GRAND EXCURSIONS TO M. A. C.

A FINE OPPORTUNITY TO MAKE A VISIT TO THE AGRICULTURAL COLLEGE AT SLIGHT EXPENSE.

The dates are Aug. 16, 17, 18, 19. During the week of Aug. 16, 17, 18 and 19 various railroads will run excursions directly to the Michigan Agricultural College. Last year we tried these excursions, and at a conservative estimate 3,000 people visited the College on three different days. We expect 5,000 this year.

The electric street car line runs from all of the railroad stations in Lansing right into the College grounds within a few of five cents each way during the excursions. Guides will be furnished, and every opportunity will be afforded for visitors to see the institution. Members of the faculty, in all depart­ments, will be present, and will take upon themselves to show the work of their departments.

If you come, bring your lunch and any other articles you may think of wanting for the College, and have not yet guides decided, do not fail to come on one of these excursions. We feel certain that if you will come here and look about the grounds, you will march right into the President's office and have him save a room for you.

Tuesday, August 16, 1898.

MICHIGAN CENTRAL RAILROAD.

Time Table. Round trip rate.

LEAVE-WAYNE 8:30 a. m. $1.45 $1.35

Derton $1.40 $1.30

Penton $1.60 $1.40

Geddes $1.35 $1.25

Ann Arbor 7:15 $1.10 $1.00

Delhi 7:10 $0.85 $0.75

Dexter 7:15 $0.85 $0.75

Chiliea 7:10 $0.50 $0.40

Francisco 7:00 $0.35 $0.25

Grass Lake 8:00 $0.50 $0.40

Ionia 8:10 $0.70 $0.60

LANSING, MICHIGAN, TUESDAY, JULY 16, 1898.

No. 41.

Some Interesting Notes from Prof. F. S. Kedzie.

Several very interesting letters have been received from Prof. F. S. Kedzie since his arrival at Berlin. Regarding the weather, he says that there has been but one day since his arrival at Berlin that it has not rained, and the thermometer meanwhile has been higher than it is now. As a result of the almost continuous rain, crops are very poor. As a resorting place Prof. Kedzie finds that many can hardly compare with the United States.

Prof. Kedzie thinks that the American press greatly exaggerates the unfriendly attitude of the Germans toward the United States. He will remark in the German press, "Here is a bit that bitter, the common people seem to be friendly toward the Americans."

In speaking of points of interest in Berlin, Prof. Kedzie describes a visit to the "Thiergarten," in which form put wild animals in enclos­ures. Now, Mrs. Kedzie declares, the only fauna of the place to be seen is a man of enormous proportions for attacking human beings.

The address of Prof. Kedzie is No. 2 Nettlebeck St., IV, Berlin.

Prof. Noble Resigns.

Prof. Noble has resigned to accept the Professorship of English in the Michigan Normal School at Ann Arbor. He began his work there on July 15, he returned to the College and began at once to pack his goods, leaving on Saturday afternoon for Iowa. He began his work there on Tuesday, July 19.

We congratulate the Iowa Col­lege, but cannot help feeling that its gain is our loss. During the summer that Prof. Noble and his family lived among us they became identified with the college popula­tion and in such an intimate manner that it is like breaking family ties to give them up.

They carry with them the good wishes of everyone.

The Institute and Summer School.

The Institute and Summer School began here July 11, with Supt. C. L. Bemis of Ionia, as conductor and Prof. W. Babcock, of Iowa, as Step­master, P. B. Woodworth and Com­missioner M. Hanlon of Ing­ham county as assistant managers.

Mr. and Mrs. Woodworth are staying with Prof. Kedzie. Under the charge of the Institute, and with all of their surround­ings. The College is an ideal place for an institute.

C. L. BEMIS.

Marriage.

May 25, 1858, Mr. Edwin W. Redman, class of 87, was married to Miss Rose Woolsey of St. Louis, Mich. Bethany will be their home forever.

U. P. Hedrick, '32, Professor of Horticulture, Utah Agricultural Col­lege, and Miss Amy Plummer, of Corvallis, Oregon, were married at Corvallis June 23.

E. M. McElroy, '92, and Miss De­lora E. Kerr of Montmore were married June 18. Mr. and Mrs. McElroy will be at home after Sept. 1, at 1545 South Rockland street, Salina, Michigan.

Prof. Herbert W. Mumford and Miss Alice Davis were married at Lansing July 5. Mr. and Mrs. Mum­ford will be at home after October 1. Mrs. Mumford will graduate in the good viands furnished by the manager of the club.

Besides the studies that fill the mind with the many useful facts that are necessary on examination days there is a plan for showing the teachers over the several depart­ments and explaining the work of each. This gives the teachers a chance to know thoroughly the work of one of the best educational institutions of the State.

Of the lecture course two lectures have been given, one by Mr. T. H. Howe. His subject, "The Education of the Heart and Hand" was received with much enthusiasm.

This is followed by a system of a system of education that educates the whole man, physical, mental and moral, for which was by Dr. Kedzie. His subject, "Chemistry and War" was an explication of the relation of chem­istry to war, with experiments with common gun powder, smokeless­powder, gun-cotton, nitroglycerine, and dynamite. The next lecture was of nitroglycerine was made before the class. The teachers said that they could listen all day to the doctor. Other lectures are to follow from Presi­dent Snyder and Dr. Real.

The institute will close August 5. At this time the teachers will turn themselves as being very much pleased with the work of the instit­ute, and with all of their surround­ings. The College is an ideal place for an institute.

C. L. BEMIS.
energy of the industrial classes. Gathered from the best countries of Northern Europe and sifted over and over, it is the belief of this country that our rural population have not had much of the advantage of the schools, or the benefit of the knowledge and science which show that the conservatism of the nation is particularly necessary for the man who is to be the industrial laborer. The nation is particularly needed to their education and training for the future of this country, to prepare their children for their chosen calling. What is true of one country is true of all. If instruction in cooking and sewing is given to the women, so it should be given to the men, too.

For various reasons THE M. A. C. RECORD is occasionally sent to those who have not sub­scribed for the paper. Such persons need have no hesitation about taking the paper from the postoffice, for no charges will be made for it. This is the way, however, to insure THE Record regularly is to subscribe.

Summer Farmers' Institutes.

The following one-day summer institutes have been arranged for:

Alcona county, Beeggs Grove, Wednesday, August 3, Prof. Clinton D. Smith.
Alpena county, Long Rapids, Thursday, August 4, Prof. Clinton D. Smith.
Calhoun county, Marshall, Tuesday, August 3, Dr. J. W. Bente. Eaton county, Charlotte, Thurs­day, August 11, Prof. H. W. Mum­ford.

Grosz County, Ithaca, Friday, August 12, Prof. J. W. Beale.
Tusco county, W. Winthrop, Thurs­day, August 4, Prof. Clinton D. Smith.
Isabella county, Moss Landing, Monday, August 11, Prof. L. R. Taft.
Kalkaska county, A. E. Palmer's farm, Wednesday, August 3, M. C. Elliott.
Manistee county, Arcadia, Wed­nesday, August 3, Prof. L. R. Taft.
Ogemaw county, Bigg's Grove, Friday, August 12, Prof. L. R. Taft.
Newaygo county, Fremont, Thursday, August 4, Prof. L. R. Taft.
Oakland county, Orion, Friday, August 12, Prof. C. D. Smith.
Sanilac county, Sanilac Center, Wednesday, August 10, Prof. T. D. Smith.
St. Joseph county, Nottawa, Wed­nesday, August 10, Prof. H. W. Mumford.
Tuscola county, Vassar, Friday, August 12, Prof. H. W. Mumford.
Van Buren county, Glendale, Thursday, August 4, Mr. G. H. True.
Wayne county, Wayne, Saturday, August 13, Mr. G. H. True.

Summer one-day meetings have already been held at Ida, Monroe county; at Adrian, and Hudson, Lenawee county.

Requests for rooms are coming into the President's office quite rapidly. At the present rate it will be very short time until all the rooms in the buildings are taken. A number of students left at the close of last term without engaging rooms for the present term, and we feel sure that the intention and desire to give old students the preference as to choice of rooms will not be better to reverse this order and arrange our courses of study to suit the needs of the students who will not be able to enter the secondary schools or the university.

SUMMARY OF THE WEEKLY MEETING.
JULY 26, 1898.

THE M. A. C. RECORD.

News and Personal.

Edward Sedgwick '97, called at the College, July 2.

And the popular game at the College this season.

C. E. Hoyt has been visiting at the College for the last few days. Miss Celia Harrison, '01, expects to attend the Pratt institute next year.

It is reported that Fred R. Crane, '95, is married. Particulars are wanting.

A. C. Williams, '01, will return to the College and bring a freshman with him.

Messrs. Richmond and Gould are hunting as porters for the resort business.

Mr. G. S. Williams, 1901, visited the College, July 8. Mr. Williams is a student on the boat Manitou.

Prof. and Mrs. P. M. Chamberlin of Chicago visited the College for a few days last week.

Prof. and Mrs. Woodworth were at Jackson last Saturday, the guests of Mrs. Mrs. Chamberlin.

Profs. L. R. Taft and J. D. Towar with their families have been camping on Hickory Island at Pine Lake for the past month.

Mrs. Wheeler returned to College July 21, from Traverse City where she had been spending a few weeks at the Holdsworth cottage.

The Kent county delegation will present the name of F. E. Skeels at the Republican State convention, for the office of State Land commissioner.

Mr. and Mrs. V. P. Bailey, and son, F. J. Bailey, 58 East High St., Detroit, called at the College July 4. Mr. V. P. Bailey was a student here in 1895.

Among the summer students are Miss Patricia of Saranac, and Miss Celia Harrison, '01, who are spending the summer at her old home in Niles. Her mother, Mrs. Vought returned with her for a visit to her old home.

Dr. G. W. Roberts, with '97, and wife, picnickeed at the College one day last week. Dr. Roberts has a very beautiful cottage on the lake, where he has been located for the last one and half years.

Mr. and Mrs. Fulton and daughter recently spent a week at their home near Detroit. Mr. Fulton returned a week later, on the way back. A. H. Stetson, '97, L. A. Bliss '83, H. L. Mikes '95, H. T. DeGarmo, with '91, and W. G. Smith, '93.

Mr. and Mrs. Thorne Smith and son, Thorne Jr., visited at the College and Lansing a few days last week. Mrs. Smith returned to Belding, Saturday evening. Miss Mrs. Sister of the summer at M. A. C.

About Aug. 20, they leave for Moscow, Idaho, where her son, a student, is going to take the summer school work of his new position as Assistant Exp. Chemist. Station.

During the vacation the library is being thoroughly cleaned. The linoleum, which was purchased in 1889-94, has been taken up, cleaned, and re-laid. A new reading room floor, and replaced. New

During the vacation the library is being thoroughly cleaned. The linoleum, which was purchased in 1889-94, has been taken up, cleaned, and re-laid. A new reading room floor, and replaced. New

C. A. DeGestater, '85, is mayor of Three Rivers.

Royal C. Fisher, '93, was recently appointed city superintendemt of schools at Hart, Mich. Royal will have seven teachers under his charge.

Prof. S. P. Orth, with '94, of Harbor Springs, is making plans for a trip into the Hudson Bay region to study the Laurentian rocks.

Henry F. Locke, '95, who for the past has been principal of schools at Lake City, Co., has given up teaching because of ill health. He is now at Gunnison, Colo., planning to go home.

Of ten who were granted the degree, Master of Science, this year, at the U. of M., three, Bert W. Briggs, Hugh E. Ward, and Clarence B. Smith, '94, were graduates of the M. A. C.

By recent changes made at the postal office Arthur F. Kinman, '85, was promoted from second assistant examiner to first assistant examiner at $1,500, and Walter D. Groebeck, '92, was raised to third assistant examiner at a salary of $1,400.

Lew W. Spalding, '90, is now engaged in installing insulated and iron clad light plant at Harrisburg, Minn., of which he is manager. Frank E. Semons, with '89, is at Demopolis, Ala., charged with the business of the Recorder at that place. Mr. Spalding writes that both are doing well, and appreciate the advantages of their M. A. C. training.

W. F. Wight, '94, and W. A. Cannon, with '91, are studying butter and cheese technology at the University of Minnesota, and Howard Hall, '90, is also spending the summer in that vicinity.

He writes that on his last visit to San Francisco they called at Camp Merritt, where they saw Lieut. Lewis, who was here in command of one of the new companies of the 18th infantry. Since that time, however, Lieut. Lewis has received orders to go to the Philippines in charge of the recruits of the 1st and 2d battalions of the 18th, and has gone to Manila. Lieut. Lewis probably left San Francisco about July 25.

W. J. Perrigo, '94, writes that after an eight months' sojourn in the States he is again back in Europe working for the same firm he was with last year. His address is now the Bourse, Manchester. Lieut. Perrigo says that while in the west he had the pleasure of calling on several of the M. A. C. men, among whom were Herbert L. Fairfull, '98, who runs a successful ranch four miles north of Phoenix; at Tucson were W. B. Hall, '90, and Touny, '90, of the Arizona University. Prof. Touny is becoming very well and favorably known over the territory because of his efficient work at the different experiment stations over which he has charge. Two weeks ago he was at Los Angeles, Cal., and at San Francisco H. R. Parish was at work in the building department of the Union Iron Works, where he is keeping up the good work for hard work that he had at M. A. C.

D. J. Crosby, '93, writes from Ann Arbor: "The University summer school enrolls an unusually large number of M. A. C. men, and the time will no doubt find five of these at Miss Peck's table. These are W. O. Coombs '91; Edwin DeBarr; '91; W. O. Reel, W. R. Peet '92, and myself. Mr. Peet is doing work in mathematics and physics, and will remain here another year. Prof. DeBarr is upwards of fifty years old. The Oklahoma Agricultural College in original chemical research with Prof. Freer, and the rest are variously engaged in summer school work. O. S. Grover, '94, principal of Minisota Agricultural College, is here; also W. J. Myers, '90, and E. J. Heck, '95, who are spending the summer in Ann Arbor, are members of the current class. I hope to make a visit to Missouri when I leave camp this month, and I and W. A. Crozier. Mr. Crozier had just returned from a long drive and was somewhat fatigued, but even then his face seemed to be somewhat brighter than when I left College last fall. He was very weak when he returned from his trip into Arizona, California, and Hawaii, but has gained in strength since, and I think he will not be long before he can enjoy a visit at M. A. C."

Military Notes.

Fred Stricker, with '97, is corps captain in one of the Detroit companies.

Dave Smith, '88, Portland, is 1st sergeant of one of the companies of the 33d.

O. Cole, with '98, is a corporal in the 2d regiment of Co. K, 33d Mich. Corburtson, '97, is a sergeant in the 33d, and is a member of the same company.

R. S. Welsh, '95, is captain of Co. G, 33d Mich., and L. C. Smith, with '97, is a member of the same company. They are now at Santiago.

O. R. Avison, with '98, writes from Camp Thomas that the boys of the 31st are anxious to get into the fight, and several of the M. A. C. men in Co. E. of that regiment.

Lieuut. H. H. Bandholz has been appointed adjutant of his regiment. He was with Chaffee's brigade in the fight of El Caney, when the adjutant of the battalion was shot within ten feet of Lieut. Bandholz. Lieut. Bandholz was once promoted to the position.

The Wandering Singer and His Songs.

One of the handsomest College souvenirs ever published is the book of poems by Frank Hodgeman, '96, of Climax, entitled "The Wandering Singer and His Songs and Other Poems." The book is bound in ¢ purple cloth, and contains 185 pages, and is printed on the best grade of paper. It is beautifully illustrated with half-tones of College scenes and portraits, and was devolved to College poems there is hardly a student of days gone by, not only for the student of the M. A. C. men, and each meal time finds five of these at Mrs. DeBarr's table. He is now another year. Prof. DeBarr is upwards of fifty years old. The Oklahoma Agricultural College in original chemical research with Prof. Freer, and the rest are variously engaged in summer school work. O. S. Grover, '94, principal of Minisota Agricultural College, is here; also W. J. Myers, '90, and E. J. Heck, '95, who are spending the summer in Ann Arbor, are members of the current class. I hope to make a visit to Missouri when I leave camp this month, and I
Farm Notes.

The pastures are dried up and the dairy herds are now fed on oats and grass grown in No. 6. The millets from Australia bid fair to be valuable additions to our list. Thanks to Mr. Bulkeley.

The hay crop of the College farm amounting to 14 tons, was secured in excellent condition. Haying the dairy herds are now fed on oats but are making a vigorous growth. Fair to be valuable additions to our grass on the lathyrus sod plowed up in May.

The sugar beets in No. 8 were sown too deep by the new seeder but are making a vigorous growth. They have of course been thinned and now completely cover the rows.

The frost of July 11th did little damage on the College farm except to the corn on the muck next the fence. The damage on the College farm except to the corn on the muck next the fence, amounting to 119 tons, was secured in May.

On the Curiosity Strip the Saca­line, Mat worthens forage plant which certain seedsmen have tried to foist upon the Michigan farmers, is making a luxuriant but worthless growth. It is now eight feet tall, with broad thick leaves and stout growth. It is now eight feet tall, with broad thick leaves and stout growth.

The pastures are dried up and the dairy herds are now fed on oats and grass grown in No. 6. The millets from Australia bid fair to be valuable additions to our list. Thanks to Mr. Bulkeley.

To Propective Students.

This is the last opportunity the Record will have to speak to you before the opening of the next school year. Those young people with whom we have a brief acquaintance we should like to say a few words. What are your plans with the future? Are you satisfied with your present attainments or is it your desire to acquire better education? In considering this important question there are a few facts which are worthy of consideration.

There are many ways of getting on in the world, but the best way and the only true way comes through hard work. If you expect to be a leader in your calling or in society and not one who is led by another, you must grow strong and intelligent; you must get an educa­tion of some sort; you must prepare yourself for the duties and responsibil­ities which you are sure to meet later in life. The education which perhaps served your fathers and mothers to good purpose will fall far short in meeting your needs. You are living under different con­ditions and in a different age. You can readily see that the time is fast approaching in this country when the person who can simply work with his hands will have a very poor show, but for the educated man in the country there never were such bright pro­pects as there are at present. If you have brains you should prepare to use them. Go to school some­where where the coming year. The op­portunity comes but once. There may be many difficulties in the way. You are needed at home or you cannot secure the necessary funds. These are obstacles which require considerable force and courage to overcome, yet they must not stand in your way. "He is not worthy the honey comb who shuns the hive because the bees have stings."

The world is full of young men who can float down stream but the young men who are willing to fight against the current and can do so, they ever were. An education is worth striving for; it may cost many dollars training but it costs many times over. It cannot be measured in money although from a financial standpoint money spent for this purpose is a splendid in­vestment. After having made up your mind that you will have more education, there are many college students that you will attend. There are many good colleges in Michigan. The choice of the college is a matter of selection from the other schools of the state. It insists that when a young man receives his diploma he shall not only be well trained mentally but

KITCHEN WOMEN: DOROTHY

in the Wood Shop

Mrs. Backus, who formerly had charge of Club C, is erecting a beautiful home on the delta near the street car entrance to the College grounds. The house will be heated with a hot water system, and will contain bath rooms, electric lights and all other modern con­veniences.

Arrangements have been made by which Mrs. Backus will take women who cannot be accommodated in Abbot Hall. The charge for room and board will be three dollars per week.

The frost of July 11th did little damage on the College farm except to the corn on the muck next the fence. The damage on the College farm except to the corn on the muck next the fence, amounting to 119 tons, was secured in May.

The pastures are dried up and the dairy herds are now fed on oats and grass grown in No. 6. The millets from Australia bid fair to be valuable additions to our list. Thanks to Mr. Bulkeley.
