The Bills We Have to Pay.

No, you needn't tell me stranger:
It's a note that will not pass payment;
Don't you think that "God will settle,
Then don't talk of God's strange ruling,
That seems odd to human trade,
'Tcause the bills are ours when due.
When the bills of life come due.

The Members of the different classes were asters of their respective years, while being chosen for the freshmen.

During the evening Miss Newell and Miss Edith Brown gave selections on the piano, and several choruses were rendered by the girls; later, the guests were taken to the dining room where refreshments were served.

Those Who Have Returned.

The Chorus Class will meet tonight (Monday) in the chapel at two o'clock. The outlook for a good class of Nineteen Hundred. It is expected that a large number of special attractions are promised which can be seen free every day of the fair.

Juan Hill, a member of the freshmen class, is entering the sophomore class. A young man from Puerto Rico, Senor Luis G. de Quevedo, entered College Saturday morning "to learn English." He comes from Caycey, on the north slope of the Caycey mountains, and numbers among his American friends, Lient. A. F. Perry, of Brooklyn, and Capt. John Broome, of New York, both of whom were stationed in Caycey after the Spanish evacuation of Puerto Rico. His education before coming to the United States was obtained from a course of five years in one of the provincial institutes on the island, from which he received the Bachelor of Arts degree. He has been in this country but a short time—two months in New York and two months in Schenectady—and has considerable difficulty in expressing his thoughts. After he has mastered the English language well enough to take lectures, which hopes will not take more than a year, he will study medicine, perhaps in Ann Arbor.

Feels Like an Old Timer.

Under date of September 11, Mr. G. H. True writes to a friend here as follows:

'Am at Tucson, where I have been since Saturday morning. Prof. Forbes was away when I arrived but returned last evening. Tomorrow morning he and I start out on a forty-five mile ride across the desert to Empire Ranch. I expect to go on to Phoenix immediately upon our return and so be there on Thursday or Friday of this week. I like this country and feel like an old timer already—feel perfectly at home among the Mexicans, Indians, Chihamen and Negroes. And I hope to stay here. I have climbed a mountain and live in a mud house.'

He speaks of the hospitality of the Kiis," whose club house is the finest building in town and one of the most elaborately furnished clubs" he has ever seen.

That tract of land just north of where the street car line enters the College grounds, formerly known as the Dr. Miles farm, has been purchased and put on the market for suburban residences. The name "Oakwood" was suggested by the beautiful oak grove back on the hill.

In laying out drives and walks the park like arrangement of the College grounds has been followed and with improvements contemplated "Oakwood" will seem just an addition to the beautiful College campus.
