RAILROAD RATES.

A number of inquiries concerning railroad rates on the certificate plan have been received and we are able to make the following statement concerning the same.

In the first place this rate is given by the Michigan Passenger Association and includes only the lower peninsula of Michigan. When purchasing your ticket to Lansing (full fare) you will be entitled to a certificate as well. This certificate will be deposited at the proper place at the end of the line. Upon your return, by presenting this certificate you can secure the rate of one-third turn, by presenting this certificate as well. This certificate will be honored for reduced rate tickets and including Tuesday, June 4.

BACCALAUREATE.

The Baccalaureate exercises will take place in the Armory, Sunday, May 26, at 3:10 p.m. The order of service will be as follows:

Hymn
Invocation
Hymn
Anthem—Send out thy light—Gounod, M. A. C. Choir.
Scripture Lesson
Prayer
Solo—Miss Louise Stretch of Ann Arbor.
The service will be conducted by Rev. Mr. Henry Buckham, president of the University of Vermont.

Y. M. C. A.

Prof. Jeoffry spoke at the Union Meeting Sunday evening, and members of the choir from the Church of Our Father rendered three very beautiful selections. The associations have been fortunate in the special music that has been given at the Sunday evening meetings during the past year, and that of Sunday evening was no exception.

There will be no meeting next Sunday evening on account of the baccalaureate sermon to be delivered in the afternoon. There are but two remaining meetings this year and in order to have them well worth attending.

INCORPORATION.

On account of an error in copying the boundaries of the proposed city of East Lansing, it was found necessary to return the bill to the starting point in the legislature. On this account registration and causus has been postponed, the probable date being May 1. This depends, of course, on the movement of the legislature as the bill must pass the Senate to be made a law, and to allow ten days in which to advertise. The House, however, has already passed upon the correction and it is hoped that the date of registration will be not later than June 1, at the school house.

M. A. C. WINS THE ANNUAL DEBATE WITH YPSI.

The M. A. C. debating team, consisting of William E. Piper, H. L. Kempest, and C. C. Taylor, defeated the Ypsilanti Normal College team on Friday evening, May 17th. Ypsilanti was represented by J. M. Hover, L. W. Weber, and William Olds. The debate, which took place at Ypsilanti, was on the question, "Resolved, that a progressive inheritance tax should be levied by the Federal government." The affirmative was defended by Ypsilanti, while M. A. C. won by maintaining the negative.

An audience that filled the large assembly hall of the Normal College listened with the closest interest to the speakers of both sides. The courtesy of the Ypsilanti students was such in the matter of applause and "rah-rah's" that it was all but impossible to determine whether they were sympathizers with the negative or the affirmative. In every way the team felt that they were given the glad hand by their hosts, a feeling which was approximately expressed in a neat little speech by Mr. Piper before the decision of the judges was announced.

The work of the team was such as to give pride to every loyal alumnus, student and friend of M. A. C. As one of the judges put it they showed throughout that they thoroughly understood their subject, that they had selected the right materials for effective use, that they had arranged their materials in the most logical manner, and that they had presented them most persuasively. Another of the judges, one who gave his decision in favor of M. A. C., stated that he came to the contest personally in favor of a progressive inheritance tax, but he was far from sure when the team had finished its argument that such a tax would be expedient. The affirmative based its argument on the facts that such a tax would be practical, just, and expedient, while the negative argued that it was undesirable, impracticable, and unnecessary, first, as a means of regulating wealth; second, as a means of raising revenue; and third, as a means of equalizing taxation.

In constructive argument each of the M. A. C. team depended largely upon a carefully prepared and accurately committed argument. They all gave these addresses without a break or indication of hesitation and, entirely without notes. In rebuttal, on the contrary, they had no set addresses, but depended upon their thorough knowledge of both sides of the question to enable them to answer any argument their opponents might advance. In this work they were no less skillful and effective than in their constructive work. All in all they were masters of their subject and of its presentation.

Piper is a senior mechanical, while Taylor and Kempest are sophomores. Piper was on the team defeated by Ypsi a year ago, while Olds, the leader of this year's Ypsi team, was a member of that winning bunch.

The judges of the contest were Professor Claude Van Tyne, of the department of modern history, Ann Arbor; Professor Thomas Nadal, of the English department, Olivet; and Superintendent S. O. Hartwell, of the Kalamazoo public schools.

In his post graduate studies he has shown rare ability as an investigator, as his thesis is considered to be among the very best that has ever been presented in the history of the college. As an instructor his record has been unusually good.
