The M. A. C. RECORD

MICHIGAN STATE AGRICULTURAL COLLEGE.

LANING, MICHIGAN, TUESDAY, NOVEMBER 10, 1908.

No. 8.

ALUMNI

In the RECORD office there is kept a card catalogue of all students who have ever been connected with the college. In order that this may be kept up to date, please notify us of any change of address or occupation.

W. J. WRIGHT, Editor.

C. B. FISKE BANGS, '76.
FIRST MEMBER OF CLASS OF '76 TO PASS AWAY

C. B. Fiske Bangs, the first member of class of '76 to "cross the bar," passed on to the higher life on Sept. 25th, 1908.

"Old Fiskies Bangs," he was lovingly called by his classmates and those who knew him best. He lived two years in Europe, fishing and bird, and flower, and all to whom he has done a kindly act could pass in review they would make an army whose name is legion. He was the type of man who were his letter of credit on his forehead, and while the shadows were still falling toward the west, he lay down his burden that he had borne so courageously and manfully, and rest a moment, and fell into a dreamless sleep.

I have often heard him quote these beautiful words of Tennyson:

"Twilight and evening bell, and after that the dark, and may there be no adieu of farewell."

To the Editor of the Record:

Sir,—The writer is in receipt of a letter from his father who had just read in the Record about the student council and its rules. His impression is that the present administration is the best experiment, and he would like to have a series of open debates between the two sections, the other hand, the mob takes the law into its own hands and endeavors to administer justice as it sees fit. In any case, something is out of harmony. The events of last week prove that. Why could there not be a more mutual understanding in existence? I am of the opinion that the faculty does not always stand the heads of the students; and I am quite sure that the students are unsympathetic with the actions of the faculty in certain cases.

One of the foremost universities in the country is operating a student government idea, and most successfully, too, showing that it is possible for students to stand the faculty to meet on a common basis of understanding.

A SOPHOMORE.

THE ENGINEERING INSPECTION TRIP.

Sprinkling the engine, fire on lake freight of unusual size is 250 men. Three ships can be built at once, and a whole force at work in the yards is then about 2,000 men. Vessels are launched sideways and the engines, boilers and other heavy machinery is placed by a manneuverable "cable leg" of two tons capacity. The company builds funnels and blowers for ventilation, and engines and pumps and blast heating coils and a line of up-right engines in small sizes for its own installations and to meet a large demand from other centers of high-speed engines. Mr. F. V. Tenkenhofer, Jr., is employed here.

The Burroughs' Atlantic Machine Co.'s plant was found to be a very-up-to-date manufacturing plant, making over fifty different styles of adding machines, for which there is a large and increasing demand in all lines of business.

The American Bridge Co. and H. A. and H. K. Iron Works offered opportunities for the examination of the work of converting plates and rolled shapes into structural forms, columns, trusses, etc., and the various processes were fully explained. At the former plant there were L. B. Littell, Jr., former of M. A. C., and at the latter Messrs. W. M. Brown, '93, and G. A. West, ’94, present at the party and assisted in making the visit interesting and valuable.

The attention given to the party on every hand, and the evident efforts put forth to make the visit an interesting and profitable made the trip all that could be desired.

TRANSACTIONS OF STUDENT COUNCIL.

Moved and supported that the barbecue as proposed by the class of 1901 be carried on in future years as an annual college function. This event to take place on Hal- liwell Field. Carried.

Moved and supported that secretory of the council be instructed to write a letter to the class of 1901 commending it for its college spirit in supporting the Student Council, and also in its action in inaugurating the new annual college function. Carried.

Moved and supported that the attention of the student body as a whole be called to rule No. 9 in the student regulations and customs. Carried.

SCH. STUDENT COUNCIL.

Advice to a Freshman (Engineer): It is not a wise plan to drink cider that belongs to someone else—for that, with all its virtues, may not be good for you. Sincerely, The Prophet.

NORMAl INSTITUTE OPEN TO ALL.

The Normal Institute to be held at the Agricultural College, Nov. 10 to 15, is really a short special course in agriculture, to which everyone will be welcome without registration or fees.

There will be demonstrations and lectures on stock judging each morning at 8 o'clock, followed by lectures on veterinary science, in which the nature and treatment of such diseases as hog cholera, tuberculosis and contagious abortion will be explained and demonstrated. No stockman should fail to be present.

For anyone interested, and for ladies in particular, a course of three lectures on poultry raising and a like number on dairying and the sheep, will be given.

In the afternoon the lectures will treat upon a variety of subjects, including Manures and Fertilizers, The Breeding and Feeding of Horses, Beef and Dairy Cattle, Fruit Growing, including spraying and the production of various crops.

Wednesday and Thursday afternoons there will be a Women's Congress in the Women's Building. These Plans for Recreation, Sanitation and Household Science are among the topics that will be considered.

Everyone will be welcome.

The first session will open at 1 o'clock, Tuesday, and the Institute will close Friday noon.

HORT. CLUB.

Mr. L. E. Babcock addressed the meeting of the Hort. Club Wednesday evening on The Agricultural School of Alfred University.

This school is located at Alfred, N. Y., in the midst of a good dairying country. It was founded in 1852 by a religious order. In 1843 the school was changed to an acad­emy, its graduations following the teacher's profession. In 1857 the college was started, which has since been known as Alfred Uni­versity. Of late years an agricul­tural department has been added.

There will be demonstrations and courses of instruction in elementary skill in agriculture, poultry raising, and all college affairs. It is to pro­vide such occasions for all college gatherings that the promenade con­certs were arranged. We should all, faculty and students, become better acquainted during the year, and these promenades provide the opportunity. They are not dances, they are not strictly concerts, but are a happy combination of both.

The admission is 15c for the men.

The U. S. ARMY INSTRUCTS LEARN HOW TO PACK MULES.

LEARN HOW TO PACK MULES.

Chief Packmaster Daly of the U. S. army, is spending a week at the college giving the foresters students practical lessons in pack­ ing horses and mules with camp equipment. Early Wednesday evening the gave a lecture on Packing and Pack Transportation at the college armory.

"To meet the different conditions of country, animals, loads, etc.," said Mr. Daly "the packs of pack saddles have been developed: the tree or saw-back and the aprajoo. The aprajoo was introduced into Britain by the Romans in 55 B. C. Its construction is such as to offer little protection to the animal and to prohibit its use in the conveyance of heavy and unwieldy supplies, but on account of its lightness, cheapness, and high capacity it has been adapted to the use of the forester, prospector, and others whose wants are few. The pack is lashed to the saw-back.

The aprajoo was introduced into Spain in the thirteenth century by Moors and then into Mexico by Cortez. The early prospectors adopted the aprajoo and General Cook, in his early Indian campaigns in the Territories of California, Oregon, Idaho and Utah used it with great success. Later it was officially adopted by the U. S. Army, and now almost the only pack used consists of two pieces of heavy leather fastened together along the edges, and these packs and aprajoo pouches are thus formed into which 350 pounds of weight is packed.

The promenade concert is a happy combination of both. The admission is 15c for the men.

For those who have been recently invited and who are not members of the college, we have the best band in the world—"W. White, '04, greeted the party to the concert to be, anyway— Is it worth going to?"

The music is so as to form pads fitting the con­tour of the animal on either side of the back bone. The admission is 15c for the men.

THE PROVINCIAL STATE.

The M. A. C. RECORD.

In the new annual college function. It was found to be a very-up-to-date manufacturing plant, making over fifty different styles of adding machines, for which there is a large and increasing demand in all lines of business.

The American Bridge Co. and H. H. Curtis is manager of the Carsonville Creamery Association at Carsonville, Mich.

ABOUT THE CAMPUS

First promenade concert in armory Friday evening, Nov. 20.

Pres. Charles W. Eliot, of Harvard, has resigned after a continuous service of more than 30 years.

Mr. and Mrs. P. R. Bischoff, of Waterbury, Conn., have been spending a few days with Dean and Mrs. Bischoff.

Two home football games are scheduled for Saturday. A Senior-Freshman game at 2:30 p.m., and a game between the M. A. C. and the Olivet Reserves at 3:00.

Arrangements have been made whereby the battalion will be equipped with more modern firearms. Gov. Pierson in 1884 bought a quantity of Lee-Remington Garments, Knit Underwear, Hosier, Gloves and Ribbons. All the new things in Laces, Embroiderries, and Wash Goods.

About 20 members of the college orchestra were the amusements of the evening. A very pleasant time is reported by all.

The young women's societies took in their new members last Saturday evening.

Dr. Albert Ross Hull will be inaugurated president of the University of Missouri, Dec. 11, 1908.

The Officers' Association will give their first military hop of the season Dec. 3. All students are invited to attend. Bill $1.

The announcements of these meetings will be read in the class and posted on the bulletin board in the Engineering Building. Get busy and come and receive the benefit with the rest.

F. N. BOVEE OPTICIAN

M. A. C. SCORED ON BY OLIVET.

(Continued from page 3-1)

How the scores were made.

M. A. C.'s first score came after Olives had fumbled and passed twice, who returned 20 yards before being tackled. Wheeler took 2 yards, Sheid added 10 yards before a tackle, and "Mac" got 4, Olivet held on the next down, but Exley was called upon and put through for a touchdown. "Mac" kicked goal making the score 6-0.

The second touchdown was made by "Cap" after the ball had been steadily pushed down the field by "Exx," Wheeler, Sheid and "Mac." "Mac" again made good by kicking a difficult goal.

With the ball on the 35 yard line, and M. A. C.'s third down, McKenna place kicked for the third score.

The last touchdown of the half came as a result of an aside kick by McGilvary, which went over Olives' line. Before it could be recovered by Olives, "Cap" had fallen on it, and "Mac" added an extra-point goal by kicking his third consecutive goal.

Early in the second half M. A. C. had a kick which went wide, and on the kickoff Burroughs caught the ball and got 20 yards on a pass before he was brought down. Conner added 1, a line back brought 4 more, but on an attempted kick, the ball was blocked and Olives recovered it, only to lose it a few moments later on an attempted forward pass. M. A. C. booted 20 yards, and, holding, forced Olivet to punt to "Mac." A delayed pass brought the ball to Olive's 75 yard line. Mac tore 15 yards off left end, Buck went through left tackle for 5, Olives was penalized 5 and 5 went 5 more. "Mac" tore through right tackle for the score and afterwards kicked goal, making it 28.

The second team, which accompanied the varsity squad to Olives Saturday, was defeated on a well played game with Olives' scrubs. The score was 5 in favor of M. A. C. when a run of 40 yards after a well executed forward pass gave Olives 5 points. M. A. C.'s failure to recover a goal kick gave Olives the single point necessary to break the tie.

The seniors and juniors played a practice game on college field Saturday afternoon, which resulted in a victory by the seniors by an 11-6 score. Ollie and Bignell made the scores for the '09 team, and Anderson on a long end run scored for '10 men.

The seniors play the freshman for the class title this Saturday.

The M. A. C. Engineering Society meetings are open to all engineering students at the college. We wish to see more of the underclassmen attend as well as the upperclassmen. The announcements of these meetings will be read in the class and posted on the bulletin board in the Engineering Building. Get busy and come and receive the benefit with the rest.
