NEW INSTRUCTORS.

FRANK M. GRACEY, of Somerville, Mass., has been elected to the position of instructor in chemistry, after having spent three years in the Normal Art School in Boston. He will have full charge of all work in this department.

H. F. SCHMIDT, instructor in mechanical engineering, has been appointed to the position of instructor in machine shop at the M. A. C., for the coming year.

WILLIAM L. HAMMOND, of Lansing, has been appointed to the position of instructor in agriculture, to succeed Mr. L. J. Smith, who has been transferred to a similar position at the Agricultural College of Utah.

J. H. TAYLOR, instructor in engineering, is a graduate of the University of Wisconsin, class of '96, and has been employed as instructor in machine shop at the M. A. C., for the past year.

Miss B. S. Brown, instructor in poultry husbandry, has been appointed to the position of instructor in poultry husbandry, to succeed Mr. W. E. Brown, who has been transferred to a similar position at the Agricultural College of Utah.

Miss A. C. A. Cropper, instructor in applied mathematics, has been appointed to the position of instructor in applied mathematics, to succeed Mr. A. C. A. Cropper, who has been transferred to a similar position at the Agricultural College of Utah.

Miss L. J. Smith, instructor in agriculture, has been appointed to the position of instructor in agriculture, to succeed Mr. W. E. Brown, who has been transferred to a similar position at the Agricultural College of Utah.

Mr. A. C. A. Cropper, instructor in chemistry, has been appointed to the position of instructor in chemistry, to succeed Mr. J. H. Taylor, who has been transferred to a similar position at the Agricultural College of Utah.

Mr. W. E. Brown, instructor in agriculture, has been appointed to the position of instructor in agriculture, to succeed Mr. J. H. Taylor, who has been transferred to a similar position at the Agricultural College of Utah.

Mr. W. E. Brown, instructor in agriculture, has been appointed to the position of instructor in agriculture, to succeed Mr. J. H. Taylor, who has been transferred to a similar position at the Agricultural College of Utah.

Mr. W. E. Brown, instructor in agriculture, has been appointed to the position of instructor in agriculture, to succeed Mr. J. H. Taylor, who has been transferred to a similar position at the Agricultural College of Utah.
THE M. A. C. RECORD.

WASHINGTON, D. C., March 25. The M. A. C. Record, published every Tuesday during the college year, is brought to you by the Michigan State Agricultural College.

ATHLETICS.

Prospects for a winning foot ball team are very bright again this year. The Coach Brewer has been at work the past ten days putting things in shape for the opening day. The greatest need at present seems to be for a punter. McKenna, Fisk, Beardsley, and others are said to be greatly missed, but a goodly number of last year's squad will be here, practicing hard and will make the team and considerable new material is also showing up.

Of old men we are sure of Capt. De Re, General Breese, and A. W. Fisk. McKenna will not retire this year and is said to be trying to find a running mate for Boyle, which will necessitate a shift of the back field over last year.

While no official action on the new rules has been taken by the board it is presumed that the faculties of the various colleges will insist upon a strict observance of the new regulations, and also upon the recommendations made by the faculty conference which met last spring. The new rules will certainly assure a more interesting game, especially for the spectators, than ever before. There will be plenty of catching, open field running, long passes and trick plays. M. A. C. will, therefore, be greatly missed, but a goodly number of others. Let us especially remember that there are perhaps 300 estimates of others. Let us especially remember that there are perhaps 300 ests of others. Let us especially remember that there are perhaps 300 ests of others. Let us especially remember that there are perhaps 300 ests of others. Let us especially

ABOUT THE CAMPUS.

Instructor Alger and wife will occupy rooms in the terrace the coming year.

"Cup of Coffee and Sandwich" was one of the signs read by visitors excursion week.

Warren Dudley, a student at M. A. C. two years ago, returns this fall to continue his work.

Howard C. Baker, with 96, called on Lansing and M. A. C. friends Sunday, Sept. 9.

We are promised a cut of the new "Tic" building and a brief write-up for next week.

Van Zimmerman, a student at M. A. C. in 1900, now of Chicago, visited at M. A. C. on Aug., 24.

President Snyder and family spent two or three weeks at Chautauqua, N. Y., during the summer.

Dr. Waterman has rented the new house in Oakwood built by Mr. Robinson during the summer.

Mr. Simons has just completed a neat little house on his lot east of the campus Sept. 9, on their way home from Caseville where they passed the summer.

The registration of new students up to Monday night was 138, divided as follows: Agricultural 39, Mechanicals 72, Women's 27.

Prof. E. S. Good '03 of Urbana, Ill., made college friends a short visit during the summer. Mr. Good was for several years clerk to Pres. Snyder.

Prof. and Mrs. P. B. Woodworth of Chicago visited friends on the campus Sept. 9, on their way home from Caseville where they passed the summer.

Dr. N. S. Mayo '88 called on college friends, Sept. 9, on his way to his old home in Orson, Mich., from which place he expects to return to his work in Cuba.

Certain portions of the botanic garden were raised during the summer above the high water mark. H. H. Curtis has been kept busy in the garden this season.

The district school opened on Sept. 10 with Miss Sadie Richardson in charge. Her assistant is Miss Magdalene Bowen, of the Mt. Pleasant Normal school.

We are promised some definite statement concerning the installation of the telephone system at M. A. C. for next week's Record.

Miss Sheats, of the Lansing Business University, has been engaged as stenographer in place of Miss Taggart resigned.

F. W. Howe, who has been busy in the president's office during the summer, will enter for post-graduate work in soils this term.

The Hitchcock property at Collegeville has been purchased by Atty. C. C. Wood, of Lansing, who has made some much needed improvements, and will occupy the house this winter.

Prof. Hedrick and family have moved into the house near the College grocery, formerly occupied by Mrs. Perkins. Miss Paddock and mother will occupy the rooms in the Terrace the coming year.

Prof. Bogue spent several days during the summer investigating the tree plantations in Allegan, Van Buren and Kalamazoo counties, where he states much interest is being shown in the line of forestry.

Warren J. Geib visited college friends, a short visit during the summer. Mr. Geib, who recently purchased the Hilliard place, is a watchmaker and jeweler of many years' experience. He intends to do work in his line, and will be at the M. A. C. book store each day from 4 to 6 p.m. See his ad. in next week's Record.

A. A. Towner with '96, who has for the past six months had charge of the milk testing department for the Mich. Condensed Milk Co., of Lansing, goes the latter part of this month to Janesville, Wis., as beef tester for the beet sugar factory at that place.

Instructor C. H. Swanger has been transferred to Omaha, Neb., to organize a food inspection laboratory, under the direction of the Bureau of Animal Industry, Dept. of Agriculture. E. A. Boyer has been engaged in a similar capacity at the Chicago laboratory.

Dr. Beal spent several days during the early part of his vacation in the east where he visited four gardens for the purpose of marking certain plants which have been promised M. A. C. The gardens visited were—Smith College garden, Harvard botanic garden, Arnold Arboretum, and Bronx Park, N. Y.

The first meeting of the M. A. C. Sunday school will be held in the schoolhouse Sunday, Sept. 23, at three o'clock, for the purpose of organization and election of officers.

The proposal to change the hour and meeting place of the school to 10 o'clock, at the college chapel, immediately after the preaching service, will also be discussed.
Jitsutaro Murakami has been in nearly intermediate between the two tribes this year.

The new road to the city, so far as completed, receives very favorable commendation from Com. Earle. The sewer has been a point in Collegville, Ohio. M. Sevilla will spend next year in San Francisco and will also take up agriculture. He has been from the southern part of the empire.

Four of our Philippine students have taken up college work this year. Jitsunaro Murakami is a grammar school in San Francisco during the past three years, and M. O. C. is for work in agriculture. His home is in Fukuoka, Japan. The other, Mr. Okada, has studied here a month in a school in San Francisco and will take up agriculture. He has been from the southern part of the empire.

The intolerable mosquito nuisance of the past summer, of which undoubtedly came from this lakelet, has created a sentiment on the campus in favor of abandoning the lake. Another plan is to drain it, cover the bottom with a foot or more of clay, and run a pipe through the feet from the head of the viaduct, and provide it with a gate so that the water that drains from the swamp above may be diverted into the lakelet, as much as is necessary to keep it full. Still another plan, which is suggested by Mr. Gunson, is to make a new lakelet in the natural depression east of Abbot Hall where the viaduct discharges.

This could be done at little expense, and it is thought that there would be sufficient water and sufficient fall to prevent stagnation, and the creation of a breeding place for mosquitoes. It may be necessary to keep it full.

In charge of Mr. J. G. Halpin of Inman Jones, M. Sevilla will spend next year in Washington, A. N., and will also take up agriculture.

For the next season's building work is concerned. The building house, a building 38 by 36 feet is complete and equipment has nearly all been installed ready for operation. This building is fitted for operating incubators in the basement and also for a work and instructional room for students on the ground floor.

A poultry house 15 by 30 feet has been constructed with a capacity for handling about 157 mature fowls, with 25 per breeding pen. The grounds inclosed by the division have been enclosed by a 72-inch heavy fence property. As a result of the work of incubating care of the eggs which was begun April 1 we now have a stock of chickens representing five different breeds. This work is in charge of Mr. J. G. Halpin of Cornell University.
