We have to take notes of every day’s work and these have to be copied in ink and sent on to Washington. While the work has been hard, it has been very interesting and I have enjoyed the summer’s slight, and a chance to go to Washington within a week or so for some special office work. I shall probably accept this last offer and go on to Washington. The weather for the past few

The Hunger Track.

They are paying for rain in the farthest west, and grass as scarce as snow.

And the daily paper then goes on with news from over the sea—

How Germany’s king has caught a cold, and Britain has won a fight.

And Croats and Greeks have at length agreed to bury the past and unite.

But hidden away in “the country news” is a letter from Yandaroo—

“There isn’t a blade of grass for miles, and the stock will never pull through.

A word or two between the lines in letters of red and black.

In a world of history they may read who have trodden the Hunger Track.

Six hundred leagues from East to West, chocolate, red and black.

And women and children hungering for lack of a crust of bread;

We have to register and describe all plants sent in by department collectors from all over the world, and then see that they are sent for trial to those portions of the country adapted to them. Also we send information as to how to cultivate and care for them.

Mr. Galloway gave me some work today which I think will give me a very interesting task. They have trouble in Washington and surrounding country in getting good lawns. Crab grass kills out the mixture of clover, millet and fescue. We have to take notes of every plant which will withstand crab grass. The soil is so poor and dry in the spring that it turns brown and does not get green until late in the spring. Now what we need is to write down all the plants of Bermudagrass on the department grounds and vicinity, take note and from the patches which keep green longest select plants, then in the spring note these same plots and see which get green soonest. The plants taken up will be placed in cold frames. Thus by selection Prof. Galloway hopes to get a fairly good plant from which to make a grass which will make a good lawn.

Chadsey came yesterday and went to work today. His work is along the line of his position to you—work along plant distribution line.

This is the pleasant place to live and it is a great place to learn. Here I have learned a lot—letters I have written have been copied in ink and sent on to Washington. They are writing Australia’s history, and sealing it deep in blood!

It is a world of history they may read who have trodden the Hunger Track.

Scenes from "Timothy's Guest," Kate Wiggin, Florence M. Gaile, Adel Deubner.

Selections from "The Railwayman," Mr. J. B. Nykerk, Hope College.

HOWARD EDWARDS.

The M. A. C. students? Was the victory over the D. A. C. club-house to dress, and after a short signal practice were ready for the game, and called a few minutes after 5 o'clock.

D. A. C. having won the toss elected to have the game on the D. A. C. field. Children asked off to Hutchinson who returned the ball ten yards.

D. A. C. made a few short gains; then Mr. J. B. Nykerk, Superintendent of the Hamlets, holding on his team mates, made a thirty-yard run. D. A. C. had to return a yard, and D. A. C. made a few more short gains on C.'s ends and (as the officials paid no attention to the fac) and D. A. C. went in for a touchdown, King failing to kick goal.

Children again kicked off forty-five yards and D. A. C., by the same dirty tactics, rushed the ball down the field for a touchdown but failed to score.

On the third kick-off by Children, the ball was downed on D. A. C.'s 55-yard line. On the second play D. A. C. fumbled and Crocker broke through the line and secured the ball.

M. A. C. took their turn but fumbled on the first attempt, Case, borrowing a kick-off, regained the ball. D. A. C. held for downs, consequently the ball changed hands. Children kicked off 40 yards on the half on the first play, making a spectacular run for a touchdown.

The rest of the first half was a repetition of the first ten minutes, the leading score of the game, D. A. C. adding another touchdown to its score. M. A. C. was down for downs several times toward the end of the first half, forcing D. A. C. to kick off. The second half began with the D. A. C. club-house to dress, and after the next kick-off the play made an end run of fifteen yds. Gains from one to five yards were common, and the consistent gains were forced to pints.

Children secured the kick but was downed on the 50-yard line. Next the play for goal was an end run of fifteen yards. D. A. C. made a 20-yard run and 10-yard run, and then touched the ball back to the 15-yard line. After slight gains by D. A. C., they were again penalized for holding tactics and failing to hold the ball, the consistent gains were forced to pints.

Children secured the kick but was downed on the 50-yard line. Next the play for goal was an end run of fifteen yds. Gains from one to five yards were common, and the consistent gains were forced to pints.

Children secured the kick but was downed on the 50-yard line. Next the play for goal was an end run of fifteen yds. Gains from one to five yards were common, and the consistent gains were forced to pints.

Children secured the kick but was downed on the 50-yard line. Next the play for goal was an end run of fifteen yds. Gains from one to five yards were common, and the consistent gains were forced to pints.

Children secured the kick but was downed on the 50-yard line. Next the play for goal was an end run of fifteen yds. Gains from one to five yards were common, and the consistent gains were forced to pints.

Albion the only occasion for showing loyalty to the team? A football team needs more encouragement in defeat than in victory.

The mission class was organized Sunday afternoon. Anyone may become a member of the class. The mission class will meet after this every Sunday afternoon at 2:30, in the Y. M. C. A. room.

The union meeting of the Y. W. and Y. M. C. A., Sunday evening, was held in the chapel. Mr. E. A. Steeley, who led the meeting, talked on the subject of duty.

Let every one attend the union meetings, it will make them more interesting and pleasant.

The College directory will be out by Saturday of this week. All those connected with the College, who wish to, please call on Albert G. Craig, room 33, Williams Hall. Please bring your Y. M. C. A. hand book.

**Y. W. C. A.**

Eight of the young ladies, chap­roned by Mrs. Haner, attended the State Y. W. C. A. Convention at Jackson last week, and all report a delightful time.

Last Thursday evening the Y. W. C. A. held its recognition meeting when twenty-one young ladies were admitted into the association.

The Y. W. C. A. has greatly added to the attractive appearance of its rooms lately by hanging three pictures, one of them being a gift from Miss Keller.

Win. Lightbody, '89, has recently been elected county school examiner for Wayne county.

The main item in Stoves is to get the best for the least money. We have the nicest assortment ever shown in the city. Steel Ranges $18.00 to $40.00; Cast Iron Stoves with Reservoir $16.00 to $25.00; Base Baker Coal Stoves $25.00 to $40.00; Soft Coal Air-Tight Stoves $12.00 to $15.00; Air-Tight Wood Stoves $5.00 to $9.00; Nice Oil Heaters $3.25 to $4.00. Everyone of them fully guaranteed. A nice list of Pocket Cutlery, Razors, Shavers, in fact anything needed in the Hardware Line you will find it and at prices to suit you, at NORTON’S HARDWARE.
July 1st I took train for Durant, and continued the work in the office during the remainder of June. I have been employed by the two fellow-workers for three townships in Hamilton county during the past two months but reward came at last; for we were suddenly transferred to a working plan for lumbering during the fall. Since leaving the old M. A. C. in a suitable opening.

EDITOR M. A. C. RECORD:

A Case of Typhoid at the College.

Mr. Chamberlain, the typhoid fever patient at the hospital, is reported by Dr. A. D. Hagardon as doing very well.

Owing to the development of a case of typhoid fever among the student-body, some apprehension is felt concerning our daily water supply. The typhoid fever bacilli are perhaps most frequently disseminated by water in civil life and when this disease manifests itself, our concern about the water we drink becomes acute.

The analyses made of the College water this fall have given us reason for believing that no appreciable need be entertained. Besides, who have been using the College water for the past month have done so with no fall in consequence. When Mr. Chamberlain came down with typhoid fever, fresh fears were aroused. Analyses were begun to determine the condition of the various waters which Mr. Chamberlain had used, consisting of several well waters in Coleville and the College water. The result of these analyses was Doherty's explanation of the high fever put down in Coleville last summer seriously infected, and that Mr. Chamberlain had not been infected with this water fall. This ought to be satisfactory in pointing out the origin of this apparently isolated outbreak. The family in the house to which the well belongs does not use the water...
