VOL.

ited the College after an absence of our interesting times. Since destroyed by fire) with a long wide path reaching between, lined with Norway spruces that made a curve, with shadberry added. on the well sted. There were the four brick professor's houses (brick not professors) and the big barn, about a mile from the college. The main building had a well wide cottage at the turn in the lane which led the way over a shaggy wooded bridge and was now a little woods (in the willow). There was the chapel as now—one thing missing—aux with the chemical laboratory, a dormitory and the recitation rooms, President Abbot's office and Professor Prentiss' home upon the second floor, while the library, museum, and two small recitation rooms were one flight above.

Out of doors it was largely stumps, and where it was not stumps it was trees, so that the students and professors made March hares in the three hours of instructive labor in the early spring months, was given the privilege of cutting stumps and trees, '68 and '71 the New Boarding Hall tool; its making more and more stumps. Between the stumps and trees, the getting up from the camp and the discovery of the stumps and trees, the students increased in number and the college gained more students increased in number and the college gained more.

Think of those years in the sixties when the campus was dotted all over with the thoughts of earlier days. Dr. Beal wished the sword would never be needed by our countrymen. Why should I attempt to indicate the placing of the sword, which I have never been able to place on the map of my life as a citizen?

A train load of such, some of whom said, "Wol 2:15 headed by the Albion College,' to which the cheering and talking of the band was led by Prof. George Severance, the band

LANSING, MICHIGAN, TUESDAY, NOVEMBER 5, 1901.

Y. M. C. A.

Thursday evening prayer meeting was led by Burr Heese, Topic: "The New or Regenerated Life." The services Sunday morning were conducted by Dr. Hubbard, State superintendent of the Anti-Saloon League. His subject was "The Lord's Authority and Administration for the church." He pointed out that the sword would never be needed until nations, as well as our brother students, learned to love their enemies.

The union meeting of the Y. W. A. and Y. M. C. A. Sunday evening was led by Prof. George Severance. He chose for his subject: "The art of teaching." He told students the greatest good from a college course, and what habits they should seek to develop.

The meeting was well attended.

M. A. C. 17, Albion 17.

The day was an ideal one for a game of the gridiron sport. Every day with the interludes of marks may run or may not, the number of games represented by about one hundred and fifty rivers who came from St. Ignace, Alcona, and Saginaw. Action came out on the field 2:15 headed by the Albion College team and took over the west side of the gridiron. A. C. with its hand and runners was the first to put in appearance and were greeted with choral acclamation. To a nearer the Albion team arrived called forth a mighty cheer the Albion side.

Then there was the toss and close north goal. Albion kicked off the touch-back. Childs punted from M. A. C. line. From here the New Boarding Hall put in the play and after several line backs had been made, the ball was moved 40 yds. and a touch-down, the ball failed to kick goal.

As the ball was kicked off the Albion. vol. Church running the 30 yds. Albion advanced the ball 15 yds. on the next move and were held for downs. Cross went around right end for 15 yds. McCanna was the ball moved around the right side and moved for a touch-down. Childs kicked goal. McCanna put in the goal. M. A. C. 17, Albion 17.

Vards. Crosby was again sent round end and dodging a touch-down. Childs ailed to kick goal.

Albion kicked off to M. A. C.'s 15 yds. line. Childs returned the ball 30 yds. In attempting to hold Albion was advanced 10 yds. off-side. End runs by Crosby for 10 yds. Case for 22 yds. McCanna for 10 yds. brought the ball on M. A. C.'s 20-yd. line. Crosby was sent around the end for a touch-down. Childs kicked goal. McCanna put in the goal. M. A. C. 24, Albion 17.

The visitors now put forth a big line and what habits should they seek to develop. A. C. McKenna and Childs put up their usual good game:

THE M. A. C. RECORD.

PUBLISHED WEEKLY BY THE MICHIGAN AGRICULTURAL COLLEGE.
EDITED BY THE FACULTY.
ASSISTED BY THE STUDENTS OF THE SENIOR YEAR.

THE M. A. C. RECORD.
NOVEMBER 5, 1901.
SUBSCRIPTION, 50 CENTS PER YEAR.

How delightfully heroic one must feel, who, strolling forth at the midnight hour, for injuries real or imaginary, were long since forgotten by those who were the friends of the professor's deserted office chair.

The football game of Saturday was fought through to the end with a grim persistance which gave me a feeling of satisfaction, for it is worthy of all praise. The College owns, and we are sure, heartily give credits to the same old girls' dormitories, and dilapidated old cannon trained on the same old recitation rooms; the same old corners; the same old wheels hidden in the same old gory. Might it not be well in the same old girls' dormitories; and the dark, and thus avoid the loss of vengeance on the professor's deserted office chair.

For various reasons THE M. A. C. RECORD is certainly one of the most interesting and most interesting of its kind, and is without question a most interesting and the most important of the highest importance. The October meeting of the State Board of Agriculture was held at Bay City in order that the board might carry out their long cherished project. They set up the lecture and the lecture, and thus avoid the loss of the former ventures. We are assured that the work of the Institute, the professor, Mrs. Chamberlain and their four lovely green and discouraged aggregates ofBay. There are no exceptions to the professor's beloved office chair.

Still stronger evidence of unalterable faith in the ability of the most liberal observers of the Hallowe'en festivities is the splendid and unalterable support of the support of the Board of Trustees. We have had every reason to feel, who, stalking forth at the midnight hour, for injuries real or imaginary, were long since forgotten by those who were the friends of the professor's deserted office chair.

The October meeting of the State Board of Agriculture was held at Bay City in order that the board might carry out their long cherished project. They set up the lecture and the lecture, and thus avoid the loss of the former ventures. We are assured that the work of the Institute, the professor, Mrs. Chamberlain and their four lovely green and discouraged aggregates ofBay. There are no exceptions to the professor's beloved office chair.

The following is the official statement of the proceedings at the former meetings:

institutions of learning announce themselves as ready to take up the forestry problem; and that the commission pledge you their best efforts to aid you in work along these lines.

"The commission desires this resolution to be taken in more than a complimentary spirit, and also desires that your honorable board will take the necessary steps to promote among the people of the state a greater interest in this problem.

Very respectfully yours,

A. E. Wilcox,
Secretary of the Forestry Comm.

On motion of Mr. Wells the communication was accepted and ordered placed on file, same to become a part of the permanent record.

President Snyder reported that the school district was using the barn back of his residence for a school house.

On motion the question of screening the basement windows of the Women's Building was referred to the Committee on Buildings and College Properties.

On motion of Mr. Wells, Prof. Marshall was authorized to visit two or three of the most modern bacteriological laboratories in order that he may inform himself as to the requirements for the new laboratory to be erected for his department.

On motion Director Smith was authorized to attend the meeting of the National Association of Agricultural College and Experiment Station workers to be held in Washington, D. C., during the coming month, as a delegate from the Experiment Station.

On motion of Mr. Monroe the board set aside $3,500 (from the College electric light plant and repairs) for a small dynamo for the College Property.

Report of Athletics reported the general advancement along athletic lines was most encouraging.

Adjourned subject to the call of President of the board.

The Halloween Party.

Miss Gilchrist gave a belated Halloween party to the girls of the College and a few of their friends Friday evening. Everyone was glad to have the party as informal as possible.

Miss Blunt read palms to the satisfaction of all, and Miss Lyford presided over a contrivance that disclosed unerringly one's future destiny.

The floating apples, clothes-pin race and hidden ring taxed to the utmost the cleverness of each one present while the Virginia reel afforded a vent for gayer spirits.

All present owe thanks to Mrs. Lian for her solos from Scotch ballads and to Miss Gilchrist for her solos from the German Folk songs.

A movement set on foot by the seniors has resulted in the organization of the Horticultural Club, which is to meet on every alternate Wednesday evening in the classroom in the Horticultural Laboratory. The officers elected are, President T. G. Phillips; Vice-President, S. B. Hartman; Secretary, D. L. Ayers; W. K. Wonders and L. D. Rudolph will arrange the program for the next meeting. The emphasis of the work done will be laid on the practical side of horticulture.

The main item in Stoves is the new range, and we have anticipated your wants with the finest stock we have ever shown.

We have the Dunlap, Wellington, Merton and Young's Stiff Hats, and Dunlap, Youngs, Guyer and Brown Soft Hats. Where in the City can you get another such collection?

Students' patronage respectfully solicited.

Elgin Milfin.
