

Lt. Brosius, '42

Lt. Julia L. Brosius, '42, was ordered to active duty on the completion of her service at Harper Hospital, in Detroit.

Women in Service

Ensign Smith   Lt. Beardsley   Lt. Brosius   Pilot Dodd

She was commissioned as a second lieutenant in the medical department and has seen service in North Africa and Italy. Her forwarding address is 2349 Leslie avenue, Detroit 26, Michigan.

Pilot Dodd, '40

Dorothy Jane Dodd, '40, of Lansing, was one of the graduating WASPs (Women's Airforce Service Pilots) to appear February 11, at Avenger Field, Sweetwater, Texas, in a snappy new Government Issue uniform, complete with Air Corps' Winged Insignia. Miss Dodd was among the first group to complete successfully the stepped-up training which offers girl pilots additional hours of flying time, intense training in navigation, thousand-mile cross-country hops, and a myriad of aerial arts valuable to the future ferry pilot.

She began her flying about three years ago while working as a chemist for the Upjohn company in Kalamazoo, and left there August 9, 1943, for Avenger Field.

Alumni Day, Commencement, June 10

Michigan State College 1944 commencement exercises and Alumni Day will be held Saturday, June 10. Registration of alumini will begin at 8 a. m. in the Union Memorial and the patriarch's dinner will be held in the Union.

On Friday, June 9, classes of 1918 and 1919 will celebrate their Silver Anniversary of graduation at a dinner and program in the Union. Another feature of Alumni Day will be reunions of graduates observing fifth and tenth anniversaries, these comprising classes of years ending in the numerals "4" and "9".

94 in Glee Club

The 94-voice Women's Glee Club of Michigan State College has the largest membership in its history. Directed by Dr. William Sur, the club has made two broadcasts over the college radio station, WKAR, and will present spring concerts, April 25, May 16. Members represent 40 Michigan communities and 8 states.

APRIL, 1944 . . . . 11
For Gallantry in Action

Major Rudolph Barlow, '36

Major Rudolph Barlow, '36, of Allegan, received the Silver Star award for leading his armored forces in a surprise attack upon an enemy air field in Africa in December. The assault cost the Germans about 100 planes. After being cited by his commander, he was also decorated by the British. He is now on active duty in the Italian campaign. Major Barlow's wife is employed in Allegan at the county road commission office.

Capt. William A. Hatcher, w'32

Col. William A. Hatcher, w'32, commander of a Flying Fortress group based in England, was reported missing early in January and a prisoner of war in Germany. The first group commander of the Eighth Air Force to be lost in action, Hatcher was awarded the Silver Star for gallantry in action. Hatcher was Capt. Clark Gable's commanding officer when the bill was in England last year. Hatcher was born in Detroit and attended Northern high school. On June 29, 1935, he was married to Aileen H. Newcomb, of Detroit and Los Angeles. She now lives at S. 1078 Wall street, Spokane, Washington, with their two daughters, Sally Ann and Barbara.

Lt. Philip Y. Bombenek, '37

Lt. Philip Y. Bombenek, '37, son of Mr. and Mrs. Paul Bombenek, of 1510 Vine street, Lansing, of the Sixth Air Force Bomber Command, has been awarded the Bronze Oak Leaf Cluster which is equivalent to receiving the Air Medal for the second time. His long range patrol flights, courier and rescue missions, photographic and research missions were all in the area surrounding, and in defense of, the Panama Canal where flying conditions were hazardous.

Major Page

While still a captain in the 9th Air Depot Group, Harry R. Page, '41, was decorated with the Air Medal for gallantry in action. He was promoted to major, September 14, 1943. Major Page was formerly from Milwaukee, Wisconsin, but his mother is temporarily living at 4016 S. Spring avenue, St. Louis 16, Missouri.

These Men Gave All

(Continued from Page 2)

Floyd L. Hazen, 1945

Floyd L. Hazen, aviation cadet in the Army Air Forces, was killed in a plane crash near Augusta, Georgia, January 10. Cadet Hazen entered college from Coloma, Michigan, and was enrolled in Agriculture during 1941-43. His parents survive.

Charles Ernest Frost, 1944

2nd Lt. Charles E. Frost, bomber co-pilot with the 8th Army Air Corps, was killed in action in the European area, January 11. Lt. Frost was enrolled in Forestry during 1940-42, entering from Lansing. He is survived by his parents.

Henry A. Goss, 1916, 1921

Henry A. Goss, lieutenant colonel in the Army and a veteran of World War I, was killed in action in Italy, January 22. He entered college from Grand Rapids, was graduated from the Agricultural Division in 1916 and received his DVM in 1921. He is survived by his wife and a sister.

Charles Orville Corey, 1944

Charles O. Corey, first lieutenant in the Army Air Forces, was killed in a plane crash in the Asiatic area, January 25. Lt. Corey was enrolled in Engineering during 1940-41, entering from East Lansing. He is survived by his wife, daughter, and his mother.

Robert Hamilton Henney, 1942

Robert H. Henney, second lieutenant in the Army, was killed in action in Italy, January 29. Lt. Henney was graduated from the Agricultural Division, June 13, 1942, entering from Hastings, Michigan. He is survived by his parents.

George G. Schueler, Jr., 1942

George G. Schueler, Jr., whose illness while in training in the Army resulted in a medical discharge, died in the Veterans Hospital in New York City, February 4. He was graduated from the Agricultural Division, June 13, 1942, entering from Bloomfield, New Jersey. His wife and parents survive.

Charles Barton Gilmore, 1946

Pvt. Charles Gilmore died February 6 in Cincinnati, Ohio, where he was enrolled in an army specialized training program unit. He was a police administration student during the fall term of 1942 and winter term of 1943, entering from Lansing. He is survived by his parents.

Raymond Cecil Hutches, Jr., 1943

Raymond C. Hutches, second lieutenant in the Army Air Forces, was killed, February 12, in a bomber collision near Greenville, South Carolina. Lt. Hutches entered from Gary, Indiana, and was enrolled in Engineering the fall term of 1940 and winter term of 1941. He is survived by his parents.

William Otto Schaefer, 1946

William O. Schaefer, aviation cadet in the Army Air Forces, was killed in a plane collision near Merced Field, California, on February 15. Cadet Schaefer was enrolled in engineering two terms during 1942-43, entering from Detroit. His parents survive.

Carl Kenneth Carpenter, 1939

Carl K. Carpenter, a first lieutenant in the Army, was killed in action in Italy on February 17. Lt. Carpenter was graduated from the engineering division on June 12, 1939, entering from Jackson. He is survived by his wife, a 13-months-old daughter, and his parents.
T HE Central Placement Office is new at Michigan State College. It is hoped that in a central office it will be possible to give better service to seniors who are graduating, to alumni who may wish to change positions, and to students wishing part-time employment.

Its function at present is concerned with locating qualified personnel for war industry, government, and wartime civilian essentials. This need will likely continue for some time to exact a full quota of energy and attention. The returning men and women from the armed services and from war industry is a post war problem that confronts the Placement Office at this time, and the solution of this problem must be as direct and practical as possible.

To get useful information for this job we are asking that you in the armed services mail to the Placement Office the form on this page with the data required whether or not you expect to be seeking a new position. We should like to have the information whether or not you ever plan to use the Placement Office. We are sorry we cannot promise individual replies nor can we promise a job. We will, however, prepare in every possible way to meet the demands we expect will be made upon us.

We know our alumni will realize that placement is a cooperative venture. The employer offers a job requiring certain abilities, the college undertakes to indicate the person with those qualifications, the candidate chosen makes the cycle complete by his performance on the job.

Stop in while on leave or furlough. Bring in or return this form immediately. The Placement Office at Michigan State College sends greetings and promises its best efforts in your behalf.

First Home Economics Teacher Dies

Word has been received of the death on December 17, 1943, of Edith MacDermott Lawrence (Mrs. William H.), first teacher of home economics at the college. Mrs. Lawrence, who was professor of domestic economy and household science from 1896 to 1898, had lived in San Fernando, California, for several years. Her husband and a son survive.

For Service Men: Prof. Tom King, Head of the College Placement Office, Describes in This Article How You Can Use the Service

Preliminary Information on Post-War Employment Plans

(Fill out and return to Placement Office, Old Music Building, Michigan State College)

   3.

10. Minimum salary requirements

11. Any locality preferences or restrictions

A P R I L, 1 9 4 4 . . . . 1 3
"Frim", '17, Honored Completes 25 Years of Service

Over 200 alumni and friends attended a smoker at the Hotel Olds in Lansing recently to honor Lyman L. Frimodig, '17, assistant athletic director of Michigan State College, in recognition of his 25 years' service on the athletic staff. The affair was arranged by the Central Michigan Alumni Club.

He was presented with several gifts, including a wrist watch, an "S" blanket, a portfolio of 200 congratulatory letters from friends throughout the world, and a framed scroll inscribed with the signatures of everyone at the party. The presentation speech was made by L. W. Watkins, '93, Manchester, a former member of the State Board of Agriculture. Among other speakers was A. L. Bibbins, '15, Buffalo, National MSC Alumni president.

"Frim," as he likes to be known and is universally called, joined the Spartan athletic staff at the beginning of 1919. He is the only Michigan State athlete who entered military service. Besides his duties as assistant athletic director, he is a physical education instructor and coaches freshman baseball.

At Press Time

Michigan State College will return to intercollegiate athletic competition on July 1, it was announced by Dr. John A. Hannah, following faculty and state board approval of the recommendation from the athletic council. The council recommended "that the resumption of intercollegiate athletic competition be authorized effective July 1, with the understanding that the competition be limited to those colleges and universities where eligibility is confined to civilian students, the extent of the schedule to be determined by the amount of funds available for this purpose."

Informal Baseball Team Formed

Forty men seeking berths on an informal Spartan baseball team which will have a schedule against service camp and industrial league nines began practice April 3 under Head Coach John Kobs. Although intercollegiate athletics at State will not be official until July 1, Coach Kobs expects to book informal games for weekends and for twilight hours because more spectators will be able to see them.

In Action

(Continued from Page 9)

the Office of Solicitor General, U. S. Department of Agriculture, and in January, 1941, was appointed secretory to Congressman George D. O'Brien, of the 13th Michigan District. In May, 1941, he requested active duty in the Army and was assigned to the Staff of the Quartermaster General. Here he set up the Security Systems for the buildings occupied by the Quartermaster General. Promoted to Captain, February 1942, he transferred to the Military District of Washington and in October of 1942 was appointed director of security for the Pentagon building. This spot covered the processing of all visitors to the Pentagon building as well as all fire protection and prevention measures, air raid precautions and measures to prevent espionage and sabotage.

In February 1943 he was assigned to the Office, Chief of Transportation, and in May, 1943, was promoted to Major. His present assignment is Field Internal Security Inspector for Area I, comprising the Ports of Embarkation of New York, Boston, and Philadelphia.

George T. Kovacich, '39

George T. Kovacich, '39, former Spartan fullback from Whiting, Indiana, who played in the 1937 Orange Bowl game against Auburn, graduated February 4 from recruit training as honor man of his company at the U. S. Naval Training Station at Great Lakes. Kovacich was elected a candidate by fellow blue-jackets and was picked by his company commander on the basis of military aptitude and progress. He has been recommended for storekeeper third class. On June 9, 1940, he was married to Miss H. Cornelia Ledyard, '40, of Lansing. Their home is now at 825 Eckart street, Fort Wayne, Indiana.

Lt. Robert D. Bond, '38

Winner of the army air medal with three oak leaf clusters and the distinguished flying cross, Lt. Robert D. Bond, '38, of Leslie, Michigan, modestly credits the ground crew with half of the success of his missions over Germany.

"Bob" spent a few days in East Lansing and Leslie the first of January and told of his experiences in combat flying with the British Eighth army air forces. He said "every bombing attack is like a campaign. Not many of us realize the tremendous amount of work behind every mission. The combat crews are all for one, and one for all — they have to be that way. In 25 missions I only had to turn back twice, and that was due to the weather not mechanics. The ground crews are half our flight, at least."

After graduating in forestry in 1938 Bond worked for the Michigan conservation department.
1907

The sympathy of the class is extended to E. Lynn Grover, retired associate professor of education at the college, the death of his wife which occurred at the family home in East Lansing on February 15. She is also survived by two daughters, Mrs. Paul Hartseth, '23, and Mrs. H. R. Keenan, '27.

1908

J. Verne Gonniger is located in Tacoma, Washington, as chief engineer on construction of the second Niqunily Power development. Mr. Gonniger was formerly with the TVA and was project engineer in charge of construction of Contestsville dam in Alabama.

1910

Jane L. Rigterink, manager of the M. W. Tanner company dining room in Saginaw, Michigan, died at her home in that city on November 5, 1943. Miss Rigterink was formerly a dietitian at the Saginaw General hospital and was later associated with the Massachusetts Mutual Life Insurance company there. She is survived by two sisters and two brothers, two of whom are graduates of the college, Albert E. in 1906 and Dr. John W., in 1897.

1912

The sympathy of the class is extended to the family of Roy J. VanWinkle who died at his home in Detroit on February 28. Mr. VanWinkle had been associated with the Detroit office of the Michigan Mutual Life Insurance company since 1921 and was assistant secretary of the company at the time of his death.

B. H. Hendrick is rounding out 16 years with the U. S. Department of Agriculture, and at present is located in Dover, Delaware, with the department's soil conservation service.

Following Alumni Clubs (Continued from Page 6)

E. Smith, w'44, and Mary Canham, w'44. At the close of the meeting Ray C. Kinney, '21, Highcliff, Illinois, sales manager of Graybar Electric, was elected president. Kinney's office is at Lexington avenue and 21st street, phone Mohawk 4-068. He and Mrs. Kinney (Adelise Longuseum, w'29) live at 20 Bantie street, Larchmont. — N. O. Well, '17, secretary, c/o W. S. Tyler Co., 247 Park avenue, New York City 17.

Portland, Oregon

The second oldest alumni group of the college — The Oregon Society of Michigan State College — met at the home of Mr. and Mrs. A. E. Welch, on February 27, for a potluck dinner, program and election of officers. President W. L. Shaw presided. Officers for next year follow: A. F. Douglas, w'05, president; L. C. Thomas, w'04, vice president; and Mrs. G. C. Dudler, wife of Gordon C. Dudler, '71, secretary-treasurer. — Mrs. G. C. Dudler, secretary, 7145 N. E. Sandys Blvd., Portland 13, Oregon.

Buffalo, New York

Old graduates along the Niagara Frontier — The Buffalo, New York, M.S.C. Alumni Club — continue to hold the spotlight for well-organized, well-attended and enthusiastic annual meetings. Meeting was this January 21 at the Katheryn Lawrence Dining Rooms in Buffalo, Larry D. Kutz, '20, president, introduced Mr. Stewart who spoke on "Post-War Education at Michigan State College." At the close of the program, Stewart showed the new color movie, "Michigan State in Wartime," one of the best pictures ever taken at the college. With the assistance of Art Koeck, '14, Mrs. Dorothy Robinson Ross, '28, and Jimmie Bibbina, Stewart interviewed high school seniors in the Kalamazoo, Benton Harbor, Benton Harbor, Michigan, for the past 15 years, died in a Pontiac hospital on December 28, 1943. Mr. Carpenter was a member of the American Society of Farm Managers, the Congregational church of Rochester, Salem, and other Episcopal organizations. He is survived by his wife, the former Louise Halladay, '27, two daughters and a son.

George J. Henchow, cost engineer for the Connecticut General Power company, was in University hospital, Ann Arbor, on February 4. Following his discharge from the Army early in 1919, Mr. Henchow was affiliated with the U. S. Gypsum Company in Oakfield, New York, and later with the Michigan State Highway department in Lansing, before joining the Consumers Power organization in 1924. In 1925 he was transferred to Jackson where he continued until his death. He is survived by his wife, the former Margaret H. Ola, '25, a daughter, Helen, and two sons, Maurice G., '42, and Verne W., four sisters and a brother, Fred W., '29.

Arthur Baylies writes that he is "working with the U. S. Engineers. Northwest division engineer in charge of structural engineering on Alaska highways and airports."

The sympathy of the class is extended to M. E. Ball, of Byron, Illinois, whose wife died January 9. Mrs. Ball is survived by one daughter and two sons.

Wayne F. Carpenter, manager of the Fair Davis company biological farm at Rochester, Michigan, for the past 15 years, died in a Pontiac hospital on December 28, 1943. Mr. Carpenter was a member of the American Society of Farm Managers, the Congregational church of Rochester, Salem, and other Episcopal organizations. He is survived by his wife, the former Louise Halladay, '27, two daughters and a son.
for Consumers Power company.

Marshall G. Boughton, electrical engineer with the Albert Kahn architectural and engineering firm in Detroit, has been awarded the Victory Gold Bomber citation for his work in saving 86,000 man-hours in Detroit airplane manufacturing plants through the development of a new lighting service.

1927

Lawrence Ames is associate pathologist at the Arnold Arboretum at Jamaica Plain, Massachusetts, and he and Mrs. Ames (the former Villa Galvyn, a graduate student at the college) make their home on Claybrook road in Dover.

1928

Karl Schuster is salvage engineer for Woodall Industries of Detroit where he lives at 1524 Wydown.

Major M. G. and Sylvia King, ’23, Farieman, of Camp Blanding, Florida, announce the birth of a son, Ronald King, on October 6, 1943.
