Wisconsin has 1800 factories for the manufacture of butter and cheese, Michigan less than 400 although with a soil and climate equally well adapted to the dairy industry. These are some of the expressions of Hon. R. A. Pearson, the Assistant Chief of the Dairy Division of the Department of Agriculture at Washington in urging the members toward a higher development of the dairy business in this state.

The absence of Governor Hoard and Secretary of Agriculture Wilson was greatly regretted. The former was detained in Washington by the bill keeping the secretary of agriculture in the progress of the Grout bill through the Senate. It was greatly regretted. The former special student at the College of Agriculture in the Townsend street school, Miss Bertha E. Malone, is teaching chemistry and physics in the Lansing High school.
