GRAND RAPIDS BEATEN.

M. A. C. beat the Grand Rapids Y. M. C. A. in basketball Saturday afternoon in the armory in one of the most remarkable games ever played at the College, the final score being 42 to 7. During the preliminary practice, Grand Rapids appeared to have a very strong team but M. A. C. succeeded in running away with the visitors as has been the case in all previous games this year.

The teams lined up about 8 o'clock and at the toss up Balbach sent the ball to Haftenskip who in his turn passed it toward the center within thirty seconds Balbach secured a basket which was not allowed, however, due to foul called immediately preceding the play. Balbach succeeded in throwing a basket of the same kind.

In this manner the game proceeded, fouls being called occasionally. Toward the close of the half Godwin threw a basket for the Y. M. C. A. The score at the close of the first half was M. A. C. 20, Y. M. C. A. 4.

The second half was a repetition of the first, and the final score was, M. A. C. 42, Grand Rapids 7. The M. A. C. had the best team work shown this season. The passing on the part of Balbach was some of the marvelous. Every M. A. C. man was in the game all the time, and no one was exceptional in two instances no Y. M. C. A. man was left in the open. The Grand Rapids team after the contest, stated that Kalamaoo, which defeated Grand Rapids a short time ago, would stand no show against M. A. C., and the most pleasant feature of the game was the disposition of players, officials and audience to be absolutely fair.

The applause succeeding good plays by the Y. M. C. A. was commendable and showed the true sportsman spirit. As an indication that the game was fast, it should be observed that M. A. C. threw four baskets which were not allowed since fouls by Grand Rapids had been called immediately preceding the score.

The line up was: M. A. C. forwards—Balbach, center—Van Alderen, guards—Godwin, offshore.

Time of halves—seconds each.

Officials: Miller, referee; Bolte of M. A. C., and Williams of Grand Rapids, umpires.

Baskets from floor—Balbach, 5; Haftenskip, 5; Tuttle, 5; Tower, 5; Schafer, 5; Godwin, 5. Baskets from free—Balbach, 6; Van Alderen, 5; Poole—M. A. C. 19; Grand Rapids, 11. Score, M. A. C. 42, Grand Rapids, 7.

THE CHAMPIONSHIP OF THE UNITED STATES.

As we go to press, negotiations are pending for a basketball game to be played in the armory between M. A. C. and the University of Minnesota team. It is possible, at least, that Minnesota can be secured but it will take a big sum of money. Provided a game for the CHAMPIONSHIP OF THE UNITED STATES, can be arranged will you kindly lend your hearty financial support? This support will be needed.

Those who have seen both M. A. C. and the University of Minnesota play know that M. A. C. would have a very chance to win in case the two teams should meet. It is expected that Minnesota will soon be here. Watch for further developments.

MILITARY HOP.

The hop, given by the battalion officers last Friday evening, proved very successful.About 750 Cadets and officers attended, making about the smallest military in some time. The music was provided by the combination of the ten o'clocks, resulting in several of the early parties of the term being continued until eleven instead of stopping at ten as on former years. The armoried seemed more tastefully decorated than ever, the flowers and plants lending a fresher looking effect to the usually bare walls, while the music in the center amid bright colors and hanging plants was an object of pleasure to every eye.

An orchestra of eight pieces under the leadership of Mr. Prost, furnished the music, which was highly appreciated and almost every dance being encored. Prof. and Mrs. Atkins proved genial chaperones.

THE LAST BOTANICAL CLUB MEETING.

Miss Hettie W. Wright spoke of "Our Early Spring Wild Flowers," naming among other plants, cowslip, cabbages, bloodroot, violet, trillium, spring beauty, anemone, hepatica, columbine and cowslip, with their descriptions of their appearance and uses.

Dr. S. Jesse Palmer read a paper on the "Relation of Light to Flower Age." She mentioned the various modifications in position and arrangement of leaves to adapt them to varying amounts and directions of light.

Mr. Wright then showed an interesting experiment in water culture. Some bean plants had been grown in distilled water with paper, and perfect nutrient solution till they began to bear fruit and the differences in root and stem development were then pointed out. Mr. Morris explained the injury caused to campus trees by hitching horses.

Dr. Beal called attention to a clear four-page summary of Gregor Mendel's Law of Heredity by Prof. W. E. The Independent for Aug. 23rd, which those who waded through Bateson's essay last term will want to read.

Tonight (March 17th) Messrs. Selye and Schafer will speak on "Plant Physiology and the Methodology of Plant Officers," and officers will be elected for next term. March 24th, the last meeting this session, Professor Barlow will read a paper on the "Defense of plants against animals," and the retiring president, Moses Craig, will speak on "Plant hygiene."

According to recent Boston papers, much unfavorable comment has been made upon Prof. Hollis because of his recent utterances in regard to the Yale vs. Harvard football game and Prof. Hollis is no longer chairman of the Crimson athletic committee. A recent statement reads: An interesting canvass has been made among Harvard men on the question brought up recently by Professor Hollis, chairman of the Crimson athletic committee, regarding football between Yale and Harvard. Twenty-four students voted in favor of abolishing the annual game between the two Universities, while 34 opposed such a step. Large majorities indorsed the opinion that a more open policy by each school would improve the game, and that the objectionable features of football could be eliminated without injuring the game as a sport.

GEORGE E. DENMAN.

ALUMNI.

'95. Mr. E. E. Dodds, analyst for the State Dairy and Food Commission, will give an address this week before the Grand Traverse Dairymen's Association. His subject is: "Future Dairy Legislation."

'01. Miss Fleta Paddock visited over Sunday with her sister at the College.

'01. On Saturday, March 17th, at 8 o'clock p.m., will occur the 29th Annual Banquet to honor the Y. M. C. A. girls—Armory, Saturday, 3 p.m.

'03. Miss May Nelson at the home of the bride's parents in Menominee, Mich.

ALUMNI IN THE SOUTH.

Prof. C. D. Smith met several alumni in the South during his recent trip: At the A. and M. College, Brazos County, Texas, he found Prof. Edward C. Green, '97, and Prof. J. Dwight Saadener, '97, the former being professor of botanic culture and the latter professor of entomology. At Tyler, Texas, he met Allan H. Stone, '99, who is in the civil engineering department of the Cotton Belt Railroad.

M. A. C. GRADUATES IN ILLINOIS.

In a little tour in Illinois recently the writer had the opportunity of meeting an unusually large number of M. A. C. graduates. The occasion was the Play to honor the Illinois State Farmers' Institute which corresponds to our Round-Up Institute. The meeting was held at Bloomington. Five of our alumni had places on the program—a fact remarked upon several times by Illinois alumni.

On the way home, passing through Bateson's essay last term was highly rated. Prof. Edward C. Green, '97, and Prof. J. Dwight Saadener, '97, the former being professor of botanic culture and the latter professor of entomology.

Aside of those having a part on the program there were Mr. and Mrs. C. B. Reynolds, with '01. Mr. and Mrs. A. R. Curtiss, at one time foreman of our woodshops. A delightful evening was spent at the home of Mr. and Mrs. Goodenough, of Grand Traverse, Mr. and Mrs. C. B. Reynolds occupies the very responsible position of Director of the State Agricultural Department of the United States, can be arranged will you kindly lend your hearty financial support? This support will be needed.

Those who have seen both M. A. C. and the University of Minnesota play know that M. A. C. would have a very chance to win in case the two teams should meet. It is expected that Minnesota will soon be here. Watch for further developments.

MILITARY HOP.

STATE NORMAL COLLEGE.
M. A. C. DEBATE.

The debate between the State Normal College and M. A. C. took place at Ypsilanti Friday evening. The question was: Resolved, That government ownership of railways and operation of railroads in the United States is desirable. The State Normal College, upholding the affirmative, was awarded the favorable decision of the judges by a vote of 2 to 1.

The affirmative speaker outlined the doctrine that railroads are a function of government, and that the state has no right to delegate its function. The speaker offered no definition of function of government, but merely proceeded to prove that some courts had affirmed railroads to be a function of government.

The second affirmative speaker showed that present conditions are bad and argued that state control has proved a failure. The third speaker for the Normal College showed how the government might acquire railroads.

Mr. Hartman, the first speaker for M. A. C. defending the negative, said, that the affirmative would have to prove (1) that present conditions will be remedied by government ownership, or (2) that their system would introduce greater evils than exist at present. He argued that state ownership should not and had not eliminated the evils complained of, and that it had the disadvantage of re-stringing capital initiatives.

Mr. Anderson, the second speaker for M. A. C. showed that state government organization is not adapted to a large number of commercial enterprises. He also argued that state government would break down and be broken down through inability to handle state enterprises.

Mr. Moore, the last speaker, showed that state ownership would have a tendency to overthrow our form of government, that it would tend toward socialism, and that it would put an oligarchy in power. In order to control, he said, had control, he had control, these evils would and would do the work effectively.

Section 11 of a detailed article, M. A. C. was the better in rebuttal but the Normal college evidently used sarcasm effectively. It was conceded by many unprejudiced persons, for example, some members of the Faculty of the Normal College and several Normal college students that M. A. C. had the better of the argument. In the opinion of M. A. C. M. A. C. was better in ac­quaintance with the question, in familiarizing with the facts involved, the matter, in directness and cogency of rebuttal, and in general bearing upon the platform.

The question was: "Resolved, M. A. C. should not be allowed to make a new agreement with the Normal College for a series of debates. Dr. Edwards would be best fitted to see at the主動 Club meeting, Thursday evening at 7 o'clock, all students who are inter­ested in the matter. We are to be pro­of the debating team of 1903.

Mr. Moore, the last speaker, showed that state ownership would have a tendency to overthrow our form of government, that it would ship would not and had not elimi­nated the evils complained of, and that it had the disadvantage of re-stringing capital initiatives.

Mr. Anderson, the second speaker for M. A. C. showed that state government organization is not adapted to a large number of commercial enterprises. He also argued that state government would break down and be broken down through inability to handle state enterprises.

Mr. Moore, the last speaker, showed that state ownership would have a tendency to overthrow our form of government, that it would

Now is the time to furnish your den.

Mr. C. D. Smith is home from a trip to Connecticut. On her return she stopped at Cornell University

The horticultural department is spraying for scale insects the elm trees about the College grounds. The newly acquired sprayer is used for the work.

Board in the various clubs has been audited for the winter term as follows: A, $2.12; B, $2.35; C, $1.65; D, $2.53; E, $2.35; G, $1.76; H, $1.80.

Prof. Taft was in South Haven last week arranging the work for the coming season. He also attended a meeting of the South Haven and Casco Pomological Society.

We have sold a large amount of paraffine cheese experimented with. Sage cheese was made and the class departed slightly from the general pattern. The paraffine cheese does away with the deleterious effects of moisture and prevents mold.

The Olympic Society has elected the following officers for next term: President, James G. Moore; Vice President, W. J. Wright; Secretary, C. L. Poole; Sec. of Records, W. P. Robinson; Treasurer, W. F. Jordan; Record Editor, F. H. Sanford; Marshal, L. J. Smith.

Mr. R. C. Benner, formerly Instructor in chemistry, spent Sunday at the College, taking in the basketball game Saturday evening. He also attended a recent meeting of the faculty and expressed the opinion that M. A. C. compares very favorably with the championship team of the university of Minnesota.

Mr. Benner enjoys his work at Jackson very much.

Prof. C. D. Smith makes the observation that Michigan is being outdone in the fruit industry, especially strawberries, apples and peaches. The Southwest, Southern Missouri and Texas in particular are forging to the front in the raising of fruit. From one station, Sarcoxie, there were shipped in 1902, 237 carloads of strawberries. An other station, Republic, 65 carloads, while of peaches 1,200,000 trees are said to have been set out last year in one section of Missouri alone. The same rapid growth in the growing of peaches characterizes Eastern Texas.

While he was south, Prof. Smith saw a monument in Austin, Texas, these words which explain themselves:

Died
For State Rights
guaranteed by the Constitution.
The people of the South, animated by the spirit of 1776, to preserve their rights withdrew from the Federal Compact in 1861. The North resorted to coercion. The South, against overwhelming numbers and resources, fought until exhausted.

About the Campus.

Miss B. A. Earl, who is visiting in the Chicago and Detroit area, expects to return in about a month.

The farm department office has on exhibition the Warner medal won by Mr. W. P. Snyder. The medal is of silver.

Professor C. D. Smith and Instructor John Michels will attend the Great Traverse Dairyman's Association this week. The former will talk on "True and False in Selection of Dairy Cows." Mr. Michels will talk on "How to Make Good Butter for Market."

The Columbian Literary Society has elected the following officers for next term: President, James G. Moore; Vice President, W. J. Wright; Secretary, C. L. Poole; Sec. of Records, W. P. Robinson; Treasurer, W. F. Jordan; Record Editor, F. H. Sanford; Marshal, L. J. Smith.

ASSOCIATION NEWS.

"Am I my brother's keeper" was
the theme of the Thursday evening
praegy meeting. This question is
an old one as the human race, so far
as we know. It is the foundation
stone of Christ's teaching, and is
the highest grace of civilized, en-
litened nations, out of it has
grown the modern spirit of the
"Brotherhood of man and the
Fatherhood of God." To be
my brother's keeper means that
I love him as myself, that is, that so far
from doing anything that will
injure him in any way or make him
unhappy, I will take advantage of
every opportunity to help him and
make him happy, it means that
Jesus Christ really influences my
life, the fact that He dwells con-
stantly in my affections. These
are a few thoughts brought out by
Mr. R. F. Bell as a leader.

Rev. G. F. Plummer conducted
the chapel services Sunday morning.
The service was well attended and
many practical truths discussed.

Mr. Bart Wermuth, as leader of
the union meeting in discussing the
qualifications of opportunity brought
out the truth that to be able to
make use of such opportunities,
Mr. Wermuth would like to
trained to see them and that training
consists very largely in making use
of those little opportunities that we
can recognize.

Mr. Charles D. Hurley will be
here Friday, Saturday, and Sunday,
and would be pleased to talk with
men, personally, as far as possible.
Watch for announcements of meet-
ings. Mr. Hurley would like to
have all the men connected with the
College and others interested in the
best things in life attend these
meetings.

'94. D. D. McArthur has been
promoted to the Superintendency
of the Indian Training School, Fort
Magave, Arizona.

Mr. W. G. Krieger has gone
to Iowa Agricultural College
in his new assignment.

Mr. O. L. Ayres has re-
turned from a trip south-
ern Michigan where he has
been inspecting orchards.

Professor W. O. Hedrick
will leave soon for Ann Arbor
where he will complete the work
necessary for a Ph. D.
