The M. A. C. RECORD.
MICHIGAN STATE AGRICULTURAL COLLEGE.
VOL. 13. LANSING, MICHIGAN, TUESDAY, OCTOBER 8, 1907. NO. 3

FARMERS' CLUB.
The Farmers' Club met last Tuesday night in its regular meeting at the Agricultural building and listened to a very interesting talk by Prof. Snyder on the subject "Young Men and the East." The presentation of the plans for the new quarters was pointed out very clearly the many reasons why young men should no longer go west or south for the best farming propositions. He cited many cases where valuable farm land could be had at buying prices, especially in the New England states and in Pennsylvania. Many of these farms had been abandoned because of lack of fertility or moisture, or soil, but because of lack of children to carry on the work.

ALUMNI.
M. A. C. has lost two men who will play a prominent part in the Constitutional convention viz.: C. C. Lillie, '94 and B. A. Cook, '95.

In a Colorado paper of recent date we notice an article of considerable length concerning C. J. Foreman of the above class who has recently been elected to the head of the department of Political and Social Science at the Colorado University. Prof. Foreman for two years after his graduation served as assistant librarian at M. A. C. and since that time has taught, and has taken post graduate work at the U. of M. and at Wisconsin University. His many friends here will be pleased to learn of Mr. Foreman's desired success and congratulate our sister college on having obtained so able a man as head of the department.

Cashes have been received announcing the marriage of Dr. James A. Goodfellow to Miss Freyhofer, the Director, reported in a Colorado paper.

HORT. CLUB.
The large number of students who gathered at the first meeting of the club last Wednesday evening were favorably interested in the plans for the house and garden. Articles of faith have been drawn up by the committee and a copy of them will be placed in the hands of each family in East Lansing.

The club has assumed the responsibility of entire charge of the annual meeting of the American Fd. Class. The plan of the meeting is to hold this fall at the International Stock Show in Chicago. In order to project the department successfully, it must send a big delegation to that meeting. Many members make a strong body, and the club needs the earnest support of every agricultural student.

The plan of the meeting is to hold a show program this fall than ever before, and to take advantage of this practical lecture and to come to the agricultural building every Tuesday evening at 6:30.

J. S. WELLS.

DEBATING CLUB.
Quite a number of new men joined the Debating Club at its first meeting last Thursday night. They are interested in most of the old men interested in the club last year, transacted the routine business necessary to the successful beginning of the work for the coming year. Prof. Hedrick gave an interesting talk along this line of the club's work.

There was no regular program, but both the coming Thursday night a live question has been set. Two members of the faculty of the English department will be ranged on the opposite sides of the question.

Come and witness a lively "scrap," and get in on the general discussion afterwards. Remember there is no charge, and not need to be a member of the club to attend.

The church is a shelter for the sinner, but not for his sins.

The entering engineering students have been divided into four sections for drawing, the Agricultural into four and the4ettering women into four.

M. A. C. 49 YEARS AGO.
Extracts from a speech by Pres. Williams given before the New York State Fair, Oct. 5, 1855.

"The Agricultural College of the state of Michigan has been actual opened, Oct. 8, 1857. Its faculty consists of a President and four Professors and it has accommodations at present for 100 students. It was created in obedience to a resolution of the revised constitution of 1850, and organized under a law of 1854. The farm consists of 676 acres. Its design is to unite physical with mental culture, to afford the students a chance to earn in part his own education and a chance to apply himself, free of tuition, to those sciences and practical arts that may render him a scientific farmer and an enlightened citizen. The campus and most of the farm has been made sufficient to fill the institution. This is the first state institution, and the only exclusively agricultural one yet in operation on this side of the Atlantic.

The institutions has met with trials and misfortunes. It should have been located on land throughout, already subdued, already a model farm.

The campuin and most of the farm is now in the second generation of pioneers.

Though subdued, already a model farm.

The campus and most of the farm is the first state institution, and the population.

THE M. A. C. RECORD.

FINANCIAL STATEMENT.

Of the Co-operative Book Buying Association for the year ending June 1, 1907.

M. A. C. Wins First Two Games of Series.

ATHLETICS.

Last Thursday afternoon M. A. C. opened the football season by defeating the Detroit College eleven by a score of 17 to 0 all day, leaving the field heavy and in some places covered with minnows, making good football almost impossible. Although we expected our team to run up a larger score than it did, but the Detroit lads, attracted by the shape of our team, put up a game fight, contesting every inch of ground.

Detroit played to toss and chose the east goal. Vaughn kicked off sending the ball to Detroit's 10 yard line from which it was advanced to their 25 yard line where it was downed. Detroit lost the ball on their next play by fumbling. The ball sea-sawed back and forth, punting being frequently resorted to by both sides; Small and Vaughn had the better of the argument in this line and soon had the ball on Detroit's 3 yard line where Frazer fumbled, Vaughn retrieved the ball and finally put it over for a touchdown, Smith kicking the goal.

Detroit was off and in a short time we had the ball on their 30 yard line, when by a long forward pass Vaughn was sent over for a touchdown, the punt being caught holding and the ball was brought back and we were penalized fifteen yards. The ball ended with the ball in Detroit's territory. Score, 6-0.

Sherwood made a few changes in the second half, Lemmon took Parker's place at right guard and Courtright took Fisher's place at right end. McWilliams was shifted to right tackle and Moore went to center.

After exchanging punts several times, our team began a steady march toward their opponent's goal line. Lemmon was sent over for a touchdown, the punt being caught holding and the ball was again put back by a 15 yard penalty.

THE M. A. C. RECORD.

Published Every Tuesday During the College Year by the Michigan Agricultural College.

W. J. Wright, Managing Editor.

Y. M. C. A.

The old men are going after the work with zeal and enthusiasm and many new men have already connected themselves with the association.

The Association Hall has been full every Thursday evening from 6:30 to 9 o'clock. Let us attend the attendance and the interest already shown. Last Thursday night, Dr. Bates, an old Friend gave the fellows a good talk on some of the things college men have to go through while college. We endeavor to have something good every Thursday. Come next Thursday and hear what Rev. Wilson has to offer. He is good.

On Friday night the Association pulled off their annual stag reception in the Armory. There were about 300 to enjoy the stunts, music, apples and talks by Pres. Snyder and Mr. Blaisdell.

New men don't miss the opportunity of coming in touch with this part of college life. We want you to join us and help in the social functions planned for this year as well as in the Bible and Mission study groups.

SUGGESTIONS.

The following suggestions greet all new students who registered with Dr. Blaisdell last week and it seems to us to be worthy of serious reflection on the part of every student of the college.

Get busy; stay busy all year.

It costs time and money to be idle; Don't waste either.

Success does not come to an idle man.

What are you here for? Fun?

Fun must come out of trouble by keeping at work.

A good time to do a good thing.

No. 27. At the theatre tonight means in trouble tomorrow.

Close your work; don't have it charged you.

Yes, my boy; you will reap the same kind of crops that you sow.

Don't forget your mother; what would she think about it?

EAST LANSING POST OFFICE.

Mails arrive: 7 a.m., 11:20 a.m. Mail for East Lansing is to be delivered in Lansing that forenoon; leaving at noon will make best possible connections.

Friday night on his work in tobacco breeding in Connecticut.

Wm. M. Clute, son of Ex-Pres. Oscar Clute, and a former student here called at the college last week. He is interested in copper mining at Blaize, Arizona.

EVERY KIND OF

FURNITURE

FOR YOUR ROOM.

C. M. Cade, of last year's engineering class, is teaching mathematics at Purdue.

Dorr Skeels, with '03 and Blanche Cornell, p. '04, were married at Whitehall, Mich., October 2. They will make their home in Washington, D. C.

Mr. F. G. Cornell, of Louisville, Ky., will assist in the drawing department this term. Mr. Cornell is a forestry student, but has had considerable experience in drawing and is a graduate of a manual training school.

Miss Jones, acting dean of the Woman's Dept, last year, is now pleasantly laced at her home in Philadelphia, where she is doing tutoring for Bryn Mawr and other eastern colleges. Her address is Delancy Place, Philadelphia.

As a cap sheet to the system of farm barns the firm department is now erecting a large concrete masonry shed to take care of the litter. This shed will be 27660 feet, one half of which will be a driveway, and the other half a storage bin for the manure. During the summer the litter will be stored in the shed, and during the winter it will be dumped on wagons standing in the driveway and drawn direct to the field. Overhead tracks will convey the litter from the barns to the shed. In this way not only is the appearance of the farm yard improved, but there is a great saving in time and labor and in the conserving of available plant food otherwise lost by leaching.

Steps are being taken to reorganize the Electrical Club. A good move.

Capt. Fuger entertained his father, Col. Fuger, of Washington, D. C., a few days last week.

Next week we shall endeavor to publish a list of all new students. This list has been purposely withheld this week for several reasons. Alma college has dropped into line and is now publishing a weekly paper, The Weekly Almanian. It is well edited and deserves the support of the students.

Lives of football men remind us:

That they write their names in blood
And departing, leave behind them
Half their faces in the mud—Ex.

Miss M. A. Bently who will be remembered as department stenographer in the President's office was married Sept. 11 to Mr. H. E. Bovay. They are to make their home at Ancon, Canal Zone, Panama.

The short course Bulletin will soon be ready for distribution. You surely know of several persons who should take one of the short courses. Hand in your name at the President's office or to Prof. C. D. Smith and a bulletin will be sent you.

Robert Snyder sold his pony to a girl who recognized the man who owned it, and a bulletin will be sent them.

Robert Snyder sold his pony to the State Fair people last fall. It was the one given to the first boy or girl who recognized the man who walked across the state as an advertisement for the fair. Miss Connors, of Detroit, was the lucky girl.

A group of Norway Spruce which obstructed the view of the new engineering building has been cut down.

Mrs. E. E. Rogue is now acting as department stenographer in the place of Miss Sheets who recently resigned.

Rev. H. C. Wilson of the First Presbyterian church at Lansing will conduct chapel exercises next Sunday morning at 9 o'clock.

Wm. A. Robinson, A. B., S. T. B., has been engaged as in-tructor in English. Mr. Robinson is an old student of M. A. C., a graduate of Albion college and a post graduate of Boston University.

Mr. and Mrs. H. E. Bovay called on friends at the college for a few mom-nights last week on their way to the canal zone where Mr. Bovay is chief clerk in the sanitary department of the canal service there. Contrary to the popular opinion Mr. Bovay states that the work is progressing rapidly. At present there are 40,000 men on the pay rolls. 100 steam shovels are in operation, each of which lifts five cubic yards of earth at each load and at the rate of four loads per minute. There are also at work two dredges with a capacity of 800 cubic yards per load each and working at the rate of 15 loads per day. Mr. Bovay states that in all probability all the earth will be removed within three years, but of course the canal will not be opened for service for several years.

THE STUDENT FARMER, Madison, Wis.

...
A VERAGE men are as colorless as average clothes. College men are outside the average—their togs have to be College Brand Clothes are. Just a bit more dash to 'em, a great sight more style—and the precisely right amount of fit. Though exclusive their price isn't enough to exclude you from wearing em. For the young man and the “like-to-be-young.”

O’CONNOR, Clothier.

Sole Agents for College Clothes.
