Mr. Strong and Mr. Martin both sing in the Fifth Avenue Pev
St. Paul, by Mendelssohn was given by the college chorus of 100 voices under the direction of Miss L. F. Freyhofer. They were assisted by the soloists mentioned above and Mr. A. J. Patterson, Mr. T. Schroeder of Bristol, Va., acted as oratorio accompanist and added much to their sympathetic playing.

The soloists entered into the spirit of the oratorio and sang their parts admirably. The recitatives were exceptionally well given, and were effective because of the careful

Mr. Strong, a man of a quiet disposition and a quiet way of thinking, has been a member of the college faculty for many years. He is well known throughout the community, and is looked upon as one of the leading educators in the state. His teachings have been of the utmost benefit to the college, and his influence has been all for the good.

The M. A. C. RECORD.

GLENN W. DODGE

Glenn was born in Almont, Michigan, April 25, 1853, and was the oldest son of Mr. and Mrs. W. C. Dodge. He graduated from the Almont public schools in 1873, and was the first to graduate from the college in 1879. In 1883 he received his M. A. C. degree and began his career in education.

The short sickness of Mr. Glenn Winchester Dodge terminated in death, about one o’clock Social Hour morning. He was taken to the college hospital Wednesday afternoon, where it was found that an appendix abscess would necessitate an operation. He was removed to the city hospital and the operation performed the following day. Up to the time when he was taken to the college hospital he was seen only in as good health as could be wished. Friday morning Mrs. W. C. Dodge and son arrived followed by Miss Edna Pearl Benedict, the latter accompanied, and added much to their sympathetic playing.

The program follows. All the soloists responded to encores.

Miss Benedict, in her solo, sang "Your Cried in Your Sleep, My Baby," which confirmed the impression of her wonderful power and artistic excellence.

Mr. Strong, a man of a quiet disposition and a quiet way of thinking, has been a member of the college faculty for many years. He is well known throughout the community, and is looked upon as one of the leading educators in the state. His teachings have been of the utmost benefit to the college, and his influence has been all for the good.
The M. A. C. RECORD.

FACULTY-SCHOLAR BALL GAME

One of the best base-ball games of the season will be played off Saturday afternoon between the faculty and seniors at the athletic field. Don't miss it. Curtain will go up 3:30 p.m. The following list of "notables" will uphold the dignity of the faculty and will be supported by the younger members of the faculty: J. L. Snyder, 2d base; A. X. Brown, 1st; T. C. Bissel, c. f.; R. S. Shaw, pitcher; G. W. Bissell, 1st; L. R. Taff, catcher; K. Vedder, 1st base; Capt. Fugger, r. f.; Thomas Gunson, umpire; Dr. Dean Gilchrist, keepers. The following will comprise the senior line up: "Shorey," McVann, pitcher; Mr. Zimmer, catcher; Walter Smill, 1st base; T. W. Twaits, and base; J. M. Gungower, 3rd base; M. E. Hall, 2d; Sam Horton, l. f.; Walter Hopson, c. f.; Harry Haga­man, r. f.

The commission (50). Grand stand free.

RESOLUTIONS.

WHEREAS, The hand of death has arrested the life work of Glenn W. Dodge, and removed him from a loving family circle, and WHEREAS, He was an honored and much esteemed classmate, be it

Resolved, That the class of 1908 tender their deepest sympathy to the bereaved parents and friends, and be it further

Resolved, That a copy of these resolutions be sent to the President and be published in the M. A. C. Record, and a copy be made a part of the class records.

H. M. Conolly, J. Y. Gonoczer, Committeemen.

THE SPIRIT OF THE WORK

(A Paper Read at the Open Meeting of the Honorary Fraternity, The Beta Phi, May 21, 1906.)

In conserving the energy of application consistency should be a watchword. I am not an advocate of the theory of burning the midnight oil for any considerable period of time, for the brain may become so dulled from constant application that its train of thought may be neither logical nor effective. In this sense "Much study is a weariness of the flesh." Then there is the man who believes that every minute spent in application to books is a step toward the goal of mental power. The mind is a machine requiring regular tenders to keep it at its highest efficiency. Few of us are endowed with the physical stamina which does not feel the strain of prolonged mental application. The really effective student is a brain worker, the one who regards both his energy and time factor, the one who can develop the great brain-power. But we do not mean to say that the student should spend part of his time in idleness for the sake of renewing mental energy. Our faculties are intended to be used and the way to use them to the best advantage is occasionally to divert the mind from one form of occupation to another. Even mathematics, exciting as it is, may be a relief from the wearisome study of hom­o­n­d­rum English. It is desirable to cultivate the faculties to the enjoyment of a diversity of things which are good and proper. When the engineer or scientist trained to think vigorously and rigidly should be capable of enjoying a bit of light literature occasionally to relieve mental strain. But it should be remembered that things are not the chief ends of life.

Then, again, you are all familiar with the brilliant man who falls. How often does the ever-high auctor, the graduate lose out when he starts his college career resting on the ashes of his record in the high school or preparing a study. If the student has never seen the inside of a college hall, than the one who entered with the highest premium of blank course, the plodder is not to be scorned. The slow thinker may be dig­gesting and assimilating matter which only flashes through the mind, much superficial; and over, the value of these assimilated facts may not be apparent until we try to use by the demands of the actual need. Whatever other traits we endeavor to develop in character let honesty be the chiefest. Not only that virtue which prevents a man seeking aid from his fellows in an examination, but rather that which prevents him from being honest in any college or at home, the really effective student is characterized by the watchword. I am not an advocate of the idea that the student should be remembered that these resolutions be sent to his parents, a friend, or in more important bearing on the course of his studies, the man who has never seen the inside of a college hall, the one who entered with the best course, and be consistent and persistent in his study. Others delude themselves into thinking that they have relieved mental strain. But it does not matter at what rate, for the brain may become weary and lifeless. This idea was born of the theory that the student should be remembered by his acquaintances, and accordingly is as­signed quarters further down in the ship's belly. The fee charged by the cattle agent, $2 per head, is for his services. The ship in a foreign port. This fee is not necessary if the right agent is appointed. The captain of the cattle boat pays a much cheaper rate than the more privileged cabin passengers, and accordingly is assigned quarters further down in the ship's belly. The fee charged by the cattle agent is $2 per head, with the understanding that 5 shillings are to be refunded on the arrival of the ship in a foreign port. This fee is not necessary if the right agent is appointed.

TUESDAY, JUNE 2, 1908.

It's a curious fact that the man who conducts his life on the "don't worry" principle either has a perma­nent job or is a professional literator.

THE SUMMER SCHOOL.

The summer school in agricult­ure as announced some time ago will be given at the college from June 29 to July 24 inclusive. This family leaves a father, mother, Mr. of the same kind with a border of it is especially designed for teachers teaching agriculture in the high college. The offering sent by his course will be given to any one but of the class records.

ABOUT THE CAMPUS

Remember the Y. W. C. A. banquet at the Woman’s building Friday evening.

Miss Caroline Hudson, the soprano soloist at the Musical Festival, sang at chapel Thursday morning.

Dr. and Mrs. Blaisdell entertained the Syracuses and students at dinner Friday evening. Both Dr. and Mrs. Blaisdell are proud to call Syracuse the home of their alma mater.

Rev. A. C. Walkup has been spending a few days with his two sons at college. Rev. Walkup has been a missionary to the Gilbert Islands for some time, and as soon as he completes a few business details here will return. The Gilbert Islands are about 2,000 miles west of Honolulu.

Coach Brewer and five men went to Notre Dame Friday and won points in every event entered. As the meet was supposed to be between some seven different colleges, only special men were taken, but all other colleges, except Olivet, failed to show up, and naturally the majority of points fell to Notre Dame.

The results in which M. A. C. figured are as follows: Small 1st in high hurdles; Carr 2d in 2-mile run, time 10:58; Bignell 3rd and Kempster 4th in the 4-mile; Oviatt 1st and Allen 2d in the 5-mile, time 2:05; The relay team won in 3:32 by a lead of 35 yards. Oviatt broke M. A. C.’s record for the half-mile, this being the fourth time it has been broken this season.

Prof. H. K. Velder will speak before the Engineering Society this evening.

Rev. J. J. Yost, of Boston, Mass., filled the pulpit at East Lansing church Sunday.

Lost—A garnet brooch on Sunday, May 24, either in Angelwood or returning to Michigan Ave.

For Rent—Rooftop for the summer at reduced prices.

Mrs. B. L. Rosecrans.

A memorial service for Guy A. Fuller and Glenn W. Dodge will be held by the Y. M. C. A. next Sunday evening.

Lost—A small gold key set with turquoise and containing the Greek letters K. K. P. Reward. Mrs. Blaisdell.

The meeting of the King’s Daughters which was to have been held with Mrs. Bogue Saturday evening has been postponed until Tuesday, June 9 at 3 o’clock.

E. J. Zaritz, Prof. of Forestry at the Ontario Agricultural College, will give an illustrated lecture on forestry before the forestry club this (Tuesday) evening.

M. A. C. breaks into the conference meet at Chicago Saturday for the first time in its history. Though the team is not confident of victory, it hopes to make a good showing and to land at least a point for M. A. C. Carr in the two-mile Oviatt in the half and the relay team will be entered.

CITY ENGINEERING.

“The city engineer’s work is varied to a considerable extent,” stated Mr. M. C. Tafft, C. E., in his address before the Engineering Society.

The subject, “City Engineering,” was treated by the speaker in a thorough manner. Such work as grading and lining streets, erecting plats, designing bridges, sewer systems, pavements, etc., is demanded by the city engineer.

In laying out a sewer system, the first requirement is to prepare for the growth of the town. The next step is to get the lay-out on the ground from the profiles and maps. The separation of a storm sewer from a sanitation sewer varies with the locality. In large cities these sewers must be separated. A frequent annoyance in sewer work is the trouble caused by stoppage. Several devices are in use for clearing this stoppage, such as the cleaning rod, and sewer cleaning machines.

The first step in pavement construction is the setting of curbs, followed by a six-inch concrete foundation for the street. The gravel and crown is constructed carefully during this time the foundation is laid. A sand cushion of an inch and a half depth covers the concrete. Then the bricks are laid. Finally the filler is poured into the cracks to act as a binder, either concrete or pitch is used.

Miss Elda Yakeley has taken up her work as registrar.

GRANGER & CULLETT
WOODBURY’S OLD STAND HOLLISTER BLOCK

MEMORIAL.

We, the members of the Eclectic Society, desire at this time to pay a kindly tribute to Glenn W. Dodge, a brother dear to us, a friend true, kind and devoted.

We deeply mourn his loss, and are bound to reconcile to the early departure of a promising young life. We miss his smile. We are deprived of the influence of his genial spirit, his good-fellowship, and above all his manliness. We are forced to forego the cordial grasp of his hand.

But, even in this moment of our grief we rejoice in his career. He was an inspiration to all who knew him. He always held a great influence over the fellows and the light of his example shines in the path before us.

The secretary of the society is instructed to send a copy of this memorial to the parents, so dearly loved by our departed brother, in acknowledgment of the great debt this society owes to his persistent zeal, in token of his worth, and in special remembrance of our admiration and our love.

Adopted June 1, 1908.

There is something new in the meat line to eat. Russian scientists have been digging up 100,000-years-old mammoths in northern Siberia, and finding the flesh on the remains in an excellent state of preservation, they thoroughly salted and cooked, and then ate it, and found it very palatable.
In the best game of the year and one of the best games ever played on the local diamond, Syracuse University defeated the Cornell team by a score of 9 to 2, reversing the result of the game played here in the early part of the season, in which Syracuse lost to Cornell, 2 to 3. The Syracuse team had a very good outing, and the Cornell team was defeated without any mercy.

The game was played in front of a capacity crowd, and the spectators were treated to a fine display of baseball by both teams. The Syracuse team was led by their captain, a young man of exceptional ability, who showed a fine understanding of the game and a keen eye for the ball. The Cornell team was led by their captain, a man of great ability, who showed a fine understanding of the game and a keen eye for the ball. The Syracuse team was led by their captain, a young man of exceptional ability, who showed a fine understanding of the game and a keen eye for the ball. The Cornell team was led by their captain, a man of great ability, who showed a fine understanding of the game and a keen eye for the ball.
