MAY FESTIVAL.

The College held its second May Festival of last week, when a half holiday was given in order that all might enjoy the feast of music.

The afternoon concert was thoroughly appreciated by the music lovers. Mr. Robert D. Carson opened the program with a series of Indian love lyrics by Woodford Fiddlen, who has spent much of her life in India. While the oriental quality of the rhythm and melody is rare, there is a charm about it which lost nothing by Mr. Carson's interpretation. The Kashmire Song was especially enjoyed. His second group of songs showed even better his artistic refinement of tono-treatment and his intellectual grasp.

Mr. Schreottet, who made many friends when he gave last year's concerts, received a warm welcome.

The "Moonlight Sonata" was given with precision, with telling delivery, and the Chopin numbers showed a brilliancy of style and a mastery of technique which promise a fine future for the young pianist. Miss Elizabeth Blamere, the soprano soloist, sang the favorite "Roméo and Juliet" one of the most enjoyable features of the recital and his artistic refinement of tono-treatment and his intellectual grasp.

Miss Blamere's voice is clear and true and her manner very expressive. She enters fully into the spirit given most effectively, the attack of this great composition and her interpretive task. She enters fully into the spirit of the great composition and her interpretations were thoroughly satisfying even to the most critical.

The chorus, very acceptably rendered, presents the most practicable method of this great composition and her interpretations were thoroughly satisfying even to the most critical.

The College held its second May Festival on Friday of last week, when a half holiday was given in order that all might enjoy the feast of music.

The question discussed at the debate was, "Resolved: That the M. A. C. man at the above place for the summer of '99. He writes that he will be glad to see such a goodly Debating Club Thursday night was, when the "Moonlight Sonata" was given with precision, with telling delivery, and the Chopin numbers showed a brilliancy of style and a mastery of technique which promise a fine future for the young pianist. HISTORICAL LEAGUE MEETING.

A large crowd assembled in the college auditorium last Saturday afternoon for the meeting of the Historical League. The program was given by Dr. Mrs. R. B. C. Adams, the speaker. The Historical League is a new organization, recently formed for the purpose of recording and preserving in some permanent form the history of the state of Michigan, and of the college and its history. The meeting was well attended and the selections given by Dr. Mrs. Adams were a great success.

M. A. C. v. NOTRE DAME, 5-7.

The above in brief tells the story of all the track events on last Saturday. Although the day opened with a drizzling rain it was good track weather by the time the meet opened, a large crowd was present to witness the contest. At 9:30 the meet was opened, and the biggest field of the season was turned out. A long distance event was the first race. Tryon showed himself a coming star in the quarter, running to Waite. Nichoson proved himself the best N. D. man, winning 3d in the mile, Holdsworth winning 2d, Hatfield, 3d. All M. A. C. men lost time, 45 1/2 sec.

Running broad jump—M. A. C., 1st; Nichoson, M. A. C., 2d; Bracken, N. D., 3d—21 ft. 45 in.

400 yard dash—Graham, M. A. C., 1st; Tryon, M. A. C., 2d; Keefe, N. D., 3d, time, 54 3/5 sec.

Half mile run—Draper, M. A. C., 1st; Beacom, N. D., 2d; Burroughs, M. A. C., 3d, distance, 57 ft. 7 in.

Two mile run—Waite, M. A. C., 1st; Powers, N. D., 2d; Darber, M. A. C., 3d, time, 11 1/2 sec.

Sprint—M. A. C., 1st; Lombard, M. A. C., 2d; Lombard, M. A. C., 3d.

Discus throw—Beacom, M. A. C., 1st; Kublitz, M. A. C., 2d; Kublitz, M. A. C., 3d.

Ball throw—Nichoson, M. A. C., 1st; Tryon, M. A. C., 2d; Shuler, M. A. C., 3d.

TUESDAY, MAY 9, 1905.

COLLEGE YEAR BY THE YEAR.

T. H. McHATTON, '07.

In all the track events M. A. C. has an especially well compacted team. The above results show that the team was very powerful and the M. A. C. men had the upper hand.

ATHLETICS.

A heavy rain came up Thursday at about the time M. A. C. was to meet Detroit College. The teams, however, followed by a crowd of enthusiastic fans, had come around the field but were unable to start for a half hour or more on account of the weather. The 2000 spectators signs of clearing, the teams lined up, Detroit going to bat first. The visitors were shut out, but H. H. began to manage the stick. When eight runs had been made by our team, only one man was at bat. The game was called on account of the diamond and the prospects for more wet. If we had only had a good day!

Wisconsin comes Thursday to be revenged for her defeat last year. Lewis, who pitched for them last year, striking out 17 men, has requested the coach to be allowed to pitch this game also. Last year's game was 15 innings. M. A. C. won the last half of the 17th, Wisconsin scored 2 runs in the second and were shot out for 13. M. A. C. scored 2 in the third inning and this score was not scored until the half of the fifteenth, when one run was made winning the game. On account of last year's game and our own errors we lost the game. We are men to win this year and will try to win the game.

The features of the game were Canfield's one-handed stop back of first base as an all-rounder. The game was played good ball all the way through, putting up one of the scariest fights of the season. Oliver was poor at fielding and made some costly errors.

The following is the line up:

***

THE M. A. C. RECORD.

Clara M. C. 7-0 Livet 1.

R H PO A E

M. A. C. 7 6 27 15 4

Livet 0 0 0 0 0

In total 7 6 27 15 4

In all the base paths were covered and every run was scored. The visitors were shut out and M. A. C. won with a score of 7-0. The game was an exciting one and was played very well by both teams. The visitors were shut out and M. A. C. won with a score of 7-0. The game was an exciting one and was played very well by both teams.

SENIOR ENGINEERING.

The Senior Engineering Society was exhibiting many very excellent papers at their meeting last Wednesday evening. Mr. E. Gun­ning gave up a paper on "New York Subway." Mr. G. S. Gomey read a paper on "Reinforced Concrete for Bridge and Pier Construction." Mr. G. R. Draper showed a paper on "The Precise Level." Mr. G. R. Draper gave a paper on the "Precise Level," which he made use of in his thesis work.

The members will entertain their brother seniors in agriculture with a spread and smoker next Friday evening.

About eighty guests accepted the invitation of Pres. and Mrs. Snyder, who entertained on Thursday evening in honor of Gov. and Mrs. Warner and the State Board of Agriculture. Mr. C. J. Monroe of South Haven, Mr. and Mrs. A. P. Biss of S. L. W. and Miss A. F. Buskin of Wayland, Mr. and Mrs. R. D. Grant of Grand Rapids, Mr. W. C. Scott of Bay City and Mr. T. M. Young of Grand Rapids attended the dinner.

The place cards were hand painted pink roses, and the general color scheme was red and white. The house was beautifully and appropriately decorated with roses and sprays of flowers.

Pres. Snyder, in a graceful speech of welcome, introduced Secretary R. D. Warne and Mr. T. M. Young, who followed Pres. Harper's address, never to do himself what he could get some one else to do. He showed entire equality to the occasion, and introduced each speaker in a particularly happy manner.

The toast responded to were as follows: Prof. C. D. Smith, "The Farmer," Gov. Warner, "Michigan," Judge Moore, of the Supreme Court, "The Jurist?" Mr. H. R. Pattingill, "The Educator," Prof. C. L. B. E. of Ionia, "Our Alma Mater." Some vocal solos were given by members of the Choral Club and Mr. H. E. Ellis, of Cleveland, one of the soloists at the oratorios.

In addition to College and Lansing people, there were present members of the Supreme Court, representatives of both houses of the legislature, state officials and others from various parts of the state. This social affair was one of the most delightful and successful in every way that the president's mansion has yet seen.

The Report of the Michigan Forestry Commission for 1903-4 has recently been distributed. The 200 pages contain much of information of importance to those interested in tree-growing in Michigan. The Commission has labored and has helped to make this a comprehensive presentation of the forestry problems of Michigan.

There are eleven full and ten half page illustrations. Beside the report of the Commission there is a report of the Michigan Forest Service, of the Michigan State Forest Service, and of the Michigan State Fish and Game Commission. The report of the Forest Service is devoted to the history of the work, the forest woods, the forest products, the forest economy, the forest economy, the forest education, the forest flora and fauna, and the history of their interests in the subject of forestry.

ABOUT THE CAMPUS.

The walk near the botanic garden is receiving some needed repairs.
Good weather for base ball last week, in fact good for most anything.
The meat market run by Mr. Williams, were among College visitors the past week.

Instructor Hartwell has received a scholarship at Columbus and will study mathematics next year.

Mr. Rex Roberts, '09, who has been in the hospital for several days with pneumonia, is much improved. His mother, who was with him over the weekend, is to leave in a few days for her long trip to the Philippines.

Instructor Norton received a visit from his father, Mr. Horace Norton, of Howell, the past week.

Miss Katharine Goss of Plainwell spent several days with her brother, Amt. Harry Goss, the past week.

Half-term marks are due this week. It does not seem possible that nearly six weeks of this term have passed.

At the Easter service of the M. A. C. Sunday School there were 96 present, the total collection amounting to $3.59.

A gentleman's umbrella was found yesterday near the Taylor cottage on the Delta. Owner may have same by calling on Mr. Penner in Collegeville.

Miss Balsbach, who was ill at her home in Grand Rapids for a time, returned last week to her accustomed place in the Library.

Measurers, Gunison and Stephenson are making tests of the hydraulic ram which was recently installed to furnish water for the artificial pond.

Cherries and plums are in blossom in the College orchard and promise a good crop. No damage seems to have been done by frosts.

Prof. Filibert Roth, of Ann Arbor, and Hon. Chas. W. Garfield, of Grand Rapids were at the College Thursday of last week.

Thursday, May 14, is the date of the Wisconsin-M. A. C. game. It is intended to win this game even if we have to play 15 innings.

Mr. P. Willett, sp. '92-'93, has been transferred from Sugar City to Idaho Falls, Idaho. Mr. Willett's work is with beet sugar factories.

Mr. S. J. Fiskins, '99, has been obliged to drop out of classes for a time on account of illness. He has gone to his home in Oak Grove.

Mr. William A. Sutherland, who is in charge of the Philippiian students in this country, was at the College Saturday looking after the interests of the boys at M. A. C.

The parties having the restaurant in hand have also rented the room formerly occupied by the meat market. It is understood that ice cream and lunches will be served.

The new well in the botanic garden is now completed and is perfectly satisfactory. The water will stand over five feet above the high-water mark of the upper pond into which it flows.

Mr. Rex Roberts, '09, who has been in the hospital for several days with pneumonia, is much improved. His mother, who was with him over the weekend, is to leave in a few days for her long trip to the Philippines.

THE M. A. C. RECORD.
A meeting of the State Board was held in the College board rooms Friday, May 5. At this meeting Frank Benton, in charge of Agricultural Investigations, Washington, D. C. The bulletin contains many helpful suggestions in bee culture, including location, races, swarming, crops for honey, wintering disease, and enemies. The bulletin contains nineteen illustrations. It was a revision of one published in 1897.

59.

E. S. Good of the Illinois Experimental Station has an interesting article in the Orange Judd Farmer of May 6, entitled "Finishing Steers for Spring Markets." The writer states three purposes the feeder may have in keeping steers over winter and discusses these quite fully, giving the policy followed by the Illinois station in certain cases.

60.

Miss Anna Mae Tompkins, who was in college a portion of last year in strolling among and studying the trees we have are losing their leaves.

57.

The morning after our arrival I awoke at 5:30 and immediately sent the sleeper on after the man which had been left loose in the open enclosure where we camped. He returned in about 10 minutes to say that they had gone out on the road home. I immediately dispatched the two guides in pursuit and in the meantime I collected plants and filled my botany press which I had brought for this occasion. I found two species of ferns, several composite, one myrtleaceae, two or three parallelis growing on two of the nothofagus, one lignum-vitae, and a great number more which I do not even know the family.

61.

The soil here was very superficial and made almost entirely from the pulverized scoria and walking over it makes one think of walking on cinders from the peculiar crunching grating sound. Along the mountain stream beside our camp I collected several different classes of scoria, some so light that it floated on the water with more than half of itself underwater very, very and with very different kinds of cells, some almost globular, showing how they were stationary when cool and cooked and others drawn out almost like pumice.
