NOTICE.

There will be a mass meeting of the Athletic Association in the chapel Thursday evening at six o'clock.

POST-Friday, May 27, ivory, German silver mounted rule, one foot long. Finder please return to C. E. Moon or N. Frakken, or leave notice in box 85. Liberal reward.

All students, other than those elected by the societies, who wish to enter the preliminary debates preparatory to the debate with Ypsilanti, enter the preliminary debates previous to the Athletic Association in the Daughters Circle and the ladies of the Appendix, as they are named to the undersigned on or before June 1st. Liberal reward.

silver mounted rule, one foot long.

o'clock. ^

8. LANSING, MICHIGAN, TUESDAY, JUNE 2, 1903. No. 36

battalion an hour and a half and a year, attracted a great deal of attention. The march on Washington avenue March 10th, was somewhat shortened.

There were but three or four absentees from the battalion and the full turnout, clean guns, accouterments and uniforms created a very satisfactory impression.

The program for the next meeting of the State Horticultural Society is given below. As the meeting will take place at the College unusual interest attaches to it.

TUESDAY AFTERNOON, JUNE 9.

"Relation of the Experiment Station to the Fruit Grower," Director C. D. Smith.

Discussion, C. J. Monroe, South Haven.

"Conserving Soil Fertility," Prof. J. A. Jefferys.

Discussion, C. B. Welch, Douglas.

"The Codling Moth and Its Treatment," Prof. R. H. Pettit.

Discussion, C. E. Hadsell, Troy.

"Apple Scab," Dr. Beal.

Discussion, Geo. E. Rowe, Grand Rapids.

"A Trip Through the Fruit Sections of Texas," Prof. L. R. Taft.

TUESDAY EVENING.

Address of Welcome, F. C. Reimer, Horticultural Club.

Response, C. J. Monroe, State Horticultural Society.

Address, "Foundation of Horticultural Success," R. M. Kellogg.

Three Rivers.

WEDNESDAY MORNING, JUNE 10.

(Talks of ten minutes each by the students, on the general topic, "Spraying.")

"Lime, Salt and Sulphur for Scale Insects," C. E. Swales.

"Orchard and Nursery Fumigation," R. T. Stevens.

"Spraying Machinery," W. J. Wright.

Wednesday afternoon will be devoted to a tour of the college grounds and laboratories, for all who desire.

With 9 o'clock August F. Frey now has a position as draftsman with the Deering Harvester Co. Mr. Frey says his work is very pleasant. His address is 201 LaSalle St., Chicago.

ROUMANIA.

We had the privilege of hearing Saturday evening the program of the Phil Delta Literary Society, the chief feature of which program was a talk on Roumania—its history and development, illustrated by maps, and given by Mr. Henry Geller. Prof. C. D. Smith was present and at the close of the interesting literary program gave one of his characteristic speeches.

The country of Roumania has been the battleground for many centuries of the Turks and the Russians. But through all the years the patriotic and national spirit of the Roumanians has never died out.

The Crimean war was an event in history instrumental in leading to the independence of Roumania. Prince Charles, a member of the Hohenzollern, upon his selection to reign over Roumania, instituted reforms which have led to the material and intellectual advancement of the people.

ALUMNI.

74. Geo. W. Brewer, who is an industrial teacher in the United States government service at Truxton, Arizona, now in his second year, has been promoted to the position of Disciplinarian of the school besides filling the positions of instructor, inductor of military tactics and Superintendent of the Sunday School.

78. Prof. Davenport of the University of Illinois contributes an interesting article to the May edition of the United States Department of Agriculture publications on Cooperative experiments in Illinois. The following is an extract: Cooperative experiments in Illinois have been the outgrowth of natural conditions. No substrates are maintained in this State, and the policy is strongly against scattering the work of the station, as it is also against maintain any more organization than is absolutely necessary. Accordingly, when this station has gone 10 miles, the large home grounds it has been for a particular purpose and for the reason that favorable conditions did not exist at the station. It has therefore chosen a particular spot for a particular purpose. A logical corollary of this principle is that it should choose the spot or spots best adapted to the desired end, obtain control of the situation, retain it so long as is necessary, and then abandon it. This is in the interest of carrying on an investigation under the most favorable conditions, then of being freed from it immediately afterwards. It has that the entire energies of the station may be available at all times for fresh work and not be dissipated in caring for acres whose usefulness is past.

80. Mr. George W. Park has presented the botanical department with twenty packages of flower seed and six lots of bulbs. He is located at Lapark, Pa., and besides being a successful seedman and florist, is publisher of Park's Floral Magazine, which has a circulation of 350,000 copies. In a postscript to a letter written to Dr. Beal, Mr. Park says: "It may be of interest to you to know that the May edition of Park's Floral Magazine was 452,065 copies, and that that immense number was printed, folded, stitched and trimmed and put in the mail in about seven days."

89. Prof. F. B. Mumford of the University of Missouri, has been appointed acting dean of the College of Agriculture and Mechanic Arts and Acting Director of the Experiment Station.

90. Irma G. Thompson writes from Fairlee Cottage studio, South Haven, that her prospects in art work for the season are good. Her letter shows the usual optimism.

92. Miss Minzie Crosby now has a position in Ann Arbor, Michigan.

### Baseball Last Week

#### M.A.C. OUT OF RACE FOR CHAMPIONSHIP—END OF COLLEGE BASEBALL SEASON NEAR.

On Wednesday afternoon M. A. C. played Albion on the home grounds, and was beaten by a score of 15 to 0. The day was cold and misty, but not in form, and perhaps the less said about the game the better. Both teams wanted the victory very much, and Albion destined to be gratified. Fierce fighting by Albion and errors by M. A. C. tells the tale.

Albion scored in but three innings, making enough scores to win an ordinary game in the second.

#### Detroit College Beaten.

DETROIT COLLEGE BEATEN.

DETROIT, May 26.—M. A. C. defeated Albion 6 to 2, M. A. C. first and second base scores 4 and 2, respectively. M. A. C. hit 6, 2, 3, 1, 0, 1, 0, 4, M. A. C. second and third base scores 2 and 1, respectively. M. A. C. hit 6, 2, 3, 1, 0, 4, 0, 0. M. A. C. hit 6, 2, 3, 1, 0, 1, 0, 4, M. A. C. second and third base scores 2 and 1, respectively. M. A. C. hit 6, 2, 3, 1, 0, 4, 0, 0.

#### The Walpole Indians played M. A. C. Decoration Day before a large crowd, M. A. C., as a fitting end from the baseball season, beat the visitors 10 to 4 before a large crowd. Millar was in good form and kept the visitors' hits well scattered. The Walpole Indians showed lack of team work, and the game was rather one-sided from the spectators' point of view.

#### The Last Game

The Walpole Indians played M. A. C. Decoration Day before a large crowd, M. A. C., as a fitting end from the baseball season, beat the visitors 10 to 4 before a large crowd. Millar was in good form and kept the visitors' hits well scattered. The Walpole Indians showed lack of team work, and the game was rather one-sided from the spectators' point of view.

#### The Last Game

The Walpole Indians played M. A. C. Decoration Day before a large crowd, M. A. C., as a fitting end from the baseball season, beat the visitors 10 to 4 before a large crowd. Millar was in good form and kept the visitors' hits well scattered. The Walpole Indians showed lack of team work, and the game was rather one-sided from the spectators' point of view.

#### Detroit College Beaten.

On Thursday afternoon M. A. C. beat Detroit College on the home grounds. The visitors were confident of victory after the first half of the game, but were entirely surprised by the sudden turn of events. A small crowd was present and witnessed the entire contest, which was uninteresting after the first half of the game.

M. A. C. blanked the visitors in the first half of the first and made one score. Detroit College got a man around the bases in the second and this was all they could do in the way of scoring. M. A. C. pounded D. Sullivan's shots consistently from the beginning and in the sixth drove him out of the box. D'Hesse, who succeeded him, fared little better. Last year Sullivan was more effective against M. A. C., but the home team had on its batting clothes and would have hit four, if pitcher placed in the box. As Detroit College had recently defeated Albion, M. A. C. got much satisfaction out of this side score 19 to 0.

# The Donserreaux Clothing & Grocery Co.

M. A. C. Special

Is now being distributed for the Opening Sale of Dry Goods, Clothing and Groceries. A special sale exclusively for the College and Collegeville. Be sure and get one of our circulars.

A. M. DONSEREAUX.
Mr. R. C. Benner of Jackson, was a College visitor Saturday.

Hor. E. N. Bates visited for a short time last week his sons at the College.

Messrs. Christopher and Foster of Lansing, have been lending some help the past week in the coaching of the track team.

Prof. Taft is in Texas upon invitation of a press association, backed by the Cotton Belt Railroad. Prof. Taft went to Texas as fruit expert.

Miss Mae Kingsley has been visiting her cousins, Ray and Lee Kingsley, at the College for a few days. Her parents, Mr. and Mrs. C. M. Kingsley, were also here a week ago.

A cement walk has been built from in front of the dairy building to the library building. Much work has been done the past week in putting the campus in good order for Commencement.

Officers of the Hesperian Society for the fall term 1903 have been elected as follows: President, M. W. Taber; Vice President, J. S. Tyler; Treasurer, G. W. Nichols; Janitor, W. S. Merick, Pres.; C. D. Sterling, Vice President, J. S. Tyler, of Gladwin.

The following officers have been elected by the Columbian Society: W. S. Merick, Pres.; C. D. Sterling, Vice Pres.; E. N. Bates, Sec.; L. I. Graham, Treas.; W. E. Piper, Sec. of Records; W. B. St. John, Marshal; F. H. Sanborn, Record Editor, G. W. Talladay.

Numerous visitors looked over the College Decoration Day.

Mr. J. S. Tyler has been enjoying a visit from her mother, Mrs. W. J. Tyler, of Gladwin.

Prof. Henry, of the University of Wisconsin, well known to all students of agriculture, spent a day at the College last week.

The wrestling meets that were partially arranged for between M. A. and Olivet and M. A. C. and Albion did not take place last week.

Mr. W. S. Leonard is revising his book for use in stop methods, the first edition having been published two years ago. The new book will contain in the neighborhood of 125 pages and 100 illustrations.

A small part of the botanic garden, lower than the rest, has been scraped and preparations are now being made for elevating this portion. Two hundred varieties of seeds have been planted under the bower belonging to the garden.

The board in the men's bowling clubs for the spring term has been audited as follows: A, $2.60; B, $2.95; C, $2.55; D, $2.93; E, $2.65; G, $2.01; H, $2.70. The high prices are doubtless due to the advance in the cost of meats.

At the Horticultural Club last Wednesday evening, Mr. Longyear gave an illustrated talk on Kergosken or cell division, and Mr. Dean spoke interestingly of this year's orchard and garden experiments, especially those with strawberries. The next meeting will be held June 3rd. Election of officers.

Mr. and Mrs. Miner, of Owosso, have been working in New York, is visiting friends in the city.

The two young elk in the College "Zoo" were sold last week. They have been placed in the John Ball Park, Grand Rapids. The two old elk at the College are shedding their old coats of hair very rapidly and the elk that dropped his antlers a few weeks ago now has new ones developed to a considerable size.

Patent Welt Oxfords.
ABOUT THE CAMPUS.

Prof. U. P. Hedrick talked before the Maple Club one day last week. He was accompanied by Mrs. Hedrick.

In the current number of the Michigan Intercollegiate, Professor W. H. F. Waters’s paper on Haslett Park Sink Holes.

Mr. St. John, brother-in-law to ex-President Bird, and one of the best tennis men at the U. of M., will pay M. A. C. a visit before long.

Experiment station bulletin No. 208, by A. W. Shimer, shows, by B. O. Longyear, is ready for distribution.

Like the other bulletins which have come out recently, No. 208 is written in an entertaining way and consequently will not repel anyone by the dry, academic quality. Numerous half-tunes appear in the bulletin, the original being furnished by photographs, and done by Mr. Longyear.

President and Mrs. Snyder gave a reception to the senior class at their home Friday evening. Heart candies were the refreshments used in entertaining. In the first contest, all were required to find the house and visit the house in which there were tales about the house. Mr. Severance discovered the greatest number and took the prize. In the second contest the gentlemen were obliged to make complimentary speeches to the young ladies, but no one seemed pleased, the speaker received a heart, if not, a mitten. Mr. Hesse carried off the honors in the contest. The refreshments were in the shape of hearts.

The Y. W. C. A. girls served strawberry ice and cake, Friday afternoon and evening and were liberally patronized. In the after­noon the ladies were served a lawn in front of the building, but in the evening the tables were set in the corridors. After Miss Bach’s recital the auction of home­made candy took place. Miss Gertrude Peters proved a very energetic and effective auctioneer and the boxes of candied and cookies sold for prices per box ranging from 15 cents to 60 cents. A cake made by one of the bachelor instructors also sold well. About $15 was cleared by the Y. W. C. A. and the amount was divided among the directors and the delegates to Lake Geneva. It is hoped that three Y. W. C. A. delegates of M. A. C. will be chosen.

Hitherto livestock demonstration work at M. A. C. has been limited almost entirely to living animals. From the form and handling qualities of animals deductions have been made regarding the kind and quality of the carcass without any means of proving the correctness of the deductions. So much discrimination is being made by both markets and consumers requires the fixing of standards. This question demands very careful study. Arrangements are being made for the coming year whereby the student will have an opportunity to handle and judge the live animal and thus become accustomed in slaughtering and slaughter tests of the same. And finally the student will be required to cut up the carcass for length, width, and girth and determine the percentage and quality of the same. Demonstrations on living animals only does not permit of a study of “quality” one of the most important factors in meat production.

During the last week the following tennis matches were played:
Wheeler — Willett, 6-1, 2-6, 6-2; Brand — Gardiner, 3-6, 7-5, 6-1; Willett — Peck, 6-2, 6-0; Wheeler — Peck, 6-2, 6-5, 6-2. This practically assures Wheeler’s play­ing the singles at Alumni. In doubles on Saturday Wheeler and Willett best Fell and P. H. Stevens, 6-4, 0-6, 6-2, 6-0. In ladies’ singles Miss Hadley beats Miss Adams, 6-1, 6-0, and Miss Eich­baum, 6-2, 6-3. Miss Hadley will represent the College in the singles and Misses Hadley and Eich­baum in doubles. The team ex­pected from Alma again neglected by the results of the draw as made by two members of the M. I. A. A. board. We meet them first in both singles and doubles, and as they are the strongest team we are to face we run a good chance of not playing much after Thursday. There is certainly something very peculiar about the way in which the matches were arranged. The drawing being done by Bechtel of Allion and Sperry of Oliver apparently without witnesses and with no authority from the board. Further, they have not been officially accepted because although each individual member has been notified. The strange part of it is that in both singles and doubles the drawings were the same: Alma drawing M. A. C. Hillsdale, Kalam­azoo, and Allion; Oliver’s drawing to look more to chance and seems another proof of the intention of the denominational colleges to do all possible to injure M. A. C. Meeting Alma the first day in a 2 out of 5 match gives us about half the chances of winning; then we have in the 3 out of 5 final match. Alma’s man Hyne, who best Shol­don two years ago when playing at Allion tires easily. The drawing will be protested but probably the results will be the same as in the case of the Kalamazoo baseball game.

Spaulding’s Jerseys

We have Spaulding’s $5.00 and $8.00 Jerseys in stock in black and maroon solid colors. Should anyone at any time find anything defective about goods purchased here, they would confer a favor on us by letting us know about it.
