Y. M. C. A. team by the score of 29-0. M. A. C. used 15 men in the game, 7 of which played the last few minutes of play when they rushed the ball to the thirty yard line when they were held for downs.

M. A. C. SECOND TEAM — FLINT STATE SCHOOL 5.

The second team won its second victory of the year by defeating Flint, Saturday, by the close score of 6-3. Flint defeated the second team last year 17 to 0, and the boys went down for revenge this year. Bob played a good game at quarterback, and all the team played good ball. Flint gave them royal treatment, as is the custom of the boys and they were sorry they beat them.

The second team was made up from the following names: S. H. Parker, C. A. Lennon, A. C. Brown, Frazier, Gassee, Parsons, Charleston, Bates, June, Burdette, Thomas, Kramer, Smith.

M. A. C. AT ALBION.

On next Saturday our foot ball team goes to Albion to play our first intercollegiate game this season. It is to be hoped, as well as those who accompany them, that they may carry off the day. The Albion team will be accompanied by a good crowd of rooters, for this will be one of the hardest games of the year. The outcome is as follows: Albion line averages about 200 pounds and is well muscled; while M. A. C. will average about 170, making their line about 30 pounds to the man heavier. It is believed, however, that our back field is superior to theirs and if the same tactics which were played in the Ohio game can be used on Saturday, we stand a chance to win out. It goes without saying that both teams will play the game of their lives and both, of course, expect to win. It is to be hoped that both teams, as well as those who accompany them, will bear in mind the feeling existing between the two colleges, and conduct themselves, and play such games as those who accompany them, will bear in mind the feeling existing between the two colleges, and conduct themselves, and play such games as

BIBLE STUDY CLUB.

A "club" for the general study of the Bible has been organized, and the interest in the study has been growing steadily. There were between 90 and 100 students, men and women in college. The work for more men in the Bible classes is still going on. Those who wish to take the course are requested to attend.

MILITARY HOP.

The first "military" of the season was held at the armory, Friday evening, under the direction of Capt. Fowler. A brilliant company of more than a hundred cadets, almost wholly composed of college people, gathered at the accustomed hour and, under the inspiring strains of the grand march, played by the Germania Orcheatre of Battle Creek, presented a gay scene, as they marched around the circuit of the great hall. The music throughout the evening was fine and met with the approval of all. The number of uniformed men in attendance was probably less than it will be later in the season, but there was so late. Prof. and Mrs. Veddery and Mr. and Mrs. Brown

were patrons. Mighted with the gay throng were also Dr. and Mrs. Waterman and Mr. and Mrs. Palmer. There was also noted among the dancers the genial countenance of Mr. and Mrs. 0. T. Alongside Capt. Fowler and his assistants are to be congratulated upon the success of the first "military" of the year.

JUNIORS 12, FRESHMEN 0.

The first game of the inter-class series was stubbornly fought until the last minute of play, when Spencer broke through the freshmen's left tackle for 90 yards and a touchdown. After the goal was kicked another touchdown was made by Barnett after an 80-yard run. Kramer scored on defense to the 30, while Bell of Marquette H. S., was the all around star for the freshm. The juniors have not yet seen the game since they entered college.

Y. M. C. A.

The interest in the Thursday evening meetings is growing every week. The association is planning to purchase more chairs to accommodate those who have had to stand during the last few services. At the last meeting led by Mr. Bell assisted by Mr. A. A. Flak and Mr. Crosby, there was the largest attendance that has been since school began this year. It is the plan of the Y. M. C. A. to make these meetings of interest to every man by choosing topics that touch the life of the college man. The work for more men in the Bible classes is still going on. There were between 90 and 100 men in the classes Sunday morning. This means that every man who is interested in the study, and feels it to be his duty to help, must draw a man out of himself and to purchase more chairs to accommodate those who wish to take the course. Will all those who wish to take the course in "The Acts and Epistles" please report to Mr. Collingwood in room 9, College Hall, at 8:15 Sunday morning? Dr. Edwards' class in Bible study, which is given especially to the older students, is held in room 7 at the same hour.

Rev. Dr. Worrall gave a very convincing argument for right living when he addressed the congregation in the Chapel Sunday morning. Mr. Carl Smith spoke at the Sunday evening meeting on the responsibilities of the Christian man and woman in college. His report of facts given at the Secretaries' Convention at Columbus, Ohio last week, show that the conditions in most of our colleges are the same as in the different schools. Too much indifference on the part of the students towards the religious services is the common result. The idea that Christian work draws a man out of himself and causes him to see beyond the regular routine of daily life was well brought out.

ALUMNI.

Mr. Reid: "He is a young man of about 34 years of age, and a close student of public affairs. He was born in 1861, on a farm near Pewamo, Ionia county, in this state. His parents are German by birth and are still living at this village. Mr. Balke was educated at the local schools, entered the Agricultural College at Lansing in 1879 and was graduated in August, 1883. He studied law and was admitted to the bar at Ionia in February, 1883. He at once located at Alma for the practice of his profession, where he has resided ever since. Mr. Balke is an able, honest and reliable attorney and citizen. He has made the practice of law a success. He believes it to be a business as well as a profession, and that the attorney who can't bring satisfactory results to his clients, cannot make anything for himself. This is the key to his success. He is a skilful practitioner, a great judge of human nature and a supreme speaker. If elected to Congress Mr. Balke may be depended upon to see that something is done. He will accomplish something for his district and state. He asks for a vote of confidence for the coming election. His friends believe him worthy of it. He may be depended upon to give a good account of himself.—Seegram's Evening News 98.

Miss Sturdevant to Miss Susie Davis occurred at seven o'clock on the evening of October 7, at the home of Father Brancheau, 217 Seymour St. After the ceremony the bridal party were received at the home of the bride's parents, Mrs. and Mrs. Geo. Davis, 500 Pine St., S. The house was prettily decorated with palms, ferns and white carnations. The bridal supper was served by the Nissee Grace and Irene Cooper and Bertha Huyck, after which Mr. and Mrs. Appleyard left for Phila-delphia. Mr. Appleyard has a position with the Turbine Electrical Company at the above place.

Harry J. Brunger is working on placer mining elevator dredges with Mr. H. J. Johnstone of Placer, Wash. He states that the work is "mighty interesting," and that the placer mining future outlook. Homer Fay, with '01, is also with the above company.

ABOUT THE CAMPUS.

Mr. W. Robison and wife of Milan, are visiting their son, Floyd W., and family for a few days.

The forestry department would like to purchase a few bushels of fresh butternuts and black walnuts. The Ero Alphians have received their new society pins which consist of very neat monograms of the Greek letters E. A.

Mr. W. C. Strand who was ill in the hospital for several days left for his home in Onego on Thursday of last week.

E. I. Dail, '01, and Alex Krentel, '99, were among the M. A. C. alumn who attended the first military meeting of the Polytechnic society.

The class in metallurgy expect to summer and expects to return to his work in the Islands on Nov. 1.

Mr. George T. Schoen, for five years a teacher in the Philippines, was a visitor at the college the past week. Mr. Schoen has been in America during a greater part of the summer and expects to return to his work in the Islands on Nov. 1.

Mr. Hidrosollo, who entered college at the beginning of the fall term, was one of his former pupils.

Mr. Enrique Aguilar, a young man from Camaguey, Cuba, has just entered our year mechanical course. Mr. Aguilar, who is a cousin of Antonio Borrero, Sp. '00, was at the College a few years ago and attended the public school for a time. He has been a student at the New Jersey Military Academy for about two years, but has been at his home in Cuba during the past summer.

Maj. McKenzies of the Salvation Army, gave a stereoptican lecture in the Chapel on Friday evening. He depicted the ills of New York and the methods of work employed by the Salvation Army to alleviate the sufferings of the needy. A number of moving pictures were also shown which brought forth applause, especially from the small boys. On the whole, it was a creditable entertainment and seemed to be enjoyed by all present.

Every autumn it is found necessary to catch ten to fifteen muskrats from time to time as they visit the ponds in the botanic garden where they do considerable damage to the aquatics. Mr. Seeley while at work in the garden has been very successful in catching muskrats for which traps are kept continuously set. One of these traps has caught two bull-hawks in succession, each about six inches long.

The old graduates up to 1885 will remember that the tools of the Horticultural Department were stored in the basement of College Hall, which was so dark that little tinkering could be satisfactorily done there, and so damp that the tools rusted badly. Years ago a new building was constructed which contained a good room for storing tools. Can you believe it, the students have so increased in numbers, with much less increase in laboratories, that two-thirds of the basement has been fitted up for class rooms. Engineer Newell said this was possible for two reasons—we now have steam heat and electric lights. Besides this, the teachers who use those new rooms are doing their best to see that the students under their charge do not become rusty.—W. J. B.

The Republican Roosevelt-Ferris club was addressed on Tuesday noon last by Attorney A. M. Cummins of Lansing. In the short time at his disposal Mr. Cummins presented in a very able and forcible manner the attitude of the two candidates for governor toward primary reform and machine legislation. He compared the present Macedonian cries of the machinery men to the Irishman who cried to another one at some distance to come and help him out another man out, who was stuck in the mud up to his ankles. After calling several times and receiving no reply he became more urgent so that the other asked him what his hurry was, if the man was only in up to his ankles „if I forgot to tell you," he said, "that he is in head first up to his ankles." That the machine republicans are uneasy is shown by the fact that they have called into the state men of national reputation to help stem the tide of the repudiation of primary reform and machine legislation. He compared the present Macedonian cries of the machinery men to the Irishman who cried to another one at some distance to come and help him out another man out, who was stuck in the mud up to his ankles. After calling several times and receiving no reply he became more urgent so that the other asked him what his hurry was, if the man was only in up to his ankles „if I forgot to tell you," he said, "that he is in head first up to his ankles." That the machine republicans are uneasy is shown by the fact that they have called into the state men of national reputation to help stem the tide which is going toward Ferris.

The main points discussed was the defeat of the Colby primary reform law by the republicans last year, the repudiation of primary reform by the state convention, which was "held in the hollow of one man's hand," and the inconsistent attitude of the machine leader, who, after having killed the primary reform in convention, now advocate it "in spots" which is not the issue at all. Much stress was laid on the fact that young men cannot afford to be blind to the principles of right and wrong by sticking to a party after it has been dominated by unprincipled men until it is "temporarily recreant" from its own fundamental principles. "Be a party man, but be not come to your party rather than to yourself." W. J. B.
