ENTERING CLASS LARGEST EVER ENROLLED AT THE COLLEGE.

TOTAL ENROLLMENT ALSO MUCH LARGER THAN LAST YEAR.

Up to Monday night the total number of students enrolled in the college was 478, which is by far the largest entering class ever enrolled at M. A. C. It is 75 more than were enrolled at the same time last year. The total number of regular students enrolled so far in 1905, is 476 more than at the same time last year.

The following is a list of new students already enrolled:

ADDED EQUIPMENT FOR INSTRUCTION IN EN-GINEERING.

During vacation a Corliss engine has been added to the equipment of the steam engineering laboratory. The engine is rated at 100 horse power and was furnished by the Nordberg Manufacturing Co. of Milwaukee. The valve gear is of the three eccentric type, two being for the operation of the admission and exhaust valves and the third for the cut-off, its effect being determined by the governor. The engine is designed and set so as to provide for controlling future time. A separate surface condenser with independent air pump and absorption tanks is utilized for convenience in experimental work.

It is expected that a producer gas plant with engine will be placed in the laboratory in a few weeks.

The equipment of the hydraulic laboratory has been increased by the installation of a large accumulation tank, which, with accessories, will facilitate instruction and research work in the flow of liquids through orifices, nozzles, etc. A detailed description of this apparatus will be given later.

A portion of the gallery space in the machine shop, hitherto used for storage, has been converted into an airy work to the wood shop to accommodate the freshmen engineers of the four-year course. Ten additional places for bench work are thus provided.

A special stock room and office has been set off by grill partitions in the southeast corner of the machine shop.

4. Mr. C. W. Wilcox has been promoted from Mr. Chapelle as foreman instructor of the machine shop.

ABOUT THE CAMPUS

Albion College is offering a course in electrical engineering this year.

Mrs. H. J. Eastman returned Saturday from a 10 days' visit at Pittsburg, Pa.

There are few changes in the football rules for this season that will affect the game from a spectator's point of view.

The College Song has been placed in the hands of the new Chapel Hymnals. Learn it—Sing it at men's meeting tomorrow night.

Season football tickets are now on sale at the Secretary's office and elsewhere. $1.25 for men and $1.00 for ladies. Each coupon may be exchanged for a reserved seat without extra charge.

The following have been elected by the various classes as members of the student council for the ensuing year: Seniors, W. D. Frazer, I. J. Courtright; Sophomores, I. J. Courtright, P. G. McKenna, A. L. Campbell; Juniors, P. G. McKenna, A. L. Campbell; Sophomores, I. J. Courtright, W. D. Frazer has been elected president of the class and P. G. McKenna secretary.

The special election held Saturday for the purpose of settling the question of bonding the city of East Lansing for $10,000 for the purpose of providing sewage and waterworks for the city, 94 votes were cast, 96 being in favor and 1 against. Work has already been commenced on the well and it is hoped to have the water system, at least, in by Jan. 1.

Remember the Michigan game October 10.

R. L. Kurts was elected football manager for the season at the last meeting of the athletic board.

Prof. Norton and the senior live stock class leave tomorrow morning for the Hibbitt Fair. They will get in some judging practice.

The team is practicing on the field every afternoon at 4 o'clock. Turn out and see the practice and get a few pointers on the game.

With 13 of her last years' squad back Washall is counting on a team every bit as strong as last year. So is M. A. C. Oct. 31 will tell the story.

Of special significance this year is the fact that, not only is the entering class much larger this year than ever before, it includes a large majority of four-year men.

A welcome letter from C. D. Sterling, '05, states that he is working with theJeffery Mfg. Co. of Columbus, Ohio, Christenson, with '05, Emery, with '09, Bell, '05, Ford, '05, Langler, '06, and Fra- cisco, '06, are also with the same company.

The first football mass meeting of the year will be held tomorrow (Wednesday) evening in the Armory. Prexy, the Deans and other members of the faculty will be there and speak. Don't fail to come. Bring your voice with you. There will be new songs and yells to practice.

A good oak folding bed for sale.

WANTED—Three copies of Pierce's Plant Physiology. Please leave at library.

DEBATING CLUB.

The first regular meeting of the Debating Club will be held on Thursday night in Room 7, College Hall. For the benefit of the new men it might be well to state that this club is open to all. There are no dues to pay, and a man becomes a member merely by placing his name upon the rolls. The purpose of the club is open debate, and for each weekly meeting a question is chosen by the program committee, a man selected to head each side, and everyone is free to take part in the discussion if he so desires. In this manner a great deal of practice in debate may be acquired, which is invaluable to any man. A formal debate has been held each year with Ypsilanti, and in the meeting this week the possibility of another will be discussed. There will be no debate this week, but every man interested is urged to be present, as important business is to be transacted. The meeting begins at 7 p.m. sharp and lasts about an hour.

The officers of the club for this term are as follows:

President, C. T. Nash.
Vice President, J. T. Graybill.
Secretary-Treasurer, A. L. Campbell.
Chairman of Program Committee, K. D. Van Wagenen.

Miss Jessie Llewellyn Reynolds, daughter of Mr. H. G. Reynolds, former secretary of this college, was married at the home of her father, Pasadena, Cal., September 14, 1908, to Lieut. Frederick Brahan Terrell. They will be at home to their friends after November 14 at Fort Bliss, Texas.

Mr. E. B. Calbert of the meteorological department at Washing­ton, D. C., was at the college last week looking up a site for the new meteorological building. It will probably be located on one of the well known sites: Southwest of the armory, where the old botanical laboratory stood, west of the college hospital, or west of the deer park facing the delta. Work will not be begun on the building until next spring.
