Under her care we feel sure that the health of our young women will be safe-guarded. Miss Avery is a member-in-law of Mr. F. H. Hall, '89.

MISS CARRIE A. LYVORD, B. S.,
Instructor in cookery, is a graduate from the regular and the post-graduate courses of the Oregon Agricultural College, and from the normal course of the Oread Institute, a school of practical science in New York. She taught for one year in the Oregon Agricultural College as assistant in the department of agricultural science and subsequently in the same capacity in the University of Idaho. In both positions she made an enviable record and her instructors in the Oread Institute, where she attended last year, speak in the highest terms of her work in the classes and in demonstration lessons.

JOHN MICHEL.
Instructor in dairying, has six years' experience as practical in charge of a cheese factory. To this he has added graduation from the dairy course and subsequently graduation with honors from the four years' course in agriculture in the University of Wisconsin. He has been interested in dairying, genetics, and bacteriology. He gave up a position as instructor in the dairy course at the University of Wisconsin School in order to enter upon the four years' course which he has just completed.

LESTER L. LOCKE, M. A.,
Instructor in mathematics, is a graduate of Grove City College, Pennsylvania, and has taken post-graduate work in the Pennsylvania State College. He has some years' successful experience as teacher of mathematics in Fredonia Institute, a position he was selected to accept his present work at M. A. C. Mr. Locke is a member of the American Mathematical Association, and some of his work has been published in the American Mathematical Monthly.

ALFRED H. PARROTT, A. M.,
Instructor in mathematics is a graduate of the University of Kansas, specializing in mathematics. For three years he was an authorized tutor in the department of mathematics in his alma mater, and during the year just past he was instructor in mathematics in the university. He has also had experience in high school work. He is a member of the Phi Beta Kappa fraternity—membership in which is the only honor bestowed by the university for high scholarship.

MISS BERTHA WELLMAN, B. S.,
Instructor in English, is one of our own graduates, having finished her course here in 1893. From us she went to the State Normal School at Ypsilanti, and having completed her course there she received an appointment to teach English and French in a high school at Mason, Michigan. This she resigned after two years of unqualified success and returned to her present position in M. A. C. Miss Wellman is so well known and so highly esteemed at the College that she really needs no introduction to the immediate college community.

S. P. EDWARDS, B. S.,
Instructor in bacteriology and hygiene, is another of our own graduates. He has for some years been specializing under Prof. Marshall, and during the past year has been employed by him quite largely in the work of the department.

A. T. CARTLAND, B. S.,
Still another of our own graduates ('97), will have specially close and immediate relations with readers of the Record during the present year. He is to assist in preparing material for the Record, in handling the advertising work of the College, and in such English professional work as may be necessary. Mr. Cartland is one of our most promising men and is well equipped by training and experience for the work he has undertaken.

W. T. SHAW, B. S.,
Instructor in zoology, is a graduate of the school of agriculture of Minnesota, and also of the University of Pennsylvania. He is a son of Prof. Thomas S. Shaw, the school of agriculture of Minnesota, where the father was professor for many years. Mr. Shaw has been studying under Prof. Barrows during the past year.

Dr. Beal on Agricultural Education.

The August 31st number of "Science" contains an address by Dr. Beal on the progress of Agricultural Education in the United States.

The doctor finds that Farmers' Institutes were originated in 1871 under the leadership of Dr. J. M. Gregory of the Illinois Industrial University, now the University of Illinois. Five years later in 1876, the first Agricultural college was founded.

A very interesting comparison of relative value of study in mathematical and classical studies is made. While the study of mathematics trains in exact deductive reasoning, the use of concise and accurate language, and is unquestionably of great utility, and while Latin and Greek cultivate the memory, develop the power of attention and genuine study, train the mind in scientific and exact knowledge for the understanding of English, develop the powers of interpretation and discrimination, give mental alertness, and bring the mind into contact with the best thought of ancient times—the study of history and kindred sciences excels all other studies for training the powers of observation, cultivation of the power of inductive reasoning, enlarging one's vocabulary with well-defined words, developing the power of fashioning and precise definitions, binding the memory with a multitude of useful and interesting facts, training the power of abstract and synthetic thought, all this besides giving skill to the hand and precision to the eye. In this field of culture, men obtain from scientific studies, while as broad and deep, as the culture given by classical studies, is far more useful.
THE M. A. C. RECORD.

Miss Crowe spent her vacation at her home near Lake Water, Scotland, with Miss Keller and Miss Rushmore, our former teacher of domestics. She was interested in the work and there visited several hospital kitchens.

Some of our men have been doing interesting work at various universities the past summer. Among others, Prof. Marshall was at the University of Michigan studying the biology of the rock building problem in the farm house, and the construction of the new dairy building has transformed the usually quiet campus into the noisy and much-frequented site of an inode city. The construction of the large new building has almost entirely by student labor has returned with us a number of boys, and added to the Stone movement. Each day, too, has brought in its quota of picnickers and other visitors. Scarcely a day has passed that has not brought with it one or two picnicking parties, and we have had several running from 1,000 to 3,000. All these College has probably never seen another vacation of such character in such a short time.

Nis is the character of change to be regretted. It means that the insect world has moved into the great world as never before and is drawing men to it; that science, instead of its being a mere tool of greater usefulness and that the opportunity for greater usefulness is approaching with hurrying feet.

How the Vacation was Spent.

If the M. A. C. community were a colony of insects the habits of said insects would afford the entomologist much food for study and theorizing. During the last three months of the year the M. A. C. community would be a colony held together by many ties, but the most important—ultimately than most other communities of the insect class. Suddenly the colony would be forced to lose its power and to be replaced by a segregating force that sends to the four corners of the earth the units of the whole colony.

Three months pass, and almost as suddenly, from all quarters and forms, a new colony of the insect class is formed. This new colony is not likely to remain long in the insect world. During the past vacation each member of our community has chased some idea—possibly sometime a phantom,—health, or rest, or adventure, or you name it. Some of these same units which made up the old colony rush together and the cycle begins again.

Among members of the faculty we note the movements of a few.

Miss Keller was in Boston much of the vacation, collecting a large number of plants in the state. She shot some fifty prairie chickens, and came back brown and hearty.

Prof. Wheeler, who never makes an excursion into the woods in vain, collected a large number of plants in the westernmost county of the state. He shot some fifty prairie chickens, and came back brown and hearty.

Prof. Barrows sought rest and recreation in the northern reaches of a beaver dam in Minnesota; the usually quiet campus was transformed into the noisy and much-frequented site of an inchoate city. The construction of the large new building has almost entirely by student labor has returned with us a number of boys, and added to the Stone movement. Each day, too, has brought in its quota of picnickers and other visitors. Scarcely a day has passed that has not brought with it one or two picnicking parties, and we have had several running from 1,000 to 3,000. All these College has probably never seen another vacation of such character in such a short time.

Nis is the character of change to be regretted. It means that the insect world has moved into the great world as never before and is drawing men to it; that science, instead of its being a mere tool of greater usefulness and that the opportunity for greater usefulness is approaching with hurrying feet.

Class Officers.

To returning students, accustomed as they have been to the use of the old class officers year after year, the change in the various officers elected by each class to give form and substance to the organization amounts almost to the discovery of America!

Among the students in the College, the discovery of the new meaning to designate the various officers elected by each class in each course, to have assignments concerning such entrance examinations as he may need to take, and the class officer, when he finds that his class is divided into sections, or that for any other reason the officer in charge of his class in the course he has selected.

This officer will then seek the charge of the classification of students in his group, to note progress of examinations in the individual cases, to attend to complaints and redress grievances, and to establish and maintain a close and intimate relation with those under his charge.

The order of procedure for classification will be as follows; The student will first visit the president's office, fill out a blank, receive instructions concerning such entrance examinations as he may need to take, and the class officer, when he finds that his class is divided into sections, or that for any other reason the officer in charge of his class in the course he has selected.

This officer will then seek the charge of the classification of students in his group, to note progress of examinations in the individual cases, to attend to complaints and redress grievances, and to establish and maintain a close and intimate relation with those under his charge.

Miss Mabel Smith, with '03, died at Grace Hospital in Detroit on Friday, September 7. The news came with a shock to all at the College. Notwithstanding her comparatively short attendance at the College, she had made a large acquaintance and was greatly beloved. Her bright mind and attractive disposition made her a welcome guest in all circles and her death is sincerely and deeply deplored by the whole college community.

Information Wanted.

Strange questions have been asked by visitors to the College.

One woman in search of information asked the librarian to direct her to the College campus. A brother at Newaygo county evidently had not read the M. A. C. catechism, having just landed from the car, looked about in every direction in a dazed way, and then approaching one of our most venerable professors, and pointing over towards Abbott Hall, inquired, ‘Is that the school house?'

Lecture Course.

The M. A. C. Entertainment Club announces the following program of attractions to be held in the College Armory during the ensuing school year.

December 12, John Temple Graves, A Reunited Country.
February 14, Benjamin Chapin, Dramatic Interpretation of Cyrano De Bergerac.
February 15, Casberry-Dorno, The Temperance Movement.
March 8, Frank Crane, What I Will You Do With It.
April 13, George Kennan, Life on the Great Siberian Road.

The talent in the above series of entertainments is of a sufficiently high quality to meet the approval of all; and the price is in the reach of everybody; so get your ticket early and enjoy a Friday night's pleasant instruction now and then during your life at College.

Schedule for Entrance Examinations.

Entrance examinations for agricultural freshmen, mechanical five-year men, and women freshmen will be held as follows:

TUESDAY, SEPT. 18.
8-10 a. m. U. S. History, room 7, College Hall.
10-12 a. m. Grammar, Spelling and Reading, room 7, College Hall.
1-3 p. m. Arithmetic, room 7, College Hall.
3-5 p. m. Geography, physiological lecture room, 2d floor, Library Building.

Entrance examinations for the four-year mechanical course will be held as follows:

TUESDAY, SEPT. 18.
8-10 a. m. U. S. History, room 7, College Hall.
10-12 a. m. English as on pp. 32; College catalogue, room 7, College Hall.
1-3 p. m. Arithmetic, room 2, College Hall.
3-5 p. m. Geography, physiological lecture room, 2d floor, Library Building.

The main item in Stoves is to get the best for the least money. We have the nicest assortment ever in the city. Steel Ranges $18.00 to $40.00; Cast Cook Stoves with Reservoir 96.00 to 25.00; Base Burner Coal Stoves 25.00 to 40.00; Soft Coal Air-Tight Stoves 12.00 to 16.00; Air-Tight Wood Stoves 5.00 to 9.00; Nice Oil Heaters $3.25 to 4.00. Everyone of them fully guaranteed. A nice line of Pocket Cutlery Razors. Shears, in fact anything needed in the Hardware Line you will find it and at prices to suit you. At NORTON'S HARDWARE.

Not all hats are what they seem, but ours are what we claim them to be—the best Material, the best Make and the latest fashion. Same is true of our Cap line, nothing but the latest styles find place in our stock. We carry Spaulding's M. A. C. Sweater in stock and can supply you with anything in Athletic Goods. Students' patronage respectfully solicited.

DIRECTORY

LANSING BUSINESS AND PROFESSIONAL MEN

The names in this Directory, as well as those of all other advertisers, are of reliable parties. We hope that the faculty and students will treat sawyers who patronize us with kindness.

ARCHITECTS.

J. J. HURLEY—Buildings especially designed.

BOOKS AND STATIONERY.

CITY BOOK STORE. Frontier Fads, Drafting Supplies, Groceries, Oils, Vinegars, and Potatoes. Trunk Cases, Trays, and Bangle goods. Center Store, 228 Wash. Ave. N.

JAS. BOOKING AND PAPER CO. Waterman Pens, Parker Pens, Stationery, Fruitars, Wall Paper, 126 Wash. Ave. N.

BICYCLES AND ELECTRICAL SUPPLIES.

CAPITOL ELECTRIC CO.

Boots and Shoes.

C. D. WOODBURY—Boots and Shoes. We show the students. See ad.

CLOTHING.

COUNTRY CLOTHING AND GLASSWARE.

H. L. LAUNCE—Glass and Lamps. 116 Washington Ave. S.

DENTISTS.

DEPARTMENT STORE.

Donsereaux's Department Store is the place to do all your buying. Only honest goods. 5 goods and Carpets. See ad.

DRUGISTS.

R. W. MILLER—Pharmacist. 258 Washington Ave. N.

Dundie and Sons. Fine Tailoring. 218 Washington Ave. N.

INSURANCE.

THE DUEHLEIN BARRY CO., LTD. Incorporated. Hollow Block. All kinds of the latest insurance. A liberty agency in city.

JEWELERS.

P. B. RICHMOND—Watches, Jewelry and Engraving, 200-202 Washington Ave. N.

LAUNDRIES.

THE YAGODIS PALACE LAUNDRY, Col- lins St., amber, Mill and Ridolphs, S. P. Lamce, Prop.

MANICURE AND HAIRDRESSING.

MERCHANT TAILORS.

WOODBURY & SAVAGE—Tailors. Student trade solicited. Opposite Hotel Downey, North.

JOHN HERRMANN'S SON, Flot Tailoring. 215 Washington Ave. N.

MUSIC, PIANOS, ETC.

OCELUS.

JOSEPH FOSTER, M. D.—Res. Eye and Nose. Hours 10 to 12 A. M. and 1 to 4 and 7 to 8 P.M. Office at 235 Washington Ave. 1, Rooms 456 North.

PHYSICIANS.

D. HAGADORN, M. D.—Office hours, 11 to 12 A. M., 2 to 4 and 7 to 8 P.M. Office at 235 Washington Ave. 1, Rooms 456 North.

RESTAURANTS.

GILBERT M. HASTY, Proprietor Hasty's Own Lunch. Best meals and lunches in the city. Great place for ladies. 129 Wash. Ave. S.
In order that classes may start off on Wednesday without delay or confusion the following detailed intructions for each class, course and section have been drawn up.

Agricultural Fresmen.

(Class Officer, Dr. Waterman, 1st floor Veterinary Laboratory.)

Each freshman electing the agricultural course will be assigned at classification to one of the four divisions named in the schedule below.

SECTION I.

2:30-4. Botany 1a in room 8 of Horticultural Laboratory, under Mr. Longyear.

5-6. On Tuesday, Wednesday and Thursday, Military Science ia, in Armory, under Dr. Waterman.

Agricultural Sophomores.

(Class officer, Prof. Mumford, Agricultural Laboratory.)

Classes will meet as follows:

1-2. Zoology 1a in Chemistry in Chemical Laboratory, under Prof. H. S. Kedzie.

3-4. Chemistry 1 in laboratory in the analytical room of the Chemical Laboratory, under Prof. F. S. Kedzie.

5-6. On Tuesday, Wednesday and Thursday, Physics 2a, in Physical Laboratory, under Prof. Mumford.

Agricultural Seniors.

(Class officer, Prof. Mumford, Agricultural Laboratory.)

Courses will meet as follows:

1-2. Zoology 1, in room of Chemical Laboratory, under Dr. Waterman.

3-4. Chemistry 1, in Chemistry in Chemical Laboratory, under Prof. F. S. Kedzie.

5-6. On Tuesday, Wednesday and Thursday, Military Science 1a, in Armory, under Dr. Waterman.

Agricultural Juniors.

(Class officer, Prof. Mumford, Agricultural Laboratory.)

Courses will meet as follows:

1-2. Zoology 1a, in Chemistry in Chemical Laboratory, under Prof. Hedrick.

3-4. Chemistry 1, in Chemistry in Chemical Laboratory, under Prof. U. P. Holdsworth.

5-6. Tuesday, Wednesday and Thursday, Military Science 1a, in Armory, under Dr. Waterman.

Agricultural freshmen.

(Class officer, Prof. Diemer, 1st floor Mechanical Laboratory.)

Each freshman electing the mechanical engineering course will be divided into two sections with schedule as follows.

SECTION I.

10-11. On Monday, Tuesday, Wednesday and Thursday, Physics 2a, in lecture room of Physical Laboratory under Prof. Atkins.

12-13. On Tuesday, Wednesday and Thursday, Military Science 1a, in Armory, under Dr. Waterman.

MECHANICAL FOUR YEAR SOPHOMORES.

(Class officer, Prof. Mumford, Agricultural Laboratory.)

Courses will meet as follows:

1-2. Zoology 1a, in Chemistry in Chemical Laboratory, under Prof. Holdsworth.

3-4. Chemistry 1, in Chemistry in Chemical Laboratory, under Prof. F. S. Kedzie.

5-6. Tuesday, Wednesday and Thursday, Military Science 1a, in Armory, under Dr. Waterman.

MECHANICAL FOUR YEAR JUNIORS.

(Class officer, Prof. Mumford, Agricultural Laboratory.)

Courses will meet as follows:

1-2. Zoology 1a, in Chemistry in Chemical Laboratory, under Prof. Hedrick.

3-4. Chemistry 1, in Chemistry in Chemical Laboratory, under Prof. U. P. Holdsworth.

5-6. Tuesday, Wednesday and Thursday, Military Science 1a, in Armory, under Dr. Waterman.
THE M. A. C. RECORD.  
SEPT. 18, 1900. 

2-3. On Monday, Wednesday and Friday, Mechanical Engineering 15, in machine shop of the Mechanical Laboratory, under Mr. Leonard. 
3-4. On Monday and Wednesday, Mechanical Engineering 16, in Mechanical Laboratory, 1st floor drawing room under Prof. Diemer. 
4-5. On Tuesday and Thursday, Mechanical Engineering 16, in Mechanical Laboratory, 1st floor, drawing room, under Prof. Diemer. 
5-6. On Tuesday and Thursday, Mechanical Engineering 15, in 1st floor drawing room under Prof. Diemer. 
6-7. On Tuesday and Thursday, Domestic Science ia, in Women's Building, gymnasium, under Miss Keller. 
8-9. On Tuesday and Thursday, Women's Building, gymnasium, under Miss Averly. 
9-10. On Monday and Wednesday, English 1, in Women's Building, lecture room, under Miss Keller. 
10-11. Mathematics 12, with Section III of Agricultural freshmen. See above. 
11-12. English 1, with Section III of Agricultural freshmen. See above. 
12-1. On Monday, Wednesday and Friday, Physical Culture 4, in Women's Building, gymnasium, under Miss Averly. 
2-3. Botany 12, with Section I of Agricultural freshmen. See above. 
3-4. On Monday, Wednesday and Friday, Physical Culture 4, in Women's Building, gymnasium, under Miss Averly. 
4-5. On Monday and Wednesday, Domestic Science 2a in lecture room of the Veterinary Laboratory under Prof. Marshall. 
5-6. History 2, with Section I of women sophomores. See above. 
6-7. Geography 2a, in College Hall, room 10, under Miss Holf. 
7-8. Mathematics 1a, with section II of women sophomores. See above. 
10-11. On Tuesday, Wednesday and Friday, Mechanical Engineering 15, in forge shop or machine shop of the Mechanical Laboratory, under Mr. Theodore, Mr. Leonard, or Mr. Baker. 
2-3. On Monday and Wednesday, English 16, in College Hall, room 7, under Mr. Reed. 
3-4. On Monday and Wednesday, Domestic Science 1a, in Women's Building, gymnasium, under Miss Averly. 
4-5. On Monday and Wednesday, Domestic Science 1a in Women's Building, gymnasium, under Miss Averly. 
5-6. Chemistry 3, with agricultural seniors. See above. 
6-7. History 1, with section II of agricultural seniors. See above. 
7-8. Geography 1, with agricultural seniors. See above. 
8-9. History 2, with section II of agricultural seniors. See above. 
11-12. Chemistry 1 in lecture room on second floor of Horticultural Laboratory, under Prof. P. U. Hedrick. 
12-1. On Tuesday and Thursday, Domestic Art 2, in Women's Building, sewing laboratory, under Mrs. Haden. 
2-3. On Monday and Wednesday, Domestic Art 2 in Women's Building, sewing laboratory, under Prof. Haden. 
3-4. On Monday, Wednesday and Friday, Physical Culture 4, in Women's Building, gymnasium, under Miss Averly. 
4-5. Women Juniors. 
(Class officer, Miss Keller, Dean's Office, Women's Building.) 
5-6. The classes from which senior women are elected, listed below: 
8-9. Bacteriology, in Bacteriological Laboratory, on second floor of Veterinary Laboratory, under Prof. Marshall. 
9-10. French 2a, in College Hall, room 4, under Prof. Edwards. 
10-11. German 2a, in College Hall, room 7, under Miss Blunt. 
11-12. History 4, As for agricultural seniors, see above. 
12-1. Zoology 2, As for agricultural seniors, see above. 
2-3. Tuesday and Thursday (required), Domestic Science 4, Women's Building, cooking laboratory, under Prof. Marshall, Dr. 1-3. Tuesday and Thursday, Horticulture 2a, in Horticultural Laboratory, under Prof. P. U. Hedrick. 
3-4. On Monday, Wednesday and Friday, Physical culture 4, in Women's Building, gymnasium, under Miss Averly. 
Note.—The hours for drill have been changed from the announce­ment in the Daily Program to Tuesday, Wednesday and Thursday as shown in the various class no­tice above. 
Note.—Chapel Exercises at 7:15 A. M. daily, and at 9:00 A. M. on Sunday. All students are earnestly invited to attend.
Death of Miss Mabel A. Smith.

Miss Mabel Smith, with '93, died at Grace Hospital in Detroit on Friday September, 7. The news came with a shock to all at the College. Notwithstanding her comparatively short attendance at the College, she had made a large acquaintance and was greatly beloved.

Information Wanted.

Strange questions have been asked by visitors to the College.

One woman in search of information asked the librarian to direct her to the College campus.

Another visitor who evidently had not read the M. A. C. catalog, having just landed the car, looked about in every direction in a dazed way, and then approaching one of our most venerable professors, and pointing over towards Abbot Hall, inquired, "Is that the school house?"

Lecture Course.

The M. A. C. Entertainment Club announces the following program of attractions to be held in the College Armory during the ensuing school year.

November 23, W. J. A. French, Wit and Wisdom of the Crayon.

December 14, John Temple Graves, A Reunited Country.

February 1, Benjamin Chapin, Dramatic Interpretation of Cyrano De Bergerac.

February 15, Cassidy-Dorno, Recital American Hunsche.

March 8, Frank Crane, What will you do with it.

April 12, George Kennan, Life on the Great Siberian Road.

The talent in the above series of entertainments is of a sufficiently high quality to meet the approval of all; and the price is in the reach of everybody; so get your ticket early and enjoy a Friday night's pleasant instruction now and then during your life at College.

Schedule for Entrance Examinations.

Entrance examinations for agricultural freshmen, mechanical five-year men, and women freshmen will be held as follows: TUESDAY, SEPT. 18.

8-10 a.m., U. S. History, room 7, College Hall.

10-12 a.m., Grammar, Spelling and Reading, room 7, College Hall.

12 a.m., Arithmetic, room 2, College Hall.

3-5 p.m., Geography, physiological lecture room, 2d floor, Library Building.

Entrance examinations for the four-year mechanical course will be held as follows: TUESDAY, SEPT. 18.

8-10 a.m., U. S. History, room 7, College Hall.

10-12 a.m., English as on pp. 33-34 College catalogue, room 7, College Hall.

12 a.m., Arithmetic, room 2, College Hall.

3-5 p.m., Geography, physiological lecture room, 2d floor, Library Building.

Morals at M. A. C.

We clip the following from the last issue of the MICHIGAN FARMER. We think the editor of the Grange Department for his explanation, which contains words of truth and soberness only. In every relation, from the conduct of our students in the class-rooms, on through the dormitory and social life to the plane of morals on which our athletics are conducted, we challenge comparison with other schools, not expecting anything.

A brother at Newaygo county Pomona is reported to have made the statement that if a young man wishes to learn farming, the MICHIGAN AGRICULTURAL COLLEGE is the best place in the world for him to go. This was a deserved tribute to the College.

But the brother also said that "moral are slack there—no one looks after the students." We hasten to say that we believe this assertion entirely unjust to the College. We think the brother has obtained erroneous impressions. We have been in close personal touch with the College for fourteen years, and we say emphatically that we believe student morals at M. A. C. were never so good as they are now.

President Snyder's strong point is in the management of the students, and it is only simple justice to him and to the institution to say that we regard the College as the safest place it has ever been for your boys and girls. Considering the size of the institution, the students are closely looked after as to their morals, and it seems to us that none need go astray there who have been well brought up at home.

A man's neighbors are mirrors in which he sees his own faults without recognizing them.

FULL MEASURE AND GOOD GRADES.

THE RIKERD LUMBER CO.

CALL AND SEE THEM.

The main item in Stoves is to get the best for the least money. We have the nicest assortment ever in the city. Steel Ranges $18.00 to $40.00; Cast Cook Stoves with Reservoir $16.00 to $25.00; Base Burner Coal Stoves $25.00 to $40.00; Soft Coal Air-Tight Stoves $12.00 to $15.00; Air-Tight Wood Stoves $5.00 to $9.00; Nice Oil Heaters $3.25 to $4.00. Everyone of them fully guaranteed. A nice line of Pocket Cutlery Razors. Shavers, in fact anything needed in Athletic Goods. Students' patronage respectfully solicited.

Elgin Mifflin.

Gymnasium Shoes

We have just received a good assortment of Gymnasium Shoes, Cloth Tops, Rubber Soles which we bought especially for our M. A. C. Customers. Quality is excellent and prices very low.

The M. A. C. Department offers special arrangements in RUGS, MATTING, CURTAINS, etc.

WE GIVE SPECIAL ATTENTION TO STUDENTS AT M. A. C.

Simons Dry Goods Co.

104 Washington Ave. South.

Furniture Headquarters.

M. J. & B. M. Buck.
The Apperception of the Spoken
last vacancy.

The Experiment Station is seriously con-
from the Experiment Station at
Geneva, New York. Now the

The department of mathematics, in
Peoria, Illinois, has been visiting at
Dr. Kedzie's.

D. W. Trine, '92, State inspector of
and resources, has a little girl,
born August 23.

Prof. Gager C. Davis, '89, chemis-
ter of the American Girl Gold
Mining Company, called at the Colle-
S. He was visiting friends in
Lansing.

W. C. Bagley, '95, who obtained
from Cornell University last June, his Ph. D. degree, wrote the thesis
for his doctorate on the subject
The Apperception of the Spoken

Thorn Smith, '93, chemist for
the Ducktown Copper and Sulphur Co.,
Isabella, Tenn., has been extremely
ill with typhoid fever. Incidentally
information is to the effect that the
crisis of the disease is past and

Mr. F. H. Hillman, '88, is doing
some special study in botany at
the College in preparation for a book
which he is getting out. Mr. Hill-

L. S. Monroe, '92, late assistant in
chemistry at the Experiment Sta-
tion, scientific aid in the division of
chemistry, Department of Agri-
iculture, Washington, D. C., visited Dr.
Kedzie last week. He will speed
the best sugar campaign as chemist
to the Wisconsin Sugar Factory.

A. L. Waters, '95, since his visit
here last Sept., besides making
several important mining examinations has been superintendent of two copper-smelting plants and has just
resigned the last position to become
superintendent of a large mine in
Sonora, Mexico, upon which a
smelter will be erected at once. He
is now in Denver, Colo., on business and travel. Mr. Waters has visited San Francisco and Los
Angeles, City of Mexico and Honduras, where he will be his address in future. He says that mining is booming through-
out Mexico and he is now in turn
connected with the Nevada State Uni-

M. A. C. men have a habit of
going to the front in a way that tes-
tifies strongly to the value of their
training. Yale University wanted
the best man obtainable in the United
States for their new Department of
Forestry, and they took from the
division of Forestry at Washington,
D. C., our graduate, J. W. Tomney,
'S9. The department wanted the
best man possible to replace Mr. 

Prof. Davenport is a practical farmer and
a practical educator. He has been
farmer long enough to know the
farmer's boy needs and he has been
a college professor long enough to know how to answer the
question and this is his answer in part:

Does the college educate away from
the farm? asked Prof. Eugene
Davenport at a meeting of the Illi-

Barber, 206 Wash. Ave. N.
