BOARD OF TRUSTEES

Michigan State University operates under the jurisdiction of a constitutional body known as the Board of Trustees. The six elected members serve six-year terms. Two are elected biennially from the state at large.

The President of the University is appointed by the Board and is by constitutional provision the presiding member of that body.

The Board likewise appoints a Secretary and a Treasurer. The State Superintendent of Public Instruction is an ex officio member of the Board.

THE HONORABLE CONNOR D. SMITH, Chairman Pinconning
THE HONORABLE CLARK L. BRODY Lansing
THE HONORABLE C. ALLEN HARLAN Detroit
THE HONORABLE ARTHUR K. ROUSE Boyne City
THE HONORABLE DON STEVENS Okemos
THE HONORABLE JAN B. VANDERPLOEG North Muskegon

THE HONORABLE LYNN M. BARTLETT, Ex Officio Lansing
JOHN A. HANNAH, Ex Officio, President East Lansing
KARL H. MCDONEL, Secretary East Lansing
PHILIP J. MAY, Treasurer East Lansing
As one of the leading land-grant universities and the first agricultural college in the nation, Michigan State University provides a technical practical and cultural education for its student body, in addition to extensive research and extension services to the people of Michigan.

Now in its 105th year, Michigan State University has grown from three buildings and six faculty members to one of the ten largest universities in the nation. It has approximately 2,000 staff members engaged in teaching, research and public service, 371 permanent and 281 temporary buildings, and almost 4,200 acres of land, including 900 acres in the campus area proper.

Founded in 1855 to educate youth for the major occupation of that day—farming—Michigan State University has broadened its offerings as young people, preparing for other vocations, have sought the advantages of university training. Today, Michigan State University has eight colleges—Agriculture, Business and Public Service, Communication Arts, Education, Engineering, Home Economics, Science and Arts, Veterinary Medicine—and the School for Advanced Graduate Studies, and offers 130 different courses of study, 70 of these on the graduate level. This excludes the curriculum of the Basic College, which has been recognized as one of the most progressive ideas for higher education in the nation today, and the Honors College established in 1957 as a unique program designed for the superior student. All students finishing their freshman year with a "B plus" average, or attaining this average in their sophomore year, have the option of entering the Honors College. Once a student is designated an Honors College scholar, all requirements for his graduation from Michigan State (other than total number of hours) are waived. He is assigned a special adviser in his field of major interest and together they work out a program appropriate for the individual.

Michigan State University continually strives to expand its service to the people of the state through the Agricultural Experiment Station, the Cooperative Extension Service and the Continuing Education Service. The Agricultural Experiment Station conducts research on campus and at five off-campus substations. Through the Michigan Cooperative Extension Service, more than 333,000 families are reached with technical information on agriculture, homemaking and the 4-H Club program. The field staff, located in every county, extends M.S.U.'s campus into every township in Michigan. During the 1958-59 year, the Continuing Education Service reached more than 100,000 persons in programs conducted both on campus and in local communities.

Today, more than 19,000 students from Michigan and other states and from nations all over the world are attending the University at East Lansing—about 9,000 of whom are housed on the campus proper. With about 80 percent of these students coming from communities in every section of the state, Michigan State University is doing its part to fill the greatly increased demand of the younger generation for higher education.

In the agricultural, business and professional fields, Michigan State University has proved its worth to the people of the State of Michigan, paying dividends many times the appropriation for its maintenance each year by the state and national governments. Noted for its democratic and friendly spirit, the student body harmonizes with the University faculty to make Michigan State University a first-class educational institution.
THE UNITED NATIONS FLAGS

DISTINGUISHED ALUMNI AWARDS

The Washington, D.C. Alumni Club originated and established the Alumni Award for Distinguished Service in 1946 under the guidance of Ray Turner, Class of 1909. The responsibility for the awards program was assumed by the Alumni Advisory Council in July, 1958, and at that time, the name of the award was changed.

Nominations are submitted by the Alumni Advisory Club and local alumni clubs representing alumni throughout the United States. The awards committee of the Alumni Advisory Council recommends no more than five alumni to the Board of Trustees of the University for final action. The awards are presented each spring at Commencement. The chairman of the awards committee is Martin F. Rummel, Class of 1927.

Recipients of the awards for 1959 are:

LOUIS A. CARAPELLA
Class of 1937. Engineer, Scientist. Pioneer in the Atomic Energy Field. Metallurgist. Currently Vice President of Sylvania-Corning Nuclear Corporation. Presently concerned with all commercial production activities of the corporation which is a foremost producer of nuclear fuel elements in both this country and abroad. Has held key management positions with Westinghouse Electric Corporation, Continental Can Company, Mellon Institute of Industrial Research and with the U.S. Naval Research Laboratory. Was commended for his efforts in the production of the nuclear power plant which propelled the first atomic submarine, Nautilus, while Plant Manager of the Atomic Power Division of Westinghouse Electric Corporation. Member American Society of Metallurgists, American Institute of Mechanical Engineers, American Society of Testing Materials, American Foundryman's Association, American Institute for X-ray and Electron Diffraction, Institute of Metals (London), Harvard Engineering Society, Society of Experimental Analysis. Author of numerous scientific articles. Master of Science degree from Massachusetts Institute of Technology and Doctor of Science degree from Harvard. Formerly a Trustee of the M.S.U. Development Fund and is on the Industry Advisory Board at the University of Kentucky. Recipient of the Michigan State University Centennial Award.

BERNARD F. COGGAN, JR.
Class of 1939. Engineer. Executive. Currently General Manager and Vice President of the Convair Division of General Dynamics Corporation. Was assigned in 1954 to accelerate the Atlas missile program. He was responsible for hiring, training and activating the complete Atlas team—scientific, technical, management and factory. He started with Fisher Body Division of General Motors in 1939. Later was general supervisor at the Grand Rapids Stamping Division of General Motors. In 1950 and 1951, he was plant superintendent for Fisher Body Division and directed all manufacturing operations involved in the production of bodies for Cadillac automobiles. Before joining Convair in 1952, he directed Fisher Body Division's missile and aircraft projects. First position with Convair was staff assistant to the vice president and general manager. In April 1952, he was appointed division manager of Convair's San Diego division.

DON W. FRANCISCO
Class of 1914. Horticulturist. Executive. Author. Lecturer. Currently retired Vice President and Director of the J. Walter Thompson Company. Early career with the California Fruit Growers Exchange in the advertising field. Through his efforts the name "Sunkist" was made a household word and the citrus industry became one of California's leading industries. He joined the advertising firm of Lord and Thomas in 1921 and was president of that organization from 1938-1940. During the war years, he served as director of the Radio Division in the Office of the Coordinator of Inter-American Affairs; was radio consultant for the State Department; member of the United States committee on mass media. Master of Arts degree in 1923 and Doctor of Science (honorary) in 1949 from Michigan State University. Contributed numerous articles on advertising, public relations, distribution and cooperative marketing to business publications. Was a trustee of Michigan State University Development Fund and a visiting lecturer on advertising and public relations.

ARTHUR F. VINSON
Class of 1929. Engineer. Executive. Currently Group Vice President of General Electric Company. In his present capacity, he is one of the five top executives of General Electric. With General Electric since 1931 in various capacities including manager of employee, plant and community relations; manager of the manufacturing service and vice president of manufacturing. Member American Society of Mechanical Engineers, American Welding Society. Recipient of Centennial Award from Michigan State University Development Fund Board of Trustees and vice chairman of the board at the present time. Received Master of Arts degree from Harvard University in 1952.

TRUMAN G. YUNCKER
HONORARY DEGREES

JAMES ELBERT BRIGGS
Soldier and educator. By a brilliant career as an officer in the air forces of the United States during the years of peace and in the terrible crucible of the Second World War and of Korea, you have continuously revealed a high sense of duty and a courageous acceptance of heavy responsibility both for action and for decision. In 1956, the opportunity came to you to direct the Air Force Academy as its Superintendent. The academy under your guidance has already taken a place of leadership both in general education and in the training of future officers of a vital branch of our military forces. For your past contributions to our survival and your vital share in building a future of peace and security for our country, Michigan State University counts it a privilege to confer upon you the degree of Doctor of Laws.

JOHN GEORGE DIEFENBAKER,
Lawyer, public servant, statesman, Prime Minister of Canada. From your youth you have served your country with devotion and distinction, in war and peace, at home and abroad, at the conference table of nations and in Parliament. Your long and distinguished career has now been crowned by the highest elective office that Canada can bestow. We of Michigan welcome you today not only as our guest, but as an honored envoy of our great sister democracy to the North, our closest friend and staunchest ally, with whom we share a continent and a heritage, and with whom we have joined ourselves for the future security of freedom and justice in our hemisphere. It is with pleasure and pride that Michigan State University, in recognition of your own achievements and of the alliance of ideals which your nation and ours represent, bestows upon you today the degree of Doctor of Laws.

FREDERICK H. MUELLER
Educational administrator, industrial leader, public servant. You have served the people of Michigan well and faithfully in education, industry, and public welfare. Your wise counsel and mature judgment as a member of the State Board of Agriculture have added materially to the capacities of Michigan State University to meet the increasingly complex responsibilities of higher education today. Your industrial talents have led you into greater responsibilities and opportunities as Under Secretary of Commerce. For these reasons: your contributions to education, your business acumen, your unselfish service to the people of this state and the nation, Michigan State University is privileged to confer upon you the degree of Doctor of Laws.

VISITORS ARE WELCOME

ALUMNI MEMORIAL CHAPEL

The Alumni Memorial Chapel was erected in memory of over 400 boys who left this campus to serve in the armed forces of America and who paid the supreme sacrifice.

The funds were provided by gifts from alumni and friends of Michigan State University.

The chapel is available for weddings as well as for other services which may appropriately be held in such a shrine. There are accommodations for approximately 200 persons.

The building is located on Auditorium Road and will be open all day to visitors.

UNIVERSITY MUSEUM

The Museum, located next to Beaumont Tower is open to visitors on weekdays from 8:00 to 5:00 P.M. and on Saturdays and Sundays from 1:00 to 5:00 P.M. On display are exhibits of animals, plants, fossil life, minerals, historical items of the farm and home, fabrics and ornaments of primitive man, and examples of fine workmanship in arts and crafts. Attention of the public is directed especially to the exhibits of Michigan fishes, birds, deer, beaver, bear and other animals in natural habitat groups, the Richey collection of ceramics bearing a corn motif, breeds of poultry, the Chamberlain collection of antique watches, porcelain figurines and the Lee collection of Chinese embroidered textiles. Materials preserved by the Museum for both display and study are obtained largely through the generosity of alumni and friends.

Visitors are cordially welcomed. A member of the staff is always on duty to answer questions or to direct you to exhibits of special interest.

HORTICULTURAL GARDENS

The Horticultural Gardens, the Horticultural Greenhouses, south and east of the Horticulture Building and the Plant Science Greenhouses on South Farm Lane, will be open all day to visitors.

ART EXHIBITIONS

Visitors are cordially invited to visit the annual exhibition of art work by M.S.U. students in the Gallery of Kresge Art Center on Auditorium Road. Classrooms and studios in the art center, a $1,500,000 gift from the Kresge Foundation, will also be open for inspection. Visiting hours on Commencement day are 10 A.M. to 6 P.M. There is no charge.

WKAR-AM, WKAR-FM, AND WMSB-TV

WKAR-AM and WKAR-FM, the University Radio Stations, with studios above the main entrance to the Auditorium, and the WMSB-TV Studios, 600 Kalamazoo St. (formerly Quonset Cafeteria), will be open today to visitors after 10:00 A.M.

THE UNIVERSITY FARMS

The University Farms are located on the south side of the Red Cedar River. By driving south on Farm Lane, the road running north and south past the University Auditorium, many of the farm buildings can be seen. Attention of the visitors is called especially to the University Dairy Barn, the Experimental Cattle Barn, the Pavilion, the Agricultural Engineering Building, the Research Greenhouses, and the University Poultry Unit.

At the corner of Shaw and Farm Lanes, west of the Agricultural Engineering Building, is the new $4,000,000 Animal Industries Building. It houses the dairy, animal husbandry, and poultry departments.

BEAL-GARFIELD BOTANIC GARDENS

Plant collections in the Beal-Garfield Botanic Garden number approximately four thousand species arranged in economic, systematic and ecological sections. The garden is open to visitors any time.
