M. A. C. is certainly keeping up her record in football as shown by the result of Saturday's game. Fully 1,300 people witnessed the game, which is a record this season. The band made their first public appearance, and their music was certainly appreciated, as it added materially to the enthusiasm of the spectators.

The forward pass was very effective throughout the first half. Small kicked four of the five goals and added two fine kicks from field. This is the first time that an attempt of this kind on our own field has been successful. For M. A. C. Capt. Doty's line backing was a feature as was also his excellent interference. Small, Dunlap, Sheed, Boyle and McKenna all starred in advancing the ball, while Burroughs and Moore were strong on defense. The latter not only playing his position, but making himself generally useful and earning a well-deserved praise.

One of our touchdowns was made, after a long run, by Doty, on a delayed pass. For Albion Saundra's kicking was a feature, the last half especially being a sight to behold. himself and Small. Merrill, on defense, was practically the only man who did us much harm. He broke through time after time and spoiled the plays back of our line, thereby stopping what would have meant long gains.

M. A. C. fought her game in the first half, rolling up 17 points. In the second more kicking was done, but a touchdown, goal and field goal were added to the good sized score. In spite of the fact that Densah had been on the sick list of the enemy for a week, Burroughs, McKenna and Frazer were not in the very best condition possible, every man came out of the game in excellent shape. Densah and Parker were succeeded in the latter part of the game by Frey and Wheeler. Doty secured 3 touchdowns, Sheed 1, and Dunlap 1. Small kicked 4 goals and added 8 points by drop kicks. Thirty minute halves were played. The line up:

M. A. C.

ALBION

Moore C Skidmore
Parker R G Gilbert
Campbell L G Towley
Densah T Sacko
Burroughs E T Merrill
Dunlap R E Day
Sheed E E McKale
Boyle R H Crowley
McKenna L H Hays
Doty H
Titas
Small Q Saunders

The team goes to Albion for a return game on Saturday, but they do not expect to take much of a crowd. So far as possible subs will be played at this game in order to have the forward men ready for the third game on Monday, the 12th, with ALMA.

This promises to be one of the most critical games of the season. They furnish the only team which has been able to stop our offense and during the whole season have been noted for their fine defensive work as well. Their line has not been crossed for a touchdown this fall. From the fact that our own offense will not by in as good condition as could be expected if they had no game on Saturday, there is every interest being taken in the coming contest.

Y. M. C. A.

The recent visit of Messrs. Hurley and Rogers was a very successful and profitable one indeed. Something like three hundred men hearing Mr. Hurley at the various meetings and not a man of them but what was greatly benefited thereby. We sincerely hope and expect that there will be a big increase in the Bible study and membership of the association. But more than that we hope that the general, moral and religious life of the whole school will be improved because of the visit of these men.

The mass meeting held in the chapel Friday night was attended by about 200 students. Director Brewer and Capt. Doty were the speakers and in the evening the entire student body was present.

The great interest which they had for the visitation of the association and the enthusiasm which was displayed by those present...
THE M. A. C. RECORD.

A FARMERS' CLUB.

A large number was out last Tuesday to hear J. G. Halpin speak at the Farmers' Club, on the subject: "Understanding Poultry and Farming." The speaker showed that the states of Massachusetts, Rhode Island, and Connecticut through leading poultry states of the east, imported $6,000,000 of eggs last year and it is quite easy to see that the cheaper grain and increasing ease of transportation is greatly stimulating the poultry business in the western states. But the lack of knowledge in preparing eggs and poultry for the market has been one of the primary causes of the failure of the western products far below that of eastern goods.

Mr. Halpin advised the novice to get a few standard birds for a beginning rather than to buy eggs, as it is the latter that will give you the best results.

TUESDAY, NOV. 6, 1906.

In speaking of the election of G. L. Sumner as president of the M. I. A. A. board of directors, and W. P. O. Barrows as president of the State Oratorical Association, the Albion College Field has the following to say: "Honors, coming at a time when important changes in existing rules are being discussed in both organizations, should be peculiarly gratifying to Albion supporters."

As a matter of fact these "honors" conferd. the colleges in rotation, for, influences you more than you account for, and you want the result you look for. In the Oratorical contest through leading poultry states of the east, imported $6,000,000 of eggs last year and it is quite easy to see that the cheaper grain and increasing ease of transportation is greatly stimulating the poultry business in the western states. But the lack of knowledge in preparing eggs and poultry for the market has been one of the primary causes of the failure of the western products far below that of eastern goods.

Mr. and Mrs. Foskit from Albion visited their son, Glenn, last week.

Mr. F. Tuttle of Detroit spent a day or two at the college recently.

Miss Clara Morley spent a few days with College friends the past week.

A motor has been installed to drive the blower in the cupola of the foundry.

Miss Helen C. Albertus of Detroit entered college on Saturday of last week.

Many of the delegates at the C. E. convention in Lansing last week visited the campus.

Mr. R. A. Parsons of St. Clair was the guest of his cousin, W. H. Parsons, over Sunday.

Wallace Bliss, with '99, is "sleeping in" as conductor on Lansing's street car railways.

Miss Perry, from the Lansing Y. M. C. A., gave the girls a very advanced registry.

Roy Colly, who has been in the hospital last week received a visit from his father and mother of Corunna, on last Monday.

Miss Bently, formerly stenographer in the president's office, is spending the winter at her old home in Pittsfield, Illinois.

Rev. W. J. Hamilton, pastor of a Congregational church in Grand Rapids, was on the campus for a short time on Friday.

The new telephones are being rapidly put in and connected up and as soon as the numbering is done we may begin to talk.

Student pay days will be next Friday and Saturday, Nov. 9-10. All time up to and including Nov. 3 will be paid for on these dates.

Among those who were here for the ball game Saturday were Ada Howie, Clara Campbell, Ray Potts, "Babe" Kratz and Howard Baker.

Instructor McCue has been appointed dormitory inspector in place of Prof. W. O. Hedrick, who has had charge of this work for several years.

All students who left their home in Grand Rapids one day the past week on account of illness.

All machines in the shops are now driven by electric motors, the steam engines being used for laboratory work.

Miss Trent, from the Lansing Y. W. C. A., gave the girls a very helpful talk Sunday evening in the parlor.

W. B. Liverance, '97, was in Poitice, Friday, where he tasted the dairy herd of the asylum for advanced registry.

W. W. Wells, Instructor in Engineering at M. A. C. during the past two years is now with E. W. Roberts at Clyde, Ohio. Mr. Wells is at present designing a four cycle engine to be used for marine service.

Mr. Fisk, Bureau of Entomology Dept. of Agriculture, Washington, was at the college Wednesday to consult with Prof. Pettit concerning certain insects which are proving very destructive in the north and to arrange for co-operation in his investigations and in an endeavor to find remedies for same.

During the past week Miss Perry and Miss Carney have had overnight visits from their mothers. Mr. and Mrs. Van Heuten, of Grand Rapids, have also been with us for Sunday and Mrs. Johnson of the same place is making a stay with her daughter. We are always glad to see the parents of our students.

Mr. and Mrs. Foskit from Albion visited their son, Glenn, last week.

Mr. F. Tuttle of Detroit spent a day or two at the college recently.

Miss Clara Morley spent a few days with College friends the past week.

Owing to some confusion of dates some of the debaters failed to appear at debating club Thursday night. As a result, the question of co-education at M. A. C. was discussed extemporaneously. The discussion was not confined to M. A. C. alone but to other colleges and the ideas brought out were very interesting, as well as instructive. A vote in favor of the resolution adopted at M. A. C. was the opinion of a majority.

The question that was to have been debated will be debated at the next meeting.
Alma game on next Monday are urgently requested to purchase be sure of a seat. If you wait until...whv not be sure of a good seat.

was entertained last Saturday evening. There were the usual Hal…telling by a witch who was kept busy all the evening. The refresh…ments were doughnuts, pumpkin pie, cider, apples and chestnuts.

DINNER was served at six to a hundred and twenty guests. Each table was decorated with jack-o-lanterns and tiny candles. Fates foretold the future by reading pennies, rings and buttons found in the cakes. The ghosts were very outgoing, and Mr. Charles Garfield, a man well known to all M. A. C. After dinner the ghosts gathered in the gymnasium and those not content with their pennies learned more of their future through mysterious papers handed to them. Time passed all too quickly and at eight the ghosts very reluctantly went to bed.

Miss Halle Landis, student secre…ary of De Pauw University, was the guest of our college Y. W. C. A. last week. During her visit she spoke at the college assembly and also addressed the college Y. W. C. A. In her address Miss Landis outlined the plans of the convention to be held at Kalamazoo next week, urging the girls to send as many delegates as possible. This letter was a help and inspiration to our society.

MEATS . . .

May look alike to you, but there is a very great difference in the quality of meats we handle and that sold by some other markets. We handle none but the very best. Like the pudding, the proof of good meats is in the eating. We hope that the faculty and students will take it upon themselves to patronize those who patronize us.
