M. A. C. OUT OF M. I. A. A.

Now Free To Make Independent Schedule

By action of the Board of Directors of the M. A. C. held at the Hotel Downey Friday night M. A. C. is now free to make an independent schedule and this fact that the rapid growth of the college has naturally placed us in a more or less isolated position to our various neighboring colleges is being a great help in this respect.

The basketball game of last Friday night was a thrilling one. The score was 12 to 10 in favor of the home team. The game was played in a spirit of fair play and sportsmanship and there were no fouls. The players were all in good form and the game was well played.

COLLEGE SPIRIT.

At the recent meeting of a number of scientific societies held at Chicago, the professor of botany voluntarily remarked to Dr. Bell that the M. A. C. was set back in the world of college sport by a certain football team. Dr. Bell replied that the M. A. C. was out of the M. I. A. A. and last season's football schedule had shown that the M. A. C. was out of the M. I. A. A. and last season's football schedule had shown that the M. A. C. was out of the M. I. A. A.

M. A. C. 33—NOTRE DAME 20.

The basketball game of last Friday night was one of the most spectacular and sensational games of the kind ever seen at M. A. C. After a hard struggle with each other with every emotion of the fabricated audience, Notre Dame was finally defeated.

HISPANIAN PARTY.

The Hispanians gave a sweater-party in the Armory last Saturday night.

UNION LIT. PARTY.

The members of the Union Literary Society gave their annual winter term "Ten O'clock" party last Friday night. As the guests arrived they were each given a purse full of money and requested to buy railroad tickets over the R. R. to the county fair grounds.

After a journey of perhaps a half hour in the "Bijou Scope" with the members of the union, there was a dance, and later there was a large room fitted up with stands and vendors of coffee and sandwiches and sellers of cigarettes.

The members of the union gave their annual winter term "Ten O'clock" party last Saturday night. As the guests arrived they were each given a purse full of money and requested to buy railroad tickets over the R. R. to the county fair grounds.

During the evening Count Obediah Simpson and Miss Sally Jane Grumpau were united in marriage by Dr. H. D. Hahn, of the Union. Mrs. Carrie Nation favored the visitors with an article on the "Care of Children." Prof. and Mrs. Sackett were the patrons of the fair, and added much pleasure to the occasion by their presence.

The Record has several letters concerning college spirit, written by graduates of M. A. C. who now hold important positions in other colleges, which, as opportunity permits, will be printed. That M. A. C. has a healthy college spirit cannot be disputed, yet these letters may indicate an opportunity for improvement. We hope that the conditions now existing will not long exist without sacrificing public interest and trust in other institutions give their words added weight.

It is to be regretted, that, whatever the general interest in the octagonal campus, the spirit of the students is not evident in the attitude of the literary societies who are alone responsible for the success or failure of the local oratorical society seems to be one of apathy. This year only five of the twelve or thirteen literary societies were represented. The plan of selecting the college orator by intercollegiate contests may be the best possible one when each society is represented, but when less than half send a representative, it is evident that they represent less than one-fifth of the student body. Such conditions cannot long exist without sacrificing public interest in the local and state contests.

Miss Landes has been with us a week, working and planning with the different committees and studying how better work might be accomplished. We have enjoyed her visit here very much. The little social gatherings in the Dean's and it is hoped that all students interested in engineer ing will arrange to attend every meeting. The year is probably the last for which we are fortunate in hav ing for our speaker Dean Bassel, which has not been discussed, and with few changes, adopted. The organization of the society is now complete with the exception of a few minor details. Regular meetings will be held at seven o'clock on Tuesday evening of every week at the Women's Institute, and it is hoped that all students interested in engineer ing will arrange to attend every meeting. The last opportunity will also be given to students for those who wish to join the society as charter members to sign the constitution.

ABOUT THE CAMPUS.

The zoological department has recently received a shipment of minerals for use in the class in geology.

Mrs. F. Leona Gaskins, of Valparaiso, Ind., has been secured to take Mrs. Haner's place as instructor in domestic art.

The thermometer at the weather station registered 11 degrees below zero Wednesday night. This is the coldest weather here so far this year.

Prof. Taft is in Madison, Wisconsin, attending a meeting of the Wisconsin State Horticultural Society. He is to speak on "Making Money from Apples."

A class in cooking has been started at the Michigan Agricultural College for the male students. Women who don't want to lose their cooks will presently be able to marry one.—Chicago Tribune.

The Band and Athletic Association are planning a minstrel show to be given sometime in the future. This will take the place of the annual college circus heretofore given the first week of the spring term.

In another column will be found an abridged program of the round-up institute which will be held at the College Armory, February 25-26. A full program, giving detailed information, may be had of Prof. Taft. Students having friends who would be interested are requested to send them.

Instructor Gregg and family left Friday for Blackburg, Va., where Prof. Fletcher will take up his duties as director of the experiment station. The Record wishes him success in his new field of labor.

The storm Saturday caused no little inconvenience particularly with those who had occasion to patronize the electric line. The car which should have reached the College at 4:10 was derailed at Baker's switch tearing up the track so that it was after 5:00 o'clock before repairs could be made and another car run through. People who live down town or were down town on business experienced the pleasure of walking either to or from Baker's switch through the snow banks. The experience added little pleasure to those who were compelled to wade in order to get to the parties which were being held.

Mrs. J. J. Meyers will entertain the members of the Sororian Society at dinner Saturday evening.

Director Brewer was in Detroit Monday acting as referee in the Notre Dame Y. M. C. A. game.

The percheron team recently purchased in Sioux City, Iowa, by the farm department arrived at the college Thursday.

Mrs. W. Balcock will entertain the Try and Trust Circle of King's Daughters at a thimble party, Thursday afternoon at 2:30.

The members of the Junior and Senior horticulture classes went down to see Prof. Fletcher off for his new field of labor last week.

President and Mrs. Snyder entertained the college Y. W. and Y. M. C. A. Friday in honor of Miss Landes. About 100 were present.

The lady instructors of the Women's Building gave a dinner Friday in honor of Mrs. Jennie K. L. Haner. The students made her a present of an umbrella as a remembrance.

The forestry department has just received 250 pounds of white pine seeds for use in restocking the college forest reserve. White pine seeds run about 15,000 to the pound which means that a total of 6,250,000 seeds will be planted.

THE M. A. C. 33—NOTRE DAME 20.

The second game was played Saturday night in the Lansing Y. M. C. A. gymnasium and although not as exciting a contest as on the preceding night was a good exhibition of basketball. The score at the close which was in favor of Notre Dame, M. A. C., played a strong game but was weakened by the loss of Hanish who was unable to play on account of the bruise received on Friday.

On the whole every one is satisfied with the showing made by our team. There is every reason to believe that the good work will continue.

M. A. C. 33—NOTRE DAME 20. (Continued from page 1.)
buildings solidify the college into an organism and all the different departments of the college are merely different members of this organism.

If you were to remain sometime at Cornell I think that you would find that the students in the College of Agriculture have a conservative pride in their college which they are willing to justify under any circumstances. They consider themselves also to be loyal members of the University body and they share no special bond with other colleges in the University body and they share no special bond with other colleges.

Personally I feel that a good part of this college spirit is accredited by the fact that no separate post-graduate degree is given for students in agriculture. When one completes his college work he may then take up undergraduate work. This work is in charge of the general University Faculty and is managed by the Dean of the University rather than by the Dean of any college. When one comes into post-graduate work he enters the same university of educated men, and by the time that he arrives at this doctor's degree he has left behind the particular route by which he came and has become a citizen of the democracy of letters. There has long been a feeling in the agricultural colleges that there should be special degrees for men pursuing their work, and on the theory that this would lead to special honor in agricultural education. It must be remembered, however, that agriculture must not try merely to honor itself. It should attempt to attain to the marks and distinctions that have come regularly to be recognized as the attainments of educated men, and the greatest honor that can come to agricultural education is to have its men attain to the degrees which other educated men attain.

The names in this Directory, as well as those of all our advertisers, are selected by the publishers. We hope that the faculty and students will take pains to patronize those who patronize us.
