NOTICE.

During commencement week very desirable rooms can be had by the day at Mrs. Jensen's, College Delta.

The King's Daughters will meet on Wednesday with Mrs. Smith, Lassen, for the text-word, "Love," leader, Mrs. Waterman.

Next Friday between 12:15 and 1 p.m. a picture of the Y. M. C. A. members will be taken. Let every member plan to be present, for the picture will not be complete unless every member is on hand.

BATTALION ATTENTION.

(Circular No. 2.)

The Battalion will form for Decoration Day parade at 9:45 a.m., Saturday, May 30th, 1933.

They will take special cars to Lansing, where a short drill will be given on the lawn in rear of the Capitol.

After participating in the ceremonies they will return to the College, leaving the city at 3:15 p.m., in plenty of time to present at the beginning of the games.

There will be no expense to any student under arms with the Battalion.

Captains will see that their men are properly equipped with clean gaiters, clean shoes and standing collars.

The Battalion will be under other officers in the company line when in the city and it is hoped and expected that every officer and cadet will take an individual pride in his personal appearance.

By order of

Maj. C. A. Verdug,

Chief, R. K. H.

Lieut., Adjutant.

REDUCED RAILROAD RATES.

Friends and relatives of the class of 1933 who expect to attend the exercises of Commencement week should take notice that, owing to the Triennial Reunion of the Alumni, which occurs Wednesday, June 17, the Michigan Railroad Association has granted a round trip rate of one fare and three-tenths of the certificate plan. Tickets can be purchased June 12, 13, 14, 15, 16 and 17, good for return up to and including June 19. When purchasing your ticket to Lansing take a receipt from your local agent for fare paid going. This receipt properly countersigned by the joint ticket agent here will entitle you to a return ticket for one-third the regular rate of fare.

THE NEW WATER MAINS.

T. C. Brooks & Sons, the firm laying the new water mains, are getting along with the work very satisfactorily. Beginning at Prof. Vedder's house, the lines have been laid in front of faculty row as far as Dr. Edward's residence and thence turned east and south along the line has been laid along the east side of the clider track on the drill grounds and as far as the drive south of the armory. At this point the line turns to the east and, running along the drive mentioned the work has been completed to a point beyond the armory and near the physics laboratory.

At present, work on the system is being done behind faculty hall, beginning at Prof. Vedder's residence. The line running in front of faculty row, and beginning at Prof. Vedder's is laid a few feet south of faculty drive.

The system is to make a complete circuit of the grounds. From the new boiler house, to be located in the carpenter shop, one of the principal mains will turn east and run to a point behind the agricultural laboratory. Thence the line will run behind the succeeding laboratories to the north of the new, the women's long-burn will be made and the line will be run back of faculty row.

From the point near the physics laboratory to be previously mentioned, the line will run south a few rods and then east to the boiler house. Temporarily connection is, of course, to be made at the old boiler house, College Hall, Williams Hall and Museum building will be supplied with water by branch lines.

Eight, six and four-inch pipes will be put in, the six-inch pipes, with the variation to weigh thirty six inches to the foot, and the other sizes following this proportion. The joints between pipes are being turned with jute filled with lead and caulked. On the average the mains are being laid at a depth of five feet.

The plans and specifications were prepared by Prof. Well, and the yarning of the work was done by the mechanical department. It is not idle phrasing to say that an enormous amount of work in arranging for what, in all probability will prove a very fine water system. There are other things of interest to be said about the work, but the foregoing will give a general idea of what has been accomplished and what remains to be done.

COMMENCEMENT PROGRAM.

June 14 (Sunday), Baccalaureate service, 3 p.m., armory, by Rev. J. S. Rieke, D. D., of the Forest Avenue Presbyterian church, Detroit.

June 16 (Tuesday), Society Reunions.

June 17 (Wednesday), Alumni Business Committee Meeting, 10 a.m.; chemical laboratory, Alumni Program, 3 p.m.; Alumni Dinner, 7 p.m., College Hall; President's Reception, 8 p.m.

June 18 (Thursday), Commencement exercises in Armory, beginning at 10 o'clock a.m.

There are some things for the commencement program yet to be assigned dates.

PROGRAM.

PIANO SOIREE.

ASSISTED BY THE LADIES' DOUBLE QUARTETTE IN THE PARLOR OF THE WOMEN'S BUILDING.

FRIDAY, MAY 29, 1933, 7:15 P. M.

All are cordially invited to attend, and judged to make use of this opportunity of hearing good music.

Y. M. C. A. NEWS.

Mr. Glenn Ford led the Thursday evening prayer meeting, Theme: "Costly Errors." The conclusion of errors is not to know Jesus Christ as a personal Savior, Seemingly more fruitful is the error in which he who claims to love Jesus and really do not. The "Deception from me for I never knew you," from the Scripture is all the harder to face, the fact that we will have passed ourselves for those who knew Him when we really did not know Him, at the same time having been conscious of the fact.

Chapel services Sunday morning were conducted by Rev. R. C. Dodds, Lansing, Text, Daniel, 5:18. But if it be not known unto thee that we will not serve thy gods, nor worship the golden image which thou hast set up."

In this Hour of Softened Splendor . . . the message of the sermon was fidelity to principle. Fidelity to principle is the quality of character that makes a man truly great or small in the truest sense of the word, and largely determines the usefulness of a person in any field of moral activity.

The union meeting of the Y. W. and Y. M. C. A. was led by Miss Besse Conley, Theme, "Every Day Religion." That man's religion is what is not every day the same, that is, whose thoughts, words and deeds are not always Christlike under all circumstances. Every day religion consists in carrying sunshine everywhere we go, and doing cheerfully those little things, even the most unimportant, which makes the world more happy.

Every student should remain at least till Wednesday noon of commencement week and attend Prof. Bailey's oration. In a recent issue of the New York Independent, the following editorial article appeared, an article by Prof. Bailey, occasion to call attention to the latter's eminence in his line of work. Prof. Bailey is one of the most brilliant men graduated from this College and no one can afford to miss hearing him.

ALUMNI.

"02, Word comes as this paper goes to press, that Hon. E. M. Preston, of Nevada City, Cal., died May 27th, at his home.

"01, Mr. G. E. Tower left Washington May 17th, for Salt Lake City, Ida., where he will start the preliminary work in an examination of some lake/dive townships in that state, to determine their adaptability for future forest reserves, Mr. Tower's work will carry him into the Priest River and Clearwater regions of Northern Idaho, the Seven Devils region in Western Idaho, and the country west and adjacent to the Yellowstone National Park.

"01, Mr. H. P. Baker will be engaged during the summer in making Forest Reserve examinations in South Central Idaho in the Bitter Root region for the Bureau of Forestry, A. C. McCue, "01, I shall leave shortly for Arizona to make Reserve examinations in regions between the Prescott Reserve and the San Francisco Mountain Reserve, and later in the season expect to examine in regions just north of the Grand Canyon of the Colorado, in Southern Utah. Owing to the impossibility of reaching the latter region it will be necessary to enter Utah by way of Salt Lake City and go southward by stagecoach.

"02, Mr. Matt. Crosby will spend today (Tuesday) at the College. He came from Washington, D. C., and will work for three weeks in Michigan for the Bureau of Forestry. During this time will be transferred from the Bureau of Forestry. He will go to Wisconsin after his work in Michigan, and is due in Oregon in mid-July.

He has a month's vacation this summer, part of which vacation will be spent at M. A. C. Council and commencement. His salary upon his being transferred to the Bureau of Plant Industry was raised fifty per cent.

The class of 1873 who must be reminded that it is just 30 years since they urged that big boomer from its snug bed on the College Delta on to the campus and set it upright where it now stands. This class should plan to "daily round the rock," and drink to auld lang syne.

The postal return cards received from the alumni, which cards were sent out with the official notification of the time for the coming triennial, are beginning to pour in. There is every indication from the replies so far received that the Fourteenth Triennial Reunion will be the largest attended of any yet held.

Don't forget that the railroads have granted a reduced rate for triennial and commencement week travel. Take advantage of it and come along. See particulars regarding this in another place.
M. A. C. ENTRIES FOR M. A. I. A. MEET.

Mr. Ray R. Tower hands in the following list of entries from M. A. C. for the M. I. A. A. meet.

The football punt is a new feature this year.

Adams, Elwell Mac, ladies' tennis, doubles; ladies' tennis, singles.
Alls, E. D., discus.
Bass, J., three-mile run, middle weight wrestling, heavy weight wrestling.
Bird, R. C, bantam wrestling, feather weight wrestling.
Blanchard, Chas. M., pole vault.
Brown, W. R., feather weight wrestling.
Burrington, rf., three-mile run, middle weight wrestling.
Chandler, Geo., special weight wrestling.
Cliver, Harol, shot put, hammer throw.
Clark, Lawrence T., light weight wrestling.
Cooper, J. A., tennis, men's singles; tennis, doubles.
Dochter, John W., heavy weight wrestling.
Ellsbaum, Larry, ladies' tennis, doubles; ladies' tennis, singles.
Fargo, H. D., tennis.
Fattenburg, A. W., discus, shot put, hammer throw.
Furrer, G., eagle weight wrestling, middle weight wrestling.
Gunnison, m., running broad jump.
Hagan, H., middle weight wrestling, middle weight wrestling.
Hendricks, E. S., serif, harp.
Hogg, S., jumping.
Johnson, Geo., 100-yard dash, 220-yard dash.

The M. A. C. RECORD.

TUESDAY, MAY 26, 1903.

M. A. C. BEATEN IN TWELVE INNINGS.

The baseball game between Hillsdale and M. A. C. Wednesday on the new field was, without question, the best game ever seen on the home grounds. It took twelve innings to decide the contest and at the end Hillsdale was the victor, the score being 5 to 4.

Miller, who pitched for M. A. C, did magnificent work from start to finish and at all stages of the game had the Hillsdale batters at his mercy. The score shows that he had the best of it, but this is explained in part by the fact that the visitors know how to jump in front of the batting. All the bad errors came against M. A. C, the game which on Miller's pitching alone should have been won.

In the first inning Miller made three singles and helped by Hillsdale's errors scored four runs. After the first inning it was a battle of pitchers with honors about even. For the first three innings but nine batters faced Miller, but in the fourth two singles and an error gave the visitors two runs. In the fifth inning the first two Hillsdale batters were hit with the ball and another error allowed both men to score. Brown for Hillsdale came to bat for the visitors in the fifth, and cracked out a two-base hit. He stole third and scored on a single by Neufang. In the eleventh, Armstrong, first man to bat for M. A. C, made a two base hit, but after this the home team was stopped in one, two, three order.

In the seventh inning Miller caught Ziegler's short pop fly and threw to Rasmussen, catching Hayes off first and making a double play.

The score:

HILLSDALE. M. A. C.
Hayes, ph. . 1 0 3 1 E
Ziegler, e . 2 1 3 1
Brown, p. 1 0 2 1
Dewey, ph . 0 0 1 0

M. A. C. SPECIAL.

THE DONSEREAUX CLOTHING & GROCERY CO.,

M. A. C. SPECIAL.

THE M. A. C. RECORD.

M. A. C. SPECIAL.
The rain last night was much needed.

Miss Dey of Springport visited yesterday, her brother, Mr. Harry Dey, '05.

Messrs. Beecher and Harst, two of Alma's wrestlers, remained at M. A. C. a part of Sunday.

Mr. R. M. Kellogg, the well-known strawberry-plant grower of Three Rivers, was on the campus last week.

The forest fire last week in field No. 17, did not do so much damage as was at first supposed, though a considerable area was burned over.

Nothing definite has been done as yet in securing games in the West for the 1904 basket ball team, since it is impossible to arrange dates so far ahead.

Mr. Percy Fall, of Lansing, well known to M. A. C. Tennis men, expects to take up land in the Canadian Northwest about July 1st. He plans to go into Saskatchewan.

Mr. Byron Holdsworth, who was obliged to give up school work some time ago on account of his health, saw the dual meet Saturday. He will remain at M. A. C. this week.

Saturday evening the Phi Delta society gave an eleven o'clock party. The following out of town guests were present: the Misses Sheldon and Grant, of Bay City; Miss Klaue, of Charlotte; the Misses Williams and Allen and Messrs. Leonard and McKenzie, of U. of M.

Mr. C. P. Parsons received a visit from his sister during the past week.

Station Terrace is being repaired and will be ready for occupancy before a great time.

The horticultural department received last week some strawberry plants from England. The plants came in fair condition.

Bulletins numbers 205 and 206, and 207 have come from the press. A majority of the people are ignorant in regard to the success attained in the states where prohibition laws are in force. Such people say that prohibition does not prohibit (because the daily paper says so, or because some person they once knew got drunk in a prohibition state); they say that the sale of liquor together with this sin of violation only makes matters much worse than if there were no prohibition laws. Are the laws which demand punishment for murderers and thieves a failure because there are murders, thefts on every hand? No. The fact of the whole matter is that, there are no laws on the planet, all things considered, that are so thoroughly aroused on this subject. The latter treats of the sugar beet experiments of 1902.

Mrs. S. W. McClure received a visit from her mother last week.

Mr. S. W. Clouton received a visit from his sister during the past week.

The following out of town guests were present: the Misses Sheldon and Grant, of Bay City; Miss Klaue, of Charlotte; and Misses Williams and Allen and Messrs. Leonard and McKenzie, of U. of M.
