MICHIGAN STATE AGRICULTURAL COLLEGE.

WEEKLY CALENDAR.

TUESDAY, APRIL 23—Performances of the M. A. C. Opera Society at 8:30 in the Evening.</p>

STUDENT RECITAL.

The following program will be rendered at the recital given in the parlor of the Women’s Building next Friday evening, April 26th, at 7:30. Program will be read out for this recital in such a way as not to program the works of many of the students to be given will be rendered.

The recital will be in part a called “lecture-recital” and explained in many of the numbers to be rendered at a recital given in the parlor of the Women’s Building.

The value of the speech of Sunday evening.

The talk of Mr. Pattengill at the meeting Sunday evening was greatly enjoyed by those who heard him. Mr. Pattengill is a very popular speaker with the students as was testified by the well filled chapel; there was a great deal of interest shown in the speaker, which is exhilarating and inspiring. Although Mr. Patpennill’s speech was full of laughter provoking humor, yet mingled with this humor there were many serious lessons which made a strong impression upon the audience. The value of persistence, the influence of having a great vision, and the necessity of a sincere Christianity and a firm belief and clear knowledge of the Bible were some of the truths that the speaker most emphatically presented to the listeners. A strenuous demand for the clear life and a vigorous optimism might characterize the speeches of Sunday evening.

The annual conference of the Presidents of the College Associations of Michigan is to be held at Olivet on the 26th and 28th of this month. Mr. Barden and Mr. Webster are to attend and take part. This conference promises to be very helpful to those who attend. Dr. Fletcher and Prof. Sackett have been appointed by President Snyder as the Faculty representatives on the Y. M. C. A. Advisory Board. Dr. Fletcher and Prof. Sackett have been appointed by President Snyder as the Faculty representatives on the Y. M. C. A. Advisory Board.

LANSING AND THE CELEBRATION.

That our Lansing friends propose doing their share to make the day, May 31, a success, is evident from the plans being laid. President Roosevelt will be in the city but a couple of hours, but will find that Michigan’s capital will extend a welcome to that to those who have come to watch you closely in the short space of time. A joint meeting of the various committees was held in the rooms of the Lansing Business Men’s Association early last week and steps taken to arrange a program for that day. President Snyder and Prof. Kedzie met with this committee and the general plan suggested and committees appointed were as follows:

Mesa, J. J. Baird and J. Edward Row were chosen to commit to arrange the parliamentary party to the capitol building. A committee from the conference and the business men’s association will have in charge the arrangements for an auto ride to and from the college.

A committee composed of W. K. French, R. E. Olds and Fred L. Johnson, have been appointed to arrange the automobiles which are to form a part of the parade.

Hannah, Miss Florence Hall.

And Miss Louise Allen.

J. Beal.

"...the afternoon of last week, when necessary to pollenate Red Clover, W. Patten and Walter G..."

The management is well satisfied with the showing made against Ann Arbor in the series of games played last week, Thursday, Friday, and Saturday. The continued weather had prevented systematic practice and this added to the fact that Michigan's team was made up of veteran players while of our own four were freshmen and playing their first game out of high school, is what caused a delay in the schedule. The lowest M. A. C. has ever held the first game up against the Rain Sat. 24th. Vaughn, Nio, Thaicher, Patterson, Kelley, Lowell. Two-base hits—Dunne, Milk, Kelley. Unploted—Byrne.

Emmerman caught the first game for U. of M. Lowell the last two. Vaughn played right field first two games.

Knapp deserves special mention for his excellent work on third throughout the series and his more even scoring with the bat. Vaughn playing an especially steady game for his first. Mills showing up poor fielding game but will improve with good practice and did the best hitting of any member of our team. Creasy also played his difficult position well and will..."

ABOUT THE CAMPUS.

The tennis courts are beginning to be quite attractive in spite of the chilly weather.

The Dairy Club holds its first meeting of the term in the Dairy Building tomorrow night.

The mulch in the botanic garden is being removed and the plants seem to have wintered very well.

Had you noticed the ingenious way in which the weather man prognosticates? Not much danger in missing.

Prof. Fletcher will continue his experiments in strawberry breeding in Minnesota. The book contains a commercial plantation of raspberries, including about 1,200 plants, to be set this spring; also a small plantation of quinces, plums and sour cherries.

Miss Louise Hesse was a college visitor a few days the past week.

Miss Katherine Clark was called home recently to attend the funeral of an uncle.

Prof. Bogus has had several calls from state institutions for surplus ornamental stock.

The severity of the October frosts is indicated here by the fact that the yearling peach trees in the nursery are killed to the ground.

The experiments in potato breeding which were in the hands of Instructors A. G. Craig and C. A. McCue, will be continued this spring by Mr. Kohler.

COLLEGE MEN WANTED.

Men with college training are to be in greater demand on the Penn­sylvania Railroad than at any time in its history, according to the New York Tribune. The management is making special efforts to get students who have a technical education.

With the tremendous New York improvements of the Pennsylvania and other extensions all along the line there is the increasing need for operating men and engineers of good standing. New positions of responsibility are being created which are especially suited to men graduated from technical schools.

The Pennsylvania is at the start giving a premium of $50 to those who will come under the 150 sq. ft. rule on the grounds of the forest.

Charles H. Alexander, with '95, of Lansing, was out to the college yester­day, observing some of the ad­dressers of his old class-mates. He is anxious that the class of '95 be well represented at the Jubilee.

The sum of $150 has been received from 50 sq. ft. of ground in the forest nursery. This stock was four years old and had occupied the ground from which they were taken two years.

Peter Kohn '11, recently received a short visit from his father, who is drain commissioner of Ionia county, and was in Lansing on business. Mr. Kohn's home is at Belding.

Instructor F. H. Sanford, of the Forestry Department, has been in Detroit for several days looking after the permanent forestry exhibit on the state fair grounds.

Dr. Real desires that the book by Dr. Barnes which was borrowed from him some time ago by some member of the experimental station or teaching force be returned.

During the U. of M. games last week Mr. Graschna entertained his sister and a cousin from Detroit, also Mr. Robert G. Sada, a friend from Ann Arbor.

The Hilldale College, of April 17 is issued as a special Athletic number and publishes an interesting article on "Growth of Michigan College Sports."

Prof. Holdsworth writes that he expects to be at home in about three weeks, if the weather will permit. He states that they are still having frosts in Florida.

The Hort. Department would be very grateful for the return of the carts and tools which have been taken from the building.

President W. N. Ferris, of Big Rapids, speaks at the First Baptist church Friday evening; April 26, on the subject "Success."

Water pipes have been extended from the main near the farm house to the poultry plant and slaughter house.

Prof. Shaw returned from his eastern trip Friday of last week.
