WHERE ARE YOU CONCERNING YOUR CAREER PLANS AND GOALS?

The Office of the Dean of Women at Purdue University has devised a SPAN PLAN CHART to aid coeds in taking a more comprehensive look into their long-range life patterns in terms of educational, career, marriage and family plans. The SPAN PLAN CHART becomes more relevant when the following are taken into consideration:

- Life expectancy for a female born in 1964 is 74 years
- 9 out of 10 females will work sometime during their lives; working at least 25 years out of the home

WHAT HAPPENED TO YOUR LEARNING, THINKING, AND FEELING THIS YEAR?

The following lines are a commentary on maturity by Ann Landers which might help you measure your development and facilitate your self-discovery. Maturity is:

... the ability to control anger and settle differences without violence or destruction.
... patience, the willingness to pass up immediate pleasure in favor of long-term gain.
... perseverance, the ability to sweat out a situation in spite of opposition and discouraging setbacks.
... unselfishness, responding to the needs of others, often at the expense of one's own desires or wishes.
... humility. It is being big enough to say, "I was wrong." And, when right, the mature person need not say, "I told you so."
... the ability to make a decision and stand by it. The immature spend their lives exploring endless possibilities and then do nothing.
... the act of living in peace with that which we cannot change.

WHERE DO YOU WANT TO GO?

MSU WOMAN has been concerned with getting you to discover your own feelings concerning your role as a woman today. The following statements offer an opportunity to rate yourself, to see where you stand, to see how far you have come, how far you have yet to go. The statements ask only your opinion—there are no right or wrong answers.
