THREE GAMES LAST WEEK.

Last week was a busy one for M. A. C. in baseball. On Tuesday M. A. C. met Olivet on the new field. The game was raged and marked by some questionable decisions. In the first inning Olivet got two scores, but after this the visitors did not look dangerous.

ALMA.

Alma was beaten by M. A. C., for the second time this year, Saturday, on the new athletic field. Pinance and McBride did the pitching and it was about an even thing all the way through. McBride fooled many of M. A. C.'s left handed batters with his outcurve and no one knew what had happened to the U. of M. and took one run. When invitations from the college last Monday from under the west side of the visitors but in the last half of the ninth, three runs were scored. M. A. C. could not score till the third when three runs were scored. M. A. C.

M. A. C. CHORUS CONCERT.

A concert will be given under the auspices of the M. A. C. Chorus in the College Armory Friday, May 22, at 7:30 p.m. Admission 15 cents.

The following program will be rendered:

Part I

Part II

Mendelssohn's 20th Psalm given by the M. A. C. Chorus, assisted by Miss Maud Parks, Altos; Miss Maud Nevin, Sopranos; Misses Smith, Flemming, Farmer and Dimmick, Alti.

The Nebraska University baseball team on its annual spring tour through the middle west was named, and a batting rally being brought in three runs. Tower made the winning tally after two were out on Pinance's hit through short stop.

Burke, a new man, played on first and Rasmussen played center. Tower took Wilcox's place at short stop during the latter part of the game.

The score:

M. A. C. 11 17 24 5

OLYVET.
what opportunities for recreation are offered irrespective of the meet-
ings of interest to Y. M. C. A. workers.

Lake Geneva is one of the most charming little bodies of water in the world. It lies in Walworth county, Wisconsin, well toward the south-eastern corner of the state, and is reached by direct lines of railroad from Chicago in about two hours. With a length of nine miles and a width varying from one-half to one and one-half miles, it has twenty-four miles of beautifully wooded shore-line, affording the most delightful locations for winter camps and private residences. To-
ward the western end of the lake on the north side lies the 'Christian Association Camp.' The grounds now include about nineteen acres, with six hundred fifty-five feet of lake frontage. From the water's edge a series of natural terraces rises to the height of one hundred eighty feet, where, upon a level stretch, is the athletic field of the camp. Ad-
joining the camp on the north east are the grounds of the famous Verner Astronomical Observatory of The University of Chicago. The observatory, containing the largest equatorial telescope in the world, is open to visitors on Saturdays. For picnics, healthful exercises, and general attractiveness of surround-
ings the location is probably not sur-
passed in America.

The purpose of the camp is two-
fold — education and recreation. Courses of instruction in the Bible and in the various phases of educa-
tion are offered to those who desire to take them. Rest and recreation, however, are the great attractions for many, and the swim-
ner, the oarsman, and the yachts-
man find all that the heart of Lake Geneva. Scores of plea-
sure craft of every sort, from the

Hillsdale comes here Wednesday for a ball game.

President Snyder attended the inauguration ceremonies of President King of Oberlin, last week.

The foul strike rule which has been used in some of the M. I. A. games has been abolished.

Mrs. Bogue gave a small but very pleasant party to a few of her lady friends Friday evening. Thirteen sat down at the table.

Mr. P. M. Lyman came to the College, last week, having completed his term of mail weighing. He likes his railroad experience very much.

The announcement of the University of Chicago for the summer quarter contains in the faculty list the name of Mr. W. O. Beal, a former M. A. C. instructor. Mr. Beal is to be the instructor in mathematics during the summer quarter.

The following is the list of honorary members of the Kedzie chapter of the fraternity of Alpha Zeta: President, Jonathan L. Snyder; Clifton D. Smith; Prof. Robert S. Shaw; Prof. U. P. Hedrick; Prof. Frank S. Kedzie; Prof. Joseph A. Jeffery; Prof. J. J. Ferguson.

The class game between the Sophomores and Juniors Saturday resulted in a tie 10 to 10. The tie was played off yesterday afternoon with the result that the Sophomores won. There has been some talk of pulling off the Instructor-Senior game next Saturday, but the track meet will probably prevent this.

Mr. Morgen, '05, received a visit from his sister recently.

College people have already begun to pine for Lake P. Fully a dozen from the College were at the lake Saturday.

Anyone finding a baseball glove stamped with L. E. Kephart's name kindly return to W. P. Millar before the game Wednesday.

Mr. E. M. Moore, a U. of M. man, and a prominent sheep raiser of Orchard Lake, Mich., was at the College for several days last week. He was looking for a student to assist him in caring for his show animals which are to be exhibited in the west in the fall.

The debating club last Thursday evening considered whether or not it would be advisable to build more walls on the campus. The opinion seemed to prevail that this would not be advisable. It was argued that more walls would not prevent the "sheep paths" which is the chief thing complained of at present.

Umpire McLaughlin, who officiated at the Kalamazoo-M. A. C. game, played at Kalamazoo some time ago has written to M. A. C. that he now believes his decision to have been wrong concerning which contention was raised. He has come to this conclusion after deliberation and announces that the contest was "no game," reversing his former decision. It would seem now that the M. I. A. C. directors can do nothing more than to agree that a league game be played between M. A. C. and Kalamazoo.

The State Horticultural Society will meet at the College the 9th and 10th of June. The meeting will be in charge of the College Horticultural Club and the state society will be the guests of the Club. Special meetings will be held to roofing and spraying outfits. At the evening session members of the state association will give addresses.

At a meeting of the Farmers' Club last Wednesday evening, Prof. Kedzie gave a short talk on "Virgin Soil in Educational Work at M. A. C." Among other interesting things he mentioned that the campus and farm, which once composed a woods, was entirely cleared up by student labor. Prof. Kedzie also spoke of the alumni and the work they are doing, bringing credit upon themselves as well as the college they graduated from. The meeting was well attended, but the talk was a very instructive one and deserved a larger audience.

Remember the concert at the Armory Friday evening, May 22d.

The apple and pear trees of the college orchards are full of blossoms and the indications are that there will be an abundance of fruit.

Thursday night at eleven o'clock Dr. Beal's woodshed was discovered to be on fire. The fire department was on hand very promptly and the blaze was soon under control. A quantity of gasoline and of kerosene in the shed made things look dangerous for a time. Two carpets and a small amount of wood were burned.

The University of Iowa defeated the University of Michigan in debate recently.
Spaulding's Jerseys

We have Spaulding's $2.50 and $5.00 Jerseys in stock in black and maroon solid colors. Should anyone at any time find anything defective about goods purchased here, they would confer a favor on us by letting us know all about it.

THE MILITARY HOP.

The military parties given at this institution are the only social functions among the students not given by some society or class, and they therefore serve as the best "mixers" of students of any of our social events.

The party given by the officers of the battalion Friday evening was the most pleasant and successful of any of the kind this year. On entering the armory it could be seen at a glance that considerable work had been spent before the event, and in the preparation of fancy corners.

The grand march which began immediately after the first call at 7:30, led by Senior Captain Harvey D. Wathen, and Capt. E. W. Lawless, followed by the officers and cadets with their lady friends, was a very pretty sight. With the exception of every cadet wore his uniform, which is a matter to be commended as it gives to these parties what they should have without a garish appearance. The officers wore their swords and donned their dress trousers for the first time this year.

From the time of the grand march until the sound of the retreat at eleven o'clock one hundred couple
danced to the delightful music furnished by Frost's orchestra with the addition of outside talent.

The sessions of the evening were arranged by Dr. and Mrs. G. A. Waterman and Prof. and Mrs. U. P. Hedrick.

Y. M. C. A. NOTES

Mr. Charles D. Hurley led the Thursday evening prayer meeting. Theme: "And hast made us unto our God kings and priests." God has called the Christian man and woman to higher planes of thinking, and into closer relationship with himself, therefore the Christian ought to be Christ-like in all his activities that he may point the world to the Lamb of Calvary.

Church services Sunday morning were conducted by Rev. E. W. Lake, pastor of the First Baptist church, Lansing.

Text: Romans 14:17, "For none of us liveth to himself.

The Scripture lesson was the 27th Psalm.

The service was well attended and the exercises very interesting and instructive.

The meeting of the Y. W. and Y. M. C. A. was led by Miss Hettie R. Wright. Theme: The habit of cheerful thinking, in Proverbs 15:13 we have these words, "A merry heart maketh a cheerful countenance, but the sorrow of the heart breaketh the spirit." Cheerfulness is not something we feel or are born with; while it is true that some are more susceptible to those influences which produce cheerfulness, yet it is still a fact that cheerfulness must be acquired as a thing we develop into or out of as the case may be. We say such a one is pessimistic or optimistic, by it we mean that the person has formed the habit of looking on the dark or bright side of life. They have become gloomy, intractable often, by habit, or they are cheerful, buoyant and attractive for the same reason.

Northwestern University doesn't win many contests in athletics but her debating teams and orators are in the front rank.
