All eyes were now raised to where the word "OLYMPIC" was written in letters of fire upon a background of green, and denunciation of the Goddess changed to eulogies.

The Olympic society gave their first formal fête at their rooms in Williams' Hall. As is characteristic of Olympic events, there was, socially, a "last dance" at two o'clock. The evening was a success; for the most part, not only happier in the choice of the subjects than were they of other

HOWARD EDWARDS.

A notice too late for full insertion announces an "At Home" at the Pilgrim Congregational church, First and Grand, and cordially invites all College people to attend.

The Record rejoices sincerely at the victory won over Hillsdale by our boys in the football game of Saturday night. "The long ago" has "disappeared," and it will be pleasant to be "glorious summer." The coach and the team deserve great credit for their patient and persistent toil, and we take great pride in their success.

The State Republican of October 5 contains a somewhat lengthy history of the College, from the standpoint of its relative position in the state. It gives well-deserved praise to Dr. Kedzie, President Willitts, President Snyder, and the Board of Trustees. Broader information, however, might have been expected in these days of such "long ago," and in any event, the College would probably have saved its reputation by the little public is eager to give it the name of everyone who might have been up to the idea.

And so, as I have walked over this campus that he had known so long ago and well, wherever his influence had been so strong and wide-reaching, nowhere the influence was greater. Of all that he had owned in his own home, the beauty and the pathos of those days of long ago came over my heart with overwhelming power and shut out all the present with its brightness and success. The widely scattered forms and faces of the "long ago" came back each in its accustomed place and it was good to be back in the days of auld long syne.

"Fresh as the first beam glittering on a sail, That brings our friends up from the other side as the last which rediscovers one that stirs with all we love before the verge; So said, so fresh, the days that are now." - HOWARD EDWARDS.

Botanical Club Meeting.

Miss Gilchrist gave a very interesting talk before the botanical club last Tuesday evening. The talk was general and comparative, and descriptions and comments on botanical gardens which she had the opportunity to visit in both this country and Europe. Among the gardens mentioned were those of Cambridge, Mosaic, which she referred to as the "Mirac of Mosaics," the famous Keen Gardens of the city and the parks of Oxford, and the famous Keen Gardens of Paris and the parks of Oxford, and the famous Keen Gardens of Paris and the parks of Paris. Miss Gilchrist is very enthusiastic on the subject of botany and we look for more interesting talks by her.

of Oct. 2, will be of great interest to the College has been partly sold and on the 25 lb he judged Red Polled cattle at the same place.

The owners can get the same by advertising. For some nervous disease in a California hospital.

The live stock advertised for sale by the M. A. C. College has been partly sold during the week just past. There are still on hand several sheep and some Hereford Jersey and Holstein calves.

In the agricultural department 588 freshsmen are enrolled.

The seniors have of late been engaged in writing criticisms of the live-stock work at the State fair, for a silver trophy offered by the Denny Disinfectant Co.

Mr. L. L. Locke has in the Michigan School Moderator of Oct. 3, an interesting article on "The Development of Calving." This article shows how the widening concept of number has necessitated entire re-arrangement of old axiomatic conceptions in mathematics. It is an instructive and scholarly production, and will well reward careful study.
