Johnson and Millar the negative.

The Women's Club will meet on Monday, Jan. 15, at 2 p.m., at Mrs. C. E. Marshall's. Members please note change in time and place.

The King's Daughters will meet on Wednesday, Feb. 3, at 3 p.m., at Mrs. Snyder's.

The Junior class in dressmaking will give an informal reception to the ladies of the faculty on Saturday afternoon from 4 to 6. The seniors will assist in the reception. One feature will be the fact that the students will wear the dresses made by them under the supervision of Mrs. Gingles and Miss St. John. The work in domestic art is very interesting and is exceedingly practical.

DEBATING TEAMS.

The semi-finals in the debating series were held last Friday evening. The affirmative, miller and Johnson, defeated the negative, miller and Gardner, 17 to 1 in favor of M. A. C. In the quarter-finals, Umpire, first half, Kratsenburg; second half, Brewer; third half, Brewer; fourth half, Foster. The work in domestic art is very interesting and is exceedingly practical.

HORTICULTURAL CLUB.

Mr. G. M. Bradford gave a very interesting talk before the Horticultural Club last Wednesday evening, on Horticulture in Illinois.

Mr. Bradford has charge of a cold storage plant under the direction of the State Experiment Station. He spoke of the "Bitter Rot," the principal apple disease of Illinois and of experiments which were conducted the past season to prevent it. It was found that the best results were obtained by spraying with Bordeaux mixture during the whole season.

The station is also conducting extensive cold storage experiments.

The Michigan Engineering Society held its meeting in Lansing during the week of January 11. About 30 engineers were present. Instrumental music receives a good deal of attention at M. A. C. and Friday evening's entertainment showed much proficiency.

RECIPIAL.

The following program was given by the students of music at the Women's Building on Friday evening, at 7:30.

Geo. W. Kinsey, D. V. S., is taking post graduate work in Veterinary Science in the Chicago Veterinary College. He is thinking of working for the M. S. degree from M. A. C.

P. S. Rose has charge of steam engineering at the North Dakota Agricultural College. He makes a special study of farm motors and has supervision of the shops. The growth of this work has been quite remarkable. The first year 90 students enrolled in this department and this year 250. Lack of room will limit the number in the future.

Mr. Rose is now writing a text on farm motors and expects to publish it within a few months.

F. O. Foster has charge of dairy department in the Oklahoma Agricultural and Mechanical College. He finds the climate agreeable, the college progressive, the surroundings pleasant and the work both interesting and plentiful. He has made plans for a new dairy building and expects to see it built with stone next winter. Here is to another M. A. C. boy who is making a success of his work!

ALUMNI

Albert Dodge, secretary of the Dodge College Pin Co. of Rich­mond, Va., called at the college on Monday evening and presented the freshman class, mechanical course. The Dodge College Pin Co. produces one of the finest of its kind in the world. Last year they supplied ¾ of all the export trade paper from the Pin box to each containing 720 pins. Factories are maintained at Richmond, Chicago, Detroit, Birmingham, Kansas City, Minneapolis, and N. Hamp. The company buys logs which are reduced by man to pieces ¾ of an inch square and ¾ to 5 inches in length. Women discard the poor pieces and arrange the good ones so that a letter, working automatically, can do the turning. The printing of the design is also done by machines. Manual labor is saved by using machinery as far as practicable. The book is made this little volume possible.'

H. E. Van Norman, of Purdue University, is doing considerable work in Farmers' Institutes this year. He has charge of the dairy work in the university.

MICHIGAN ROUND-UP. "WILSON'S SUGAR BOWL" FOR PARTY SUPPLIES, TABLE DECORATIONS, AND THE DARNEL TEST-CONTEST CONFECTION MANUFACTURERS. Published at the request of the lect­urer of the State Grange.

For Party Supplies, Table Decorations, and the Darnel Test Contest Confection Manufacturers.

THE CROP OF CORN. The Crop of Corn is out. The bulletin was prepared by Prof. Jeffrey for use in home and social study of the corn crop. The bulletin is of particular interest, as it gives a broader understanding of the magni­tude of the problem and the solutions are inserted such as, Why does Kansas give an average yield for the corn crop? The bulletin also gives an average yield for the corn crop in Michigan. It gives an average yield for the corn crop in the largest of the corn growing states. Michigan. The bulletin published at the request of the lecturer of the State Grange.

IF YOU DON'T WATCH OUT.

When your feet are in the library,
And having lots of fun,
A laughter and a giggle
As if your times had come,
You'd better watch your corners.
And keep your knees locked out,
Or the librarian'll get you,
If you don't watch out—Er.

TO THE LOSER.

If you've lost your man, lad?
Run fast and close your eyes, lad—
By the tape, lad—

You'll have the best of your luck, lad
None but the best are safe, lad—

Never mind the losing—

Beaten at the tape, lad?

Take it like a man !

END AS YOU BEGAN;

Put your hand on your heart—

Fills his cup for you,

And take it like a man !

TO THE WINNER.

When you win the girls, lad,

Diamonds turned to paste, lad—

Smile and close your eyes, lad—

Never mind the losing—

Beaten at the tape, lad?

Take it like a man !

TO THE LOSER.

When you lose the girls, lad,

Smile and shut your teeth, lad—

Never mind the losing—

Beaten at the tape, lad?

Take it like a man !

TO THE WINNER.
