The M.A.C. RECORD
MICHIGAN STATE AGRICULTURAL COLLEGE.

NOTICE.
Meeting of all Record editors Saturday morning, 7:30, College Hall.

The Shakespeare Club will meet Wednesday evening with Mrs. Mary Conklin.

The mechanical student who did some law work for Professor Bogue early in the fall term will please call at the office or the house and receive pay.

At the annual meeting of the Cooperative Book Buying Association to be held December 14th, a few members will read papers. All members are requested to attend. The following amendment to the constitution will be voted upon: Article II, Section 1 shall be amended to read as follows: There shall be a board of directors, consisting of the following members: The President of the association ex-officio, one member from the faculty and from the instructors, and one from each class.

DR. JOHN'S LECTURE.
A large number of College people heard on Friday evening Dr. John P. D., Dr. John's lecture, the subject being, "The Worth of a Man." The room was cold and Dr. John wished they had had a fire. They had, but having been out in the recent rain storm after having lectured for an hour and a half, the combination of cold room and laryngitis was not conducive to lofty thought but what could not be helped was patiently endured.

Dr. John introduced his lecture by relating a story of two sailors. One sailor looked out across the sea, saying: "How to obtain the best in life." Every person desires the best things in life: pleasure, happiness, friendship, business success, intellectual contentment and peace of mind. Now there is one best way to accomplish our purpose in securing these best things in life, and it is our business to find this best way. Jesus Christ saith to ye at this time: "The Kingdom of God and His righteousness and all these things shall be added unto you." This is preeminently the surest and best way of securing the best in life. Let us not be content until we have become the most in life, secured the best things and become the most in the world.

The Sunday evening meeting, Dec. 13, will be led by Mr. and Mrs. W. M. Faunce. This is the last meeting for this term and the only opportunity for the attendance of Mr. Faunce, so let everybody come.

OLYMPIC PARTY.
The Olympic Society gave a party on Saturday evening which was one of the best things of its kind ever undertaken at M. A. C. The party lasted from 5 till 11 p.m., and about seventy-five were present, Professor and Mrs. W. O. Hedrick and Prof. C. D. Smith attended from the program and menu:

LITERARY PROGRAM.

"He moved the scepter as his kindred, By Nature's first great title—mind."

The Pioneers, or the Indian of yesterday, Chingachgook, D. A. Gurney.

Origin of the Morning Star, (An Indian Legend), Chisholms, Glenn Sevey.

Hawawatha (A Parody), Nawadawa, S. H. Hartman.

The Indians of Today, Uncas, J. L. Thorpe.

MENÜ.

"Oh! Hour of all hours, the most Blessed upon earth, Blessed hour of the dinners."

Roast Wab Wah-Tay-Soo
Smoked Wab Wah-Tay-Soo
Roast Kabg Wild Wah-Be-We-Wa
Big Chief Pot-au-Beau-Sealp

Brown Gravy Fisherman Quivers Bread

Luncheon Pakes

An Indian Mystery A Thick Head U Need A Drink

Addison's Favorites

TOASTS.

L. G. Michael, Toastmaster.

Pathfinder L. F. Bird.

"Wandering I found on my ruinous walk, By the dial stone, aged and green, As in a merry fit?"

"Who can cloy the hungry edge of appetite?"

The Hunting Ground W. M. Johnson.

"I had a glimpse of him but he shot by me Like a wound upon a burning stake."

"Oh! Hour of all hours, the most Blessed upon earth, Blessed hour of the dinners."

We are glad to give the Detroit M. A. C. Alumni Association considerable space this week. It is pleasant to note that there is a price for the organization of the Detroit Alumni. He has spent six weeks in perfecting the association, making many personal calls and writing numerous letters. The result is a paper that will carry his work on his regular work. Here was unselfish labor for the social good, worth pondering over.

While speaking of the alumni, we wish to call attention to the present issue of this paper. We have called it the first "Alumni Number," and an effort will be made to send a copy to each alumnus and old student who is not a regular subscriber. As has been said many times before, the College of the alumni, faculty and students should find a common ground. There should be given as much variety of alumni news as possible. True, some news is about taking the paper from the post, office, for you have only four made for it. This week, however, to secure the paper regularly it is necessary.

Tuesday, Dec. 9, 1902.

The make-up of the team of 1902 will perhaps be of interest to our readers. Harry Corrigan, who played regularly at right end, came to M. A. C. with considerable football experience, having played on the Hillsdale high school and college teams. He stands 5 feet 6½ inches in height and weighs 159 pounds when in training. His home is in Hillsdale.

Frank Kratz, right tackle, played right guard on the Albion high school team for three years before entering M. A. C. He played right tackle on the team last year, which experience greatly helped him in his work this year. He is 6 feet 2 inches tall and weighs 207 pounds.

Right guard Harry Meek came to M. A. C. from his home in Metro- wix with no football experience, and never having seen a game. This is his second year at right guard, at which position he is without a peer in the M. I. A. A. He is 6 feet 1½ inches tall and weighs 175 pounds. John Decker, center, has been a member of the squad for three years, making the team for the first time this year. His home is in Lansing with two years' experience. He is 5 feet 9 inches tall and weighs 170 pounds.

Don Childs, the best quarter-back of last year. Injuries kept him out of the game the latter part of the season and he would have undoubtedly made the team before the end of the season. As a line backer and defensive player he cannot be beaten in the M. I. A. A. He is 5 feet 8 inches tall and weighs 160 pounds.

Gray Barrington, end, has played football for three years having played on the Culver Military Academy team and the Lansing High School. He is the fastest man on the squad but a trifle too light for a college team.

Arthur Peters, left end, played on the high school squad in 1900 and his home is in the M. A. C. He made the team last year with considerable experience. He is 6 feet 2 inches tall and weighs 177 pounds.

Leslie A. Agnew, half and full, came from the M. A. C. from his home in Man- norton with considerable football experience, having played on the Hillsdale high school and college teams. He stands 5 feet 6½ inches in height and weighs 159 pounds when in training. His home is in Hillsdale.

John Decker, center, has been a member of the squad for three years, making the team for the first time this year. His home is in Lansing with two years' experience. He is 5 feet 9 inches tall and weighs 170 pounds.

Left guard Wesley Cortright, who played regularly at right end, came to M. A. C. with considerable football experience, having played on the Hillsdale high school and college teams. He stands 5 feet 6½ inches in height and weighs 159 pounds when in training. His home is in Hillsdale.

Left tackle Bell is another of the squad who has had no former experience, but who showed by the first of the season that he is with the M. A. C. He improved fast in the latter part of the season and will develop into a strong and willing man. He weighs 195 pounds.

Left end Meek. ...... r. g M. A. C. freshness and verdure in the one; meadow, not grown into tall meadows, outline of the smiling earth, rugged hills, valleys, cliffs, scattered trees, is thrown like a spread out more.
THE M. A. C. RECORD.

To accomplish the same result, some one in authority at the Univer-
sity of Michigan, from many of the crowding trees, many of the crowd-
ing trees, the regents and faculty.

Very soon after the first buildings were erected, known as College

bered 4, 5, 6, 7, tree planting began.

Hail, Saints Rest (burned in 1875), tise, Tracy, and President Abbot

broad leaved trees. A highway then

The M. A. C. Record.

About the Campus.

The new postoffice will be occupied this week.

Many from the College attended the Masonic Fair in Lansing last week.

Prof. W. O. Hedrick recently read a paper before the Lansing U. and L. Club.

The design for the 1903 M. A. C. calendar is about completed. Miss Earl has the calendar design in hand.

The "kids" on the campus have been skating the past week on the pond back of the Women's Building.

Ray Vandercook, with '05, was at M. A. C. last week. He will take special work during the winter term.

Mr. Harrison, M. A. C. tobacco-cabinet closed up his place of business sometime ago and it is rumored that he will remove to Texas.

Nearly seventeen hundred fungi (fungi Columbiani) have been received by the botanical department, and are being mounted for the herbarium.

Instructor Michel's has an interesting article in the last Michigan Farmer describing the most approved methods of regulating the temperature of the cheese-curing room.

The Hesperian Society elected officers Saturday, as follows: President, C. L. Lilly; vice president, E. D. Allis; secretary, G. W. Nichols; treasurer, J. P. Knickerbocker; marshal, B. Wheeler.

Miss Foster, of the postoffice force, spent Sunday in Okemos.

Many of the instructors expect to spend their Christmas vacation at their various homes.

Mr. Faunce was surprised one evening last week by his numerous friends. An enjoyable time is reported.

Several, from the College are hearing the lectures on the English novel by Prof. Troop of Chicago University.

Matt Crosby and T. G. Phillips of 1902 have been at the College during the past week having finished their field work in the U. S. Forestry Department for the present year.

In the likeness of this year's football team which appears in this issue, Smith and Nern are missed. The necessity of getting a cut on short notice made it seem inadvisable to picture another picture of the team.

Mrs. Ella Kedzie left Thursday morning for the South. Her address through December will be 518 Bradley Ave., Peoria, Ill., and after January 1st, Mangonia, Lake North, Florida. She will be away two or three months.

The games which the Y. M. C. A. boys put in the club rooms early in the term have proved very popular. As opportunity for outdoor sports becomes less and less with the advance of the season the demand for such recreation as the Y. M. C. A. has afforded becomes correspondingly greater.

The botanical department has proved methods of regulating the temperature and humidity in the greenhouses with different paints to deter moss growth with the advance of the season the door sports becomes less and less.

Dr. Beal gives his students an occasional motto written on the blackboard, the last one was, "He who expects to rate high in his classes must not expectorate on the floor," and he added, this should apply to street cars, depots, and side-walks, everywhere.

The necessity of getting a cut on short notice made it seem inadvisable to picture another picture of the team.
