Mr. L. E. Buell of Ann Arbor will give an illustrated lecture on the "World Wide Works of the Y. M. C. A." Sunday evening, June 4, in Pettit Hall. The armory was decorated with evergreen and music was furnished by Whittaker's orchestra.

The chapersons were Professor and Mrs. Velder, Professor and Mrs. Drum, Professor and Mrs. Pettit. Eleven o'clock came all too soon, as everyone seemed to be enjoying themselves.

FARMERS' CLUB.

The question of farm motors was discussed at the Farmers' Club May 29th. It was introduced by Instructor L. B. McPherson, who took up the question from the standpoint of economical usefulness, considering the initial cost, the length of time taken to move and operate the motor, the fuel required, etc. He pointed out that farm motors were most economical for extensive stationary work, such as windmill, electricity, steam, and gas engines. A vote of thanks was extended to Mr. W. E. Wilson, a member of the club, for his paper on "The Farm Motor," and his assistant, Mr. W. E. Wilson (Jr.), for his paper on "The Farm Windmill."

The question of farm motors was also discussed by Mr. W. E. Wilson, a member of the club, for his paper on "The Farm Motor," and his assistant, Mr. W. E. Wilson (Jr.), for his paper on "The Farm Windmill."

The following musical program will be rendered at a students' recital to be given in the auditorium of the M. C. on Tuesday, July 10, at 7:30 p.m. All students and friends are cordially invited to attend.

Duet, Military March — Schubert

In My Neighbor's Garden — McManus

Miss Helen Andrews

Near Perry

Lorraine No. III — Little

Miss Mack

Over the Tannier — Wagner

(a piano, 8 hands)

Miss Mary Thomas, Mrs. Perry

Miss Mack, Miss Northrop

A new lathe bed was recently made by the students in the machine shop for the use of instruction work, which weighs about 350 pounds. This bed will be placed in the machine shop for the use of instruction work.

BOOZOPHONE MANIPULATION.

There was great excitement in Stenton Terrace one night last week when one of the occupants was hauled up before the B. P. music committee for mentally unbalancing other residents of the house. The plea of the prosecution was that music constantly emitted from an instrument composed of bottles has a deteriorating effect upon the mental condition of abstractly minded persons. The court decided in favor of the defense and the guilty party escaped.

The counsel for the defense brought forth evidence that plaintiff had been in a diseased state of mind before said Boozophone was invented, and that he had shown slight signs of nervousness and irritation around "of an Under-the-Ashes" produced by the renowned Stravinsky Squeak Box. In spite of the fact that the plaintiff's attorneys brought forth as evidence the wrecks and nervous condition of plaintiff Judge Blair held that there was no cause for action. At his suggestion, however, a bill was passed limiting the hours in which said Squeak Box and said Boozophone may be manipulated to the time from 6:30 to 9 p.m., and 12 noon to 3 p.m.

The Law and Order Club.

At the meeting on May 24, Mr. Gunson gave a talk, "Marketing with Relation to Gardening and the Raising of Markets." He showed the desirability of getting rid of the middle-men and of the exorbitant rates of the transport of the different kinds of vegetables and fruits.

The great fruit transportation companies, while operating under different names, are all managed by one company in Chicago, which can say at what price the fruits of the west shall come east over any one of the five great trunk lines. Instead of demanding a fair surplus above the amount of transportation they invariably ask "What will the business stand?" and fix their rates accordingly. Combination among fruit growers is needed as well as in every other business.

May 21, Messrs. Stanton Bos, and Burrell will give an account of their thesis work on "The Relation between the Color of Apple Blossoms to the Color of the Fruit" and the practice of preserving same, and length of time the pollen of apples and of strawberries will retain its viability.

ICE CREAM.

Ice cream will be served on the cottage lawn in front of the Women's Building, Friday evening, from 5:00 until 7:30.

ABOUT THE CAMPUS.

Albin shut out Kalamaoo yesterday by the score of 3 to 0.

Mr. A. N. Wilson was visited on Sunday by his mother and sister of Detroit.

College closes for the week on Friday noon. Field day exercises begin at 2 p.m.

Miss Avery spent Saturday and Sunday with Miss Gunnison at her home in De Witt.

Bird on Saturday, May 20.

Mr. Dennis Rogers, of East Jordan, visited his cousin, Mrs. L. G. Holbrook, a day or two the past week.

Miss Raven, ’05, is at her home in Brooklyn, this week, where she entertained Miss Purmort over Sunday.

The W. Y. C. A. on Thursday evening was led by Miss Paulina Raven. Subject—Prayer for Missions and Missionaries.

The bill providing for a new dormitory to replace Wells Hall has passed the senate and will doubtless be signed by the governor soon.

An addition is being built to the cold storage building.

Work has started on Mr. Robinson’s new house north of the hospital, and also on Mr. Woodbury’s house opposite the College grocery.

The thesis by Messrs. Strand and Newton is on the test of the village lighting plant at Jonesville, the test including the boiler, engine and generator.

The botanic garden is a very pretty place just at this season of the year. The water lilies began opening in the little pond the first of the week.

No less than 16 or 18 new houses are either in process of construction or plans made for same in the vicinity of the College. This is beating all past records.

Thursday and Friday of last week Mr. Baker took the foundry students to the Geddes factory where they were privileged to inspect the work in the foundry.

In the thesis work of Mr. Bixby and Mr. Hinds an effort was made to determine the number of air changes in rooms which have different ratios of volume to exposed wall surface.

Katherine, the little daughter of Prof. and Mrs. U. F. Heidel, who was taken to the city hospital early last week while suffering from an attack of appendicitis, is somewhat improved and it is hoped she may soon recover.

Mr. B. H. Swales with the class of ’93 of Detroit was the guest of Prof. Barrows Saturday and Sunday, May 20 and 21. Mr. Swales has spent much time in the study of birds and has a very nice collection of his own in Detroit.

Mr. Blaine Simmons, of Yale, Mich., has been appointed to the position formerly held by Mr. McGowan, and entered upon his new work last week. Mr. Simmons recently graduated from the Owosso Business College.

Heard in bacteriological laboratory where the class is studying different floors and breads:

Miss R.—p—t,—kneading bread and talking to a young man.

Prof. Jeffery is acting as one of the judges in a prize essay contest in the form mechanics department of the Iowa Agricultural College. Twelve students have entered in this particular contest, the subject of the essay being “The Successful Farmer of the Future,—Will the Agricultural College Training Help Him? Why?” Seven other prizes are offered for essays on other subjects, the prizes being offered by prominent implement firms.

Through the kindness of Mr. W. C. Sterling, of Monroe, there have been placed in the museum three nicely mounted specimens of ducks. One of these is a canvas-back, one a butter-bell and a blue-bill. These were taken this spring at the Monroe Marsh Club. This club has at its club house a number of mounted specimens of birds which are very rare in Michigan, among which are two brant, a European wildgoose and a large white egret.

ATHLETICS.
ALBION T. M. A. C. O. 2.

In the prettiest and most exciting game played at Albion, Wednesday of last week, by the above score. At Albion, more than half holiday, all stores and business places being closed from three to five o'clock in order to see the biggest game of the season and it is believed they got value received. About 1,200 people witnessed the game. The pitching of both Striker and Nies were features of the game as was the all-round inside. Nies had excellent support and also fielded his position in fine shape. Both of Albion's hits were infield, while M. A. C. got five clean hits. Outside of the one in the seventh, Albion did not have an opportunity to score. M. A. C. had men on second and third in the first inning, on second and third in the fifth, with so one out, on third in the seventh and again in the ninth the bases were full; only one man out. Striker had an infield hit and was followed by Ellery who also made a short infield hit and then came out. No one ever regretted carrying a good insurance contract. Life Insurance is Organized Thrift.

100-yard dash—Moon, M. A. C.; Frary, A. I.; Burrell, M. A. C. Time, 10.4 seconds.
Running broad jump—Nicholson, M. A. C., Moon, M. A. C., Frary, A. I., Burrell, M. A. C. Distance, 20-10-10.4-10.4-10.4.
440-yard dash—Moon, M. A. C.; Frary, A. I., Burrell, M. A. C. Time, 57.2 seconds.
Shot put—Burroughs, M. A. C.; Bangs, A. I.; Kratz, M. A. C. Distance, 77.1 yards.

Two mile run—All M. A. C. to determine contestants for field day. Won by Hough in 10h-46.5, Frazier 2d.
220-yard low hurdle—McKenna, M. A. C.; Hotchkins, Burrell, M. A. C.; Holdsworth, M. A. C. Time, 27.4-3.3-3.3-3.3-3.3.
