The lively discus­

Mr. Ferguson gave an instructive talk on "General vs. Special Farming." The lively discu­sion which followed was led by N. A. McCune. The Club has a membership of sixty and is rapidly growing. An unusual amount of interest has been taken by the students shown by the students. They are begin­ning to realize that agriculture is rapidly becoming one of the most profitable vocations; also that the better the education, the better the chance of success. The Club ex­pects Prof. L. H. Bailey, of Cornell, to address them sometime in the near future. Next meeting will be held in the agricultural laboratory Jan. 31. Meeting called at 6.30.

THE M. A. C. RECORD.

THE M. A. C. RECORD.

JANUARY 23, 1900.

A Plan for Winning Trainers Orators.

Every year as the intercollegiate orators' season gets under way, the logical method to occupy a place near the foot in the summing up of the relative standings is to write all the contestants.

The very nature of the courses given the other colleges in the associations places all the advantage to the credit of those who get into orators in the right order.

This is a very natural illustration of the idea, when he contrasts the government of the French departments with that of the states in this country, to show the superiority of the latter.

In this case the country is divided into eighty-nine departments and the administration in one is extended to another.

This means a number of orators for the various states, but each of these gets a hearing. The orator who gets the hearing most often and who has a very real advantage in the audience, is the one who is the first to speak.

The reason is that you have to think in oratorical terms, and the first to speak gets the best chance to get ideas into the minds of the audience.

The chance to speak first is the advantage you get in the oratorical contest. A repetition of an oration has more effect on the audience than it will have on the orator.

The chance to speak first is the advantage you get in the oratorical contest. A repetition of an oration has more effect on the audience than it will have on the orator.
he never hesitated to impose on his audiences by repetition. Under the old system a new oration had to be read up, thought out, written down, and memorized for each public occasion. It was like imagining a machine of one piece, in which when a wearing part gave out, the whole machine had to be thrown away and the slight defect remedied by supplying a new mold. Who would think of buying a new self binder or mower every time the knives might give out?

To summarize this matter.—It is seen that our literary standard would be raised, a spirit of mutual effort would be inculcated, and a grand system be inaugurated, by which a large number would be trained from which to choose a man for the inter-collegiate contest. Each society by giving every man the full list of seven societies to appear before, might thus prepare five men during the year—thirty-five for the whole seven societies—an ample number from which to choose a winning orator. The faculty are seeking to devise a scheme by which they may enlarge the field of opportunity for would-be aspirants. With two annual contests they can allow for but about fourteen speeches per year; whereas, by this method, provision is made for two hundred and forty-five orations per annum.

In closing I would ask that the societies give the plan a consideration—at least a discussion.

Howard Severance, '01.

At the College.

E. D. Searing is entertaining the orators at home.

Miss Mabel Brigham returned to College Saturday.

The State Academy of Science will meet at M. A. C. in March.

C. A. McCue went to the hospital Sunday with a grip and the measles.

Mr. and Mrs. L. B. Fletcher, who visited Mr. and Mrs. M. L. Dean last week.

Pres. Snyder drove to DeWitt Friday evening to address a farmers' institute.

Prof. Smith addressed a meeting of sugar beet growers in Battle Creek Saturday.

Mr. F. A. Gaylord of Detroit called on his daughter, Bessee Lee Gaylord, Sunday.

Prof. Well will give an address at a meeting of the Detroit Engineering Society next Friday.

Last Saturday morning B. H. Takvourian left the hospital for the first time in about three weeks.

The Fenians, Eclectics, Themi-ans and Union Lits had society group pictures taken Saturday.

Messrs. Hilton and Thayer entertained the sophomores and freshmen of their society at luncheon Saturday evening.

A quiet wedding occurred at the residence of Mr. and Mrs. M. L. Dean last Monday, when Miss Eva Smith, sister of Mrs. Dean, was married to W. G. Osborne of Grand Rapids.

The regular meeting of the King's Daughters will be held at the home of Mrs. Holdsworth, Thursday, Jan. 25. Lesson, the seventh chapter of Matthew. Text, "Fruit." Leader, Mrs. Dean.

Prof. C. O. Benjes attended a meeting of the American Association for the Advancement of Physical Education in Detroit Saturday, where he gave an address on "The Physical Basis of Mental Efficiency."

Madam Barrows of Reading, Mass., arrived at the College last Tuesday for a visit of several weeks with her son, Prof. W. B. Barrows. She was accompanied by another son, Mr. Herbert Barrows, who remained but one day.

Pres. Snyder, Secy. Bird, Profs. Tower and Manford and Members, M. L. Dean and H. B. Cannon were out on institute work last week. The president, secretary, Miss Keller, M. L. Dean and H. B. Cannon will do institute work this week.

The trend of Senior thesis work in the mechanical course seems to be toward gas engineering, several having announced their intention of taking special experimental work with gas engines. Last week the class indicated a gas engine at the School for the Blind, and this week one at Thoman's mill.

Mrs. J. D. Towar entertained a large number of ladies from the College and from Lansing Saturday afternoon from 4 to 6 o'clock in honor of her guest, Mrs. E. M. Howes, of Kingston, R. I. Refreshments were served in the dining room. A few of the guests remained until evening, and after the arrival of a number of gentle- men, cards were enjoyed.

Our happiness does not consist in being without passions, but in having control of them.
