M. A. C WINS THE MEET.

Before a large crowd of enthusiastic supporters, M. A. C. won over Albion in most of the contests in the dual meet Saturday. The early forecast of the sky threatened rain but the afternoon came out bright and warm.

The tennis matches began at 3:30 in the morning and proved a gratifying surprise to M. A. C., all the singles and doubles also were won by M. A. C.

The track events began at 1:30 p.m. on the new athletic field. The track by reason of its condition was slow and the succeeding matches in singles and doubles also were won by M. A. C.

Running broad jump—Church, A., first; Childs, M. A. C., second; distance, 5 min. 15 3-5 sec.

Discus throw—Maddock, A. first; Carpenter, M. A. C., second, Kraty, M. A. C., third; distance 109 ft.

Albion forfeited the relay to M. A. C. and the 220 yard sprints and the running hop and jump were not pulled off owing to the lateness of the hour.

The track events were finished at 4:40 and the ball game was immediately commenced. Albion first to bat and Striker, first man up, was out on strikes, Sebastian flew out to Mond, Craig threw out to Striker. In the second A. C. got two hits and one score; one more run came in the fifth when Church made the circuit on his hit credited as a home run through fielder's error. With the exception of the second and fifth innings both teams were scored by either side. In the third inning Striker performed the feat of striking out the side in one, two, three order. The veteran Simmons struck out three times. Several times both sides batted on the bases but the hits were not forthcoming, the batsmen either striking out or popping up short flies or hitting easy grounders. Albion, however, M. A. C. had the best batting eye, getting three of the four hits made.

M. A. C. went to pieces in the third inning and allowed Albion 5 runs and 5 hits which finally beat them. In figuring points only track events were counted. In the fourth inning Hagen camp went to first and J. Frasier to second.

WRESTLES.

Heavy weight—Maddock, A., threw Bird, M. A. C., first round, 4 min. 6 sec; second bout, 2 min. 2 sec.

Middle weight—Brunger, M. A. C., threw Wilder, A.; first bout, 1 min.; second bout, 1 min. 20 sec; third bout, 2 min. 20 sec.

Light weight —Sailesburn, M. A. C. ; weight, 117 lbs.

Feather weight—C. C. Emerson, Albion; weight, 120 lbs.

Welter weight—Gebb, M. A. C., weight, 144 lbs.

Feather weight—Bryant, M. A. C., weight, 130 lbs.

Light weight—Bruce, M. A. C.; weight, 135 lbs.

Middle weight—Brunger, M. A. C.; weight, 146 lbs.

Feather weight—Bryant, M. A. C.; weight, 125 lbs.

Light weight—Bruce, M. A. C.; weight, 125 lbs.

Middle weight—Brunger, M. A. C.; weight, 146 lbs.

Light weight—Bruce, M. A. C.; weight, 135 lbs.
Miss Blanche VanAtta were married at Ft. Wayne, Ind.

The place of the Saturday lunch noon will be instant in Christ's injunction to "be instant in prayer." As the College was all re-elected, and numerous salaries increased. The seventeen-year locust is near by a well-unified college spirit, are contests the contestants who win where the chances are at all even. M. A. C. should have won over one hundred points Saturday instead of the seventy-four.

THE SEVENTEEN-YEAR LOCUST.

Protestant Church, Lansing. The service was well attended and the sermon was enjoyed by all. The union meeting of the Y. M. C. A. was held by Professor Ferguson, who gave a very interesting talk on the character of St. Paul. Of all the great evangelists, Paul was undoubtedly the greatest that has ever lived. His life was so consecrated to God that for him to live was Christ. We may all live the glorious life like Paul, but we must first pay the price.

THURSDAY evening at the regular business meeting the following delegates to the annual Y. M. C. A. convention at Lake Geneva, Wis., were elected: B. M. Brown, H. N. Horackeck, E. A. Seelsor, and Leslie McWethy. The convention lasts ten days beginning June 20.

A SENIOR THESIS.

An interesting piece of work has recently been completed in the shops of the Mechanical Dept. in the form of a traction dynamometer. It was designed by Messrs. Sheid and Richmond in connection with their thesis work, and to be used in the traction engine test. It consists of a cylinder five inches in diameter, bolted to a suitable frame and filled with oil. Into the cylinder is fitted a piston which takes the pull that is to be measured. The pressure of the oil in the cylinder is measured by an ordinary gauge and the total pull computed.

Both the pattern work and machine work was done in the mechanical shops. The cylinder and head were cast in one piece and bored and ground in the large Putnam lathe with double cutters made in the shop. The piston and rod were ground in the universal grider to exactly fit the cylinder and gland. Neither stuffing box nor piston rings are used, on account of the variable friction resulting.

In the calibration of the dynamometer a pressure of 69 pounds per sq. in. was obtained in the cylinder without perceptable leakage of oil past the piston, that pressure being equivalent to about 6000 pounds pull.

The examination of students in the University of Michigan, this year, shows a grand total of 3,700, a decrease of three from the enrollment of 1906.

Your Attention Ladies!

We are catering to the wants of those who are looking for high grade goods at their intrinsic value. We are headquarters for:

BRAINERD & ARMSTRONG'S

SILKS - The Best.

Filo Floss, Roman Floss, Wash Twist, Rope Silk, Parise Twist, Knitting Silk, Penney Embroidery Twist.

Mountings for Purses - Steel Beads, Gold Beads, Jet Beads, Turquois Beads.

Our line of Chatelaine Steel and Metal Bags is the finest. Do not be satisfied with any others make them. Your orders carefully filled.

COLUMBIA YARNS

The Best.

Shetland Floss, Shetland Wool, Germantown and Saxony.
Dr. Marshall’s house has all been repainted the past week.

Miss Mary Smith spent several days last week at her home in LaPorte.

P. J. Spalding, of Holly, Mich., with ‘04, spent Saturday at the College.

Ray Vandercook, ex-'05, visited College friends Friday and Saturday.

A likeness of the M. A. C. wrestlers appeared in the Sunday Tribune.

Several students improved the opportunity afforded by the Friday holiday and spent the day at Pine Lake.

J. L. Parker, with ‘00, and W. E. Dunston, with ‘01, are in the drafting office of the American Blower Co., Detroit.

C. M. Blanchard, ‘98, received a visit from his brother last Thursday. He incidentally attended the Olympic party.

Preparations are being made for Intercollegiate Field Day. Steps are being taken to find out approximately how many students will go, so this accommodation may be secured.

The Olympic Society entertained their friends at a party in their rooms last Thursday evening. Dancing was continued till 11 o’clock when all went away with the satisfaction that a most enjoyable time had been spent. Light refreshments were served. The party was captained by Miss Georgiana Bunt.

Glen Svev spent Thursday till Sunday at his home.

It is thought that the frosts of last week have not seriously injured the fruit.

Zoe Burnett, ex-’04, came to M. A. C. in time for the field meet Saturday.

Instructor Longyear’s brother came last week from Mason for a short visit.

Beginning today the dairy will be able to furnish cottage cheese to all desiring it.

Miss Lydia Trottles, an ex-student of M. A. C., is to be married June 18 to Sir William Cotes, a wealthy Englishman.

Evie J. Gray, with ‘05, is located present in Pasadena, Cal. She is cashier, in one of the largest grocery houses of the city.

Instructor Longyear will spend the summer at M. A. C. in study, as his health may permit. He intends to take his degree with ‘03.

The battalion was a great help in making the Memorial day exercises in Lansing a success. After the parade an exhibition drill was given on the Capitol grounds. According to those competent to judge the drill was one of the best ever given by the battalion.

Miss Ave’y has taken the second series of measurements of the girls in the gymnasium classes. A decided improvement is shown in lung capacity and strength tests. Each girl’s measurements are traced on a chart to show whether the individual is above or below the average.

Many of the students spent Friday, Saturday and Sunday at home.

Gertrude Van Log, ‘02, received a visit from her mother and aunt Friday and Saturday.

Albert Strong, with ‘03, is now a machinist with the Thomas B. Jeffery Co., Kenosha, Wis.

It is expected that the new catalogue will be ready for distribution the latter part of this week.

President Snyder addressed the graduating class of Mulliken high school Thursday evening.

The milk received by the dairy has increased largely since the milk route was first in operation. The amount handled at the present is 4,500 pounds.

The attic of the botanical laboratory is about ready for use. It is being civilized with southern pine and when done will afford a considerable space all well lighted.

Foreman Henry Sherman was appointed, Thursday of last week, deputy sheriff, his jurisdiction extending over the College grounds and immediate vicinity.

H. R. and L. M. Kingsley were favored with a visit from their mother the latter part of last week. She was accompanied by Mrs. Strong, mother of A. Strong, ‘02, and W. Strong, ‘05.

The Hesperian society elected the following officers for the fall term, 1902: Pres., Burr Wheeler; Vice-pres., G. N. Cardozo; Sec., J. P. Knickerbocker; Treas., M. W. Tabor; Marshal, T. B. O’Dell; RECORD Editor, M. P. Willett.

There was rather a lively time for a while Friday at the end of the streetcar line. The large car jammed into the terminal pole, the motorman being unable to put on the brakes quickly enough. Fortunately no person was injured and but slight damage was done to the car. After a short delay cars were running on the regular schedule.

Photographs have recently been taken of the white pine trees planted in ’95 on the extreme east part of the College land. The tallest pines are now twelve and one-half feet high. When planted none of the trees exceeded a foot in height. The box elders that have been planted between the rows have proved of value in keeping the pines from branching out. For the past two years the annual growth has been two feet nine inches.

Jothal Allen, agriculturist for the Alma factory, lectured before the beet sugar men last Thursday.

Secretary Brown has assumed charge of his work, his term of office beginning with this month.

The Union Literary Society have elected officers as follows for the fall term: President, Tower; vice-president, Priest; secretary, Hunt; treasurer, Hall; RECORD editor, R. R. Stevenson; marshal, F. L. Johnson.

The juniors and seniors played off their game of ball Thursday afternoon, the juniors winning by the score 14 to 7. Batteries for juniors, Yates and Kingsley; for seniors, Millspaugh and Francisco.

This cut represents the IMPERIAL HAT, one of the best three-dollar hats made.

Carry complete lines of Spalding's Sweaters, Supports, Sleeveless Shirts, Running Pants, Military Gloves.

Students patronage solicited.

—Elgin Mifflin.
THE M. A. C. RECORD.

ABOUT THE CAMPUS.

Last Friday evening, Major Verne gave a very enjoyable banquet to the fourteen military officers. Other guests were President Snyder, Colonel Shubel, Captain Durst, and Secretary Bird. A six course dinner was served after which toasts were given by all the guests present.

Miss Gilchrist received a visit over Sunday from her friend Miss Kinney and Dickens Cole, Director of School of Elocution of Illinois Woman's College at Jacksonville. Miss Kinney arrived Saturday evening in Miss Cole's honor. During the evening Miss Cole gave two readings which were received with genuine pleasure.

HORT. CLUB MEETING.

Miss Mary Ross gave a review of Bailey's Cyclopedia of Horticulture. After enumerating the distinct and valuable features of the work, and telling how the book had been made, she gave the following data which should be of interest to every botanist and horticulturist:

There are 2,068 species came from Asia; 1,127 from Australia; and 109 are from America; Of these 9,181 are strictly horticultural; 1,127 are cultivated in America; 25 are cultivated in America; 10,000 (approximate) species of plants cultivated in America; 2255 genera described: and 10,000 (approximate) species of plants cultivated in America; 2255 genera described:

There is a wonderful difference between the knowledge of contact and that which comes from reading alone; it is an argument compared with paper. W. J.

The Michigan Fanner of recent issues, in discussing the question of the farmer's education, says: "The antiquated notion that education leads away from the farm is well-nigh exploded, and the more sensible, rational notion that the farmer can succeed better on account of education, and if of the right kind will feel to be attracted from the farm is well-nigh exploded, and the more sensible, rational notion that the farmer can succeed better on account of education, and if of the right kind will feel to be attracted from the farm is well-nigh exploded, and the more sensible, rational notion that the farmer can...

EXCHANGES.

The study of trees confined to twigs, leaves, and fruit brought into the schoolroom will not teach the student how to use the tools, how to cut the timber, how to lift the tobacco, how to sow the corn, how to grow the cottonwood, the magnolias grow in woods and parks."—D. Large, St. Paul, Minn.

There are 2255 genera described: and 10,000 (approximate) species of plants cultivated in America; 2255 genera described:

"My habits of work formed there: the student himself does the educator, who equips the individual with the information which trains his mind. The best school and teacher must fail, however, unless the student does his part. His work determines the outcome; the school and the teacher cannot determine it. So I answer: The habits of work formed in college have proved of more effect in my life than any other influence of my college life."—Joseph B. Davis in Michigan Alumni.

"One strong influence that I remember from my first college day was the active association of the student body. The petition of so many new and strange associates, all apparently striving for knowledge. This was the beginning of my outdoor work. Of real practical utility, subjects which have been of great value to me, were the studies summed up under the following branches of physical sciences, such as chemistry, physics, botany, zoology, and geology. If I were to ask advice of my university course, again I should devote the bulk of my time and energy to these branches, these subjects, for my college life tended to decide my choice of a profession."—W. C. Blyth, P. A. Surgeon, U. S. N., in Michigan Alumni.

TENNIS.

The Tennis tournament at Alton will begin Thursday at 1 p.m.

Mr. Horton will play singles for M. A. C. and Messrs. Horton and Willet for doubles.

In singles we first meet Hilldale, regarded as the strongest opponent and who should win us our chances for a second place are excellent. If we lose we do not even get second. In doubles we meet Olivet first, a victory which will bring us down to the bottom, and with fair success, we should secure a second in doubles. Scores during the week were: Horton won from Judson Tuesday, 6-5, 6-4, 6-5, 6-5; Willet won from Judson Tuesday, 6-5, 6-5, 6-5, 6-5; Willet won from Judson and Fall Thursday 6-4, 6-2.
