FIRST HOME GAME.
Detroit College and M. A. C. played the first home game Saturday on the new field. The contest was a pretty exhibition of individual playing on the part of M. A. C., and a commendable display of pluck against odds on the part of Detroit. M. A. C. took the east goal and kicked off. Detroit could not gain and was forced to punt. M. A. C. made the ball down to Detroit's five-yard line where it was lost. Detroit soon punted and M. A. C. again gained ground down the field—this for a touchdown and after eleven minutes of play, Children kicked goal. In the same way the second touch down was made by Childs towards the close of the first half, M. A. C. did not catch the kick once and consequently lost the try for goal. Score: M. A. C., 11; Detroit, 0. The second half saw M. A. C. gain the ball in the possession of M. A. C. near Detroit's goal line. Peters, Kratz, Drew, and Smith made big gains at times, but fumbling and lack of team work kept the score down.

ATHLETIC NOTES.
Business meeting Sept. 30, 1902. The committee appointed to make up the deficiency in grand stand funds reported $15 in cash payments and $25 in subscriptions. Of this fund the new men subscribed $15. Motion was passed to appoint a committee of three immediately to work on the grand stand as fast as possible, so that it may be ready for baseball next spring. Committee are Miller, Greenway, and Taber.

The M. A. C. A. director was instructed to attend directors meeting at Albion, Friday, Oct. gd. It is now in very fair shape, as was shown in the games Saturday and all practices is being carried on over there. The student body has fully excluded the idea of a closed field for practice, which was much hampered by crowding on the practice ground, M. A. C. will practice the team with and shows up well at full back.

M. A. C. meeting Friday, Oct. gd, at Albion. The new officers of the association are: President, Sperry, Oliver; secretary, Dials, M. A. C.; treasurer, Bechtel, Albion. M. A. C. came in for some hard knocks for pulling out of the M. I. A. A. in baseball and football, which were answered by the charges of professionalism and lack of time for退回 been fully discussed at the athletic meeting last spring.

The Inter-collegiate Conference rules, under which U. of M. and the large universities play, were discussed and their adoption considered.

boiler house since September. Mr.
Roy N. Brown, '14, is taking his
place in the botanic garden.

Several years ago for want of
means, and later on account of the
radio crossing the river, the Col­
lege grass garden was abandoned.
This fall grading has been done at
the southwest part of the present
botanic garden for grasses.
The ground is about ready for sowing
and the potting in of seed. The
botanic garden has been entirely
covered during the year with com­
post which has been spread in, be­
sides these several hundred pounds
of phosphates and nearly a hundred
bushels of wood ashes have been
put on the botanic garden, and in con­
sequence the plants are looking re­
markably well. Every fall the gar­
den is annoyed by muskrats, which
show no mercy on the choicest
plants. Nine muskrats have been
cought this fall.

ABOUT THE CAMPUS.

Professor Barrows gives an address on Birds before the Woman's League of Battle Creek, Wednesday, Oct.

Miss Bessie Nen, '04, has been elected vice-president of the Feronian Society in place of Miss Van Orden who has resigned.

The freshmen have elected officers for the ensuing year, as follows: H. Childs, president; Miss Reid, vice-president; E. Enlow, secretary; Mr. Moses, treasurer; Mr. Kentish, sergeant-at-arms; Mr. Mastenbroek, football manager.

Sub-Freshmen held first meetings Wednesday and Thursday, elected temporary officers and football manager. They played two footballs and are practicing hard. Unlike last year when they could finish the game, they now must play until regular time in the inter-class schedule.

The Michigan School Moderator, ever a sound friend of M. A. C., says: Michigan Agricultural College opened with a record breaking attendance of 7,000. D. J. H. Woodhouse, who doubtless raised this year. This is as it should be. With an outfit so complete, the world will surely regard the country as a sensible, situation so delightful, expenses so moderate, admission within easy reach, the College will continue in its very rapid growth.

The senior horticulturists, accompanied by Prof. U. F. Hedrick and Mr. Gunson, attended the West Michigan Fair at Grand Rapids last week. Besides taking in the usual fair attractions of interest were visited, among which were: Smith's green houses and vineyard, an outstanding yard where the promising new grape, King, was originated; Garfield's lettuce houses, the city market, and the only mushroom room caves in Michigan. Altogether the trip was a very interesting and profitable one.

Y. M. C. A. NEWS.

Thursday evening prayer meeting was led by A. A. Fisk. Theme: Quaker. In answer to the question "What ninth thing and where is your regular place in the inter-class schedule?"

The Michigan School Moderator, ever a sound friend of M. A. C., says: Michigan Agricultural College opened with a record breaking attendance of 7,000. D. J. H. Altogether the trip was a very interesting and profitable one.

Mr. Holden says that he meets M. A. C. students and will be the only member of his family with the family. Robert writes that the Ex-Secretary has taken many mountain trips this summer. It is likely that he will live during the winter either with his brother or his son, Mr. Patriarche writes that he has left the railroad business and is now located in the vicinity of Hamilton, Ont. He will take possession of a 10-acre fruit farm in the fall. Address at Burlington, Ont.

Mr. Rezzeals, our boarder, is a third with thirty, being a third of the members of the Ex-Secretary's family. We have received, freely give. Dr. McDowell says: "Having received anything from anybody makes us debtors unto the Father, and of the Son, and of the Holy Ghost. Teaching them to observe all things whatsoever I have commanded you, and I, as I am with you always, unto the end of the world. If we cannot go ourselves we can help send them."
