COMMENCEMENT
2002 FALL SEMESTER
Conferral of Graduate Degrees
Friday, December 6, 7:00 P.M.

Conferral of Baccalaureate Degrees
Saturday, December 7, 10:00 A.M. and 2:00 P.M.

The Jack Breslin Student Events Center
East Lansing
For nearly 150 years, Michigan State University has been advancing knowledge and transforming lives. MSU, one of the nation’s leading land-grant universities, was founded in 1855 as the first agricultural college with only six faculty members and three buildings to provide youths with an education in farming. Today, MSU continues to strive for excellence in providing a diverse student body with a broad and rich combination of liberal and practical education.

Our residence hall system is designed to complement and enhance the learning experiences of our students.

The Honors College, which attracts fine young scholars nationwide, enables students to waive standard graduation requirements and undertake enriched academic programs. MSU has produced 16 Rhodes Scholars, six Marshall Scholarship winners, 14 Churchill Scholarship recipients, one Mitchell Scholar, and one recipient of the Gates Cambridge Scholarship. These scholarships are among the most distinguished and prestigious academic awards a student can receive.

Multimillion dollar, sponsor-funded programs support a wide array of outstanding research activities at MSU. Major facilities include the Plant Research Laboratory, operated with the U.S. Department of Energy as a national plant biology center; and the MSU/W.K. Kellogg Biological Station, home to one of the National Science Foundation’s long-term ecological sites. In collaboration with both the National Science Foundation and the U.S. Department of Energy, the National Superconducting Cyclotron Laboratory at MSU is able to study the nuclei of the heaviest elements.

The public significantly benefits from the University through University Outreach, MSU Extension Service, and the Agricultural Experiment Station which provides technical information and course work for many Michigan citizens. The Kellogg Center, one of the finest hotel and conference centers nationwide, annually hosts some 500,000 adults who come to the campus for approximately 1,400 conferences and other educational meetings.

Service to the international community is equally important. Supported by grants from the federal government and private foundations, MSU sustains educational and research assistance projects internationally. These projects have given many faculty members overseas experience and have added new dimensions to their teaching.

Michigan State University is a member of the Association of American Universities, National Association of State Universities and Land-Grant Colleges, American Council on Education, American Council of Learned Societies, International Association of Universities, Association of Graduate Schools, Council of Graduate Schools, and the Committee on Institutional Cooperation.
ACADEMIC COSTUME

In 1895, the Intercollegiate Commission, a group of leading American educators, introduced an academic costume code which by design of gowns and hoods would indicate the various degrees, and which by colors would identify the various faculties.

Three types of gowns are indicated by the code. Those worn by the bachelors have long, pointed sleeves. Those worn by masters have long, closed sleeves with the arc of a circle near the bottom. Doctoral gowns are faced with velvet. The sleeves are fall, round, and open with three bars of velvet on each sleeve. The velvet facing of the bars on the sleeves may be black or the same color as the binding of the hood.

Hoods are made of material identical with the gown and are lined in the official academic color of the institution conferring the degree (e.g., green and white for MSU; burnt orange and white for the University of Texas; blue and gold for UCLA). If the institution has more than one color, the chevron is used to introduce the second color. Colored velvet or velveten binds the hoods and indicates the department of faculty to which the degree pertains.

The color of the velvet of the hood is distinctive of the subject to which the degree pertains. For example, the trimming for the degree of Master of Science in Agriculture should be maize, representing agriculture, rather than golden yellow, representing science. Generally, the code for the velvet of the hood is the same as listed below for tassels.

At Michigan State University, it is customary to identify the candidates graduating from the different departments of study by tassels of the official department color as established by the Intercollegiate Code.

HONORARY DEGREE

ELI BROAD

Your driving concern for the quality of education led you to become an important supporter of Michigan State University and K-12 public education. Recognizing that the land-grant concept makes superior learning opportunities accessible to future business leaders from diverse backgrounds, you endowed the College of Business at Michigan State University with the largest gift ever at that time to a public business school. Today this college bears your name: The Eli Broad College of Business and the Eli Broad Graduate School of Management. Your counsel has helped guide its MBA curriculum to become one of the nation's best graduate management programs.

You are convinced that public education is the key civil rights issue of the 21st century: Unless young people from all backgrounds receive the education necessary to become knowledge workers, the nation risks an ever larger gap between its middle class and its poor. You established the Broad Foundation with the goal of improving K-12 urban public education through better governance, management, and labor relations. In its first three years, the foundation made more than 40 major grants, convened two retreats, and launched three flagship initiatives.

HONORARY DEGREE

MARK MALLOCH BROWN

As Administrator of the United Nations Development Programme (UNDP), you oversee a comprehensive international agency and raise $1 billion a year for programs that promote democracy, fight poverty, and aid refugees.

Under your leadership, democratic governance has become one of the agency's core areas. You believe that one of the best ways to address development needs is to ensure a political voice and access to personal security, justice, and essential services for all. For you, democracy is both a means to assure that governments address the needs of the poor and an end in itself as a vital component of human development. In 2001, your agency carried out democratic governance programs in a record 145 countries, spending $800 million worldwide. You provide developing countries with knowledge-based consulting services and build national, regional, and global coalitions for change. You strive to ensure that assistance leads to sustainable support to these communities.

The UNDP advocates for the protection of human rights and especially the empowerment of women. As its leader, you promote gender equality as essential to ensuring political participation and accountability, economic empowerment, effective development planning, crisis prevention, and conflict resolution.

You are leading the strategy to achieve the Millennium Development Goals agreed to by world leaders at the United Nations Millennium Summit in 2000, especially the overarching goal of cutting extreme poverty in half by 2015. To do this, you challenge nations and individuals to develop partnerships on a scale adequate to address the needs of more than three billion people—the billion who live on less than $1 a day and do not have clean drinking water or sanitation as well as the two billion who do not have electricity. You are working closely with the World Bank and the Asian Development Bank to rebuild Afghanistan, targeting the most pressing needs from clearing mines to helping farmers plant crops.

For your commitment to eradicating world poverty and promoting democracy, I am pleased to award you the honorary degree, Doctor of Humanities, from Michigan State University.
HONORARY DEGREE

ELEANOR MARY JOSAITIS

To rebuild inner city Detroit and reduce racism, poverty, and injustice, you and the late Father William Cunningham established Focus: HOPE in 1968 to provide food for infants born to poor women. Other early successes included low-interest mortgage and automobile loans for African Americans, a race relations training program for desegregated schools, and the Walk for Justice, an annual march through Detroit to show intercultural harmony.

Today Focus: HOPE provides food to more than 44,000 mothers, children, and senior citizens each month. With a staff of nearly 900, well over 50,000 volunteers, and a 40-acre complex, it also operates the internationally recognized Centers of Opportunity education and training programs, Hope Manufacturing, a community arts program, a business conference facility, and the Center for Children. That growth reflects the businesslike approach you took to enact social change and the principles you relied on: think big, demand results, and invite people to help.

You created computer-assisted courses on communication and computer skills as well as reading and math. You set high expectations for the students, challenging them to reach their potential while respecting their dignity. You launched the Michigan Training Institute to teach high-level technology skills. The Center for Advanced Technologies, a teaching factory that combines classes with work at your engineering company, awards associate’s and bachelor’s degrees in manufacturing engineering. Focus: HOPE’s innovative education program gave motivated inner city students the prospect of successful careers.

You have made important contributions to public awareness of hunger and malnutrition, chairing the Commodity Supplemental Food Program Steering Committee and hosting the White House Conference on Aging. You willingly share what you have learned in developing Focus: HOPE. Each year tens of thousands of visitors find ideas and sources of inspiration for their own communities.

Focus: HOPE has changed the lives of thousands of people in metropolitan Detroit by linking minds, hearts, and wills in intelligent and practical actions. For your commitment to developing a just and integrated society, I am pleased to award you the honorary degree, Doctor of Humanities, from Michigan State University.

DELIA Z. F. KOO

You are a strong supporter of education and a leader in reducing barriers for international students. Your own education began in your native China where you excelled in English, French, and German, and particularly enjoyed chemistry and math. You were named to the top academic honor society in China. You came to the United States for graduate studies on the last passenger ship to sail out of Shanghai during World War II. Despite arriving after classes began at Radcliffe College, you surmounted the challenges and excelled at your studies, quickly earning a master’s degree. With two fellowships from Radcliffe, you went on to earn a doctoral degree.

When your husband joined the faculty at Michigan State University, you enrolled in the math department to pursue a subject you loved and, again with top honors, earned a master’s degree. You then taught at Eastern Michigan University for twenty years and wrote two math books.

Because of your own experiences as a student coming from China to the United States, you recognized the special needs of international students often confront. You founded the Volunteer English Tutoring Program at MSU and continue as its coordinator and as one of its tutors. You established the program as an informal and highly personalized means of helping newly arrived international students, spouses, and visitors adapt to life in an unfamiliar country. From the beginning you not only taught language skills but also shared knowledge about American culture and life in the United States.

To support the program, you endowed an expansion of the academic wing of the International Center so that tutors and students would have adequate office and classroom space. You also established a grant program to provide scholarships to students from the People’s Republic of China.

For your commitment to international education and your generosity and integrity, I am pleased to award you the honorary degree, Doctor of Humanities, from Michigan State University.

SYLVAN H. WITTWER

You are a world-renowned horticulturist committed through your teaching, research, and service to making the world a better place. Students who took your classes at MSU consider you an inspiring teacher who taught them to think. Your research accomplishments launched entire areas of study. Your work has significant implications for controlling plant growth and development and for increasing the quantity, quality, and wholesomeness of the food supply. With more than 750 scientific publications, you have demonstrated your commitment to communicating your research findings.

Working with commercial vegetable growers, you contributed significantly to development of the vegetable industry in Michigan. Abroad, you provided technical assistance to agricultural research and development projects in the Near East, Africa, Southeast Asia, South and Central America, China, and the Far East. Your partnership with Chinese agricultural scientists led to the highly acclaimed book, Feeding a Billion, which documents the success of the Chinese in food self-sufficiency.

Because of your experience with international agriculture and your research on the effects of climate on food production, you were named chair of the National Research Council’s Board of Agriculture and Natural Resources. Your expertise in many aspects of global agricultural issues permeated discussions about the growing environmental impacts of some agricultural technologies.

You capped your career as director of the Michigan Agricultural Experiment Station, where you introduced several innovations including a peer review system for in-house grants that prepared faculty for competitive national grant programs.

You love your work, your family, and your church and are most content when you are engaged in these professional and personal responsibilities. For your enormous energy, your integrity, and your intense focus on using your scientific expertise for the benefit of humanity, I am pleased to award you the honorary degree, Doctor of Agriculture, from Michigan State University.

HONORARY DEGREE

SHIRLEY K. PASANT

You are a role model in your dedication to supporting education, the arts, and your community. As president of the Athenaeum and Shirley Pasant Foundation, you exercise leadership that reflects your humanistic values and your sense of civic responsibility for using your resources to advance these values and responsibilities.

You value education. You are the matriarch of a three-generation Michigan State University family. Your late husband earned a bachelor’s degree here; two of your sons and a grandson followed him to MSU, and now your granddaughter is a student here. Your personal commitment to Michigan State University is evident in your service on the President’s Campaign Cabinet as well as in your endowment of scholarships and the American Indian Studies Program. You have also made possible a chair in finance that has helped the Eli Broad College of Business develop one of the best finance departments in the country. MSU students have also benefited significantly from your support of the arts in education through public broadcasting and the Pasant Theatre in the Wharton Center for Performing Arts.

You are a community benefactor, too, volunteering your time and providing generous financial support to local organizations such as Eli’s Place, Critter Alley Wildlife Rehabilitation Center, and the Nokomis Learning Center. For your community efforts, the Capital Region Community Foundation named you Philanthropist of the Year in 2000.

You are a generous benefactor of a variety of causes and services that support Michigan State University and this community. For your altruism in giving back to your community in so many ways, I am pleased to award you the honorary degree, Doctor of Management, from Michigan State University.

HONORARY DEGREE

SYLVAN H. WITTWER

You are a world-renowned horticulturist committed through your teaching, research, and service to making the world a better place. Students who took your classes at MSU consider you an inspiring teacher who taught them to think. Your research accomplishments launched entire areas of study. Your work has significant implications for controlling plant growth and development and for increasing the quantity, quality, and wholesomeness of the food supply. With more than 750 scientific publications, you have demonstrated your commitment to communicating your research findings.

Working with commercial vegetable growers, you contributed significantly to development of the vegetable industry in Michigan. Abroad, you provided technical assistance to agricultural research and development projects in the Near East, Africa, Southeast Asia, South and Central America, China, and the Far East. Your partnership with Chinese agricultural scientists led to the highly acclaimed book, Feeding a Billion, which documents the success of the Chinese in food self-sufficiency.

Because of your experience with international agriculture and your research on the effects of climate on food production, you were named chair of the National Research Council’s Board of Agriculture and Natural Resources. Your expertise in many aspects of global agricultural issues permeated discussions about the growing environmental impacts of some agricultural technologies.

You capped your career as director of the Michigan Agricultural Experiment Station, where you introduced several innovations including a peer review system for in-house grants that prepared faculty for competitive national grant programs.

DEGREE OF BACHELOR OF SCIENCE IN NURSING
The following students have completed their ROTC education at Michigan State University and have received their commissions as reserve officers of the United States Air Force or the United States Army in the branches indicated.

**GRADUATED — SUMMER SEMESTER, 2002**

**AEROSPACE STUDIES**

Melanie Anne Shingledecker

**MILITARY SCIENCE**

Air Defense Artillery
Jason Robert Rovers

Chemical Corps
Brandon Wagner

**CANDIDATES — FALL SEMESTER, 2002**

**AEROSPACE STUDIES**

Kathryn Camille Jordan

Stephen Lewis McQuillan

Brent Gregory Rigleke

**MILITARY SCIENCE**

Chemical Corps

Laura Elaine Martin

Infantry

Zacharias Sepulveda

Erik Jolly
ORDER OF CEREMONIES

Graduate Degrees

Presenting

PETER MCPHERSON, President, Michigan State University

PROCESSIONAL

The MSU Symphony Band

WESLEY J. BROADNAX, Conductor

STAR-SPANGLED BANNER

LARA K. TROYER, Doctoral Student, Music Performance, MSU School of Music

The MSU Symphony Band

MOMENT OF SILENCE

PRESENTATION OF HONORARY DEGREE CANDIDATES

PAUL M. HUNT

Associate Vice President for Research and Graduate Studies, Michigan State University

ADDRESS

MARK MALLOCH BROWN

Administrator

United Nations Development Programme

New York, New York

SPECIAL MUSIC

Academic Festival Overture

The MSU Symphony Band

Arranged by Joseph Spaniola

WESLEY J. BROADNAX, Conductor

INTRODUCTION AND REMARKS

DONALD W. NUGENT, Chairperson, MSU Board of Trustees

CONFERRING OF DEGREES

PETER MCPHERSON

President, Michigan State University

ALMA MATER

M.S.U., We love thy shadows

When twilight silence falls,

Flushing deep and softly paling

O’er ivy-covered halls,

Beneath the pines we’ll gather

To give our faith so true,

Sing our love for Alma Mater

And thy praises, M.S.U.

(The Band, Ms. Troyer, and Audience)

RECESSIONAL

The MSU Symphony Band

WESLEY J. BROADNAX, Conductor
