KALAMAZOO VS. M. A. C.

Next Saturday, Kalamazoo comes to M. A. C. for a championship game. M. A. C. must win this contest and everybody should be out to lend enthusiasm and give life and vim to the players. From present indications, neither Alma nor Weil will participate in the finals. One of the "Big Four" will also have to drop out. Alba seems to be certain of a position. Consequently, the fight will be among M. A. C., Hilldale and Kalamazoo. We have defeated Hilldale, now let us add Kalamazoo and bring along your future secure. Bring along your horns, megaphones and voice boxes and be not backwards about using them.

BASEBALL

The first championship game was played with Hilldale at M. A. C. last Wednesday. Palmer was hit hard and was rather wild after the third inning. Hyde pitched a fine game, allowing only three scattered hits, Hilldale played good ball, but M. A. C. outdistanced her at every point.

The score:

**HILLDALE**  AB II R PO E

**Alma**  AB HR PO E

Atwood c . 7 3 0 0 0 13 11

Brown m . 4 2 0 1 0 11 11

Brown c . 2 0 0 0 0 0 0 0

De Pew c . 4 0 1 1 1 15 11

Hogan 1 4 0 0 5 0 0 0

Hillidale . 1 0 0 3 0 0 1 0

Hyde 1 2 0 0 1 12 11

Three-base hit, Millar; two-base hits, Ellsworth and Armstrogs.

The score:

**M. A. C.**  AB HR PO E

Tower 1 4 0 0 2 2 1 1

Canfield 2 3 1 1 0 11 11

Chappel 1 2 0 0 2 11 12

Brown m . 4 2 0 1 0 11 11

Rowditch m . 3 0 0 0 0 0 0 0

Jones 2 3 0 0 1 2 3 1

M. A. C. must win this game. M. A. C. must win this game. M. A. C. must win this game.

**THE ST. LOUIS EXPOSITION IS OPEN.**

At 11 a.m. April 29, President Roosevelt at Washington pressed the golden key which started the machinery at the St. Louis World's Fair and the Universal Exposition of 1904 was declared open by President D. R. Francis of the Exposition Commission.

After three years of work and an expenditure of $35,000,000, the exhibition building had been completed and filled with a wonderful collection illustrating the industries, arts and literature of the civilized world. To give one an idea of its extent, it can be compared with the Chicago Exposition. The St. Louis Fair occupies 1,000 acres, while 635 acres were used at Chicago, 530 at Buffalo and 150 acres at Omaha, or 117 acres less than are used at St. Louis. The Exposition at St. Louis covers with its buildings 145 acres, while 105 acres supplied land for the Chicago, Buffalo, and Omaha fairs combined. The cost was also 20 per cent. greater at St. Louis, and the statement that the St. Louis Exposition is merely twice as extensive as the one at Chicago and more than eight times as large as the Buffalo Exposition is no more than the truth.

While the principal exhibit buildings in the Horticultural Building and the largest and finest collection of Fruit ever placed upon exhibit tables will be shown. This is made possible by improvements in refrigeration and in the use of preserving jars for storing fruit in jars, as well as on account of increased interest in this line of agriculture. The number of states have from 200 to 2000 barrels in cold storage to be brought out as required to replenish the tables until this year's crops is ready. Most of it consists of apples but excellent results have been obtained by New York in preserving grapes and pears in a fresh state. California as usual leads the exhibits of citrus and sub-tropical fruit and also shows a large collection of very fine apples as well as vegetables of all kinds in a preserving museum. Missouri is putting a large sum into booth and tables and its fresh fruit was shown either by this state or Illinois exhibit in the Horticultural. Among the largest exhibitors are Kansas, Iowa, Arkansas, W. Virginia, Indiana, Kentucky, New York, Virginia, Oregon, Canada. Out of some forty exhibitors, only about twenty of them have taken place in exhibit. The Michigan exhibit will be upon the tables by May 10, having been delayed by the tables and the exhibit not being completed, as every man that could be secured was used in completing the Michigan Building in time for the dedication. The Michigan agricultural exhibit contains a grain of all kinds in straw and seed and a very fine collection of wool and a number of the forage crops. The mining and forestry exhibits are also near completion.

The Michigan building was dedicated Monday afternoon, the first of any of the state buildings. It is located very conveniently in front of the Fisheries building and quite near the main exhibit buildings. Being located upon a rather low spot, it suffers in appearance with most of the other buildings, which are upon elevated sites. The building is 110 feet high, being 33 feet thick on the outside, and 17 feet wide upon three sides. It is very conveniently arranged and is equipped in oak, with original and unusual furniture. Most of the furniture is in place and in size and equipment it is admirably well suited for the purpose for which it is designed, and considering the cost it is a credit to the state.

**SUMMER COURSES IN ENGINEERING.**

Prof. Weil has recommended the following courses for the coming vacation: (1) Woodworking, (2) Firing, (3) Foundry Practice, (4) Chipping and Filing, (5) Lathe, Drill and General Machine Shop Practice, (6) Mechanical Drawing, (7) Elementary Machine Design, (8) Laboratory in Steam Engineering and Strength of Materials. These courses will be instituted providing a sufficient number express their desire to attend. Send in letters of inquiry to the College. The courses will be practical and thorough and will extend over a period of eight weeks.

---

**ALUMNI**

With '97: A. H. Pope, editor of "Postmaster Everywhere" is doing all in his power to make the meeting of the Michigan Postmasters, which will be held at M. A. C. in June, a success. He is publishing cuts and sketches of the college buildings.

M. A. C. AND ORATORICAL
Hon. R. P. Pattingill,
Editor Moderner Topics.

Dear Sir — In the last issue of your paper, in a note concerning the M. A. C. and Oratorical contest, there is an error which I think was committed erroneously that the Normal college had won in three preceding contests. As a matter of fact there have been only three contests between the two colleges. In the first, the Normal won by the unanimous decision of the judges. In the second the contest was very close indeed, and while the judge’s decision was two to one in favor of the Normal college, the vote was not known to the Normal college until the day after the contest. It is very likely that such a difference in the vote might have made a difference in the name of the college. The judge’s decision was reversed, and the Normal college was awarded the first position. We have now won the contest three times, and are right to be proud of our college. The Normal college is not inferior in any respect to the M. A. C. college, and we have every reason to be proud of our college. We are the best and the most successful college in the state, and we have every reason to be proud of our college.

ABOUT THE CAMPUS.

Three years ago yesterday a snow storm prevented a game of ball at M. A. C.

Born, to Mr. and Mrs. G. Masse, on Wednesday, May 5, a nine-pound boy.

Instructor Michels was at Sturgis last Wednesday and Thursday inspecting the cheese factory.

The Juniors defeated the Sophomores 17 to 15 last Saturday afternoon. The feature was errors happily averted. A spark from the bleachers on the west side of the athletic field are being put up, and will be ready for Saturday's game.

Prof. E. F. Kedzie has been appointed a delegate by Gov. Bliss to the International Tuberculosis Congress which meets in St. Louis, Mo., next October.

M. A. C. Woman's Club.—Notice is given to members that the annual banquet will be held on Thursday, May 12. Miss Newman, a sister of Miss Vaughn attended M. A. C. a few years ago.

Prof. E. J. MacEwan, of Kalamazoo college, visited at Mr. Collingwood's last week Friday and Saturday. Prof. MacEwan had charge of the Department of English at M. A. C. from 1880 to 1899. Through the prompt and decisive action of Mr. Crawford, what might have been a serious accident was happily averted. A spark from the cauls fell on the roof. By heroic action, Mr. Crawford extinguished the same.

The juniors in agricultural experiments are working along various lines. Testing the efficiency of the wind mill in grinding grain, studying the effect of the application of manures on the water holding power of the soil under the direction of Prof. Kedzie a study is being made of maple sap and sugar. Methods of butter making are also being considered.

Director W. H. Jordan of the Geneva Experiment Station says in a letter to Pres. Snyder that the board of control has authorized the station to admit between now and July 1st three student assistants, one in each of the departments of botany and entomology. The candidates must be graduates of a four-years' course and must have pursued studies specifically fitting them to undertake work in one of these departments. They are expected to remain at the station one year. Board, room, laundry expense and laboratory material will be furnished free of charge, no other compensation being offered.

Y. M. C. A.

The Thursday evening prayer meeting was conducted by Mr. A. C. Craig; topic: "The Things that Endure." It was a testimony meeting, a great many taking part and keeping the time well occupied. The feature of the evening was the large number of new men who took part. The meeting was in every way a success.

Sunday morning chapel service was conducted by Rev. R. C. Dods of Lansing. Text: Luke 16:10. The theme was faithfulness in little things and it was shown that it is only those who are faithful in the little things that have opportunity to do great things.

The union meeting of the Y. W. and Y. M. C. A.'s was led by Hon. C. H. Collingwood. He reviewed briefly the history of the Jewish people and the life of David, drawing therefrom some practical lessons for ourselves. He emphasized the value of Bible study and showed how David while in all faults always kept before him the trust that had been placed in him.

All the meetings were well attended.

M. J. & B. M. Buck.
MICHIGAN PIONEER AND HISTORICAL SOCIETY.

We most cordially invite you to meet with us to celebrate the thirtieth birthday of this society, Wednesday and Thursday, June 1 and 2, 1904, in the Senate Chamber at Lansing, Mich.

Excellent papers will be read and good music has been provided. Reduced rates can be obtained at the hotels. Thursday morning will be largely devoted to pioneer and historical reminiscences.

Have you no debt to pay to the memory of the pioneers, to your father or mother or grandparents? Have you done all you could to assist in gathering your local history, or articles for the Historical Museum where each gift becomes a memorial to user or donor? Michigan needs a good history. We aim to take the work of such a volume, but we must depend on Michigan citizens for their records. What are you doing to aid this work? Will you not join the society, the entire expense of which is covered by the membership fee of one dollar?

We expect volume 33 will be completed in time for the meeting. It will contain the record of the activities in the field of Michigan history during the ten years. As a concert artist he has had extended experience and uniform success both in oratorio and recital work.

He, (Mr. Schroetter), puts his whole soul into his music and when he plays, his instrument is made to respond with apparent intelligence to his varying moods.

He most excellent pianistic abilities have gained my greatest interest and admiration.—Consul Anserg, Berlin, Germany.

Sedalia, Mo., Musical Courier, voice is pure and equal, sang with great applause bestowed upon him. He captured his hearers and deserved the applause bestowed upon him. Mr. Howard sings with an ease which adds much to the enjoyment of hearing him.—Hamilton Daily Democrat.

Mr. E. H. Douglass, tenor, sweet in tone, strong, artistic, melodious, sympathetic, flute-like.—Sacramento, Daily Sacramento Daily Republic, his voice is clear and strong, his pronunciation distinct. He captured his hearers and deserved the applause bestowed upon him. Mr. Howard sings with an ease which adds much to the enjoyment of hearing him.—Hamilton Daily Democrat.

Mr. Edwin H. Douglass after an absence of several years in Europe comes back to his native America and some of which have never been translated from the French. Already requests have been received for this publication, and we feel it will be a rich addition to history.

Mr. E. H. Douglass, tenor, gave a recital on last Friday afternoon at the Waldorf. His voice is pure and equal, sang with great applause bestowed upon him. He captured his hearers and deserved the applause bestowed upon him. Mr. Howard sings with an ease which adds much to the enjoyment of hearing him.—Hamilton Daily Democrat.

Mr. Edwin H. Douglass is a lyric tenor, sweet in tone, strong, artistic, melodious, sympathetic, flute-like.—Sacramento, Daily Sacramento Daily Republic.
