FOOT BALL.

THE NORTHWESTERN GAME.

The team, accompanied by Director B. A. Riley of the Morgan's Hotel, arrived in Lansing Friday night at 8 o'clock in a special Pullman sleeper. Breakfast was taken at the Briggs House and the forenoon was spent viewing the city. At 11 o'clock the party returned to the hotel for dinner after which a suburban car was boarded for Evanston. About 50 rooters (old M. A. C. men) accompanied the team from Chicago and made about as much noise as the whole Evanston bunch during the game.

Northwestern kicked off and M. A. C. won the kickoff. The ball was forced by C. N. at the 45-yard line to a punt. N. W., who carried the ball to the 37-yard line where it was fumbled, Small falling upon it. M. A. C. won the kickoff and brought the ball to M. A. C.'s 27-yard line from which they were forced to punt, the ball being downed on the 37-yard line where it was fum­bled. Many of our gains were made by straight ball, and Doty went through in good style. McKenna's long runs were a feature of the game. He made 70 yards on a cross, 25 on a fake punt, 45 on a long pass, and 20 on a de­layed pass, which resulted in the last touchdown. Doty bucked the line consistently, Boyle and Holdsworth upheld their reputation as backs, and in fact the whole team starred.

The final score was 37 to 11. After the game the teams returned to the Briggs House with the team for a spread. The players were taken to Powers Opera where they wit­nessed the football play "Strongheart" which was very much en­joyed. This was a reward for the winning of the Albion game and the place of the champions in the auto ride. They left Chicago at 7:30 Saturday evening and all re­turned with the verdict of a "right good time." Following is the line up:

The question discussed at the club last Tuesday was as folows: Resolved, that municipal ownership of street railways is desirable. After a full discussion the motion was carried.

The question to be discussed at the next meeting is: Resolved, that a beef trust does exist. It appears that the Commission made a definite investigation of the matter and their conclusion is that a beef trust does exist. 

The entertainment re-opens with "The Entry of Christ into Jerusalem," on the Mountain of Olives. Since nothing is known of his life of Jesus during childhood until the betrayal by Judas and his arrest, the scenes very impressive. In the afternoon the second and third parts consisting of ten scenes, are given in the for. noon, and the figures are well exposed to view. There upon the stage the actors pose like figures, making the scenes very realistic. It seems marvelous that so simple and ignorant a people as the people of Obermann Maeh Louise Fren­der such a play and do it so well, but when we consider that they have been over a half year it does not seem so great.

The Greek had their Olympic games, the Romans their gladiator and wild beast fights, the English their Shakespearean plays and the Americans their outdoor sports, all of which were designed to satisfy some or more of the emotions.

The Greeks had their Olympic games, the Romans their gladiator and wild beast fights, the English their Shakespearean plays and the Americans their outdoor sports, all of which were designed to satisfy some or more of the emotions.

WEDNESDAY, NOV. 23, 3 P. M.

House Plants and Their Care (40 min.), Miss J. W. Hamer.

Bacteriology of the Household (40 min.), Dr. Chas. E. Marshall.

Friday, 10 a.m. to 2 p.m.—Exercises in Economic Cookery (40 min.), Miss R. H. Colwell. Thursday, 1 to 2 p.m.—Exercises in Sewing Rooms, Women's Building.

THURSDAY, NOVEMBER 22, 3 P. M.

Western stock judging (40 min.), Miss Elva Davis, '05, visited college friends one day last week. Miss Davis has recently started a a violin home in Inola and expects to devote all of her time to the work for the next two years. Her plans are all in a line for her, and a good season is anticipated.

A. E. Kocher, '02, called on college friends the past week while on his way to his old home in Antwerp Co. for a visit. Mr. Kocher is with the bureau of soils, department of agriculture, and has been eagerly enjoying his work which has been of some time in the state of Texas.
Dr. Edards is entertaining friends from Virginia.
Miss Bernice Jackson '05 visited college friends over Sunday.
Prof. Jeffery judged corn at an institute held in Ann Arbor recently.
The King’s Daughters met with Mrs. Snyder Wednesday afternoon at 2:30.
Miss Clara Campbell, ’05, was a College visitor last week.
Mr. and Mrs. Warren Finn, of Traverse City, are visiting their son, W. Clyde and family.
Little Corine Potts who has been ill for several weeks is much better and will soon be around again.
Those “unearthly” Indian relics have not as yet shown up. That was what some termed “sensational news.”

It is hoped that each department will submit program for winter term’s work at the earliest possible moment.

Building goes merrily on in spite of fall weather. Mr. Cook’s new house in Collegeville is going up quite rapidly now.

Alion admits defeat because M. A. C. won the game by good playing, but states that on the merits of the playing of the two teams, the score should have been about 30 to 24.

On Thursday, Nov. 25, occurs the dedication of Normal Hall, the new building at the Western State Normal School, Kalamazoo. R. C. Edwards, who has been ill in the hospital since the middle of October, left for his home in Frankfort Thursday of last week.

Prof. Dandeno and family have moved out of the Woodbury house in Oakwood and are now located on South Pennsylvania avenue in the city.

Mrs. Mina Pottruff, of Lansing, is employed by the botanical department, mounting and filing plants which will be used in the department work later.

Work on the new dormitory is again moving along very nicely. Quite a delay was caused for a time, the contractors not being able to get a supply of brick and stone.

Jack Shaw writing from Baltimore, states that Miss Moxness, who was assistant in the experiment station laboratory last year, expects to return to America next spring.

Mr. Gunson is moving a number of large maple trees, some of which are 30 feet in height, from the wind break near the vegetable garden to the driveway bordering the stock yard.

Geo. J. Elliott who was obliged to leave College last year on account of illness, was a College visitor last week. Mr. Elliott expects to study chemistry and pharmacy at Purdue this winter.

A. E. Achard, 1901, met with a painful accident Wednesday evening, while coming down stairs at the “White Elephant” he missed his footing and fell. His ankle was badly sprained but he will be out in a few days.

Lost—On Sunday, November 12, either in the Congregational church Lansing, or on the way out, or in Oakwood, a ladies hunting case gold watch, marked K., chain and pin. Finder please leave at M. A. C. post office and receive reward.

The Hort. teams are now busy pulling trees in the south orchard, leaving them two rods apart in the rows each way. It has been found possible to pull about 150 per day. It will be necessary to use dynamite to remove many of the large trees in the old orchard.

Dr. Oscar Palmer, former member of the State Board of Agriculture and now prosecuting attorney of Crawford county, is conducting the case against Mrs. N. Aldrich at Grayling, the woman accused of poisoning her two boys to obtain insurance money.

On account of the increased amount of business at the book store it has been found necessary to build additional quarters. A room 12x15 feet in size is to be added to the west side of the present quarters which will make a room just twice the size of the present one.

A very valuable three-year-old short horn bull bred by the college has just been sold and delivered to Mr. L. M. Georgie. It is gratifying to know that this animal is going into the pens of a stock breeder in the vicinity of St. Johns rather than out of the state.

Hermus Nickodemus, ’98, is ill this week in Aginsaw. Mr. N. had not been feeling well for some time and decided to go home and recuperate. It is hoped that he may soon be able to return and resume work.

“Soil Fertility” is the title of a reprint from the November Popular Science Monthly by Prof. J. B. Dandeno. The subject is discussed from the chemical, physical, bacteriological and ecological standpoint. Prof. J. Dandeno also has an article in Science, N. S., of November 29, on “The Parachute Effect of Thistle-Down.”

Holiday rates will be granted to those students desiring to go home for the Thanksgiving vacation. The rate will begin November 29 and return limit December 2. All students desiring student certificates can secure same by calling at President Snyder’s office Tuesday afternoon and Wednesday.

The institution has just received a pen of six standard Delaine ewes and a ram of good breeding and high individual merit. The American wool breeds at the institution are quite well represented with flocks of fairly equal numbers and uniform in quality, and considerable attention is now to be given to the strengthening of the fine wool flocks.
President Snyder and Prof. Kehl- 
sean took the Grand Rapids M. A. C. Alumni Association meeting last evening.

The following items concerning the Albion game will be of interest:

Total receipts, $696.45; expenses, $106,371; net profit to association, $590.13.

1. A. G. and Fred Cavanagh were 
awarded $250.00 for their efforts. 

2. The soils of different

3. The famous lettuce houses of W. W. B. are now in full swing. 

4. This week's experiment in the greenhouse on soils for the growth of head lettuce. For the growth of head lettuce, the department has

5. The fact that the heads of lettuce were being harvested on the farm was evident.

6. The textural condition of the soil was well maintained.

7. The program in the horticultural department before the institute was outstanding. The next meeting will be as follows:

- Visit a class in horticulture.
- Examine display of fruits and vegetables in cold storage in lecture room.
- Attention will be called to new and improved methods of cultivation.

8. Mr. Craig will outline his experiment for next year on the breeding of blight resisting varieties of potatoes.

9. Mr. Woolbury will report results of spraying for San Jose scale.

10. Mr. McCue will report results of spraying for San Jose scale.

11. Demonstration of the power sprayer at work on trees near cold storage plant.

12. Examination of cold storage, explanation of construction.

There are to be five-minute talks.

At eight o'clock Saturday evening a quiz was in progress. The faculty and friends of the college took part in the quiz and one of the senior girls received prizes in the parlor of the women's building.

The program was concluded with a special address by Dr. A. C. Alumni Association meeting
