100th Annual Commencement
SEATING DIAGRAM FOR GRADUATES AND COMMENCEMENT GUESTS
ACADEMIC COSTUME

The pageantry and color at commencement exercises reveal a record of academic achievement of the various individuals taking part in the exercises. The following brief description is given that the audience might more readily interpret such achievement.

In 1894, the Intercollegiate Commission, a group of leading American educators, met at Columbia University to draft a code which would serve to regulate the design of gowns and hoods indicating the various degrees as well as the colors to indicate the various faculties. This code has been adopted by most of the colleges and universities in America and its use has made identification of scholastic honors an immediate activity.

Three types of gowns are indicated by the code. Those worn by the bachelors are made of black worsted material and have long, pointed sleeves. Those worn by masters may be made either of black silk or black wool and have long, closed sleeves with the arc of a circle near the bottom. The arm goes through a slit, giving the appearance of short sleeves for the master’s gown. Doctor’s gowns are made of black silk and are faced with velvet. The sleeves are full, round and open with three bars of velvet on each sleeve. The velvet facing of bars on the sleeves may be black or the same color as the binding of the hood.

Hoods are made of material identical with the gown and are lined in the official academic color of the institution conferring the degree. If the institution has more than one color, the chevron is used to introduce the second color. Colored velvet or velveteen binds the hoods and indicates the department or faculty to which the degree pertains.

Historical associations of color have been continued to signify the various faculties. Art and letters can be recognized by the white, taken from the traditional white fur trimming of the Oxford and Cambridge Bachelor of Arts hoods. Red, long traditional of the church, indicates theology. The royal purple of the King’s court signifies law. The green of medicinal herbs immediately identifies a medical degree. Philosophy is signified by the color of wisdom and truth, blue. Because through research untold wealth has been released to the world, science is identified by golden yellow. Oxford pink indicates music and russet brown, the color of dress worn by ancient English foresters, indicates forestry.

The wording of the degree determines the color of the velvet of the hood. For example, a Master of Science in Engineering would be signified by golden yellow (science) instead of the orange of engineering. A Bachelor of Engineering would wear the orange of Engineering.

At Michigan State University, it is customary to identify the bachelors graduating from the different departments of study by tassels of the official department color as established by the Intercollegiate Code.

PROCESSIONAL
Coronation March, "Crown Imperial" . . . . . . . . . . . . . . . . . . . . . Walton
Michigan State University Band—Professor Leonard Falcone, Director

AMERICA . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . Smith
My country, 'tis of thee,
Sweet land of liberty,
Of thee I sing!
Land where my fathers died;
Land of the pilgrim's pride;
From ev'ry mountain side
Let freedom ring!

INVOCATION
The Reverend Newell A. McCune, D.D., LL.D.
Minister Emeritus, Peoples Church, East Lansing

ADDRESS
The Honorable Harry S. Truman
Thirty-third President of the United States

CONFERRING OF DEGREES
President, Michigan State University

ALMA MATER . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . Traynor
M.S.U. we love thy shadows
When twilight silence falls,
Flushing deep and softly paling
O'er ivy covered halls,
Beneath the pines we'll gather
To give our faith so true,
Sing our love for Alma Mater
And thy praises, M.S.U.

When from these scenes we wander
And twilight shadows fade,
Our mem'ry still will linger
Where light and shadows played.
In the evening oft we'll gather
And pledge our faith anew,
Sing our love for Alma Mater
And thy praises, M.S.U.

BENEDICTION
The Reverend Mr. McCune

RECESSIONAL
America, Grand March . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . Goldman

The escorts for the academic procession are members of Mortar Board, an honorary society for senior women.
The audience is requested to remain seated while those in the procession are entering and leaving the stadium.
Michigan State University operates under the jurisdiction of a constitutional body known as the Board of Trustees. The six elected members serve six-year terms. Two are elected biennially from the state at large.

The President of the University is appointed by the Board and is by constitutional provision the presiding member of that body.

The Board likewise appoints a Secretary and a Treasurer. The State Superintendent of Public Instruction is an ex officio member of the Board.

As one of the leading land-grant universities and the first agricultural college in the nation, Michigan State University provides a technical, practical and cultural education for its student body, in addition to extensive research and extension services to the people of Michigan.

Now in its 106th year, Michigan State University has grown from three buildings and six faculty members to one of the ten largest universities in the nation. It has approximately 2,000 staff members engaged in teaching, research and public service, 325 permanent and 136 temporary buildings, and 4,250 acres of land, including 900 acres in the campus area proper.

Founded in 1855 to educate youth for the major occupation of that day—farming—Michigan State University has broadened its offerings as young people, preparing for other vocations, have sought the advantages of university training. Today, Michigan State University has eight colleges—Agriculture, Business and Public Service, Communication Arts, Education, Engineering, Home Economics, Science and Arts, Veterinary Medicine—and the School for Advanced Graduate Studies, and offers approximately 150 different courses of study at the undergraduate and graduate level. This excludes the curriculum of the Basic College, which has been recognized as one of the most progressive ideas for higher education in the nation today, and the Honors College established in 1957 as a unique program designed for the superior student. All students finishing their freshman year with a "B plus" average, or attaining this average in their sophomore year, have the option of entering the Honors College. Once a student is designated an Honors College scholar, all requirements for his graduation from Michigan State (other than total number of hours) are waived. He is assigned a special adviser in his field of major interest and together they work out a program appropriate for the individual.

Michigan State University continually strives to expand its service to the people of the state through the Agricultural Experiment Station, the Cooperative Extension Service and the Continuing Education Service. The Agricultural Experiment Station conducts research on campus and at five off-campus substations. Through the Michigan Cooperative Extension Service, more than 333,000 families are reached with technical information on agriculture, homemaking and the 4-H Club program. The field staff, located in every county, extends M.S.U.'s campus into every township in Michigan. During the 1958-59 year, the Continuing Education Service reached more than 100,000 persons in programs conducted both on campus and in local communities.

Today, more than 19,000 students from Michigan and other states and from nations all over the world are attending the University at East Lansing—about 9,000 of whom are housed on the campus proper. With about 85 percent of these students coming from communities in every section of the state, Michigan State University is doing its part to fill the greatly increased demand of the younger generation for higher education.

In the agricultural, business and professional fields, Michigan State University has proved its worth to the people of the State of Michigan, paying dividends many times the appropriation for its maintenance each year by the state and national governments. Noted for its democratic and friendly spirit, the student body harmonizes with the University faculty to make Michigan State University a first-class educational institution.

He was responsible for the planning and operation of extensive animal facilities in support of medical research. He has been active as a consultant on atomic energy projects for several years. He is a member of the National Research Council, American Society of Experimental Pathologists, Executive Committee of the American Association of Land Grant Colleges and Universities, and the Conference of Research Workers in Animal Disease. Member of Sigma Xi and Alpha Psi. Doctor of Veterinary Medicine and Master of Science degrees from Michigan State University.
HONORARY DEGREES

CLARK L. BRODY

Farm leader, educator, servant of the people, your long and devoted service to agriculture and to the farm economy of this state and nation as an executive of the Michigan Farm Bureau has made a significant and lasting contribution to the progress and development of American agriculture.

As student, employee and member of our Board of Trustees, you have been most intimately associated with Michigan State University for nearly sixty years. During your tenure of almost thirty-eight years on the governing board, sixteen of them as chairman, you have shared the Commencement of nearly ninety-five percent of all graduates of this institution. To the successive boards, administrators, faculties and students of Michigan State, you have given freely and generously of your time, your wisdom and your vision. You have helped to guide its growth from a small college to a great university. Your relationship to Michigan State is unique. Both this institution and the people of Michigan, whom you have served so well, owe you a great debt which can only be repaid by thankful recognition of what you have done.

For your distinguished contributions to the farmer, to the growth of state and nation, and especially to this university, Michigan State University confers upon you the degree of Doctor of Agriculture.

CHARLES EUSTIS BOHLEN

Diplomat, statesman, public servant. You have served your country ably in diplomatic posts from Paris to Tokyo, Manila, and Moscow. You have devoted years to the study of the Russian language and culture in order to enable your countrymen to understand and cope with the threat of international Communism. You have served as a wise and loyal counsellor for our Secretaries of State and Presidents at many international conferences at which were made decisions affecting the destinies of millions of people. You assisted in the creation of the United Nations at San Francisco and helped guide it during its first difficult years.

HENRY STEELE COMMAGER

Teacher, author, editor, and lecturer. Your distinguished career as a historian of the United States and of the American mind is a testimony to the range of activity and breadth of influence possible for the dedicated scholar. Your teaching at universities both here and abroad has had an exceptional influence both generally and in your specific discipline. Your numerous books and other writings have extended your scholarly knowledge and wisdom to many other institutions and through an unusual clarity of insight and felicity of style, your interpretations of the American past have reached the great public audience beyond the university’s halls. As teacher and lecturer abroad in England, Scandinavia, Europe, and Israel, you have contributed greatly to the world’s understanding of our civilization and to the extension of American culture to all the world. And at home, both by your learning and personal example, you have contributed much to the defense of American constitutional rights and civil liberties through their recent years of doubt and trial.

For your influence on America’s present and future generations, through your distinguished teaching, for your contributions as author and editor to the understanding of our past, for your active part in bringing about world understanding among peoples, and for your courageous defense of the principles of American liberty, Michigan State University confers upon you the degree of Doctor of Laws.

HARRY S. TRUMAN

Political leader, statesman, historian of the Presidency. As a leader of one of the two great political parties through which our people govern themselves, you have richly contributed to the definition and solution of major problems confronting the nation, facing the shifting times in the best traditions of American democracy.

You came to the Presidency in the midst of war, and for nearly eight years were faced with the responsibility for meeting urgent crises, some of them new to the country, some to mankind. With dedication and wisdom, with a statesmanlike concept of the duties of your office, you made decisions momentous in the history of your country and the world. The growing insight and knowledge, the courageous acceptance of your responsibility, the clearly defined pattern of action, and the international character of your success deserve the honor of your countrymen in whose name you served.

Since leaving office, through writing, lecturing and the Truman Library, you have increased our understanding of the institution of the Presidency. Your deep experience has given you important insights into the history of that office.

For your significant contributions to political life, for the unsparing vigor and devotion of your years in the Presidency and for your continuing efforts to increase understanding of the history and nature of the executive office, Michigan State University confers upon you the degree of Doctor of Laws.

VISITORS ARE WELCOME

ALUMNI MEMORIAL CHAPEL

The Alumni Memorial Chapel was erected in memory of over 400 boys who left this campus to serve in the armed forces of America and who paid the supreme sacrifice.

The funds were provided by gifts from alumni and friends of Michigan State University.

The chapel is available for weddings as well as for other services which may appropriately be held in such a shrine. There are accommodations for approximately 200 persons.

The building is located on Auditorium Road and will be open all day to visitors.

UNIVERSITY MUSEUM

The Museum, located next to Beaumont Tower is open to visitors on weekdays from 8:00 to 5:00 P.M. and on Saturdays and Sundays from 1:00 to 5:00 P.M. On display are exhibits of animals, plants, fossil life, minerals, historical items of the farm and home, fabrics and ornaments of primitive man, and examples of fine workmanship in arts and crafts. Attention of the public is directed especially to the exhibits of Michigan fishes, birds, deer, beaver, bear and other animals in natural habitat groups, the Richey collection of ceramics bearing a corn motif, breeds of poultry, the Chamberlain collection of antique watches, porcelain figurines and the Lee collection of Chinese embroidered textiles. Materials preserved by the Museum for both display and study are obtained largely through the generosity of alumni and friends.

Visitors are cordially welcomed. A member of the staff is always on duty to answer questions or to direct you to exhibits of special interest.

ART EXHIBITIONS

Visitors are cordially invited to visit the annual exhibition of art work by M.S.U. students in the Gallery of Kresge Art Center on Auditorium Road. Classrooms and studios in the art center will also be open for inspection. Visiting hours on Commencement day are 10 A.M. to 6 P.M. There is no charge.

WKAR-AM, WKAR-FM, AND WMSB-TV

WKAR-AM and WKAR-FM, the University Radio Stations, with studios above the main entrance to the Auditorium, and the WMSB-TV Studios, 600 Kalamazoo St., will be open today to visitors after 10:00 A.M.

THE UNIVERSITY FARMS

The University Farms are located on the south side of the Red Cedar River. By driving south on Farm Lane, the road running north and south past the University Auditorium, many of the farm buildings can be seen.

BEAL- GARFIELD BOTANIC GARDENS

Plant collections in the Beal-Garfield Botanic Garden number approximately four thousand species arranged in economic, systematic and ecological sections. The garden is open to visitors any time.

HORTICULTURAL GARDENS

The Horticultural Gardens, the Horticultural Greenhouses, south and east of the Horticulture Building and the Plant Science Greenhouses on South Farm Lane, will be open all day to visitors.
