We present herewith cut showing front elevation of the Eclectic Society building now in process of erection. The site for this building was purchased two years ago. The building is to be 40x60 feet with a porch 12 feet wide extending along the front and the east end. The exterior

M. A. C. 38—KAZOO 0.

The above score tells the story of M. A. C.'s decisive victory on Saturday in the first cup game of the season. The day was ideal, and the crowd numbered about 1,000, an unusually large number coming from Lansing. About 300 complimentary tickets were issued to L. S. students. Every seat was taken by the time the game started.

The contest, as a whole, was very satisfactory from our standpoint, the defense being very strong. Kalamazoo was unable to make first down in the game and very few gains of any length. The offensive was perhaps the best seen on our field for a long time. The principal ground gainers were McKenna, Bowditch and Small in end runs, while the substitutes were excellent, and shows that the team is well fixed for cases of emergency. Following is the line-up:

M. A. C.

Moore C Williams
Campbell L O Wilder
Shed C G Beals
Meeker R G Parks
Burroughs L T Walker
Derwood R T Winslow
Shed L E Puffer
Bartlett E L Holten
Waite H E Allen
Allen E R Holten
Small R Q Phelps
Bowditch L H R Buchanan
McKenna R R B Arndt
Dunlap F B Post

The game passed was tried but twice, and was successful each time, the first for 55 yards and a touchdown. The work of all the substitutes was excellent, and shows that the team is well fixed for cases of emergency.

We well fix for cases of emergency.

Y. M. C. A.

Prof. Thomas Shaw spoke at the Thursday evening meeting, and some 150 men came to listen to him. The amount of good derived from this meeting cannot be estimated, as Prof. Shaw is a very interesting and inspiring speaker. The attendance at the union meeting of Sunday evening was as good as usual. M. E. Osborne of Lansing gave a very helpful and practical talk. The Bible class began operating for the continued success and prosperity of the College, and every one was or ever was connected here.

Bowditch

DE PAUW.

The game on next Saturday will without doubt, be our big game of the season and preparations are being made to handle the large crowd which is sure to be here. Requests for seats began coming in yesterday and the chances are that every one will be taken in advance. De Pauw won from Franklin, one of the best secondary colleges in Indiana, Saturday, 83 to 6, so we are looking forward to Saturday's game with much interest. They played M. A. C. five years ago, winning handily. One or two mass meetings will be held this week to create enthusiasm for the coming contest. Watch for posters. Tickets will go on sale with reserved seat privileges and box tickets are on sale at the Secretary's office.

ALUMNI.

"83.

The following is an extract from a letter written by our postmaster by his brother, H. N. Collingwood, '83:

"I regret to say that I am running up against myself this fall, having been driven on the prohibition ticket in our district. Instead of faling over ourselves to grasp the opportunity for voting for me I find, what would be called on the Bowery, quite a serious frost. I am not likely to spend the winter in Washington.

"93.

D. S. Cole is at present first assistant to Mr. Warner in the Detroit office, with address at 616 Union Trust Bldg. Frank Brandin, '82, and John Wieder are also assisting in said office.

"02.

A. E. Kocher says: "I arrived in Greenville, (Ala.) on Oct. 15, of typhoid fever. He died at his home in Three Oaks, that further than this nothing has been learned. Mr. Crosby was a noble young man, and one of whom M. A. C. was proud. A more extended notice will be given next week.

An interesting letter from a member of our class of 1906, W. Well, the new college year has begun, each class taking up its new work, from the subfreshmen to the seniors, really to the new alumni.

"It gives one a queer unexpressible feeling to know that one's college life is over, but in everyone's case the college life has even a greater interest than before.

There are two from M. A. C. here in Thompsonville teaching in the public school. Miss Ella McManus '08 and myself are the two. She has charge of the fourth and fifth grades and I assisting in the high school, teaching from the seventh to the eleventh grades applying my knowledge gained at M. A. C.

"Miss McManus and I watch the Record eagerly for all the news each week. The athletic department has made its beginning as usual by winning the first football game.

"We two school ma'ams are going to attend the Semi-Centennial this year if possible.

Sincerely,

Zae Northrup,
Thompsonville, Mich.

Mr. and Mrs. F. L. Wright of Webberville, visited College and Lansing friends the past week.
FARMERS' CLUB.

Prof. Thomas Shaw addressed the Farmers' Club last Tuesday evening on "Agricultural Journalism." He gave the briefest of the importance of farm papers, placing their influence beyond that of the agricultural colleges, the state round-up for the farmer institutes.

Speaking more at length of the weaknesses of the agricultural papers, Prof. Shaw placed the lack of practical experience as the heads of the departments, first; then their power to select strong, assistants; second; and third that the paper be well written. Prof. Shaw spoke strongly against the fact that nearly all of the papers always lack space, and so good, but lengthy articles are sadly mangled in their attempt to make them timely.

As a check or partial remedy for the printing of "rehashed" articles and bulletins which are seldom as good as the original, a critic journal of agriculture was suggested.

DEBATING CLUB.

The meeting of the Debating Club on Oct. 11th was attended by a good sized crowd, and proved to be a most interesting and enthusiastic one. The question for debate, "Resolved, That further annexation of territory is not to the best interests of the people of the United States," is a question most prominent at the present day, and was ably handled on both sides, by Mr. Gudson on the affirmative and Prof. Hendrick on the negative. In fact, both sides of the question were so thoroughly discussed and their fallacies so well brought out that it was with difficulty that the judges were able to come to the decision after a tie vote of the members.

On account of the date of the first meeting on the lecture course falling Thursday, there will be no meeting of the club on the 18th, but on the following Thursday, the 25th, the question for debate will be one that should interest us all, especially at this time, "The merits of the new football rules."

TRY AND TRUST CIRCLE.

Eleven years ago the 13th of this month, upon the suggestion and direction of Mr. O'Neill, the Try and Trust Circle of the Order of The King's Daughters, was organized with twenty-five members.

The circle now numbered twenty-five, and during all these years, has functioned as a constant and effective member and a constant influence in the community. It is an organization of territory not to the best interests of the people of the United States, as a question most prominent at the present day, and was ably handled on both sides, by Mr. Gudson on the affirmative and Prof. Hendrick on the negative. In fact, both sides of the question were so thoroughly discussed and their fallacies so well brought out that it was with difficulty that the judges were able to come to the decision after a tie vote of the members.

On account of the date of the first meeting on the lecture course falling Thursday, there will be no meeting of the club on the 18th, but on the following Thursday, the 25th, the question for debate will be one that should interest us all, especially at this time, "The merits of the new football rules."

In His Name,
Harriet T. Collingwood,
Clara M. Snyder,
Gertrude Baroek.

MAX BEUTNER.

Students here in '98 will learn with regret the death of Max Beutner, who was during that year the popular athletic director. The following is taken from the Chicago Daily Tribune of Oct. 10:

"Max Beutner, 33, Armor avenue, 40 years old, superintendent of small parks, dropped dead yesterday afternoon while untethering his horse in La Salle street, near Washington. Heart disease is believed to have caused his death.

"Mr. Beutner had been in charge of the playgrounds and bathing beaches here for several months ago by giving a series of "surprise parties," and certainly makes the room very much brighter and more attractive.

"He had several fainting spells recently, but the doctor told Secretary O'Neill of the special park commission shortly before his death that he was feeling better."

The work of painting the interior of the armory is nearing completion and certainly makes the room much brighter and more attractive.
The Man

we are after is the man who usually patronizes a first-class high-priced tailor—the man who gives up from thirty to sixty dollars for an overcoat—that this overcoat line is designed for.

We know the Cloth, Style and Making is equal to that of any reputable tailor and it is our business to see that you shall have a perfect fit. Everything being equal, what lies the difference—except price? We carry all kinds of up-to-date furnishings for College Men.

ABOUT THE CAMPUS.

The second football team won from Lansing City team Saturday 17 to 0. All members showed up exceptionally well and is without doubt the best second team ever at M. A. C.

Following are the officers of the Alpha Zeta for the year, E. J. Kraus, chancellor; T. H. McHaitton, censor; W. H. Liverance, secretary; C. M. Granger, treasurer; J. C. Wilcox, historian.

A meeting of all the students interested in dairying has been called for Wednesday evening in the dairy class room. It is expected that a dairy club will be formed if there are enough interest in the project.

New students who registered and were not included in list published are B. W. Baker, 5 y.; Roy S. Folk, 5 y.; e.; Gilbert R. Fox, 3 y.; e.; Chas. S. Heller, 4 y.; a.; Fred C. Jeffrey, 5 y.; e.; Lyman Root, 5 y.; e.; Chas. X. Frey, 5 y., a.

L. R. Farrell is interested with Mr. McCue in some experiments on the selection of seed potatoes. The Hort. department had over 200 varieties of potatoes growing this year in the experiment garden on Mr. McCue's place. Miss Mary Strong, '04, made a brief visit to the College recently. He states that the grange at Grand Ledge has just been organized with some 20 charter members, four of whom are M. A. C. people. Of these John Strong, '03, is master, and George McMullen, secretary.

Arrangements have been completed for a new spur of street railway at the college and already workmen are preparing the roadbed. The line will begin about 50 feet east of Mr. Harrison's store in college and run parallel to the main road along the river bank, inside the row of elms, for a distance of 900 feet. This will terminate near the corner of the athletic field where a foot bridge will be built across the river so that our downtown patrons in foot ball can be landed on the field. This will save not only a walk of ten or fifteen minutes, but the management promises plenty of cars on hand at the close of games so that the crowds going to the city need not rush to our waiting room. This is something the athletic management has been working for during the past two years and the downtown people, especially, will appreciate the new line.
The coming meeting of the State Teachers' Association at Battle Creek, October 23-27, promises to be by far the most largely attended and most valuable in the history of the Association. The railroads give reduced rates.

A course in the Literature of Horticulture is being offered for the first time at M. A. C. Prof. F. J. S. Strange's letter in last October, and that was a long time ago.

The coming meeting of the State Teachers' Association at Battle Creek, October 23-27, promises to be by far the most largely attended and most valuable in the history of the Association. The railroads give reduced rates.
