**MSU COLLEGE OF LAW**

Sunday, May 14, 2006, 12:00 Noon

Wharton Center
MICHIGAN STATE UNIVERSITY

For more than 150 years, Michigan State University has been advancing knowledge and transforming lives. MSU, one of the nation's leading land-grant universities, was founded in 1855 as the first agricultural college with only six faculty members and three buildings to provide youths with an education in farming. Today, MSU continues to strive for excellence in providing a diverse student body with a broad and rich combination of liberal and practical education.

The East Lansing campus looks quite different than it did in 1855. More than 5,200 acres of land encompass more than 400 buildings, and more than 4,000 faculty and staff are engaged in teaching, research, and public service. More than 40,000 students — 85 percent from Michigan — attend the University's main campus.

Our student body represents every country in the state, every state in the nation, and more than 100 nations from around the globe. Minority students comprise more than 15 percent of the campus population, and our campus includes the largest number of African American students among all Big Ten schools.

Michigan State University’s commitment to diversity and multiculturalism in its student body, faculty, staff, curriculum and outreach and engagement programs is exemplified through global services in numerous research, extension, and international programs. MSU’s Study Abroad program, which offers 180 programs in 57 countries, is the third largest of any single-campus university in the nation.

More than a century after its agricultural beginnings, MSU has a Graduate School and 15 colleges: Agriculture and Natural Resources, Arts and Letters, the Broad College of Business, Communication Arts and Sciences, Education, Engineering, Human Ecology, Human Medicine, James Madison, Law, Natural Science, Nursing, Osteopathic Medicine, Social Science and Veterinary Medicine.

Today, three colleges represent the central academic disciplines which most universities refer to as the liberal arts and sciences: Arts and Letters, Natural Science, and Social Science. These colleges offer outstanding undergraduate and graduate degree programs with majors in traditional disciplines while also providing special programs that enable students to obtain a broad, multidisciplinary education. The College of Education collaborates with the colleges to help prepare students to become teachers in the secondary schools of Michigan as well the nation.

Our residence hall system is designed to complement and enhance the learning experiences of our students.

The Honors College, which attracts fine young scholars nationwide, enables students to waive standard graduation requirements and undertake enriched academic programs. MSU has produced 16 Rhodes Scholars, 11 Marshall Scholarship winners, 15 Churchill Scholarship recipients, one Mitchell Scholar, and one recipient of the Gates Cambridge Scholarship. These scholarships are among the most distinguished and prestigious academic awards a student can receive.

Multimillion dollar, sponsor-funded programs support a wide array of outstanding research activities at MSU. Major facilities include the Plant Research Laboratory, operated with the U.S. Department of Energy as a national plant biology center; and the MSU/W.K. Kellogg Biological Station, home to one of the National Science Foundation's long-term ecological sites. In collaboration with both the National Science Foundation and the U.S. Department of Energy, the National Superconducting Cyclotron Laboratory at MSU is able to study the nuclei of the heaviest elements.

The public significantly benefits from the University through University Outreach and Engagement, MSU Extension, and the Agricultural Experiment Station which provides technical information and course work for many Michigan citizens. The Kellogg Center, one of the finest hotel and conference centers nationwide, annually hosts some 500,000 adults who come to the campus for approximately 1,400 conferences and other educational meetings.

Service to the international community is equally important. Supported by grants from the federal government and private foundations, MSU sustains educational and research assistance projects internationally. These projects have given many faculty members overseas experience and have added new dimensions to their teaching.

Michigan State University is a member of the Association of American Universities, National Association of State Universities and Land-Grant Colleges, American Council on Education, American Council of Learned Societies, International Association of Universities, Association of Graduate Schools, Council of Graduate Schools, and the Committee on Institutional Cooperation.

ACADEMIC COSTUME

In 1895, the Intercollegiate Commission, a group of leading American educators, introduced an academic costume code which by design of gowns and hoods would indicate the various degrees, and which by colors would identify the various faculties.

Three types of gowns are indicated by the code. Those worn by the bachelors have long, pointed sleeves. Those worn by masters have long, closed sleeves with the arm of a circle near the bottom. Doctoral gowns are faced with velvet. The sleeves are full, round, and open with three bars of velvet on each sleeve. The velvet facing of the bars on the sleeves may be black or the same color as the binding of the hood.

Hoods are made of material identical with the gown and are lined in the official academic color of the institution conferring the degree (e.g., green and white for MSU; burnt orange and white for the University of Texas; blue and gold for UCLA). If the institution has more than one color, the chevron is used to introduce the second color. Colored velvet or velour tends the hoods and indicates the department of faculty to which the degree pertains.

The color of the velvet of the hood is distinctive of the subject to which the degree pertains. For example, the trimming for the degree of Master of Science in Agriculture should be maize, representing agriculture, rather than golden yellow, representing science. Generally, the code for the velvet of the hood is the same as listed below for tassels.

At Michigan State University, it is customary to identify the candidates graduating from the different departments by tassels of the official department color as established by the Intercollegiate Code. Candidates graduating from the Honors College wear a white stole with the initials, H.C. Candidates graduating "With Honors" or "With High Honor" wear a gold braid.

Michigan State University is pleased to include the University mace in commencement ceremonies. The introduction of the mace, at the 2005 Founders' Day celebration and inauguration of MSU's twentieth president, serves to commemorate the sesquicentennial celebration. The University, founded in 1855, celebrated its 150th birthday in 2005. The mace is designed by University Relations and was produced by Physical Plant staff.

Historically, the mace is a symbol of authority dating from medieval times when knights carried them during processions with their kings. As the tradition grew, the mace became a ceremonial symbol of peaceful leadership, and maces were embellished with jewels and metals. Today, a university’s mace is carried before the president or chancellor and platform-party dignitaries during commencement and inaugural and other academic ceremonial processions.

The Michigan State University mace, 42 inches in length, includes important institutional symbols in its finial, crown, and shaft. The finial is the circular University seal, which includes an image of “Old College Hall.” This oak-carved seal derives from an 1869 State Board of Agriculture (now, Board of Trustees) authorization for a woodcut to be used as the frontispiece of the college academic catalog. College Hall, built in 1856, was the first instructional building erected in the United States for the teaching of scientific agriculture. When it collapsed in 1918, John Beaumont (class of 1882) provided funds to erect Beaumont Tower in 1928 at the same location. The tower stands as a symbol of Michigan State’s beginnings as the first land-grant college dedicated to teaching “agriculture and the mechanic arts” with a “liberal and practical curriculum.”

The mace’s crown is trimmed with a maple samara and acorn pattern carved from walnut, a pattern drawn from the mace’s crown is the cylindrical shaft, whose alternating, horizontal oak and walnut bands descend to a brass tip. Its oak is purported to be from one of the original saplings surrounding College Hall. Its walnut is from a tree removed to clear land for the Wharton Center for Performing Arts of 1982.

In its soaring verticality, Beaumont Tower continues to inspire the MSU community and is an appropriate symbol for the MSU mace. As President Robert S. Shaw (1928-41) stated at the tower’s dedication, it has served as “a unifying factor” to remind us, even through our individual activities, of the overall mission of Michigan State University to inspire us by “appealing to many of the better things in us” and to encourage us to “live up to higher standards, scholastically, socially, morally, and spiritually in all of our affairs.”

**HONORARY DEGREE**

**Paul R. Ehrlich**

You are a world-class environmental scientist, ecologist, and conservation biologist, internationally renowned for exceptional achievements in addressing such globally important issues as overpopulation, loss of biodiversity, and sustainable natural resource management. You are a visionary leader and an influential spokesperson for science and science policy.

Your long-term innovative environmental studies have helped establish ecological science and conservation biology, and you have been a pioneer in alerting the public to the need to address population issues and the environment as matters of public policy. Because of your ability to make meaningful scientific information interesting and relevant, you are sought after to address the general public and policy-makers as well as other scientists. Your impact on public understanding of environmental issues has been profound.

You are a dedicated and highly effective teacher who has motivated students to pursue scientific and professional careers in the United States and abroad. As an inspiring mentor you have encouraged young faculty and enabled them to become leaders within the scientific community. A collaboration with an MSU faculty member led to publication of a significant cover story paper in the journal *Nature*. The National Academy of Sciences recommended its findings as a new frontier of research on population and environment.

Your work has been recognized with the Crawford Prize of the Royal Swedish Academy of Sciences, the John Muir Award of the Sierra Club, the Gold Medal Award of the World Wildlife Fund International, a MacArthur Prize Fellowship, and many more. You are an elected member of the National Academy of Sciences, the American Academy of Arts and Sciences, and the American Philosophical Society.

For your contributions to ecological science and conservation biology through research and education, I am pleased to award you the honorary degree Doctor of Science from Michigan State University.

**HONORARY DEGREE**

**Berry Gordy**

You are a creative businessperson who successfully introduced a popular musical genre that changed American music and in the process bridged racial gaps.

Going beyond your father’s advice to learn from your mistakes, you vowed to learn from the mistakes of others as well. With that philosophy and your own hard work and creative leadership, you founded Motown Records in the late 1950s and quickly built it into the largest independent record company in the country. The appeal of the music crossed racial and ethnic lines and continues to provide enjoyment to millions.

Motown Records developed the most impressive roster of artists in the history of pop music, many of them drawn from the African American neighborhoods of Detroit. You instilled a strict work ethic in the young performers you mentored, balancing it with an openness that allowed them to experiment creatively. You instituted a program of quality control modeled after Detroit’s auto plants, where you had worked briefly before turning to songwriting.

Your own creativity extended beyond songwriting to films, including *Lady Sings the Blues*, which received five Academy Award nominations, and *Mahogany*, which you directed. Your autobiography, *To Be Loved: The Music, the Magic, the Memories of Motown*, was published in 1994.

Among the awards that have recognized your accomplishments are the Martin Luther King Jr. Leadership Award, the Gordon Grand Fellow Award from Yale University, induction into the Rock & Roll Hall of Fame, a star on Hollywood’s Walk of Fame for excellence in music, and the Rainbow Coalition’s Man of the Millennium Award presented by the Rev. Jesse Jackson and former President Bill Clinton.

For your commitment to excellence, your ability to span racial barriers, and your success in mentoring young people, I am pleased to award you the honorary degree Doctor of Humanities from Michigan State University.
HONORARY DEGREE

Robert H. Grubbs

You are a winner of the 2005 Nobel Prize for Chemistry whose creative research has shaped the role chemistry plays in modern life.

You began your career as an assistant professor of chemistry at Michigan State University in 1969. Your early promise was recognized with early promotion to associate professor and numerous awards, including the Camille and Henry Dreyfus Teacher-Scholar Award and the Alexander von Humboldt Fellowship.

The research program you began during your decade at MSU came to fruition in your current position at the California Institute of Technology, where you are now the Victor and Elizabeth Atkins Professor of Chemistry. Among your many honors are the National Academy of Sciences and the American Academy of Arts and Sciences.

The research led to the development of new catalysts, based on the metal ruthenium, that are stable in air. These catalysts, which helped make metathesis a more efficient process, are now widely used in the pharmaceutical, chemical, biotechnical, polymer, and paper industries. This increased efficiency was a major step toward reducing potentially hazardous waste in those production processes.

You are known for your love of teaching as well as research and have inspired numerous students. The Grubbs reaction, named for your work on those catalysts, is a standard topic in undergraduate chemistry classes everywhere.

For your outstanding contributions to the science of organic chemistry, I am pleased to award you the honorary degree Doctor of Science from Michigan State University.

HONORARY DEGREE

Ellen Taaffe Zwilich

You are a prolific and accomplished composer known for your ability to write music of substance that appeals to mixed audiences.

You have received numerous awards, many of them firsts. You were the first woman to receive a D.M.A. in composition from the Juilliard School, the first woman to receive the Pulitzer Prize in music, and the first Composer-in-Residence at Carnegie Hall. You are known as a superb communicator and educator. As Composer-in-Residence at Carnegie Hall you developed a highly acclaimed series of programs, public discussions, and colloquia about contemporary music with leading composers. You have conducted pioneering studies in the early nineteen-seventies on the mechanism of the then-new process of olefin metathesis, a chemical reaction in which double bonds between carbon atoms are broken and the parts paired in new ways. This interchange process requires catalyst molecules, and your research led to the development of new catalysts, based on the metal ruthenium, that are stable in air. These catalysts, which helped make metathesis a more efficient process, are now widely used in the pharmaceutical, chemical, biotechnical, polymer, and paper industries. This increased efficiency was a major step toward reducing potentially hazardous waste in those production processes.

You are known for your love of teaching as well as research and have inspired numerous students. The Grubbs reaction, named for your work on those catalysts, is a standard topic in undergraduate chemistry classes everywhere.

For your outstanding contributions to the science of organic chemistry, I am pleased to award you the honorary degree Doctor of Fine Arts from Michigan State University.

HONORARY DEGREE

BACCALAUREATE DEGREES

The University acknowledges candidates for the bachelor's degree who will graduate as Academic Scholars (A), from the Honors College (H), With Honor (*), or With High Honor (**). Academic Scholars completed a two-year honors program including at least four honors-caliber courses. Honors College graduates are academically talented students who have participated in rigorous, highly individualized programs of study, including at least eight honors-caliber courses. Graduates Honors. The current minimum grade-point average for seniors graduating With Honor (*) is 3.5 and those graduating With High Honor (**) is 3.8, which is approximately 20 percent of graduating seniors who have earned the highest grade-point averages. Recognition of graduation honors in the commencement program is based on the grade-point average of all work at MSU completed prior to the last semester of graduation. To be eligible for graduation honors, transfer students must earn a minimum of 50 semester credits at MSU.

Diplomas will be mailed to degree recipients approximately one month after the end of the semester.

Alma Mater

M.S.U., We love thy shadows
When twilight silence falls,
Flushing deep and softly paling
O'er ivy-covered halls.
Beneath the pines we'll gather
To give our faith so true,
Sing our love for Alma Mater
And thy praises, M.S.U.

The lyrics of the Alma Mater were written by Bernard Traynor (MSC Athletic Department, 1925-1927). The melody is based on Donizetti's Lucia di Lammermoor. The arrangement used today is by Leonard Falcone, director of bands at MSU (1926-1967), and edited by John T. Madden, the current associate director of bands.

It was not until March 30, 1949, after a vote by the students, that the popular song on campus known as the MSC Shadows was finally adopted as the official Alma Mater. Today, the Alma Mater is known as the MSU Shadows.

Diana Shukri, Political Science-Prelaw

Alma Mater
The MSU Wind Symphony, Parks and Audience
Lyrics, page 10

Recessional
The MSU Wind Symphony
The following students have completed their ROTC education at Michigan State University and have received their commissions as reserve officers of the United States Air Force or the United States Army.

**Aerospace Studies**
- Air Battle Manager
  - Stephanie Marie Zarb
- Aircraft Maintenance
  - Kevin Daniel Lawracy

**Communications and Information**
- Marcus Andrew Szedey

**Intelligence**
- Kinsin Bein Koronzfeld
- Stephanie Jo Corpe
- Andrew Raymond Paulsen
- Timothy William Ryan

**Military Science**
- Armor
  - Brent Thomas Allen
  - Robert Charles Hempel
  - Jamal A. Khan
  - Lucas Henry Stump
- Infantry
  - James David Gallagher
  - John Patrick McNulty
  - Robert Jacob Reidel
- Military Police
  - Sean Eric Vangoven
- Ordinance Corps
  - Michael Seung Yun Lee
- Signal Corps
  - Micah John Bushouse
  - Mary Rose Cresswell
  - Thomas Graham Warschefsky
ADVANCED DEGREES

Star-Spangled Banner

Oh, say can you see by the dawn's early light
What so proudly we hailed at the twilight's last gleaming?
Whose broad stripes and bright stars thru the perilous fight,
O'er the ramparts we watched were so gallantly streaming?
And the rocket's red glare, the bombs bursting in air,
Gave proof thru the night that our flag was still there.
Oh, say does that star-spangled banner yet wave
O'er the land of the free and the home of the brave?

Alma Mater

M.S.U., We love thy shadows
When twilight silence falls,
Flushing deep and softly paling
O'er ivy-covered halls.
Beneath the pines we'll gather
To give our faith so true,
Sing our love for Alma Mater
And thy praises, M.S.U.

Diplomas will be mailed to degree recipients approximately one month after the end of the semester.

ORDER OF CEREMONIES

Advanced Degrees

Presiding

Lou Anna Kimsey Simon, President, Michigan State University

Processional

The MSU Wind Symphony, John T. Madden, Conductor

Star-Spangled Banner

Jeffrey S. MacMullen, MSU School of Music arranged by Derrick Gardner

The MSU Wind Symphony and Audience

Lyrics, page 54

Moment of Silence

Presentation of Honorary

J. Ian Gray, Vice President for Research and Graduate Studies

Degree Candidates

Andrea Marie Bauma
Lady Joy Burgamy
Elizabeth Jean Dukay
Amanda Joa Flowers

Amy Lynn Hepler
Kathryn Grace Kellogg
Jennifer Mann Lamb
Dana Natasha Moody

Aishwarya Yathodhan
Parshad
Christa M. Robinson
Lauren Anne Schadow
Rosalie Beth Steeves
Katherine Arden Spencer
Allison Rachel Sullivan
Valerie Lou Wensloff
Degree of Master of Arts

Jacquelyn R. Jaworski
Jessica E M Cotter
Jennifer Lynn Sandfort
Jeremy Nelson Mills
Aimee Loree Kauffman
Aimee Renee Andrae
Andrea Michelle Roach
Amanda Kay Winczewski

Degree of Master of Science

Caroline Angelica Garza
Chasity Courtney Brooke Thelen
Roland Christopher Hart
Belinda Marie Savage
Prater John G. Klein
Jolee Laster
Janine Stephanie Greco
Julie A. Rowan
Ann Renee Wesley
Eun-Jin Han
Sandra Kay Rhyne
Stacy Marie Clause
Sylvia Mary De Witt
Steve n Lee Edgerly
Kimb erly S. Moss ing
Karen Lynn Woodman
Heather M. Vance
Patricia Lynne Stiles
David A. Simpson
Johnala Jean McLaurin
Sander J. Singh
Todd Marshall Westfall

Degree of Master of Arts

Counseling

Jacqueline Suzanne Terganowski
Vida Vera Wilmer
Karen Lynn Woodman
Rehabilitation Counseling
Sara Elizabeth Krassel-Bramand
LaFaysha Jean McLaurin
Sander J. Singh

Higher, Adult, and Lifelong Education

Madhavi R. Acharya
Fay Jin Han
Heather Schmutzel-Koop
Caroline Sue Riley
