ALUMNI

69. At its 35th annual meeting recently held in the city of Belding, the Washington Club elected James J. Satterfield, of Owosso, its president for the ensuing year. He was also elected president of the Greenville and Village Alumni Society at its recent annual meeting.

70. A recent issue of the Los Angeles Times has an interesting description of the Idyllwild Sanatorium. Henry Graham Reynolds, M. A. C., ‘70, is connected with this institution. In Idyllwild, southern California has the most complete and extensive sanatorium for the treatment of tuberculosis anywhere in America. This sanatorium was established by the medical profession of Southern California in order to accommodate the health care for, amidst the most favorable, natural surroundings, the large number of cases of consumption which come to this section of the United States. Belonging to the sanatorium is a complete water system with an ideal reservoir, and then erected the present sanatorium building of 50 rooms, with which are connected several cottages from three to five rooms each. A third of a mile away they have constructed a regular village of cottages to rent for those who desire to keep house. Connected with this village is an excellent store, livable, stable, market, dairy, bowling alley, postoffice, public school, barbershop, electric plant, steam laundry, ice plant, and, in fact, all the accessories of a progressive town. These are near enough to the sanatorium to be of service to any of the guests of that institution.

71. Prof. Keykull L. Butterfield of Ann Arbor spoke on the College grounds last week. He was one of the speakers at Owosso.

72. Prof. George A. Hawley, of Hart, spent a few days that A. C. was the latter part of the week. He is a successful nurseryman at Hart.

73. Born to Mr. and Mrs. Edward R. conspicuously, and Mrs. M. Evenson, of Detroit, a daughter on Monday, Feb. 21st. Mother and daughter are on their way to Owosso. Russell was formally Miss Clara D. Oland, with ‘01, of Saginaw, and Mrs. Oland is a graduate of the mechanical course, class of ‘99.

74. Mr. Lyman Carrier has been conducting for sometime the test of the leafola of the College herd for advanced registry in the Holstein Breeders’ Association records. Four cows out of the six have made sufficient records to be entered in the books of the Association.
THE M. A. C. RECORD.

PUBLISHED EVERY TUESDAY DURING THE COLLEGE YEAR BY THE MICHIGAN STATE AGRICULTURAL COLLEGE

EDITORS: P. H. STENSON, N. A. WRIGHT

CLARA WOODLEY, Q.

Subscriptions One year....... $1.00. Two years................. $1.50. Extra copies................. 5 cents each.

The Michigan Agricultural College is a state institution, and is maintained high grades of work. The college is maintained high grades of work.

The next step in the system is not absolutely satisfactory. The union meeting of the Y. W. C. A. was led by Mr. L. C. Holbrook. Theme: "Student Evangelization." Some of the qualities for success in evangelization are: Courage, Simplicity, Faith, Purpose and Prayer. The meeting was well attended and a good interest was manifested.

The morning chapel exercises were conducted by Rev. F. B. Bussel of the Franklin St. Presbyterian church, Lansing. Text: Jeremiah, 14:9. The service was very well attended and a good interest was manifested.

The prayer meeting this week was led by Miss Dresser with the title, "The Use of Ability." The attendance was good and many took part. A duet by two of the members was enjoyed by all.

M. A. DONSEREAUX

is now being distributed for the Opening Sale of DRY GOODS, CLOTHING AND GROCERIES. — A special sale exclusively for the College and Collegeville.

THE DONSEREAUX CLOTHING & GROCERY CO'S

M. A. SPECIAL

A. M. DONSEREAUX.
The horticultural department is having the old postoffice room fixed over for the use of the department.

Prof. Pettit has received the Theobald Monogram on Mosquitoes from England. This treatise is scientifically very valuable.

The students who took last term, personal hygiene, and emergencies and sanitary science can obtain their credit cards by calling at the new bacteriological laboratory, second floor.

The Lansing papers of late issue report that the village of Oakwood is likely to be incorporated in the near future. Some of the property owners in the vicinity of Oakwood, it is reported, will drain the near-by swamps in order to do away with the mosquito nuisance.

The Elective Society gave their second winter term eleven o'clock party last Saturday evening. The tastefully decorated rooms together with nestly arranged cozy corners, added much to the pleasure of the occasion. The music was furnished by the Hays sisters, of Lansing, Professor and Mrs. Martin D. Atkinson acted as chaperons.

The Dutch Society gave a German Saturday evening. Mrs. Bowler of Lansing presiding at the favor table. The rooms were tastefully decorated with plants and drapery. About a dozen figures were executed, followed by a few round dances. At eleven all went on their several ways, after a most pleasant evening. Mr. and Mrs. Gunson acted as chaperons.

NORTON'S HARDWARE

Have you a MARQUIS STEEL RANGEP? If not, you certainly have not got the best. Your neighbor has one, ask her about the quality. We have sold a large amount of them and all give satisfaction. Would be pleased to show them to you.

Made in light, medium or heavy weight from stock selected with special reference to long, hard service. Sold by most dealers at $3.50.
Naturally, as this matter is one entirely edy without giving it a fair trial, or making the proper experiments. It is inclined to question the proposed rem­edy such as that proposed by Dr. Wood, no matter how radical it may be, should be given a fair trial with­out prejudice, letting the results speak for themselves.

In conclusion I would add that if the investigators at M. A. C. are de­sirous of looking into this matter and of learning something of that well of Sulphur," I will very gladly put them in communication with Dr. Wood.

George S. Jenks, with 90.

'90 Macy H. Lyham is now located at Sanford, Arizona.

'95 P. S. Rose writes an interesting letter from North Dakota: We are having a delightful winter here in N. D. Today is bright as can be with a cloudless sky and a frosty morn, with the tempera­ture this morning (Feb. 16th) 32° below zero. Engineering is very popular with the students. If I am handling a class of 225, alone, can M. A. C. beat that record?'

'82. A recent issue of the New York Independent contains an article entitled "Myelitis" by Prof. L. H. Bailey. '82. The editor of the Independent says in an editorial note that Prof. Bailey is without doubt one of the best authorities living upon subjects in line of work.

EXCHANGES.

An exchange has this interesting item: The quiet and indirect method adopted by many of our leading colleges for inducing men from the preparatory schools to enter upon a collegiate education has taken a new turn by the open appointment of a college president by Prof. L. H. Bailey "by northeastern univer­sity. The appointment of such a college officer is unique and the result will be watched with keen interest.

Does the solicitation of students mean there are too many colleges, or does it mean that too small a proportion of the population attends them? We have long passed the narrow conception that a college education is good only for those who intend to enter the professions. If it really develops men, it is good for those who look to commerce and industry for careers.

Lunch Goods, Confectioneries and Fruits.

Special attention given to parties. Lunches served at all hours.

THE M. A. C. RECORD.

THE ADELPHIC LITERARY SOCIETY DIED OF STARVATION FEB. 26, 1903.

Nearly five years ago a few enter­prising students got together and organized, what has since been known as the Adelphic Literary So­ciety. For five years they struggled along in the attempt to build up and do good literary work. By offering various inducements and the pros­pects of a home in the near future, they gained a partial success, but when it was established that no rooms were to be had for several years, to say the least, interest lagged and a rapid decline followed, until now they have only a few remnant upon which to build a new structure.

In hopes that we may tide over our present difficulty we have reor­ganized. The society now stands firm, and, with the usual qualifications for new members is to manifest an interest in the work at hand.

For the above reasons the Adelphic Society invite all non-society students, who are interested in liter­ary work, to attend the next meet­ing in the English class room in College Hall at 7:30 Saturday even­ing, March 1. At this meeting they would request those who have started the movement in the Y. M. C. A. rooms to join with them. An excellent program has been arranged, and a good time is assured to all.

A. L. SOCIETY.

COMMUNICATION.

Mr. George S. Jenks, Assistant Manager of the American Sheet Steel Co., New York City sends this interesting item: In reading the ar­ticle on the subject of February, giving a short resume of Mr. E. S. Good's talk on Hog Cholera at a recent meeting of the Farmers' Club, it occurred to me that a treatment for the disease at issue outlined by Dr. James Rohie Wood, a prominent physician of this city, might prove of interest at this time. This gentle­man in the many years of his practice has been able to detect a great opportuni­ties presented by his profession to utilize elements frequently found in the animal food of much good. In his researches he discovered some years ago a process of making what he calls "Soluble Sulphur" (a name, however, which he thinks is not a properly descriptive one) and this liquid he has used and a rapid decline followed, until
