MSU is an Affirmative Action/Equal Opportunity Institution
COMMENCEMENT
1981 WINTER TERM
Saturday, March 14

University Auditorium, East Lansing
Conferral of Graduate Degrees, 10 A.M.
Conferral of Baccalaureate Degrees, 3 P.M.
Michigan State University operates under the jurisdiction of a constitutional body known as the Board of Trustees. The eight elected members serve eight-year terms. Two are elected biennially from the state at large.

The President of the University is appointed by the Board and is by constitutional provision the presiding member of the body.

The Board likewise appoints a Secretary and a Treasurer.

The Board has general supervision of the University and the control and direction of all expenditures of University funds.

ACADEMIC COSTUME

The pageantry and color at commencement exercises reveal a record of academic achievement of the various individuals taking part in the exercises. The following brief description is given so that the audience may more readily interpret such achievement.

In 1895, the Intercollegiate Commission, a group of leading American educators, met at Columbia University to draft a code which would serve to regulate the design of gowns and hoods indicating the various degrees as well as the colors to indicate the various faculties. This code has been adopted by most of the colleges and universities in America and its use has made identification of scholastic honors an immediate activity.

Three types of gowns are indicated by the code. Those worn by the bachelors have long, pointed sleeves. Those worn by masters have long, closed sleeves with the arc of a circle near the bottom. Doctor’s gowns are faced with velvet. The sleeves are full, round and open with three bars of velvet on each sleeve. The velvet facing of bars on the sleeves may be black or the same color as the binding of the hood.

Hoods are made of material identical with the gown and are lined in the official academic color of the institution conferring the degree. If the institution has more than one color, the chevron is used to introduce the second color. Colored velvet or velveteen binds the hoods and indicates the department or faculty to which the degree pertains.

Historical associations of color have been continued to signify the various faculties. Arts and letters can be recognized by the white, taken from the traditional white fur trimming of the Oxford and Cambridge Bachelor of Arts hoods. Red, long traditional of the church, indicates theology. The royal purple of the King’s court signifies law. The green of medicinal herbs immediately identifies a medical degree. Philosophy is signified by the color of wisdom and truth, blue. Because through research untold wealth has been released to the world, science is identified by golden yellow. Oxford pink indicates music, and russet brown, the color of dress worn by ancient English foresters, indicates forestry.

The color of the velvet of the hood is distinctive of the subject to which the degree pertains. For example, the trimming for the degree of Master of Science in Agriculture should be maize, representing agriculture, rather than golden yellow, representing science.

At Michigan State University, it is customary to identify the candidates graduating from the different departments of study by tassels of the official department color as established by the Intercollegiate Code.

| College of Agriculture and Natural Resources | Maize |
| College of Arts and Letters                  | White |
| Music                                       | Pink  |
| Philosophy                                  | Navy Blue |
| College of Business                         | Drab  |
| Economics                                   | Copper |
| College of Communication Arts and Sciences  | Royal Blue |
| Journalism                                  | Crimson |
| Speech                                      | Silver Gray |
| College of Education                        | Light Blue |
| College of Engineering                      | Orange |
| College of Human Ecology                    | Maroon |
| College of Human Medicine                   | Green |
| James Madison College                       | Citron |
| Lyman Briggs College                        | Golden Yellow |
| College of Natural Science                  | Golden Yellow |
| College of Nursing                          | Apricot |
| College of Osteopathic Medicine             | Green |
| College of Social Science                   | Citron |
| College of Urban Development                | Citron |
| College of Veterinary Medicine              | Dark Gray |
Michigan State University, one of the leading land-grant universities and the first agricultural college in America, strives for excellence in providing students liberal and practical education in a broad range of human endeavor.

MSU also serves people of the state, nation and world through its numerous research, extension and international programs.

Now in its 127th year, Michigan State University has grown from three buildings and six faculty members to one of the largest universities in the nation. It has more than 3,400 faculty/staff engaged in teaching, research and public service, 432 campus buildings, and more than 5,300 acres of land of which some 2,100 acres are in existing or planned campus development.

Nearly 45,000 students now attend the University at East Lansing. About 85 percent are from Michigan; the remainder includes more than 1,400 foreign students from 98 countries.

Founded in 1855 to educate youth for the major occupation of that day—farming—MSU has broadened its offerings to meet the educational needs of today. The University now has a Graduate School and 16 colleges—Agriculture and Natural Resources, Arts and Letters, Business, Communication Arts and Sciences, Education, Engineering, Human Ecology, Human Medicine, James Madison, Lyman Briggs, Natural Science, Nursing, Osteopathic Medicine, Social Science, Urban Development, and Veterinary Medicine. Students may choose degree majors in 254 bachelor, 156 master, and 125 doctoral programs; and 3 graduate professional programs in medicine. MSU is unique nationally in that the Colleges of Human Medicine, Osteopathic Medicine, Veterinary Medicine, and Nursing are located on a single campus.

At the center of all major universities is a cluster of disciplines which comprise the liberal arts and sciences. At MSU, this center consists of three colleges—Arts and Letters, Natural Science, and Social Science. Providing outstanding undergraduate and graduate degree programs with majors in traditional disciplines, these colleges also have special programs which enable students to obtain a broad, multi-disciplinary education. In addition, in collaboration with the College of Education, the three colleges offer two-thirds of the MSU programs which prepare students to become teachers in the secondary schools of Michigan and the nation. These colleges touch the lives of all undergraduate students at MSU by providing the general education that constitutes approximately one-quarter of each student's undergraduate program.

The Honors College, which enables superior undergraduate students to waive normal graduation requirements and undertake individual programs, attracts many of the nation's finest young scholars. Michigan State University also is first among public institutions sponsoring National Merit Scholars.

One of the many innovations in higher education is MSU's system of academic-residence halls. Incorporation of classrooms and faculty offices with living, dining, and recreational facilities has given these large dormitories a stimulating academic environment. Each hall is the center of curricular and non-curricular activities, creating a "college within a college" atmosphere.
The concept of the "small college within the larger university" was introduced at MSU in 1965. Currently the university supports two such colleges, James Madison and Lyman Briggs. James Madison offers a curriculum for the study of public policy problems within the framework of the social sciences and related disciplines. Lyman Briggs makes available a liberal curriculum for students especially interested in science and mathematics.

MSU adds to the store of knowledge in a wide array of outstanding research activities which brought $49 million dollars in sponsored research and educational funding last year. Some major facilities include the Pesticide Research Center, which presents a model program of multidisciplinary research and teaching of pest management technologies, the Plant Research Laboratory, operated with the U.S. Department of Energy as a national center for modern experimental plant biology, and the MSU W. K. Kellogg Biological Station which has been designated as a National Research preserve. In collaboration with both the National Science Foundation and the U.S. Department of Energy, a National Superconducting Cyclotron Laboratory is emerging at MSU to examine the physical properties of the nuclei of the heaviest of elements.

Benefits of the University are brought to the people by the Agricultural Experiment Station, Lifelong Education Programs, and the Cooperative Extension Service. Their programs, on and off campus, provide a wide range of technical information and formal course work for hundreds of thousands of Michigan citizens. The Kellogg Center for Continuing Education, one of the finest conference centers in the nation, annually hosts nearly 60,000 adults who come to the campus for some 600 conferences and other educational meetings.

Michigan State University's land-grant concept of service is international. Supported by grants from the federal government and private foundations, Michigan State maintains research and educational assistance projects on a worldwide basis. International projects have given many faculty members overseas experience, adding a new dimension to their teaching.

With more than a century of educational achievement behind it, Michigan State University continues to apply its academic and physical resources to the problems of today and to the challenges of the future.
THE CANDIDATES
FOR DEGREES

1981 CLASS ROSTER

This includes the names of candidates for degrees for March, 1981.

Candidates are listed by Graduate School and by colleges. The colleges are arranged in alphabetical order.

The College of Human Medicine also lists Doctor of Medicine degree recipients for Fall Term, 1980 and candidates for Spring and Summer Terms, 1981.
