FOOT BALL.
M. A. C. 42—FLEINT, 6.

The game with Flint on Saturday was one of the points of interest. The weather was altogether too hot for a game of this kind, and the work was rather less satisfactory than that of the teams. M. A. C. put up flashes of a game of this kind, and the work of the team was an encouraging feature. In straight football we have shifted so many times in order to win this game, it is confidently made, however, to get the players to two touchdowns. A. C. never has scored on N. D. team last year, is playing half back of 55 yards. Our line up as given is exceptionally strong; line-up as they tried out in this opening game.

In supplementary to these meetings every chair is taken accepted to membership in the Y. M. C. A. last Thursday evening.

The M. A. C. RECORD.

The M. A. C. Foresters met last Tuesday for the first time this term. The meeting was a rossing one, with many new men present, who entered the school for forestry work. Prof. E. E. Bogie, as speaker of the evening, gave a very instructive and interesting talk especially fitted for the new men, on the lines of the need of a broad foundation of learning for foresters to build upon. He mentioned among other things, that a forester needs he a man broad- minded and many-sided because of the many different kinds of problems to solve. The next meeting will occur Tuesday, Oct. 10. Everybody is invited to come, especially those interested in forestry.

HORT. CLUB.
The first meeting of the Hort. Club was held last Saturday evening in the Life of Christ will be conducted by students under the instructions of Prof. C. D. Smith. Other classes will be led by members of the faculty.

The improvements on the athletic field will be finished by Wednesday. The bleachers have been moved over from the old field and a new section added in the center, and also boxes for the press.

Y. W. C. A.
The Thursday evening meeting was led by Miss Beat, who spoke on the subject of Unselfishness and Sympathy as applied to the college girl's life. The willingness of Christ to aid all who need aid at any time and in any circumstances was pointed out, and very helpful lessons gained.

Mrs. Bogue addressed the girls in the Sunday evening service, concerning the passage, "He ye workers together with God." Why should we co-work with God and how we may be shown to us, also the blessings attendant on such an alliance.

The M. A. C. Foresters met last Tuesday for the first time this term. The meeting was a rossing one, with many new men present, who entered the school for forestry work. Prof. E. E. Bogie, as speaker of the evening, gave a very instructive and interesting talk especially fitted for the new men, on the lines of the need of a broad foundation of learning for foresters to build upon. He mentioned among other things, that a forester needs he a man broad- minded and many-sided because of the many different kinds of problems to solve. The next meeting will occur Tuesday, Oct. 10. Everybody is invited to come, especially those interested in forestry.

FACULTY RECEPTION.
The reception given on Friday evening was well attended and very much enjoyed. The committee having the arrangement in charge planned the various members of the teaching force in nine places in the Armory and the new students were presented to these by the upper men who have just entered the school for forestry work. A number of plants and ferns were furnished by Mr. Gunnison and these with the bunting draped over-head served as decorations. Baker's orchestra from the city furnished music. These are happy occasions serving to keep in mind the names of those with whom we are associated in college life.

Forty-seven new men were accepted to membership in the Y. M. C. A. last Thursday evening. Mr. Bates conducted Thursday evening. The subject, "College Habits," was discussed thoroughly by a large number of the men present. It is pleasant to note that in these meetings every chair is taken while some are found seated on the large reading table. An effort will be made to find seats for all this week.

The reasons why college men should make a study of the Bible were very forcibly brought forth by Mr. Collingwood in his talk to the men Sunday night. In his concluding manner he spoke of the great literary value, the beautiful ideas as shown in the Old Testament biographies, and the story of the One great character in New Testament biographies. Mr. Drake, who has gathered much new evidence of the fact that "our fellows" will prove that they can play ball. M. A. C. had given this impression. The best showing we have ever made was in 1903 when we held them to two touchdowns.

In his concluding manner he spoke of the great literary value, the beautiful ideas as shown in the Old Testament biographies, and the story of the One great character in New Testament biographies. Mr. Drake, who has gathered some well-chosen remarks on the subject at the close of Mr. Collingwood's talk.

Bible classes will be organized next Sunday morning in the Y. M. C. A. room at 8:15. A canvass of the student body will be made this week and classes will be placed wherever they can be made most convenient for the students. Church work will be a feature of the game this kind, and the work was rather less satisfactory than that of the teams. M. A. C. put up flashes of a game of this kind, and the work of the team was an encouraging feature. In straight football we have shifted so many times in order to win this game, it is confidently made, however, to get the players to two touchdowns. A. C. never has scored on N. TUESDAY, OCT. 3, 1905.

LECTURE COURSE

The Entertainment Course for the season of 1905-06 has been defi- nitely announced, and the enthusiasm is exceptionally strong. There are five numbers, two of which are lectures, two mu sicale s, and one an address. The number of lectures, with the exception of the first, comes on Friday evening, so that those who do not care to clash with any social functions of the College, and every one should p an to take advantage of the whole five numbers.

The first number on the course will be given by Mr. G. G. Robert, on the 10th. As everyone knows, Mr. Robert is a man and governor he is well known. His fine tics are his Represen tative Government," and "The World's Greatest Tragedy." It is c een that we should be privileged to hear this speaker at the opening of our lecture season.

Not a few M. A. C. people were somewhat di-appointed at not hearing Dr. Willett on the lecture plat form, last season as scheduled. We are glad to note that Dr. Willett will be with us for the second number of the course on Novem ber. It is said that the demand for Dr. Willett on the lecture plat form has become so strong that for sev eral seasons his friends have urged him to devote more time to that work. In "opinions of the press" we find plenty of assurance that those who have an opportunity to hear him will be entirely satisfied with his lecture.

The third number on the course will be given by Mr. H. C. Buckman, on the 18th. No one should p an to miss the Entertainment course and it is hoped that none will be obliged to do so. Pamphlets will be placed on sale the latter part of the month. The third number, with the exception of the first, comes on Friday evening, so that those who do not care to clash with any social functions of the College, and every one should p an to take advantage of the whole five numbers.

STATE FAIR.

The exhibit of the Michigan Agricultural College at the state fair in Detroit was made by the de partments of horticulture, entomology, forestry and the farm de partment of the experiment station.

A horticultural department made an interesting display of fruits from South Haven. Here was exhibited one of the largest number of varieties of peaches, pears, apples, and other fruits. The display was very large, the people coming from any social functions of the College, and every one should p an to take advantage of the whole five numbers.

The M. A. C. DEBATING CLUB.

The M. A. C. Debating Club held its first regular meeting of the year last Thursday evening, H. C. Buckman, president, said that the members of the club through their efforts, given over to the discussion of plans for the work of the present term, the term will be to bring into the debates the discussions of serious and important public questions. It is not definite what just what will be charged for the course tickets. Information on this point can be had on a few days.

M. A. C. DEBATING CLUB.

The M. A. C. Debating Club held its first regular meeting of the year last Thursday evening, H. C. Buckman, president, said that the members of the club through their efforts, given over to the discussion of plans for the work of the present term, the term will be to bring into the debates the discussions of serious and important public questions. It is not definite what just what will be charged for the course tickets. Information on this point can be had on a few days.

DEBATING CLUB.

The program committee of the Club has selected the following questions for the term's work:

Tuesday, October 11th. "This House will set up a system of book keeping where a correct check can always be maintained between the financial secretary and the treasurer. The officers of the new council elected are Dr. C. E. Crook, president; J. W. Doan, vice-president; W. J. Hobson, recording secretary; R. B. Clise, treasurer; Director Brewer, financial secretary. Meetings are to be held every Thursday evening at 7 o'clock in room 7, College Hall. No initiation fees are charged. The tickets for the debate may be had for $1.50 as stated last week. The single tickets will be 25, 35, and 50 cents and each will be colored differently. If a 25 cent ticket is presented at a 50 cent game, it will be good for 50 cents, and 25 cents extra will be required for admittance. A committee has been selected consisting of Geo. R. Tomey, M. J. Dossy, R. G. Potts, Program Com."

The report in a Jackson paper that "Raffles Allen," of that city, had his collar bone broken in a scrim mering, was not correct. Allen has been out every day for practice and shows no sign of injury. He has no intention of injuring the back of the bas, and the days on the field, and gives promise of becoming a star in that department next year.

Mr. Woodberry's new home is nearing completion and will be one of the finest residences at M. A. C.

ABOUT THE CAMPUS.

Seven senior boys and four girls are taking dairying. A pair of timer's shears have been left at the president's office.
The work on Mr. Kenney's new addition is nearing completion.
Clay G. Woodbury, '04, has entered College for advanced work in horticulture.
Do not miss the lecture course.
Purchase your tickets early and avoid the rush.
Senior mechanic to senior ag: "What is the bacteriological name for a bedding?"
Mr. Palmer, of Collegeville, who has been quite ill with typhoid fever, is reported much better.
Mr. Westover of Bay City visited his daughter, Miss Gal Westover on Thursday of last week.
H. G. Walker, '04, has been elected instructor in drawing in place of H. S. Hunt, '05, resigned.
Have you purchased one of those tickets yet? The coupons for football are what we have reference to.
The mechanical laboratory is being repaired for heat. The work in the two drawing rooms is all completed.
Who ever saw finer weather than that of last week. The fall is certainly one of the best seasons of the year.
The boxes marked Record are for news items. Bear this in mind, and when something in the way of news suggests itself, jot it down and place it in the box.

Dr. Marshall was in Boston, Mass., last week attending a meeting of the American Public Health Association.
Instructor Reed, of the chemical department, will build on his lot in Oakwood this fall. The excavating has all been completed.
Miss Bernice Black and Miss Beatrice Sneed, former students, were visitors at the Women's Building Friday of last week.
The seniors have elected G. P. Boomsliter as their class president; the juniors, O. A. Kratz, and the sophomores, "Babe" Kratz.
Instructor H. W. Norton, after a trip through the western states, has returned and will continue his work with the agricultural department under Prof. Shaw.
The farm department has been busy filling silos the past week. The fine weather has been taken advantage of and work progressed very satisfactorily.
The new dormitory will be one of the finest anywhere. The work is progressing finely, and no doubt many of the "fellows" already have their future rooms located.
Pred. Taft was at Charlotte on Sept. 27 where he judged fruit at the Eaton Co. fair. He then spent Thursday at Augusta and Battle Creek inspecting orchards.
A fine new piano has been placed in the parlor of the Women's building. It is expected that this will replace the one which has done service there for some time.

The weather has been rather unfavorable for fruit this term. Something concerning the "orchard pests" was published in an annual not being since, but no remedy offered.
The Try and Trust Circle of King's Daughters will meet with Mrs. Faunce Oct. 4, 3 o'clock p.m. Subject of lesson, "The Call of Isaiah," Ts. chs. 1-6. Mrs. Collingwood, leader.
On account of the crowded conditions in the chemical laboratory for the four-year mechanical freshman, an additional section has been provided on M. and W. from four to five o'clock.
At the annual election of the Michigan State Agricultural Society on Sept. 14, Prof. Taft was elected a mumber of the executive committee for two years from January, 1906.
Season tickets for the lecture course will be on sale at the secretary's office the latter part of this week. The price will be $1.25. Single admission will be 15 cents in any except the first number, Gov. LaFallette, which will be 50 cents.
Mr. and Mrs. H. H. Burns of Battle Creek were visitors on the campus Friday afternoon. Mr. Burns is a very enterprising businessman and was greatly interested and highly pleased with the college.
He has a boy whom he wishes to educate.
On the evening of Sept. 26, Elliott Goodwin, one of the motormen on the street car line, while doing some work on the roof of his car, was thrown to the ground and sustained injuries from which he died while on his way to the hospital. Mr. Goodwin had not been feeling well and it is thought this may have accounted in a measure for his fall.

An early season practice game of football was played with the Lansing H. S. on last Wednesday at 4 p.m. The work was good especially in aggressiveness and individual playing, while the team work was somewhat ragged. The H. S. team were cut-classed at every point, only making one gain in the whole time and that on the first play. They were unable to resist the rushes of the home team and did not once hold them for downs. Two ten minute halves were played and the score ran up to 66 for M. A. C. to 0 for H. S. Coach Brewer tried out 17 players during the game.

Last Sunday morning a telegram announcing the death of a grand father, was received for a student by the Western Union. This student had failed to register his name in the book kept for that purpose in the secretary's office, and hence could not be found until Monday morning.

The College authorities are very willing to see that such messages are delivered either day or night, but unless students register their names with rooming places they must take the chances on being found when such messages come. Notices have been on the bulletin boards all this term requesting students to register in book in secretary's office.

Gymnasium Shoes

We have just received a good assortment of Gymnasium Shoes, cloth tops, rubber soles, which we bought especially for our M. A. C. customers. Quality is excellent and prices very low.

sessions of the legislature have given the liberal support the last two ses-

sions. The Farm has taken on a remarkable growth. Im-

teresting developments can in time become experts, but the student acts as a judge Professor Humphrey and Doctor Alexander realize that not all stu-

dents can in time become experts, but they justly claim that pratical knowledge so gained will be of great value to them.

Mr. Roseman, of the auditor general's office, has built a fine new home for the Oregon College. During the summer and has rented several rooms to students.
