Theo. Dixon, Jr.

The semi-final number in the College basketball contest was held in the armory on "Backbone" delivered in the armory on Friday night last by Thomas Dixon, Jr., tall, long-armed, raw-boned, typical Tar-heel, and at the same time a man of pow- er. He has been described as "a man of it is good trim), great rapidity and accuracy of enunciation, just a little artificiality in pose and bearing. It makes a mistake; the man of back- bone sees it and acknowledges it. 'He who knows how to retreat has the English race had done — ad- created armies and navies greater

to appeal to the appreciation of beauty in his heart, but to excite wonder and admiration by unex- sampled vocal gymnastics or by astounding instrumental prestidigitation. It leads to an exhibition of just a little higher order than that of the Japanese juggler of the cir- cuit, the negro clog-dancer of the minstrel show.

It does worse things still to both performer and audience. The eulo- gies at the very start put him in an uncritical attitude of mind. He spurs his imagination to strange and un­ natural applications. He has the subject for the purpose of display and display he must have at any cost. His air, his air, and sky are labori­ ously explored for striking imagery. All regard for proportion is lost sight of and truth itself is forgotten in the one effort to so­ satisfy the large and startling. Not only so, but nothing in the realm of thought and sentiment is sacred from the "vaulting ambition that o'erleaps the bounds of modesty as well as a great privilege, and feels genuinely. Let that phase pass us by. Here is a great responsi­ bility as well as a great opportunity. What does the society owe it to the Col­ lege public to select its best man, to who is the best man. to milk cows two weeks. They, however, put their own interpretation upon the labor rules of the College and concluded Sunday was a day of rest, so the cows were not milked as usual. Late on the Sunday morning a procession of cows followed by Dr. Miles was seen coming up the lane. The cows were finally milked, but not by the seniors. The doctor never forgave them; as a consequence their social relations were not as cordial after the event as they might have been.

While Dr. Miles may not have always been practical as a farmer, he certainly was an earnest scientist. In natural history he seemed to be inspired with a love of nature and to his classes he imparted the spirit of his enthusiasm, which made his work all the more valuable to the students. The writer does not recall meeting the doctor since leaving College, yet the impressions above described are vivid in the memory of one of his pupils.

Old Students.

H. T. Thomas, '01, visited the College March 8.

Howard Severance, with '01, now teaching at East Jordan, Mich., is planning to re-enter M. A. C. next session.

We regret to announce that C. N. Jones, with '03, who was recently home affected in mind, does not seem to be improving.

Geo. D. White visited over Sunday with M. A. C. friends, returning to his position in Milwaukee Monday afternoon.

The marriage of Florence F. Wood, '98, and Miss Gertrude L. Hodgman, with '03, is announced to take place on Wednesday, March 12, in Lansing.

We wish both great happiness.

Abraham Knechtel, '00, forester for the State of New York, has an article entitled "Methods of Estimating Timber," in his recent number of Rod and Gun, a Montreal, Canada publication.

We are glad to welcome last week Miss Mary Knaggs, '01, who called at the College on her way to the Woodrow-Worcester welding shop. She is a very nice lively young else, and things about her alma mater.

John R. Thompson, '00, is now with the Chicago, Milwaukee & St. Paul Railroad, as well as Mr. Thompson is employed in the motive power department. Mr. Thompson is 2,627 M. Vernon Ave., Milwaukee, Wis.

M. L. Ireland, '98, under date of March 9, writes that he received the appointment to the position of mechanical draughtsman in the office of the Chief of Ordnance, U. S. Army, at Washington, D. C. As he requests immediate change of the address of his Record we take it that the appointment takes effect at once.

The library has received from the author, Dwight Sanderson, a handsome book, Insects Injurious to Agriculture, with the request that the name of the writer, Miss Alice Merrill Jones, with '03, who was recently home affected in mind, does not seem to be improving.

The Chicago Live Stock World of March 4, an editorial on the reorganization of the Illinois Farmers' Institute has a high compliment to C. P. Reynolds, with '02, the article reads in part: "The Institute has been made, and not unreasonably, that the young men of the State have put their interests in institute work; and on this account the Live Stock World is going to see the first congressional district represented by that rising young agricultural editor C. P. Reynolds. True, the first congressional district is noted for arboriculture than cereal or stock raising, comprising within its limits the great South Side of Chicago; but Mr. Reynolds, of the Michigan Agricultural College, is out in touch with this movement and interests in a position to accelerate the movement."

The following clipping from the San Francisco Chronicle of March 25, will be of interest to our other senator. Mr. Preston is a class mate of ex-President Oscar Clute, with whom he graduated from the Institution.

"Mr. and Mrs. Charles F. Gardner announce the engagement of their daughter, Miss Alice Merrill Gardner to Mr. Myers Albert Preston. The wedding will take place early in June. Miss Gardner is a charming young girl, just out of school, and willingly sets aside all the pleasures of a formal debut and the attendant festivities for a frolic of her own. The Gardner family lived in Lansing many years ago."

Professor W. O. Hedrick is down to the country with the morning.
