COMMENCEMENT
1993 FALL SEMESTER
The image on the cover is adapted from a relief that appears on the north face of Beaumont Tower. Titled "The Sower," the relief represents the extension and expansion of knowledge that are the bases of the university's land-grant mission. "The Sower" was sculpted c. 1928 by Art Deco artist Lee Lawrie.

East Lansing
In 1895, the Intercollegiate Commission, a group of leading American educators, introduced an academic costume code which by design of gowns and hoods would indicate the various degrees, and which by colors would identify the various faculties.

Three types of gowns are indicated by the code. Those worn by the bachelors have long, pointed sleeves. Those worn by masters have long, closed sleeves with the arc of a circle near the bottom. Doctor’s gowns are faced with velvet. The sleeves are full, round, and open with three bars of velvet on each sleeve. The velvet facing of the bars on the sleeves may be black or the same color as the binding of the hood.

Hoods are made of material identical with the gown and are lined in the official academic color of the institution conferring the degree (e.g., green and white for MSU; burnt orange and white for the University of Texas; blue and gold for UCLA). If the institution has more than one color, the chevron is used to introduce the second color. Colored velvet or velveteen binds the hoods and indicates the department or faculty to which the degree pertains.

The color of the velvet of the hood is distinctive of the subject to which the degree pertains. For example, the trimmings for the degree of Master of Science in Agriculture should be maize, representing agriculture, rather than golden yellow, representing science. Generally, the code for the velvet of the hood is the same as listed below for tassels.

At Michigan State University, it is customary to identify the candidates graduating from the different departments of study by tassels of the official department color as established by the Intercollegiate Code.

| COLLEGE OF AGRICULTURE AND NATURAL RESOURCES | Maize |
| COLLEGE OF ARTS AND LETTERS | White |
| Fine Arts | Brown |

MICHIGAN STATE UNIVERSITY

Michigan State University, a leading land-grant university and the first agricultural college in America, strives for excellence in providing students a broad curricula of liberal and practical education. MSU also serves people of the state, nation and world through its numerous research, extension, and international programs.

Now in its 135th year, Michigan State University has grown from three buildings and six faculty members to one of the largest universities in the nation. It has more than 3,000 faculty/staff engaged in teaching, research, and public service; more than 400 campus buildings; and more than 5,200 acres of land, of which some 2,100 acres are in existing or planned campus development. More than 40,000 students now attend the university at East Lansing, of which some 85 percent are from Michigan.

Michigan State University is committed to diversity and multiculturalism in its student body, in its faculty, in its staff, and in its curriculum and outreach programs. Our student body hails from every county in the State of Michigan, every state in the nation, and 107 foreign nations. Minority students comprise 12.1 percent of the campus population, and includes the largest number of African American students among all Big Ten schools.

Founded in 1855 to educate youth for the major occupation of that day — farming — MSU has broadened its offerings to meet the educational needs of today. The university now has a Graduate School and 14 colleges — Agriculture and Natural Resources, Arts and Letters, Business, Communication Arts and Sciences, Education, Engineering, Human Ecology, Human Medicine, James Madison, Natural Science, Nursing, Osteopathic Medicine, Social Science, and Veterinary Medicine.

At the center of all major universities is a cluster of disciplines that constitute the liberal arts and sciences. At MSU, this center consists of three colleges — Arts and Letters, Natural Science, and Social Science. Providing outstanding undergraduate and graduate degree programs with majors in traditional disciplines, these colleges also have special programs that enable students to obtain a broad multidisciplinary education. In addition, in collaboration with the College of Education, the three colleges prepare students to become teachers in the secondary schools of Michigan and the nation. These colleges touch the lives of all undergraduate students at MSU by providing the general education that constitutes approximately one-quarter of the undergraduate program. The Honors College, which enables superior undergraduate students to waive normal graduation requirements and undertake individual programs, attracts many of the nation’s finest young scholars. MSU is proud of its record in producing Rhodes Scholars, a total of thirteen (ten since 1971-72); the university also has provided six Marshall Scholarship winners; and 11 Churchill Scholarships. These British scholarships are two of the most distinguished and prestigious academic awards that an American student can receive. Michigan State University also is a prominent sponsor of National Merit Scholars.

MSU adds to the store of knowledge with a wide array of outstanding research activities that are supported by a multimillion dollar sponsor-funding program. Some major facilities include the Pesticide Research Laboratory, operated with the U.S. Department of energy as a national plant biology center; and the MSU/W. K. Kellogg Biological Station, which has been designated as a National Research Preserve. In collaboration with both the National Science Foundation and the U.S. Department of energy, the National Superconducting Cyclotron Laboratory at MSU is examining the nuclei of the heaviest of elements.

Benefits of the university are brought to the public by the Agricultural Experiment Station, University Outreach, and the Cooperative Extension Service. Their programs provide technical information and formal course work for many Michigan citizens, The Kellogg Center for Continuing Education, one of the finest conference centers in the nation, annually hosts nearly 30,000 adults who come to the campus for some 600 conferences and other educational meetings.

The university’s land-grant concept of service is international. Supported by grants from the federal government and private foundations, MSU maintains research and educational assistance projects on a worldwide basis. International projects have given many faculty members overseas experience, adding a new dimension to their teaching.

Michigan State University is a member of the Association of American Universities, National Association of State Universities and Land-Grant Colleges, American Council on Education, American Council of Learned Societies, National Association of Universities, Association of Graduate Schools, Council of Graduate Schools, and the Committee on Institutional Cooperation.
HONORARY DEGREE

MARY FISHER

Mary Fisher, for nearly two years you have been a tireless spokesperson for those infected with HIV, the AIDS virus. You have been instrumental in taking an abstract, faceless disease and personalizing it for thousands of Americans.

Since February 1992, when you bravely announced that you are HIV-positive, you have been a devoted leader in the fight against the disease. You are living proof that HIV does not discriminate. By lending your face and your name to this cause, you have demonstrated, in particular, that women are not immune to HIV.

You are the founder of the Family AIDS Network, an organization devoted to raising awareness and compassion in the face of the national AIDS epidemic. Since then, you have spent countless hours building communities of compassion, recognizing the work of caregivers, calling for improved research, and pressing for greater leadership in national public policy.

In August of 1992, you took your message to Houston, Texas, speaking to the Republican National Convention. You delivered what has been described as a "moving" and "powerful" speech, calling upon not just Republicans, but upon Democrats and all Americans to come together to fight a disease that you said has made us "a nation at risk."

In October of 1992, your contributions were recognized by your appointment to the National Commission on AIDS.

Your devotion to public service also has placed you on many other boards and commissions. You are a member of the Council of Michigan Foundations' Michigan AIDS Fund Committee. You also serve on the boards of the National Community AIDS Partnership and the National Council on Alcoholism and Drug Dependence.

Your devotion to the AIDS cause has not gone unrecognized. Among your many honors are the "Award of Courage" of the American Foundation for AIDS Research, as well as honorary degrees from the University of Detroit Mercy and Trinity College.

You are also an accomplished artist and photographer. Your handmade paper pieces are featured at the Helander Galleries in New York City and Palm Beach, Florida, and other distinguished collections.

From our nation's capital to the small-town civic organization, you have taken your message to the people of the United States. You have strived to let us know that AIDS is not something that just happens to "someone else" and that its effects are far-reaching. For all of your contributions, it is with honor and pride that Michigan State University awards you the honorary degree of Doctor of Humanities.
Franklin Garrison, as president of the Michigan AFL-CIO and throughout your distinguished career, you have been a forceful and persuasive advocate for working men and women of the state, which ranks second in the nation in percentage of unionized workers.

As president of the AFL-CIO, you have promoted its strong support of higher education as one of the principal vehicles for men and women to uplift their economic status and that of their children.

Your advocacy of higher education preceded your tenure as AFL-CIO president. As a UAW education staff representative, you served on the Labor Advisory Committee to the Michigan State University School of Labor and Industrial Relations and its Labor Program Service.

Your dedication and nearly forty years of service to the Michigan labor movement were shaped by your experiences growing up during the Depression.

Born in Huntington, Indiana, you started working at age ten. One of your early jobs included shoveling coal into your school’s boilers so your brothers and sisters could eat lunch at school. Your mother was the sole family bread winner, taking in washing and ironing to help the family survive, and you recall times when she had no money at all, not even for food.

Your introduction to the labor movement was in 1952 as a member of UAW Local 699 when you moved to Michigan and began work at the Saginaw Steering Gear Plant. After two years in the United States Army, you returned to Michigan in 1955. You resumed work at Saginaw Steering Gear and became active in the local union.

In 1972, you were appointed as a UAW international representative and assigned to the UAW Education Department and the Michigan UAW Community Action Program. You later joined the Michigan UAW-Community Action Program legislative office in Lansing as a lobbyist. You became legislative director for the UAW in Lansing, and, in 1982, you were appointed executive director of the Michigan UAW-Community Action Program.

You were elected president of the Michigan State AFL-CIO on December 12, 1986. As president, you guide the Michigan State AFL-CIO in its legislative goals, and you are dedicated to making the labor movement an integral part of the total community.

Your many roles as a citizen of the Michigan community include service on the Governor’s Council on Human Investment, the Governor’s Council on Job Training, and the Unemployment Insurance Advisory Committee.

You now serve as vice chair of the Blue Cross and Blue Shield of Michigan Executive Board, chairperson of the Michigan Trade Union Council for Histadrut (the Israeli labor organization), member of the Democratic National Committee Executive Board, member of the Coalition of Labor Union Women, member of the Labor Council for Latin American Advancement, member of the A. Philip Randolph Institute, and as a lifetime member of the National Association for the Advancement of Colored People.

For your outstanding dedication and leadership in the Michigan labor movement, and for your commitment to all working men and women, Michigan State University hereby awards you the honorary degree of Doctor of Laws.

ALMA MATER
M.S.U., We love thy shadows
When twilight silence falls,
Flushing deep and softly paling
O'er ivy-covered halls,
Beneath the pines we'll gather
To give our faith so true,
Sing our love for Alma Mater
And thy praises, M.S.U.

Jay C. Griffith
Elton R. Smith, as a leading proponent of agricultural education and research, your distinguished career, spanning more than six decades, has had a profound impact on Michigan State University, the State of Michigan, and many nations throughout the world.

After studying agricultural technology at Michigan State University and starting with 120 acres of rented land, you became nationally renowned for your dairy herd and rose to the highest levels of agricultural organizations in the state and nation.

Your leadership abilities were first recognized when you were named an officer in a neighborhood Farm Bureau Community Group, which led to your being elected to the Michigan Farm Bureau board of directors, to vice president, and then to president of the state’s largest farm organization, a post you held for twenty-two years.

Nationally, your abilities were further recognized when you served four years as a vice president of the nation’s largest farm organization, the American Farm Bureau Federation.

The global scope of your vision is exemplified by your involvement in trade missions to many countries including Japan, Russia, and Israel, as well as to the European Economic Community and the Pacific Rim.

As an articulate spokesperson for agriculture, you have been recognized by your many appointments to committees, boards and commissions by U.S. presidents, Michigan governors, and their secretaries of agriculture.

The remarkable breadth of your interests is demonstrated by your active participation in farm policy, international trade, conservation, farm cooperatives, and leadership development.

It was under your leadership that the Michigan Farm Bureau successfully lobbied for funds for the state’s land-grant university to carry out its agricultural education and research mission.

Your unwavering trust in individuals to make right decisions and take the right action if given the proper information, training, and opportunities was exemplified by your devotion and support of grassroots leadership. This was demonstrated when, as head of the state organization, you personally visited and shared views with every new county Farm Bureau president.

Awards and honors for your contributions to your industry are legion. For example, Michigan State University named you Dairyman of the Year and awarded you the Distinguished Service to Agriculture Award, and the Michigan State Horticultural Society honored you with its Distinguished Service Award. In lasting recognition of your contributions, the Michigan State University Department of Agricultural Economics and the Michigan Farm Bureau honored you by the 1986 establishment of the Elton R. Smith Endowed Chair in Food and Agricultural Policy, a position recently filled by one of the nation’s most distinguished scholars.

For your life-long contributions to agriculture and the improvement of the human condition, and for your efforts on behalf of education and research, Michigan State University takes great pleasure in awarding you the honorary degree of Doctor of Agriculture.
HONORARY DEGREE

A. ALFRED TAUBMAN

A. Alfred Taubman, as one who is recognized throughout the United States and around the world for your achievements in business and real estate and your commitment to society, you embody what is best in our system of free enterprise and demonstrate what can be accomplished through hard work and pursuit of one's dreams.

You are the founder and chairperson of The Taubman Company. You are one of this country's leading real estate developers and operators of regional shopping centers.

You are a majority shareholder and chairperson of Sotheby's Holding, Inc., the parent company of Sotheby's, the world's oldest and largest fine arts auctioneers.

You own major department stores and a restaurant chain, and are a director of other major, successful business ventures, such as R.H. Macy & Co.

Your great successes have never deterred you from your determination to make the world a better place. Mr. Taubman, in your successful pursuit of the American dream you have always given back to this society of which you are a part.

You established and fund the Taubman Center for State and Local Government at Harvard University's John F. Kennedy School, the Program in American Institutions at the University of Michigan, and the Public Policy and American Institutions program at Brown University.

You are the principal benefactor of the A. Alfred Taubman Medical Library at the University of Michigan.

You are the founder and chairperson of the Michigan Partnership for New Education, housed here on the Michigan State University campus. This partnership is dedicated to developing new ways of teaching and learning so that our children will have the needed skills to create a world class economy for the United States in the years ahead.

Your commitment to the arts is also to be applauded. You are president of the City of Detroit Arts Commission; trustee and member of the executive committee of New York's Whitney Museum of American Art; chairperson emeritus of the Archives of American Art of the Smithsonian Institution; and a member of the national board of the Smithsonian Associates. You have played important roles in promoting and supporting the arts, from the Detroit Symphony Orchestra to national arts festivals.

All of these commitments--of time, of resources, of energy--have helped communities and individuals to thrive, to learn, and to grow.

As we honor you today we must note that you have been honored many times before.

You hold a Doctor of Laws degree conferred by the University of Michigan, a Doctor of Business degree conferred by Eastern Michigan University, and a Doctor of Architecture conferred by Lawrence Technological University. You have received the Business Statesman Award from the Harvard Business School Club of Detroit.

You have been honored by the United Foundation of Detroit and the Southeast Michigan Chapter of the March of Dimes Birth Defect Foundation. Indeed, you were named Michiganian of the Year by the Detroit News in recognition of your accomplishments and commitment to serve.

Mr. Taubman, you embody the entrepreneurial spirit that has made our nation great and that will take us successfully into the twenty-first century as the leader of the free world.

For all of your contributions, it is with both honor and pride that Michigan State University today awards you the honorary degree of Doctor of Education.
